

## Clark County EV Charging Fees

---

### 1. EV Charging Station

- a. Visitor EVs are to be charged at EV Charging Stations provided for the primary use of the public. EV Charging Stations for visitors will be identified with appropriate signage.
- b. Employee EVs are to be charged at EV Charging Stations provided for the primary use of employees. The EV Charging Stations for employees will be identified with appropriate signage. If there are no EV Charging Stations provided for the primary use of employees, Employee EVs may be charged at EV Charging Stations for visitors. However, employees should limit use of the EV Charging Stations for visitors during business hours of operation.
- c. Security cameras may be installed at EV Charging Stations to monitor activity.
- d. Visitors and employees will be charged a fee for using the EV Charging Stations.

### 2. Access

- a. Visitors and employees can access the EV Charging Stations via the ChargePoint App for mobile smartphones. The EV Charging Fee will be collected via the ChargePoint App. ChargePoint's toll free number and directions on how to use the app are posted at each EV Charging Station.

### 3. EV Charging Fee

The EV Charging Fee will be collected for both Visitor EVs and Employee EVs utilizing EV Charging Stations. The EV Charging Fee is based on the cost of electricity and the related costs for hardware, design, construction, and ongoing maintenance of the EV Charging Stations.

For FY2025, the EV Charging Fee will be calculated as follows:

EV CHARGING FEE	
ITEM	RATE
Electricity*	\$0.14 / kWh
Parking	
First 2 hours and 15 minutes	\$1.00 / hour
After initial 2 hours and 15 minutes	\$6.00 / hour

*\*The rate for electricity will be adjusted annually pursuant to the effective NV Energy applicable tariff rate.*

### NON-AUTHORIZED USE

1. Non-electric vehicles are prohibited from parking in EV Parking Spaces designated for EV charging.
2. EVs are prohibited from parking in EV Parking Spaces if it is not connected to the EV Charging Station for the purpose of charging.
3. EVs are to be removed from EV Charging Spaces upon completion of EV charging.
4. Employee EVs may not be charged at EV Stations designated solely for Fleet EV use.
