**Project Description**

General Summary

- Site Address: N/A
- Site Acreage: 2.5
- Existing Land Use: Undeveloped

Applicant's Justification

The applicant is requesting a zone change from RS20 (Residential Single-Family 20) Zone to an RS10 (Residential Single-Family 10) Zone. The subject site is proposed for a 6 lot single-family residential subdivision with a density of 2.4 dwelling units per acre. According to the applicant, the proposed zone change will still provide large lots that are consistent with the surrounding neighborhoods while providing an alternative housing option from what is immediately adjacent to the site.

### STANDARDS FOR APPROVAL:

The applicant shall demonstrate the proposed request is consistent with the Master Plan and is in compliance with Title 30.

### Analysis

#### Comprehensive Planning

In addition to the standards for approval, the applicant must demonstrate the zoning district is compatible with the surrounding area. Staff cannot support the request for RS10 zoning, since staff does not support the change in land use category to Low-Intensity Suburban Neighborhood (LN). Approval of this project will allow more dense zoning with substantially smaller lot sizes to intrude into an existing RNP area. The request does not comply with Policy EN-1.1 of the Master Plan which promotes the integrity of contiguous and uniform neighborhoods through development regulations that encourage compatible infill development; Policy 1.5.1 which supports the protection of existing Rural Neighborhood Preservation (RNP) areas; Policy 1.5.2 which promotes adopting and implementing standards to protect the established character and lifestyles associated with RNP areas and minimizing future conflicts with higher intensity development planned on sites that are adjacent or within RNP areas; For these reasons, staff finds the request for RS10 zoning not appropriate for this location.

#### Staff Recommendation

Denial. This item will be forwarded to the Board of County Commissioners' meeting for final action on April 16, 2025 at 9:00 a.m., unless otherwise announced.

If this request is approved, the Board and/or Commission finds that the application is consistent with the standards and purpose enumerated in the Master Plan, Title 30, and/or the Nevada Revised Statutes.

### **Department of Aviation**

The development will penetrate the 100:1 notification airspace surface for Harry Reid International Airport. Therefore, as required by 14 CFR Part 77, and Section 30.02.26B.3(ii) of the Clark County Unified Development Code, the Federal Aviation Administration (FAA) must be notified of the proposed construction or alteration.

The property lies just outside the AE-60 (60-65 DNL) noise contour for the Harry Reid International Airport and is subject to continuing aircraft noise and over-flights. Future demand for air travel and airport operations is expected to increase significantly. Clark County intends to continue to upgrade the Harry Reid International Airport facilities to meet future air traffic demand.

### **PRELIMINARY STAFF CONDITIONS:**

#### **Department of Aviation**

If approved:

- Applicant is required to file a valid FAA Form 7460-1, "Notice of Proposed Construction or Alteration" with the FAA, in accordance with 14 CFR Part 77, or submit to the Director of Aviation a "Property Owner's Shielding Determination Statement" and request written concurrence from the Department of Aviation;
- If applicant does not obtain written concurrence to a "Property Owner's Shielding Determination Statement," then applicant must also receive either a Permit from the Director of Aviation or a Variance from the Airport Hazard Areas Board of Adjustment (AHABA) prior to construction as required by Section 30.02.26B of the Clark County Unified Development Code. Applicant is advised that many factors may be considered before the issuance of a permit or variance, including, but not limited to, lighting, glare, graphics, etc.;
- No building permits should be issued until applicant provides evidence that a "Determination of No Hazard to Air Navigation" has been issued by the FAA or a "Property Owner's Shielding Determination Statement" has been issued by the Department of Aviation.
- Applicant is advised that the FAA's determination is advisory in nature and does not guarantee that a Director's Permit or an AHABA Variance will be approved; that FAA's airspace determinations (the outcome of filing the FAA Form 7460-1) are dependent on petitions by any interested party and the height that will not present a hazard as determined by the FAA may change based on these comments; that the FAA's airspace determinations include expiration dates and that separate airspace determinations will be needed for construction cranes or other temporary equipment; that issuing a stand-alone noise disclosure statement to the purchaser or renter of each residential unit in the proposed development and to forward the completed and recorded noise disclosure statements to the Department of Aviation's Noise Office at [landuse@lasairport.com](mailto:landuse@lasairport.com) is strongly encouraged; that the Federal Aviation Administration will no longer approve remedial noise mitigation

measures for incompatible development impacted by aircraft operations which was constructed after October 1, 1998; and that funds will not be available in the future should the residents wish to have their buildings purchased or soundproofed.

**Fire Prevention Bureau**

- Provide a Fire Apparatus Access Road in accordance with Section 503 of the International Fire Code and Clark County Code Title 13, 13.04.090 Fire Service Features.
- Applicant is advised that fire/emergency access must comply with the Fire Code as amended.

**Clark County Water Reclamation District (CCWRD)**

- Applicant is advised that a Point of Connection (POC) request has been completed for this project; email sewerlocation@cleanwaterteam.com and reference POC Tracking #0164-2024 to obtain your POC exhibit; and flow contributions exceeding District estimates may require another POC analysis.
