January 9, 2026

To the Honorable Board of County Commissioners and the Citizens of Clark County, Nevada:

The annual comprehensive financial report of Clark County, Nevada (the "County") for the fiscal year ended June 30, 2025, is hereby submitted. Nevada Revised Statute (NRS) 354.624 requires the County to issue a complete set of financial statements presented in conformity with accounting principles generally accepted in the United States of America (GAAP) and audited in accordance with auditing standards generally accepted in the United States of America by a firm of licensed certified public accountants.

Responsibility for both the accuracy of the data and the completeness and fairness of the presentations, including all disclosures, rests with County management. To the best of our knowledge, the information in this report is accurate in all material respects and presents fairly the financial position of the various funds and component units of the County, including all disclosures necessary to understand the County's financial activities. In developing and evaluating the County's accounting system, consideration is given to the adequacy of the internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding: (1) the safeguarding of assets against loss from unauthorized use or disposition; and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the evaluation of costs and benefits requires estimates and judgments by management.

As a recipient of federal, state, and local financial assistance, the County is also responsible for ensuring that adequate internal controls are in place to ensure and document compliance with applicable laws and regulations related to these programs. These internal controls are subject to periodic evaluation by management and the internal audit staff of the County. We believe that the County's internal accounting controls adequately safeguard assets and provide reasonable assurance for the proper recording of financial transactions.

The County's financial statements have been audited by Crowe LLP, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the County as of and for the fiscal year ended June 30, 2025, are free of material misstatement. The independent audit involved obtaining audit evidence about the amounts and disclosures in the financial statements; evaluating the appropriateness of accounting policies used and the reasonableness of significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditors concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the County's financial statements for the fiscal year ended June 30, 2025, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the County is part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements involving the administration of federal awards. These reports will be available in the County's separately issued Single Audit report prior to March 31, 2026.

As required by GAAP, management provides a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). The basic financial statements and related notes and the letter of transmittal are designed to complement the MD&A and should be read in conjunction with it. The County's MD&A can be found immediately following the report of the independent auditors.

The County is a political subdivision of the State of Nevada (the "State"), established in 1909 and operated under the provisions of the general laws of the State. The County seat of government is the City of Las Vegas. The County is comprised of 8,012 square miles of land area and includes five incorporated cities: Las Vegas, Henderson, North Las Vegas, Boulder City and Mesquite; 14 unincorporated towns; one school district; four library districts; one urban and two rural fire districts; one water reclamation district; and eleven judicial townships. All special districts in unincorporated areas of the County are created by the Board of Clark County Commissioners (the "Board").

The County is governed by the Board, a seven-member Commission, elected from geographic districts on a partisan basis for staggered four-year terms. Commissioners elect a chair who serves as the Commission's presiding officer. The Board in turn appoints a county manager, who is responsible for administrative operations.

The financial statements cover a wide range of regional services that are provided by the County. These include services such as those of the County Airport, Hospital, Assessor, Treasurer, Recorder, Clerk, Family Services, Social Services, as well as a criminal justice system including Courts, District Attorney, Public Defender, and Juvenile Justice Services. As a large portion of the County's population resides in its unincorporated areas, the County provides a full range of local services such as fire and police protection, road maintenance and construction, animal control, parks and recreation, building inspection, and sewage systems.

This report includes all funds of the County that are under the control or supervision of the Board, acting directly or in an ex-officio capacity. The governing body of the County acts in an ex-officio capacity and Clark County management has operational responsibility for the University Medical Center ("UMC") and the Clark County Redevelopment Agency ("Redevelopment Agency"); therefore, these activities are included in the reporting entity. However, the Las Vegas-Clark County Library District, Henderson

District Public Libraries, Boulder City Library District, Southern Nevada Health District, and the Las Vegas Convention and Visitors Authority have not met the established criteria for inclusion in the reporting entity, and accordingly, are excluded from this report.

The governing body of the County also acts in an ex-officio capacity for the Clark County Water Reclamation District ("Reclamation District"), Las Vegas Valley Water District ("Water District"), Big Bend Water District, and Kyle Canyon Water District; however, because Clark County management does not have operational responsibility for these entities, they are reported separately within the County's financial statements.

The County is financially accountable for the Regional Transportation Commission of Southern Nevada ("RTC"), the Clark County Regional Flood Control District ("Flood Control District"), the Clark County Stadium Authority ("CCSA"), and the Eighth Judicial District Court ("EJDC"). The RTC, Flood Control District, CCSA, and EJDC are reported separately within the County's financial statements.

Additional information on the Water District, UMC, Reclamation District, Redevelopment Agency, RTC, Flood Control District, CCSA, and EJDC can be found in the notes to the financial statements (see Note 1).

The budget serves as the foundation for the County's financial planning and control systems. The legal level of budgetary control is at the function level for governmental funds. For all other funds, expenditures cannot exceed budgeted operating and non-operating appropriations. The Board holds public hearings on the proposed budget prior to adopting the final budget and setting the tax rates for the fiscal year. The Board is required to adopt a final budget by June 1 of each year.

ECONOMIC CONDITION AND OUTLOOK

The County, with a population of 2.5 million as of June 30, 2025, is the most populous of Nevada's 17 counties. The warm climate and friendly tax structure helped fuel growth in the Las Vegas Valley for over two decades. In keeping up with this growth, the County has undergone tremendous change.

The County is a community that historically has been reliant on the resort and gaming industry. Up until the Great Depression, the County's economy relied solely on railroading, mining, and ranching. In 1931, to counter the effects of the Depression, the Nevada State Legislature passed legislation to legalize gambling. While the resort and gaming industry remains the mainstay of the County's economy, employment has further diversified into the retail and wholesale trade, transportation and warehousing, professional and business services, and health services sectors. These efforts to diversify the local economy have resulted in the expansion of five key industries, including advanced manufacturing and battery, clean technology, sports technology and entertainment, financial technology, and healthcare and biotechnology, providing attractive opportunities for growth and innovation.

The County is one of the top resort and convention destinations in the world. The County is home to the world-famous Las Vegas Strip, site of 18 of the nation's 20 largest hotels. The centerpiece of convention and meeting activity is the Las Vegas Convention Center, one of the most modern and versatile meeting facilities in the country and one of the busiest convention facilities in the world. The Convention Center boasts over 2.6 million total square feet of exhibit space and 200 meeting rooms that can accommodate seating capacity ranging from 20 to 2,500, all within a short distance of more than 150,000 guest rooms.

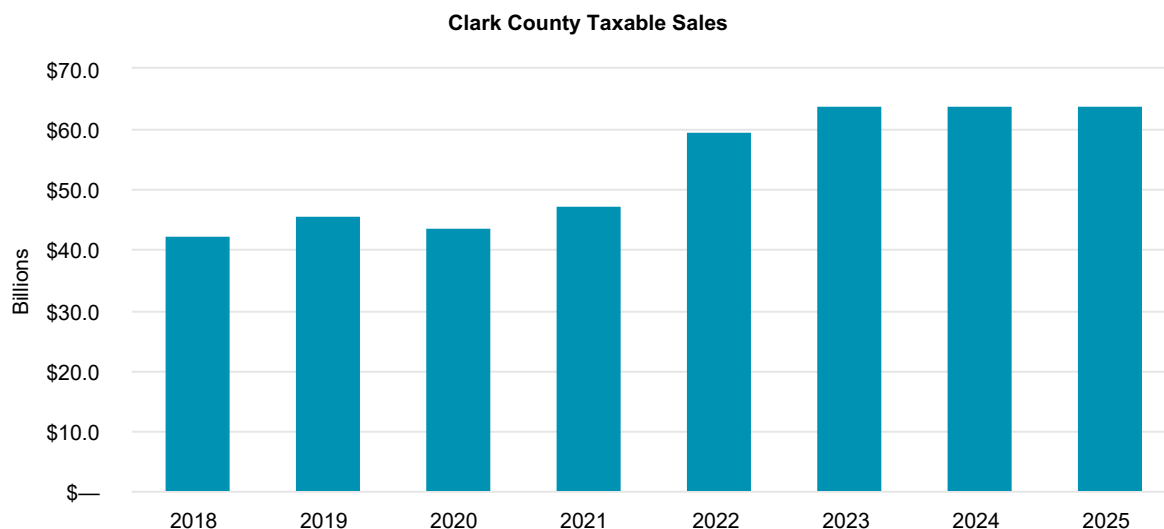

Tourism is the largest industry and economic driver in Southern Nevada, but resort properties have seen reduced economic activity in 2025. For the first ten months of calendar year 2025, visitor volume totaled 32.3 million, which is down 7.6 percent compared to the same period in 2024. The average hotel occupancy rate was 80.8 percent during the period, a decrease of 3.1 percentage points from 83.9 percent in 2024. Average room rates decreased by 5.2 percent for the ten months ending October 2025 compared to the same period in 2024. While experts note some of this decline is due to the rotation of major sporting events, with 2024 including Super Bowl LVIII and the inaugural year of Formula 1 Las Vegas Grand Prix, they also note the decline in tourism locally is on pace with trends seen nationally. Additionally, convention attendance is expected to increase in 2026, particularly with the completion of final phase of the Las Vegas Convention Center District.

Despite the recent decline in tourism, resort properties and other public and private agencies continue to invest in additional amenities that attract sports, special events, diverse meetings, and large trade shows. The \$600 million renovation of the Las Vegas Convention Center was completed in December 2025, with finishing touches being applied in anticipation of the January 2026 CES trade show. After earlier approvals and permitting, construction of the A's \$2 billion Stadium has commenced and is expected to be

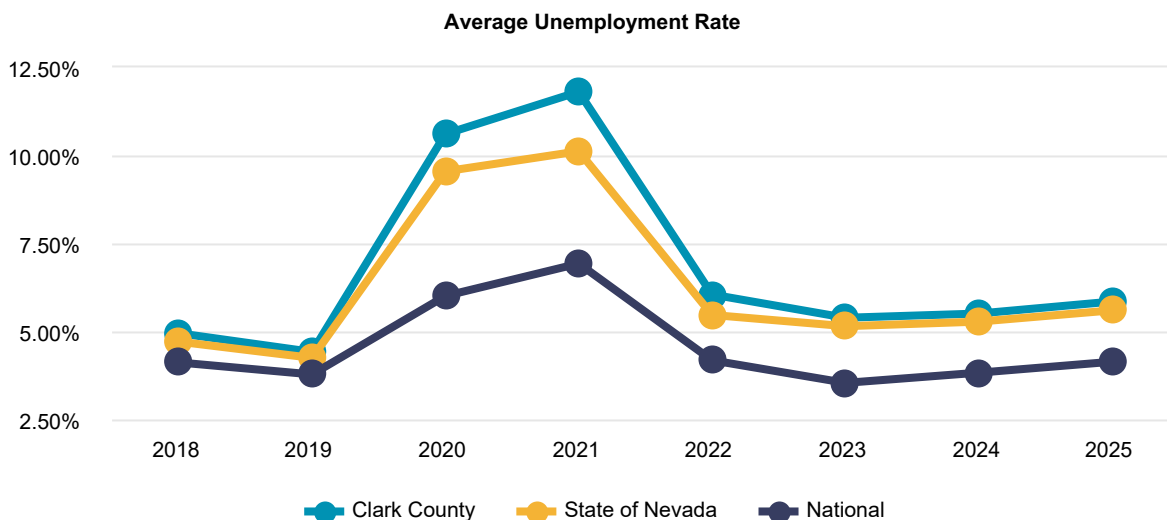

completed in time for Major League Baseball's opening day 2028. Construction is also underway on the Hard Rock Hotel (formerly The Mirage) and the \$385-million expansion of Durango Casino & Resort. Both projects are expected to be completed in 2027.

Taxable retail sales totaled \$64.0 billion in fiscal year 2025, which remains flat when compared to the adjusted taxable retail sales reported for fiscal year 2024.¹

¹ In Clark County's fiscal year 2024 ACFR, the reported amount of taxable retail sales was \$66.1 billion. Nevada Department of Taxation has since revised its methodology for the reporting of taxable retail sales and revised fiscal year 2024 amounts.

The local unemployment rate increased slightly to an average of 5.9 percent in fiscal year 2025, from 5.5 percent in fiscal year 2024. The rate remains above the state average of 5.6 percent and the national average of 4.1 percent.

DEBT ADMINISTRATION

A formal Clark County Debt Management Policy (the "Policy") has been adopted annually by the Board. The purpose of the Policy is to manage the issuance of the County's debt obligations and to maintain the County's ability to incur debt and other long-term obligations at favorable interest rates for capital improvements, facilities, and equipment needed for essential services. The Policy is updated annually and submitted to the County Clerk, the Clerk of the Debt Management Commission, and the State Department of Taxation. The County Manager and the Chief Financial Officer are responsible for the administration of the Policy, and the Board is ultimately responsible for approval of the form of any County borrowing. Credit ratings indicate to potential buyers whether a governmental entity is considered a good credit risk. Credit ratings issued by the bond rating agencies are a major factor in determining the cost of borrowed funds in the municipal bond market. Moody's Investors Service and Standard & Poor's are two of the principal rating agencies for municipal debt. Standard and Poor's has maintained their ratings of Clark County's General Obligation bonds "AAA". Moody's has maintained their rating of the County as "Aa1". The County's conservative financial management practices and tax base have contributed to these ratings.

CERTIFICATE OF ACHIEVEMENT

The Government Finance Officers Association of the United States and Canada (the "GFOA") awarded a Certificate of Achievement for Excellence in Financial Reporting to Clark County, Nevada for its Annual Comprehensive Financial Report for the fiscal year

ended June 30, 2024. The Certificate of Achievement is a prestigious award recognizing conformance with the highest standards for preparation of a state and local government financial report.

In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized Annual Comprehensive Financial Report whose contents conform to program standards. The report must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only.

Clark County, Nevada has received a Certificate of Achievement for the last 44 consecutive years (fiscal years ended 1981-2024). We believe our current report continues to conform to Certificate of Achievement Program requirements, and we are submitting the document to the GFOA for consideration.

ACKNOWLEDGMENTS

We thank the staff of the Comptroller's Office and the independent certified public accounting firm of Crowe LLP. We commend the Board of County Commissioners and the staff of the County Manager's Office for conducting the affairs of the County in a competent and professional manner.

Respectfully submitted,

INDEPENDENT AUDITOR'S REPORT

To the Honorable Board of Commissioners
and the County Manager
Clark County, Nevada

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Clark County, Nevada (County), as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County, as of June 30, 2025, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of the following:

- The financial statements of the University Medical Center of Southern Nevada, a major fund which represents 16 percent of the assets, (7) percent of the net position and 52 percent of the revenues of the business-type activities.
- The financial statements of the Clark County Water Reclamation District, Las Vegas Valley Water District, Big Bend Water District and the Clark County Stadium Authority, which are discretely presented component units and which, when combined, represent 80 percent of the assets, 99 percent of the net position and 47 percent of the revenues of the discretely presented component units.
- The financial statements of the Las Vegas Metropolitan Police Department OPEB Trust and Las Vegas Valley Water District Pension and Other Employee Benefit Plans, which are fiduciary funds of the County and represent 15 percent of the assets, 19 percent of the net position, and 3 percent of the combined additions and revenues of the aggregate remaining fund information.

Those statements were audited by other auditors, whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts included for those above, is based solely on the report of the other auditors.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the County, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter

As discussed in Note I to the financial statements, during the year ended June 30, 2025, the County adopted new accounting guidance GASB Statement No. 101, *Compensated Absences (GASB 101)*. The objective of GASB 101 is to better meet the information needs of financial statement users by aligning the recognition and measurement guidance for compensated absences under a unified model and by amending certain previously required disclosures. This resulted in an increase in liabilities and a decrease in net position. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, schedules of OPEB and pension contributions, schedule of changes in OPEB and pension liabilities and related ratios, schedule of proportionate share of net pension liability, schedule of investment returns, and related notes as listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The combining and individual fund statements and schedules and schedule of business license fees are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund statements and schedules and schedule of business license fees are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated January 9, 2026 on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

Clark County, Nevada
Management's Discussion and Analysis
June 30, 2025

The following discussion and analysis of Clark County, Nevada (the County) is designed to, (a) assist the reader in focusing on significant financial issues, (b) provide an overview of the County's financial activities, (c) identify changes in the County's financial position (its ability to address subsequent years' challenges), (d) identify any material deviations from the financial plan (the approved budget), and (e) identify individual fund issues or concerns.

We encourage readers to read this information in conjunction with the transmittal letter, financial statements and accompanying notes to gain a more complete picture of the information presented.

Financial Highlights – Primary Government

- The independent auditor's report offers an unmodified opinion that the County's financial statements are presented fairly in all material respects.
- Government-wide net position totaled \$12,204,249,565. Net position of governmental activities totaled \$9,553,557,251 and that of business-type activities totaled \$2,650,692,314.
- The County's total net position increased by \$668,401,803. Net position from governmental activities increased by \$382,548,663 and net position from business-type activities increased by \$285,853,140. Net position from governmental activities increased because of increased general revenues. Net position from business-type activities increased primarily due to Department of Aviation surpluses.
- Unrestricted net position was \$666,558,410, with \$793,702,549 resulting from governmental activities and \$(127,144,139) from business-type activities. Unrestricted net position from governmental activities increased by \$91,851,850 from the prior year, and unrestricted net position from business-type activities increased by \$86,267,032 from the prior year.
- Net capital assets were \$12,437,722,919, of which \$7,759,946,912 was from governmental activities and \$4,677,776,007 was from business-type activities. Major additions for governmental activities during the year included \$423 million toward beltways, roadways, and streets and \$59 million toward flood control projects. Major additions for business-type activities during the year included \$270 million in Department of Aviation capital expenditures and \$37 million in UMC capital expenditures. Depreciation expense attributable to assets of governmental activities amounted to \$417,463,027 for the year, and \$252,111,076 for business-type activities.
- The County implemented GASB Statement No. 101, *Compensated Absences*, effective July 1, 2024, resulting in the restatement of beginning net positions for the change in accounting principle pursuant to GASB Statement No. 100, *Accounting Changes and Error Corrections*. As a result, total beginning net position was restated with a decrease of \$118,855,863, with a decrease of \$111,947,691 from governmental activities and a decrease of \$6,908,172 from business-type activities. See Note I for more detailed information related to this change.
- Bonds and loans payable totaled \$3,981,763,663. No new debt was issued during the fiscal year.

- The County's primary general revenue sources for governmental activities were ad valorem taxes in the amount of \$1,167,521,938, consolidated taxes in the amount of \$867,112,001, and sales and use taxes of \$659,394,629. These three revenue sources comprised 33%, 24%, and 19%, respectively, or 76% of total governmental activities general revenues.

General Revenues – Governmental Activities:

- The County's total expenses were \$6,262,118,043. Governmental activities comprised \$4,495,644,952 of total expenses, the largest functional expenses being public safety in the amount of \$2,168,920,431 and public works in the amount of \$850,578,816. Business-type activities accounted for \$1,766,473,091 of total expenses, the largest components being for hospital expense in the amount of \$1,060,529,774 and airport in the amount of \$630,006,658.

Expenses – Governmental Activities:

- General government expenses totaled \$513,018,892, or 7% less than the prior year, primarily due to decreases in litigation settlements, partially offset by increases in salaries and benefits and services and supplies costs.
- Public safety expenses totaled \$2,168,920,431, or 6% more than the prior year, primarily due to increases in salaries and benefits, liability and workers' compensation insurance case reserves, and services and supplies costs.
- Public works expenses totaled \$850,578,816, or 6% more than the prior year, primarily due to increased depreciation expense and an increase in the loss on disposal of capital assets related to annexations.
- Judicial expenses totaled \$306,556,953, or 10% more than the prior year, primarily due to increases in salaries and benefits and an increase in the contribution to Eighth Judicial District Court.
- Welfare expenses totaled \$420,203,761, or 8% more than the prior year, due to increased IGT and long-term care costs.
- At the end of the fiscal year, the unassigned fund balance for the General Fund was \$341,215,814, or 12% of total General Fund expenditures and transfers out.

Overview of the Financial Statements

- This discussion and analysis is intended to serve as an introduction to the County's basic financial statements which are composed of government-wide financial statements, fund financial statements, and accompanying notes. This report also contains required supplementary information in addition to the basic financial statements.

Government-Wide Financial Statements

- The government-wide financial statements are designed to provide readers with a broad overview of the County's finances in a manner similar to a private-sector business.
- The statement of net position presents information on all the County's assets, deferred outflows, liabilities, and deferred inflows. The difference between assets and deferred outflows less liabilities and deferred inflows is reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.
- The statement of activities presents information showing how the County's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation and sick leave).
- The government-wide financial statements report three types of activities: governmental activities, business-type activities, and discretely presented component units. The government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the County include general government, judicial, public safety, public works, health, welfare, culture and recreation, community support, and interest on long-term debt. The business-type activities of the County include operations of its hospital, airports, and other operations. Discretely presented component units account for functions of legally separate entities for whom the County is financially accountable or whose governing bodies are substantially the same as the County. The activities of the discretely presented component units include regional transportation, flood control planning, sewer utilities, stadium authority, district court and water districts. Complete financial statements of the individual component units can be obtained from their respective administrative offices. Contact information is included in The Reporting Entity section of Note I, Summary of Significant Accounting Policies.
- The government-wide financial statements include not only the governmental and business-type activities of the County itself (known as the primary government), but also those of a legally separate entity for whom the County is financially accountable and whose governing body is substantially the same as the County: University Medical Center (UMC). The Board of County Commissioners acts as the governing board for this component unit whose activities are blended with those of the primary government because it functions as part of the County government. Complete financial statements of the individual component unit can be obtained from its administrative office. Contact information is included in The Reporting Entity section of Note I, Summary of Significant Accounting Policies.

Fund Financial Statements

- A fund is a grouping of related accounts used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds

- Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the County's near-term financial requirements.
- Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the County's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.
- The County maintains individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund and the Las Vegas Metropolitan Police Department fund, both of which are considered to be major funds. Data from the other nonmajor governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds are provided in the combining and individual fund statements and schedules. In accordance with Governmental Accounting Standards Board (GASB) Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, certain special revenue funds have been included in the General Fund for financial reporting purposes as shown in the Major Governmental Funds section. These funds are not included for budgetary comparison purposes described below.

- The County adopts an annual appropriated budget for each of its governmental funds. A budgetary comparison statement is provided for each of the County's governmental funds to demonstrate compliance with the budget. The budgetary comparison statements for the major governmental funds are presented as required supplementary information; the budgetary comparison statements for all other nonmajor governmental funds are included in the fund financial schedules and accompanying supplementary information.

Proprietary Funds

- The County maintains two distinct types of proprietary funds.
 - ◆ Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses enterprise funds to account for its hospital, airport, and other activities.
 - ◆ Internal service funds are an accounting device used to accumulate and allocate costs internally among the County's various functions. Because these services predominately benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements. The County uses internal service funds to account for the following activities:
 - + Construction management
 - + Fleet maintenance
 - + Investment pool operations
 - + Employee benefits
 - + Central printing and mailing
 - + Information systems development
 - + County employee parking
 - + Self-insurance activities, including:
 - Liability insurance
 - Workers' compensation
 - Group insurance
- Proprietary funds provide the same type of information as the government-wide business-type activities financial statements, but with more detail. The proprietary fund financial statements provide separate information for UMC, which is a blended component unit and reported as a major fund within the fund financial statements. In addition, separate information is provided for an additional major fund, the Department of Aviation. Conversely, the other non-major enterprise funds and the internal service funds are combined into separate single aggregated presentations in the proprietary fund financial statements. Individual fund data for the other non-major enterprise funds and internal service funds is provided in the combining and individual fund statements and schedules.

Fiduciary Funds

- The County's fiduciary funds consist of four (5) Pension and Other Employee Benefit trust funds, one (1) external investment pool custodial fund, and 29 other custodial funds. The Pension and Other Employee Benefit trust funds are the Clark County OPEB Trust, Department of Aviation OPEB Trust, Las Vegas Metropolitan Police Department OPEB Trust, Las Vegas Valley Water District Pension Plan, and Las Vegas Valley Water District OPEB Plan. The external investment pool custodial fund is to account for the net position of the County's external investment pool. The other custodial funds are used to hold monies for other entities or individuals until disposition.

Notes to Financial Statements

- The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other Information

- In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning pension and other post-employment benefits for employees. It also includes a schedule of budgetary comparisons for the following major governmental funds:
 - ◆ General Fund
 - ◆ Las Vegas Metropolitan Police Department Special Revenue Fund
- The combining statements and individual fund budgetary schedules are presented immediately following the required supplementary information.
- Unaudited statistical information is provided on a ten-year basis for trend and historical analysis.

Government-Wide Financial Analysis

- Net position of the County as of June 30, 2025, and June 30, 2024, are summarized and analyzed below:

- As noted earlier, net position may serve over time as a useful indicator of the County's financial position. Assets and deferred outflows exceeded liabilities and deferred inflows by \$12,204,249,565 as of June 30, 2025, and by \$11,535,847,762 as of June 30, 2024, a net increase of \$668,401,803 or 6%. The increase is due to general revenues exceeding net expenses.
- 73% of the County's net position reflects its investment in capital assets (e.g., land, buildings, infrastructure, machinery and equipment, etc.); less any related debt outstanding used to acquire those assets. The County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources since the capital assets themselves cannot be used to liquidate the debt.
- 21% of the County's net position is restricted due to resources that are subject to external restrictions on how they may be used. Of restricted net position, 38% is for construction of capital assets, 18% is for repayment of long-term debt, 11% is for public safety, 3% is restricted for Airport Rates and Charges Agreement, and the remaining balance is restricted for the County's special revenue funds or other purposes.
- The remaining portion of the County's net position is unrestricted at \$666,558,410.

- Program revenues included charges for services (fines and forfeitures, certain licenses and permits, special assessments), and both operating and capital grants and contributions. Program revenues from governmental activities decreased by \$138,359,534, or 9%, primarily due to decreases in operating grants and contributions related to opioid settlements and Ground Emergency Medical Transportation. Program revenues from business-type activities increased by \$85,501,729, or 5%, due to increases in charges for services. Charges for services increased due to increases in Department of Aviation fees and increased patient volume at University Medical Center.

- General revenues consisted of taxes and interest not allocable to specific programs. For governmental activities, the largest of these revenues, ad valorem taxes, increased by \$100,294,144, or 9%. This increase was due to increases of assessed values during the fiscal year. Consolidated tax decreased by \$4,533,104, or 1%, and sales and use tax decreased in governmental activities by \$7,136,650, or 1%, both due to decreased economic activity during fiscal year 2025. Fuel tax revenue increased by \$7,306,352, or 4%, primarily due to increases in fuel index revenue. Interest income increased by \$64,972,860, or 27%.
- County governmental activity expenses increased by 5% in fiscal year 2025. Significant changes from the prior year are as follows:
 - General government expenses totaled \$513,018,892, or 7% less than the prior year, primarily due to decreases in litigation settlements, partially offset by increases in salaries and benefits and services and supplies costs.
 - Public safety expenses totaled \$2,168,920,431, or 6% more than the prior year, primarily due to increases in salaries and benefits, liability and workers' compensation insurance case reserves, and services and supplies costs.
 - Public works expenses totaled \$850,578,816, or 6% more than the prior year, primarily due to increased depreciation expense and an increase in the loss on disposal of capital assets related to annexations.
 - Judicial expenses totaled \$306,556,953, or 10% more than the prior year, primarily due to increases in salaries and benefits and an increase in the contribution to Eighth Judicial District Court.
 - Welfare expenses totaled \$420,203,761, or 8% more than the prior year, due to increased IGT and long-term care costs.
- County business-type activity expenses increased by 4% in fiscal year 2025, primarily due to increases in UMC operating expenses related to increased salaries and benefits, including cost-of-living adjustments (COLA), increased FTE's, retirement contributions, and medical supply costs.

Financial Analysis of the County's Funds

- The County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

- The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County's financing requirements.
- As of the end of the current fiscal year, the County's governmental funds reported a combined ending fund balance of \$4,879,099,944, an increase of \$172,979,709, or 4%. Fund balance components have been classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the County is bound to observe constraints imposed on the use of the resources of the fund.
- Nonspendable fund balance is \$854,817 and consists of \$338,923 related to leases receivable in the general fund, \$507,224 of prepaid items for Las Vegas Metropolitan Police Department, and \$8,670 of prepaid items for the Forensic Fund.
- Restricted fund balance is \$1,831,909,577, or 38% of the total. Spending of these resources is constrained by externally imposed (statutory, bond covenant, or grantors) limitations on their use. Restricted fund balances include \$881,579,803 for capital projects, \$290,001,696 for public safety activities, and \$141,147,049 for debt service.
- Committed and assigned fund balances combined represent 55% of total fund balance with spending constrained either by the Board of County Commissioners (BCC) (for committed) or senior management (for assigned). Committed balances are primarily a result of direction from the BCC to commit funds for the payment of expenditures for specific programs or projects.
- Unassigned fund balance is \$341,215,814 and consists of remaining fund balance in the General Fund that is available to support general operations of the County.
- The General Fund is the main operating fund of the County. Restricted fund balance of \$160,757,963 includes restricted cash and unspent proceeds from legislatively mandated ad valorem taxes. Unrestricted fund balance, which includes committed, assigned, and unassigned balances, totaled \$868,015,161 at June 30, 2025. Unrestricted fund balance is 30% of expenditures and other financing uses and includes amounts committed and assigned of \$40,886,159 and \$485,913,188, respectively. Unassigned fund balance is \$341,215,814, or 12% of expenditures and other financing uses.
- Key factors in the change in fund balance in the General Fund as reported for budget purposes are as follows:
 - Revenues and transfers-in were relatively flat, decreasing by \$1,691,780, or 0.1%.

General fund revenues increased by \$26,023,652, or 2%. Ad valorem tax revenues increased by \$46,593,094, or 10%, due to increases in new construction and property assessed values. However, intergovernmental revenue, the largest component of which is the consolidated tax, decreased by \$7,864,921, or 1%, and licenses and permits decreased by \$29,798,912, or 8%, due to decreased economic activity in the local economy. Transfers-in decreased by \$26,698,115, or 5%, primarily due to decreases in transfers from the various town funds for town services.
 - Expenditures and transfers out increased by \$83,467,744, or 4%.

- General fund expenditures increased by \$168,041,324, or 16%, primarily due to increases in General Government, Judicial, Public Safety, and other general expenditures. Other general expenditures increased due to internal service fund charges for general liability insurance. Transfers out decreased by \$84,573,580, or 8%, due to decreases in transfers to the Parks and Recreation Improvements Fund and the County Capital Projects Fund .
- Other major fund activity is as follows:
 - The Las Vegas Metropolitan Police Department operates from current year resources and typically budgets for a zero ending fund balance. However, it ended the year with a total unrestricted fund balance of \$17,537,903. Total revenues and transfers in were \$850,807,347, which was an increase of \$49,491,076, or 6%, over the prior year. Expenditures and transfers out, which consist primarily of personnel costs, increased \$38,103,283, or 5%, largely due to increases in retirement contributions, workers' compensation premiums, cost-of-living adjustments, merit increases, and increased overtime costs.
 - The non-major governmental funds reported a fund balance of \$3,831,942,770, of which \$1,671,151,614, or 44%, was restricted. All funds have the resources to meet their commitments.

Enterprise Funds

- The County's enterprise funds provide the same type of information found in the government-wide financial statements, but in more detail. Minor differences arise between the enterprise funds and the business-type activities in the government-wide statements due to the effects of consolidation of internal service fund activities related to the enterprise funds. Total net position for these funds increased \$293,902,270, or 12% from the prior year. Unrestricted net position of the enterprise funds totaled \$(111,263,767), an increase of \$94,316,162, primarily due to the increase of Department of Aviation's net position.

Internal Service Funds

- The County's internal service funds are an accounting device used to accumulate and allocate costs internally among the County's various functions. Because these services predominately benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements. Other factors concerning the finances of the internal service funds have already been addressed in the discussion of the County's governmental activities.

Budgetary Highlights

- The General Fund's legal level of budgetary control is the function level. The final amended budget for expenditures and other financing uses was \$2,278,455,691 increased through augmentation by \$94,425,180 from the original budget. Actual expenditures and other financing uses were \$2,199,340,165, or 3% less than the final budget, primarily due to staff vacancy savings.
- Revenues and transfers from other financing sources of the General Fund exceeded the final budget by \$43,546,427, or 2%.

Capital Assets and Debt Administration

Primary Government

- **Capital Assets**
 - The County's investment in capital assets, net of accumulated depreciation at June 30, 2025, was \$12,437,722,919, an increase of \$404,260,704, or 3%. Detail by type of activity and asset is summarized in the table below.

Major additions for this fiscal year are as follows:

<u>Governmental Activities</u>		<u>Business-Type Activities</u>	
Roadways and streets	\$ 332 million	Airport improvements and additions	\$ 270 million
Flood control projects	\$ 59 million	Hospital capital additions	\$ 37 million

Long-Term Debt

Primary Government

- At June 30, 2025, the County had total outstanding bonds and loans of \$3,981,763,663, a decrease of \$280,004,937, or 7%, from the prior year. This amount was comprised of \$1,501,097,373 in general obligation debt backed by the full faith and credit of the County, \$2,413,801,115 of revenue bonds secured by pledges of various revenue sources, and \$66,865,175 in special assessment debt for which the County is liable in the event of default by the property owners subject to assessment.

Economic Factors

- UMC's operating income was \$(10,987,584) in fiscal year 2025 compared to operating income of \$(27,007,730) in fiscal year 2024. The decrease in operating income is due primarily to increases in operating expenses, primarily salaries and benefits and cost of supplies. Total operating revenues increased by 7% from the prior year due to improved patient volume.
- The Department of Aviation's operating income was \$97,153,969 in fiscal year 2025 compared to \$59,370,105 in fiscal year 2024. The increase in operating income was primarily due to increases in terminal building and use fees and landing fees, due to increased rate charges.
- The County has positioned itself to meet the needs of its citizens. The taxable values continue to increase, and the remaining tax base will generate adequate revenues to provide basic services. A cost containment program continues to be in place, enforcing a reasonable pace of salary growth and position savings. The County's general fund unassigned ending fund balance remains healthy. Together, these factors have placed the County in an acceptable financial position to mitigate the current economic uncertainty. However, continued economic uncertainty could ultimately result in a deterioration of the County's financial condition.

Requests for Information

- This report is designed to provide a general overview of the County's finances for all interested parties. Questions concerning the information provided in this report or requests for additional financial information should be addressed to Anna Danchik, Comptroller, at 500 South Grand Central Parkway, Las Vegas, NV 89155.

Clark County, Nevada
Reconciliation of Statement of Revenues, Expenditures, and Changes in
Fund Balances of Governmental Funds to the Statement of Activities
For the Fiscal Year Ended June 30, 2025

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances – governmental funds	\$ 172,979,709
--	----------------

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is depreciated over their estimated useful lives. Also, capital assets financed by leases and subscriptions are not shown in governmental funds. The County does not capitalize items costing less than \$5,000

Capital outlay recorded in governmental funds	\$ 653,319,671	
Less amounts not capitalized	(99,326,510)	
Capitalized expenditures	553,993,161	
Leased assets and SBITA	25,553,236	
Less current year depreciation and amortization	(397,782,224)	181,764,173

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the governmental funds:

Donated capital assets	131,526,381	
Loss on sale of capital assets	(8,638,255)	
Change in deferred inflows-unavailable revenue	(54,415,748)	
Bond bank operating contribution	(52,115,854)	16,356,524

Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. Also lease and subscription obligations are not shown in governmental funds. This is the net effect of these differences in the treatment of long-term debt and related items:

Accrued interest	499,359	
Amortized bond premiums and discounts	16,730,808	
Principal payments	127,623,337	
Lease financed purchase	(6,986,813)	
Lease and SBITA obligations	(25,553,236)	112,313,455

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds:

Change in long-term compensated absences	(16,809,693)	
OPEB contributions and OPEB expenses	40,770,464	
Pension contributions and pension expenses	(48,525,358)	
Amortization of deferred gains/losses on refunding	(1,609,503)	(26,174,090)

Decrease in long-term presumptive liability, workers compensation	(6,566,058)
---	-------------

Decrease in long-term LVMPD net pension liability receivable due from the City of Las Vegas	(24,955,145)
---	--------------

Decrease in long-term LVMPD OPEB receivable due from the City of Las Vegas	(2,732,288)
--	-------------

Internal service funds are used by management to charge the costs of certain activities to individual funds. The net revenue/(expense) of the internal service funds is reported with governmental activities:

63,460,944

Increase to internal balances that are receivable from business-type activities	8,049,130
---	-----------

Change in net position of governmental activities	<u>\$ 494,496,354</u>
---	-----------------------

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Reporting Entity

Clark County, Nevada (the County) is a municipality governed by an elected seven-member board. As required by accounting principles generally accepted in the United States of America (GAAP), these financial statements present Clark County, Nevada (the primary government) and its component units.

Blended Component Units

Included as blended component units are University Medical Center of Southern Nevada (UMC) and the Clark County Redevelopment Agency (Redevelopment Agency).

Although each of the above-mentioned governmental units operates as a separate entity, the members of the Board of Clark County Commissioners are also the board members (ex-officio) of each entity. Because each of the component units has substantially the same governing body as the primary government and management of the primary government has operational responsibility or is financially accountable for each of the component units, they are blended into the financial statements. The operations of UMC are reflected as enterprise funds and the Redevelopment Agency is reflected as a special revenue fund.

Discretely Presented Component Units

Included as discretely presented component units are the Regional Transportation Commission of Southern Nevada (RTC), the Clark County Regional Flood Control District (Flood Control District), Clark County Stadium Authority (CCSA), the Eighth Judicial District Court (EJDC), Clark County Water Reclamation District (Reclamation District), Las Vegas Valley Water District (LVVWD), Big Bend Water District, and Kyle Canyon Water District. The RTC and the Flood Control District are governed by two members of the Board of County Commissioners, two members of the City of Las Vegas Council, and one member from the city council of every other incorporated city in Clark County. The CCSA is governed by an eleven-member board; three members are appointed by the Governor, three members are appointed by the Board of County Commissioners, one member is appointed by the Majority Leader of the Senate, one member is appointed by the Speaker of the Assembly, one member is appointed by the President of the University of Nevada, Las Vegas, and two members are elected by the appointed board members. The EJDC is governed by a Chief Judge. The County is financially accountable for RTC, Flood Control District, CCSA, and EJDC, and exclusion of these units would render the financial statements of the County incomplete. The members of the Board of County Commissioners are also the board members (ex-officio) of the Water Districts and the Reclamation District, and the exclusion of these units would render the financial statements of the County incomplete.

Fiduciary Component Units

The following are included as fiduciary fund component units:

Clark County OPEB Trust/Department of Aviation OPEB Trust - The County appoints the Board of Trustees and is financially accountable for the Trust.

Las Vegas Metropolitan Police Department (LVMPD) OPEB Trust - The County appoints the Board of Trustees and is financially accountable for the Trust.

Las Vegas Valley Water District Pension Plan - The Board of Trustees is comprised of the LVVWD Board. The members of the Board of County Commissioners are also the board members (ex-officio) of the LVVWD.

Las Vegas Valley Water District OPEB Plan - The Board of Trustees are appointed by the LVVWD Board. The members of the Board of County Commissioners are also the board members (ex-officio) of the LVVWD.

Since these component units are fiduciary in nature, they are included only in the fund financial statements with the primary government's fiduciary funds. These component units are excluded from the government-wide financial statements.

Separately issued financial statements for the component units may be obtained by contacting the component units at the following addresses:

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the County and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment, including special assessments. Taxes and other items not properly included among program revenues are reported instead as general revenues. Internally dedicated resources are reported as general revenues rather than as program revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Government-Wide Financial Statements

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges for services between the governmental activities and business-type activities. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Fund Financial Statements

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current year or soon enough thereafter to pay liabilities of the current year. For this purpose, the County considers revenues, excluding property taxes, to be available if they are collected within 90 days after the end of the current fiscal year. Property taxes are considered available if collected within 60 days after the end of the current fiscal year. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, consolidated taxes, franchise fees, investment income, and charges for services associated with the current fiscal year are considered to be susceptible to accrual and have been recognized as revenues in the current year. Only the portion of special assessments receivable due within the fiscal year is considered to be susceptible to accrual as revenue of the current year. Fines and forfeitures, as well as licenses and permits, are not susceptible to accrual as they are generally not measurable until received in cash.

The proprietary fund and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the County's enterprise funds and internal service funds are charges to customers for sales and services. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The County reports the following major governmental funds:

The General Fund is the County's primary operating fund. It accounts for all financial resources of the general government, except those accounted for in another fund.

The Las Vegas Metropolitan Police Department Fund (special revenue fund) accounts for the operation of a police department serving the citizens of unincorporated Clark County and the City of Las Vegas and is primarily funded through property taxes, fees for service, an interlocal contract with the Department of Aviation for police services, and contributions from the City of Las Vegas and Clark County.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fund Financial Statements (Continued)

The County reports the following major enterprise funds:

The University Medical Center Fund is a blended component unit of the County. It accounts for the operations of the County's hospital.

The Department of Aviation Fund accounts for the operations of Harry Reid International Airport, North Las Vegas Airport, Henderson Executive Airport, Jean Sport Aviation Airport, and Perkins Field in Overton, Nevada.

Additionally, the County reports the following fund types:

Internal service funds account for printing and mailing, fleet management, employee benefits, property management, information technology, enterprise resource planning, investment pool costs, County employee parking and self-insurance services provided to other departments or agencies of the County, or to other governments, on a cost reimbursement basis.

Fiduciary funds include the Clark County OPEB Trust, Department of Aviation OPEB Trust, Las Vegas Metropolitan Police Department OPEB Trust, the Las Vegas Valley Water District Pension Plan, and Las Vegas Valley Water District OPEB Plan trust funds. These funds account for resources that are required to be held in trust for the members and beneficiaries of the employee benefit plans or for pension benefit payments to qualified employees.

The custodial funds are also included as fiduciary funds. The External Investment Pool custodial fund accounts for the net position of the County's external investment pool. The other custodial funds report fiduciary activities not held in trust or equivalent arrangements. The most significant activity in the other custodial funds is the collection and transfer of taxes to other local governmental entities, primarily ad valorem and room taxes.

When both restricted and unrestricted resources are available for use, it is the County's policy to use restricted resources first, then unrestricted resources as they are needed.

Assets, Deferred Outflows (DOR), Liabilities, Deferred Inflows (DIR), and Net Position or Equity

Cash and Investments

Cash and cash equivalents include cash in bank, cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

With the exception of the Water Reclamation District, the County pools the cash of its individual funds for investment purposes. Each fund in the pool records its own interest earnings allocated based on its average daily balances. At year end, all the investments in the pool are adjusted to fair value, regardless of the length of time remaining to maturity. The proportionate share of each fund's unrealized gain or loss at year end is adjusted against the interest earnings of the individual funds. The Water Reclamation District also adjusts their investments to fair value at year end. (Also see Note III.1.)

Receivables and Payables

Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances." The accounts receivable are shown net of any provision for doubtful accounts.

Inventories and Prepaid Items

The inventories of the proprietary funds are valued at cost, determined by first-in, first-out method, for materials and supplies, and at the lower of cost, determined by first-in, first-out method, or market for inventories held for resale. Inventories consist primarily of materials and supplies.

Certain payments to vendors reflect costs benefiting future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than purchased.

Restricted Assets

Restricted assets consist of cash and cash equivalents, investments and certain receivables that are restricted in their use by bond covenants or other external agreements. They are primarily used to pay the cost of capital projects and to meet debt service obligations.

Capital Assets

Capital assets, which include property, plant, equipment, infrastructure assets (e.g., roads, sidewalks, bridges, flood control structures, traffic signals, streetlights, and similar items), and right-of-use lease assets/software agreements are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost (except for intangible right-of-use leased assets and software agreements, the measurement of which is discussed in the Leases and SBITAs section) if purchased or constructed.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Capital Assets (Continued)

Donated capital assets are recorded at acquisition value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Significant projects in process are depreciated once the projects are placed in service. Prior to that time, they are reported as construction in progress. Effective July 1, 2018, the County adopted GASB Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*, and no longer capitalizes interest costs. Interest incurred during the construction phase of capital assets of business-type activities, prior to July 1, 2018, was included as part of the capitalized value of the assets constructed.

Capital assets of the primary government, as well as the component units, are depreciated or amortized for right-of-use lease/ software agreements using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	20-50
Improvements other than buildings	5-75
Infrastructure	15-50
Equipment	1-20
Leased Land & Buildings	1-20
Leased Equipment	1-5
Right-of-Use, Software Agreements	1-9

Leases

The County is a lessee for various non-cancellable leases of land, buildings, and equipment. The County recognizes a lease liability and intangible right-of-use lease asset in the government-wide financial statements and proprietary funds financial statements. The County recognizes lease liabilities based on the determination criteria set by GASB Statement No. 87, *Leases*.

At the commencement of a lease, the County initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is measured at the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over the shorter of the lease term or its useful life.

Key estimates and judgments related to leases include how the County determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments. The County uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the County generally uses its estimated incremental borrowing rate as the discount rate for leases. The lease term includes the noncancellable period of the lease plus periods covered by options to extend if it is reasonably certain, based on relevant factors, that the County will exercise that option.

The County monitors changes in circumstances that would require a remeasurement of its leases and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

Leased assets are reported with other capital assets and lease liabilities are reported with long-term liabilities on the government-wide statement of net position. Leased assets are reported with other capital assets, the current portion of lease liabilities are reported with current long-term liabilities, and the long-term portion of lease liabilities are reported with subscription-liabilities as lease and SBITA liabilities in the proprietary funds statement of net position.

The County is a lessor for various non-cancellable leases of land and building space. The County recognizes a lease receivable and a deferred inflow of resources in the government-wide and fund financial statements. The County recognizes lease receivables based on the determination criteria set by GASB Statement No. 87, *Leases*. The County is also a lessor for various "Regulated" leases as defined by GASB Statement No. 87, *Leases*. The County does not recognize a lease receivable or deferred inflow of resources for Regulated leases.

At the commencement of a lease, the County initially measures the lease receivable at the present value of payments expected to be received during the lease term. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflow of resources is measured at the initial amount of the lease receivable, adjusted for lease payments received at or before the lease commencement date. Consequently, the deferred inflow of resources is recognized as revenue over the life of the lease term.

Key estimates and judgments related to leases include how the County determines (1) the discount rate it uses to discount the expected lease payment receipts to present value, (2) lease term, and (3) lease payment receipts. The County uses its estimated incremental borrowing rate as the discount rate for leases. The lease term includes the noncancellable period of the lease plus periods covered by options to extend if it is reasonably certain, based on relevant factors, that the County will exercise that option.

The County monitors changes in circumstances that would require a remeasurement of its leases and will remeasure the lease receivable and deferred inflows of resources if certain changes occur that are expected to significantly affect the amount of the lease receivable.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Subscription-Based Information Technology Arrangements (SBITAs)

The County enters into various software arrangements that require recognition under GASB Statement No. 96, *Subscription-Based Information Technology Arrangements*. The County recognizes a subscription liability and intangible right-of-use subscription asset in the government-wide financial statements and proprietary funds financial statements.

At the commencement of a subscription term, the County initially measures the subscription liability at the present value of payments expected to be made during the subscription term. Subsequently, the subscription liability is reduced by the principal portion of subscription payments made. The subscription asset is measured at the initial amount of the subscription liability, adjusted for subscription payments made at or before the subscription commencement date, plus capitalizable initial implementation costs. Subsequently, the subscription asset is amortized on a straight-line basis over the subscription term.

Key estimates and judgments related to subscription-based information technology arrangements include how the County determines (1) the discount rate it uses to discount the expected subscription payments to present value, (2) subscription term, and (3) subscription payments. The County uses the interest rate charged by the subscription provider as the discount rate. When the interest rate charged by the subscription provider is not provided, the County generally uses its estimated incremental borrowing rate as the discount rate for subscription-based information technology arrangements. The subscription term includes the noncancellable period of the subscription plus periods covered by options to extend if it is reasonably certain, based on relevant factors, that the County will exercise that option.

The County monitors changes in circumstances that would require a remeasurement of its subscription-based information technology arrangements and will remeasure the subscription asset and liability if certain changes occur that are expected to significantly affect the amount of the subscription liability.

Subscription assets are reported with other capital assets and subscription liabilities are reported with long-term liabilities on the government-wide statement of net position. Subscription assets are reported with other capital assets, the current portion of subscription liabilities are reported with current long-term liabilities, and the long-term portion of subscription liabilities are reported with lease liabilities as lease and SBITA liabilities in the proprietary funds statement of net position.

Deferred Outflows and Inflows of Resources

Deferred outflows of resources represent a consumption of net assets that applies to a future period so will not be recognized as an outflow of resources (expense/expenditure) until then. Bond refundings are unamortized balances resulting from bond refundings and deferred losses incurred on the re-association and revaluation of interest rate swaps paired to certain bonds that were refunded. The hedging instruments are the changes in the fair value of interest rate swaps serving as hedging derivatives at the end of the fiscal year. The pension contributions result from the County pension related contributions subsequent to the measurement date but before the end of the fiscal year, differences between expected and actual experience, net difference between projected and actual investment earnings, changes in assumptions, and changes in proportionate share of collective net pension liability since the prior measurement date. The OPEB related deferred outflows result from OPEB related contributions and benefit payments made subsequent to the measurement date, but before the end of the fiscal year, differences between expected and actual experience, change in assumptions, and net difference between projected and actual investment earnings.

Deferred inflows of resources represent an acquisition of net assets that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. Bond refundings are unamortized balances resulting from bond refundings. The hedging instruments are the changes in the fair value of interest rate swaps serving as hedging derivatives at the end of the fiscal year. The pension related amounts result from the differences between projected and actual experience and changes in proportionate share of collective net pension liability since the prior measurement date. The OPEB related amounts result from differences between expected and actual experience, change in assumptions, and net difference between projected and actual investment earnings. The lease related amounts are the initial amount of lease receivables, adjusted for lease payments received at or before the lease commencement date. In the governmental funds, the only deferred inflow of resources are for revenues that are not considered available and leases.

Compensated Absences

It is the County's policy to permit employees to accumulate earned, but unused vacation, bonus, and sick leave benefits. The County's policy permits employees to earn holiday, compensatory time, birthday and incentive leave benefits, which may be used in a short-term period, depending on the level of benefit. Such benefits are accrued when incurred in the government-wide and proprietary financial statements.

The County recognizes a compensated absences liability based on the determination criteria set by GASB Statement No. 101, *Compensated Absences*. A liability for compensated absences is recognized when the leave is attributable to services already rendered, the leave accumulates, and the leave is more likely than not to be used for time off or otherwise paid in cash or settled through noncash means. Liabilities for compensated absences are measured using the pay rate in effect at the financial reporting date and applicable salary-related payments (i.e. employer-paid taxes) that are expected to be incurred when the obligation is settled.

Long-Term Obligations

In the government-wide financial statements and proprietary fund types in fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Long-Term Obligations (Continued)

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources whereas discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Postemployment Benefits Other Than Pensions (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Clark County Self-Funded (CCSF) OPEB Trust, Department of Aviation Self-Funded (DOASF) OPEB Trust, and Las Vegas Metropolitan Police Department (LVMPD) OPEB Trust and additions to/deductions from CCSF OPEB, DOASF OPEB, and LVMPD OPEB Trusts' fiduciary net position have been determined on the same basis as they are reported by the CCSF OPEB Trust, DOASF OPEB Trust, and LVMPD OPEB Trust. For this purpose, CCSF OPEB Trust, DOASF OPEB Trust and LVMPD OPEB Trust recognize benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Net Position or Equity

In the government-wide statements and in proprietary fund statements, equity is classified as net position and displayed in three components:

- Net investment in capital assets – Capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets net of unspent financing proceeds.
- Restricted net position – Net position with constraints placed on their use that are either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.
- Unrestricted net position – All other net position that does not meet the definition of "restricted" or "net investment in capital assets."

In governmental fund financial statements equity is classified as fund balance and is displayed in up to five components based primarily on the extent to which the County is bound to observe constraints imposed on the use of fund resources. These components are as follows:

- Nonspendable fund balances – Amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash, for example, inventories and prepaid amounts. It also includes the long-term amount of loans and notes receivable.
- Restricted fund balances - Similar to restricted net position discussed above, these are amounts with constraints placed on their use either by (a) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.
- Committed fund balances – Amounts with constraints imposed by formal resolution of the Board of County Commissioners (BCC) that specifically state the revenue source and purpose of the commitment. Commitments can only be modified or rescinded through resolutions by the BCC. Commitments can also include resources required to meet contractual obligations approved by the BCC.
- Assigned fund balances – Amounts intended to be used for specific purposes by the Chief Financial Officer as authorized by fiscal directives that do not meet the criteria to be classified as restricted or committed. In the General Fund, the assigned fund balance represents management approved encumbrances that have been re-appropriated in the subsequent year and amounts necessary to fund budgetary shortfalls in the next fiscal year from unassigned resources.
- Unassigned fund balances – Amounts in the General Fund not contained in other classifications. For other nonmajor governmental funds, the unassigned classification is used only to report a deficit balance resulting from expenditures exceeding those amounts restricted, committed or assigned for specific purposes.

Based on the County's policy regarding the fund balance classification as noted above, when both restricted and unrestricted funds are available for expenditure, restricted funds should be spent first unless legal requirements disallow it. When expenditures are incurred for purposes for which amounts in any unrestricted fund balance classifications could be used, committed funds are to be spent first, assigned funds second, and unassigned funds last.

Accounting Pronouncements

In June 2022, the GASB issued Statement No. 101, *Compensated Absences*, which is effective for fiscal years beginning after December 15, 2023. Earlier application is encouraged. The objective of this Statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. The adoption of Statement No. 101 resulted in a restatement of net positions. The effects of this adjustment are disclosed in "Accounting Changes and Restatements" below.

In December 2023, the GASB issued Statement No. 102, *Certain Risk Disclosures*, which is effective for fiscal years beginning after June 15, 2024. Earlier application is encouraged. The objective of this Statement is to provide users of government financial statements with essential information about risks related to a government's vulnerabilities due to certain concentrations or constraints. The assessment conducted under Statement No. 102 resulted in no matters that met the three criteria for note disclosure.

In April 2024, the GASB issued Statement No. 103, *Financial Reporting Model Improvements*, which is effective for fiscal years beginning after June 15, 2025. Earlier application is encouraged. The objective of this Statement is to improve key components of the financial reporting model to enhance its effectiveness in providing information that is essential for decision making and assessing a government's accountability. The County has not yet completed its assessment of this statement.

In September 2024, GASB issued Statement No. 104, *Disclosure of Certain Capital Assets*, which is effective for fiscal years beginning after June 15, 2025. Earlier application is encouraged. The objective of this Statement is to provide users of government financial statements with essential information about certain types of capital assets. The County has not yet completed its assessment of this statement.

In December 2025, GASB issued Statement No. 105, *Subsequent Events*, which is effective for fiscal years beginning after June 15, 2026. Earlier application is encouraged. The objective of this Statement is to improve the financial reporting requirements for subsequent events. The County has not yet completed its assessment of this statement.

Accounting Changes and Restatements

The County implemented GASB Statement No. 101, *Compensated Absences*, effective July 1, 2024, resulting in the restatement of beginning net positions for the change in accounting principle pursuant to GASB Statement No. 100, *Accounting Changes and Error Corrections*. The implementation of GASB Statement No. 101 resulted in increases in compensated absences liabilities on the Statement of Net Position for both government-wide and proprietary funds. The effect of this change in accounting principle resulted in a restatement of beginning net position as follows:

Reclassifications

Certain prior year amounts have been reclassified for consistency with the current year presentation.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from these estimates.

II. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Unrestricted Deficit Net Position

The LVMPD Self-Funded Insurance, LVMPD Self-Funded Industrial Insurance, CCDC Self-Funded Insurance, and CCDC Self-Funded Industrial Insurance internal service funds had a deficit unrestricted net position of \$51,374,008, \$7,541,484, \$4,402,153, and \$1,354,756, respectively, at June 30, 2025. This deficit was the result of increases in the actuarial estimate of claim reserves and claims incurred but not reported. This deficit is under review by County management and will continue to be addressed during the following fiscal year.

III. DETAILED NOTES – ALL FUNDS

1. Cash and Investments

Deposits

According to state statutes, County monies must be deposited with federally insured banks, credit unions, or savings and loan associations within the County. The County is authorized to use demand accounts, time accounts, and certificates of deposit. State statutes specifically require collateral for demand deposits and specify that collateral for time deposits may be of the same type as those described for permissible investments. Permissible investments are similar to allowable County investments described below, except that statutes permit a longer term and include securities issued by municipalities within Nevada. The County's deposits are fully covered by federal depository insurance or securities collateralized in the State of Nevada Collateral Pool. Securities used as such collateral must total 102 percent of the deposits with each financial institution. The County monitors the Nevada Collateral Pool to ensure full collateralization.

Investments

When investing monies, the County is required to be in conformance with state statutes and written policies adopted by the Board of County Commissioners designating allowable investments and the safeguarding of those investments. The County invests monies both by individual fund and through a pooling of monies. The pooled monies, referred to as the investment pool, are theoretically invested as a combination of monies from each fund belonging to the pool. In this manner, the County Treasurer is able to invest the monies at a higher interest rate for a longer period of time. Interest is apportioned monthly to each fund in the pool based on the average daily cash balances of the funds for the month in which the investment matures. Cash and investments in the custody of the County Treasurer comprise the investment pool. Securities purchased by the County are delivered against payments and held in a custodial safekeeping account with the trust department of a bank designated by the County. Entity-wide investment pools are considered to have the general characteristics of demand deposits in that the entity may deposit additional funds at any time and also effectively may withdraw funds at any time without prior notice or penalty. Therefore, cash and investments in custody of the County Treasurer for the proprietary funds are considered cash equivalents for the purposes of the statement of cash flows, in addition to cash in custody of other officials and cash with fiscal agent.

State statutes authorize the County to invest in the following (quality rating by Moody's Investment Service):

Authorized Investments	Maximum Term	Maximum Allocation	Minimum Issuer Rating	Other
U.S. Treasury Obligations	10 years	N/A	N/A	N/A
U.S. Federal Agencies	10 years	N/A	N/A	Includes U.S. agency mortgage-backed securities

Forward Delivery Agreements	N/A	N/A	A2, equivalent or better	Executed with a bank or financial institution rated A2 or higher, using all permitted investments

1. Cash and Investments (Continued)

The Nevada Local Government Investment Pool (NV LGIP) is an unrated external pool administered by the State Treasurer with oversight by the State of Nevada Board of Finance. The County deposits monies with the State Treasurer to be pooled with monies of other local governments for investment in the local government pooled investment fund.

GASB Statement No. 31 requires the County to adjust the carrying amount of its investment portfolio to reflect the change in fair or market values. Interest revenue is increased or decreased in relation to this adjustment of unrealized gain or loss. Net interest income in the funds reflects this positive or negative market value adjustment.

At June 30, 2025, the value of County-wide deposits, investments, and derivative instruments consisted of the following:

<u>Total Cash, Investments, and Derivative Instruments - All Entities Combined</u>			
Investments and Derivative Instruments			Fair Value
Countywide Investments (Exclusive of Component Units)	\$	8,650,427,672	
RFCD Investments		41,620,032	
RTC Investments		242,303,948	
Water Reclamation District Investments		597,578,404	
Water District Investments		825,610,282	
Stadium Authority Investments		96,987,606	
Derivative Instruments		5,276,704	\$ 10,459,804,648
Cash			162,127,812
Pension (and Other Employee Benefit) Trust Funds			1,328,124,633
Grand Total			<u>\$ 11,950,057,093</u>

Countywide investments and cash above include investment and cash balances in the amount of \$386,800,631 for the Flood Control District, \$913,043,488 for the RTC, \$59,153,242 for the Water Reclamation District, \$265,162 for Kyle Canyon Water District, \$77,062,768 for Clark County Stadium Authority, and \$27,014,357 for the Eighth Judicial District Court, which are discretely presented component units and are not broken out separately as they participate in the investment pool.

The bank balance of deposits held in custody of the County Treasurer was \$29,939,562 and the carrying amount was \$13,664,141. The County utilizes zero balance sweep accounts and there are money market funds and other short-term investments available to cover amounts presented for payment. The bank balance of deposits held in the custody of other officials was \$155,689,760 consisting of \$500 for the Flood Control District, \$39,237,672 for the RTC, \$14,595,123 for the Water Reclamation District, \$61,383,380 for the Water District, \$1,957 for Big Bend Water District, and \$149,991 for the Clark County Stadium Authority. The carrying amount of deposits held in the custody of other officials was \$147,193,372 consisting of \$500 for the Flood Control District, \$39,176,306 for the RTC, \$14,038,872 for the Water Reclamation District, \$57,757,126 for the Water District, \$1,957 for Big Bend Water District, and \$149,991 for the Clark County Stadium Authority. The bank balance and the carrying value of deposits with fiscal agent was \$1,270,299.

1. Cash and Investments (Continued)

At June 30, 2025, the fair value of County-wide investments and derivative instruments were categorized by maturity as follows:

Investments and Derivative Instruments Maturities – All Entities Combined (In Years)

Credit Risk

All deposits are subject to credit risk. Credit risk is defined as the risk that another party to a deposit or investment transaction (counterparty) will not fulfill its obligations. The County's investment policy applies the prudent investor standard: "When investing, reinvesting, purchasing, acquiring, exchanging, selling, or managing public funds, a trustee shall act with care, skill, prudence, and diligence under the circumstances then prevailing, including, but not limited to, the general economic conditions and the anticipated needs of the agency, that a prudent investor acting in a like capacity and familiarity with those matters would use in the conduct of funds of a like character and with like aims, to safeguard the principal and maintain the liquidity needs of the agency." Although the County reports securities' ratings by Moody's Investors Service, state statutes and the County's Investment Policy require securities be rated by one nationally recognized rating service (such as Standard & Poor's and Fitch Ratings).

The County is exposed to credit risk on hedging derivatives with positive fair values totaling \$2,463,279 at June 30, 2025. The counterparty credit ratings for these swaps are A or higher. The County is exposed to credit risk on investment derivatives with positive fair values totaling \$2,813,425 at June 30, 2025. The counterparty credit ratings for these swaps are A or higher. Exposure is mitigated through the use of an International Swaps and Derivatives Association credit support annex, which provides collateral to protect the value of the swaps under specific circumstances.

(2) Unrated asset backed securities are rated AAA by Standard & Poor's.

(3) Unrated U.S. federal agency securities are Farmer Mac securities not rated by either Moody's or Standard & Poor's.

Interest Rate Risk

Interest rate risk is defined as the risk that changes in interest rates will adversely affect the fair value of an investment. Through its investment policy, the County manages its exposure to fair value losses arising from increasing interest rates by limiting the average weighted maturity of its investment pool portfolio to less than 3.5 years.

Interest Rate Sensitivity

Interest rate sensitive securities include floating rate, callable, asset-backed, and mortgage-backed securities. As interest rates change, these types of securities may be redeemed early or the coupon rate may change.

1. Cash and Investments (Continued)

At June 30, 2025, the County invested in the following types of securities that have a higher sensitivity to interest rates:

<u>Interest Rate Sensitive Securities</u>		
<u>Investment Type</u>	<u>Countywide (Exclusive of Component Units)</u>	<u>Water Reclamation District</u>
Asset-Backed Securities	\$ 1,157,190,764	\$ 20,038,000
Corporate Obligations	1,018,900,269	93,905,780
Federal Agency	949,543,800	54,979,586
Total	<u>\$ 3,125,634,833</u>	<u>\$ 168,923,366</u>

Concentration of Credit Risk

Concentration of credit risk is defined as the risk of loss attributed to the magnitude of a government's investment in a single issuer. The County's investment policy limits the amount that may be invested in obligations of any one issuer, except direct obligations of the U.S. government, or federal agencies, or supranational securities, to no more than five percent of the total cash and investments.

At June 30, 2025, the following investments exceeded five percent of the total cash and investments for all entities combined:

<u>Investments Exceeding 5% of Total Cash and Investments - All Entities Combined</u>	
U.S. Treasuries	27.69%
Morgan Stanley Money Market Funds (MSGF)	7.66
Federal Home Loan Banks (FHLB)	7.51
Federal Home Loan Mortgage Corporation (FHLMC)	6.24
Federal Farm Credit Banks (FFCB)	5.45

Fair Value Measurement

In accordance with GASB Statement No. 72, investments and derivative instruments are valued at fair value. Securities classified at Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities or offer same-day liquidity at a price of par. Securities classified at Level 2 of the fair value hierarchy are generally valued using a matrix pricing technique or are less liquid than Level 1 securities. Matrix pricing is the process of estimating the market price of a bond based on the quoted prices of more frequently traded comparable bonds. Securities classified at Level 3 of the fair value hierarchy generally are not traded on the open market and include Forward Delivery Agreements, and State and Local Government Series (SLGS) securities which are purchased from the U.S. Department of Treasury through a subscription process but can be redeemed through the Bureau of Fiscal Service by a redemption request.

The fair values of the interest rate derivative instruments are estimated using an independent pricing service. The valuations provided are derived from proprietary models based upon well-recognized principles and estimates about relevant future market conditions. The instruments' expected cash flows are calculated using the zero-coupon discount method, which takes into consideration the prevailing benchmark interest rate environment as well as the specific terms and conditions of a given transaction and which assumes that the current forward rates implied by the benchmark yield curve are the market's best estimate of future spot interest rates. The income approach is then used to obtain the fair value of the instruments by discounting future expected cash flows to a single valuation using a rate of return that takes into account the relative risk of nonperformance associated with the cash flows and the time value of money. This valuation technique is applied consistently across all instruments. Given the observability of inputs that are significant to the entire sets of measurements, the fair values of the instruments are based on inputs categorized as Level 2.

Pooled Investments

Pooled investments are carried at fair value determined by quoted market prices or matrix pricing. All pooled investments are held in the custody of a bank designated by the County.

The County administers an external investment pool combining County money with involuntary investments from the Southern Nevada Health District (SNHD). Under authority delegated by the Board of County Commissioners (BCC) in accordance with NRS 355.175, the investment of County funds is the responsibility of the County Treasurer. Per the Clark County Investment Policy, the Treasurer shall consult with the Chief Financial Officer/Comptroller regarding the operations, performance, and compliance of the Clark County investment program. Any changes to the investment policy are subject to approval by the BCC. The external investment pool is not registered with the SEC as an investment company. The County custodian determines the fair value of its pooled investments on a monthly basis. The County has not provided or obtained any legally binding guarantees during the period to support the value of shares.

Each participant's share is equal to their investment plus or minus the monthly allocation of net investment earnings and realized and unrealized gains and losses. The derivation of realized gains and losses is independent of the determination of the net change in the fair value of investments for all periods reported.

2. Property Taxes

Taxes on real property are levied on July 1 of each year and a lien is also placed on the property on July 1. The taxes are due on the third Monday in August, but can be paid in four installments on or before the third Monday in August, first Monday in October, January, and March. In the event of nonpayment, the County Treasurer is authorized to hold the property for two years, subject to redemption upon payment of taxes, penalties, and costs, together with interest at the rate of 10 percent per year from the date the taxes were due until paid. If delinquent taxes are not paid within the two-year redemption period, the County Treasurer may sell the property to satisfy the tax lien.

The Nevada legislature enacted provisions whereby the combined overlapping tax rate was limited to \$3.64 per \$100 of assessed valuation. The Nevada legislature also passed a property tax abatement law that generally caps increases in property taxes received from any owner-occupied residential property to three percent per year, and eight percent per year for all other property.

Delinquent taxes receivable not collected within sixty days after year end are recorded as deferred inflows of resources in the governmental funds as they are not available to pay liabilities of the current period. The revenue is fully recognized at the government-wide level.

Due From Other Governmental Units

Due from other governmental units includes \$214,049,597 that is not scheduled for collection during the subsequent year. This amount is related to opioid recoveries through the One Nevada Agreement on Allocation of Opioid Recoveries that will be paid in installment amounts that vary by year through fiscal year 2044. Due from other governmental units also includes amounts owed from the State of Nevada for intergovernmental revenue related to consolidated taxes, sales and use taxes, and fuel taxes.

Bond Bank Receivable

Nevada Revised Statute authorizes the County to issue general obligation bonds for the purpose of acquiring obligations issued by municipalities and authorities in Clark County for certain purposes. These general obligation bonds are shown in Note 6. The obligations issued by municipalities and authorities are shown as a bond bank receivable on the statement of net position. The bond bank receivable represents amounts owed to the County by participating municipalities for debt service payments on general obligation bonds issued by the County on their behalf. The receivable is secured by the general obligation pledges of the participating municipalities. Management believes the receivable is fully collectible, and no allowance for uncollectible amounts has been recorded.

3. Accounts Receivable (Continued)

Community Housing Receivable

Clark County has entered into various loan agreements with third parties related to its affordable housing programs. The purpose of these agreements is to establish, preserve, and rehabilitate affordable housing units. Under the terms of the agreements, repayment is contingent and is required only from surplus cash flows generated by the related properties after payment of operating costs and other required obligations.

Because repayment is contingent upon future events outside the County's control and the County does not have an unconditional contractual right to repayment of principal or interest, the County has concluded that these agreements do not meet the definition of a receivable for financial reporting purposes. Accordingly, no receivable has been recognized in the financial statements, and the County records any payments received as program revenue at the time of receipt. The outstanding contractual principal balance of these notes, which represents the maximum potential amount collectible under the agreements rather than amounts expected to be received, was \$40,811,143 as of June 30, 2025. Because no receivable is recognized, no allowance for uncollectable amounts has been recorded.

As of June 30, 2025, no revenue has been collected on these loan agreements. These outstanding loans have contractual maturity dates ranging from 2052 through 2065.

Guarantees

The County guarantees general obligation bond issues of the Clark County Stadium Authority and Regional Flood Control District, both County component units, and the Las Vegas Convention and Visitor's Authority, a legally separate entity from Clark County, pursuant to the Constitution and laws of the State of Nevada. Although guaranteed by the County, Regional Flood Control District bonds are pledged with sales tax revenues and both Clark County Stadium Authority bonds and Las Vegas Convention and Visitors Authority bonds are pledged with room tax revenue. In the event an agency is unable to make a debt service payment, Clark County will be required to make that payment. Management does not believe it is more likely than not that payments will be required under the guarantees; therefore, no liability has been recorded. All agencies have remained current on all debt service obligations.

Pledged Revenues

Consolidated Tax Supported Bonds

These bonds are secured by a pledge of up to 15 percent of the consolidated taxes allocable to the County. These bonds also constitute direct and general obligations of the County, and the full faith and credit of the County is pledged for the payment of principal and interest.

The total remaining principal and interest payments for consolidated tax supported bonds was \$530,000,575 at June 30, 2025. In fiscal year 2025, pledged revenues received totaled \$87,587,014 (of the total \$583,913,424 of general fund consolidated tax), and required debt service totaled \$36,439,268.

Beltway Pledged Revenue Bonds

These bonds are secured by the combined pledge of: 1) a one percent supplemental governmental services (motor vehicle privilege) tax; 2) a one percent room tax collected on the gross receipts from the rental of hotel and motel rooms within the County but outside of the strip and Laughlin resort corridors (non-resort corridor); and 3) a portion of the development tax. The development tax is \$1,000 per single-family dwelling of residential development, and \$1.00 per square foot on commercial, industrial, and other development. Of this, \$500 per single-family dwelling and 50 cents per square foot of commercial, industrial, and other development is pledged. These bonds also constitute direct and general obligations of the County, and the full faith and credit of the County is pledged for the payment of principal and interest.

The total remaining principal and interest payments for Beltway pledged revenue tax supported bonds was \$48,510,500 at June 30, 2025. In fiscal year 2025, pledged revenues received totaled \$104,521,610; consisting of \$89,237,162 of supplemental governmental services tax; \$3,757,291 of non-resort corridor room tax; and \$11,527,156 of the total \$23,054,311 development tax. Required debt service totaled \$9,700,750. Beltway pledged revenues are also pledged to make up any difference between pledged revenues and annual debt service for Laughlin resort corridor room tax supported bonds. During fiscal 2025, there was no Laughlin Resort Corridor Room Tax Supported Bonds debt service.

Strip Resort Corridor Room Tax Supported Bonds

These bonds are secured by a pledge of the one percent room tax collected on the gross receipts from the rental of hotel and motel rooms within the strip resort corridor. This tax is imposed specifically for the purpose of transportation improvements within the strip resort corridor, or within one mile outside the boundaries of the strip resort corridor. These bonds also constitute direct and general obligations of the County, and the full faith and credit of the County is pledged for the payment of principal and interest.

The total remaining principal and interest payments for strip resort corridor room tax supported bonds was \$350,791,200 at June 30, 2025. In fiscal year 2025, pledged revenues received totaled \$65,744,045. Required debt service totaled \$22,678,900.

Court Administrative Assessment Supported Bonds

These bonds are secured by a pledge of the \$10 court administrative assessment for the provision of justice court facilities. These bonds also constitute direct and general obligations of the County, and the full faith and credit of the County is pledged for the payment of principal and interest.

The total remaining principal and interest payments for court administrative assessment supported bonds was \$14,349,200 at June 30, 2025. In fiscal year 2025, pledged revenues received totaled \$1,031,745. Required debt service totaled \$1,022,450.

Special Assessment Bonds

Special assessment supported bonds are secured by property assessments within the individual districts. In addition, the County's General Fund and taxing power are contingently liable if the collections of assessments are insufficient for the special assessment bonds issued for LVB St. Rose to Pyle #158 and Flamingo Underground #112. The bonds are identified as special assessment bonds in this note above. The total remaining principal and interest payments for special assessment supported bonds was \$79,713,954 at June 30, 2025. In fiscal year 2025, pledged revenues received totaled \$8,623,977 (after a deduction allowing for timing differences). Required debt service totaled \$9,346,710. Improvement District #151 Summerlin Mesa matured on August 1, 2025, using previously collected pledged revenues which were allowable per the bond covenants. The County applied DSRF credits to outstanding assessments in FY25 effectively reducing the collection of pledged revenues and used this cash to pay the bonds and not do a double refund.

Bond Bank Bonds

These bonds are secured by securities issued to the County by local governments utilizing the bond bank. These securities pledge system revenues and contain rate covenants to guarantee adequate revenues for bond bank debt service. These bonds also constitute direct and general obligations of the County, and the full faith and credit of the County is pledged for the payment of principal and interest. The total remaining principal and interest payments for bond bank supported bonds was \$797,139,156 at June 30, 2025. In fiscal year 2025, pledged revenues received totaled \$81,001,400. Required debt service totaled \$81,001,400.

Lease Financed Purchases

Southern Nevada Area Communications Council P25 Radio Equipment Upgrade

On July 1, 2024, the County entered into a 10-year medium-term amendment to the lease agreement (the "Master Lease") with Motorola Solutions, Inc. for the lease of hardware, software, and services for upgrading the Southern Nevada Area Communications Council radio communication network. The Leased Property is necessary to upgrade aged equipment to keep the system current for the next ten years and allow for better interoperability with other agencies. The equipment is valued at \$6,986,813. Accumulated depreciation is \$1,397,363 as of June 30, 2025. Annual principal and interest payments are \$875,288 commencing on January 15, 2025, through January 15, 2034, with an interest rate of 4.741%.

Clark County has the option to purchase the Leased Property upon thirty days prior written notice from Lessee to Lessor, and provided that no Event of Default has occurred and is continuing, or no event, which with notice of lapse of time, or both could become an Event of Default, then exists. Lessee will have a right to purchase the Leased Property on the lease payment dates set forth in the contract schedule by paying to Lessor, on such date, the lease payment then due together with the balance payment amount set forth opposite such date. Upon satisfaction by Lessee of such purchase conditions, Lessor will transfer any and all of its right, title and interest in the Leased Property to Lessee as is, without warranty, express or implied, except that the Leased Property is free and clear of any liens created by Lessor.

Arbitrage Liability

When a state or local government earns interest at a higher rate of return on tax-exempt bond issues than it pays on the debt, a liability for the spread is payable to the federal government. This interest spread, known as "rebateable arbitrage," is due five years after issuing the bonds. Excess earnings of one year may be offset by lesser earnings in subsequent years. Arbitrage liabilities are liquidated by the individual funds in which they are accrued. On December 23, 2024, the County made an arbitrage yield restriction liability payment of \$184,943 on the \$80,000,000 Clark County, Nevada General Obligation (Limited Tax) Family Services Bonds (Additionally Secured by Pledged Revenues), Series 2019. At June 30, 2025, the County is reporting no arbitrage liability.

Defeasance of Debt

In current and prior years, the County defeased certain general obligation and revenue bonds by placing the proceeds of the new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the County's financial statements. At June 30, 2025, there were no remaining balances for the defeased bond issues.

Events of Default with Finance Related Consequences

Upon the occurrence of an event of default under the bond covenants the owner of the bonds is entitled to enforce the covenants and agreements of the County by mandamus suit or other proceeding at law or in equity for only the pledged revenues specified in the covenants. The County's debt agreements include customary covenants related to the payment of principal and interest and the maintenance of pledged revenues. The County's debt agreements do not include subjective acceleration clauses or other termination provisions that would require payment based on the judgment of a third party.

Conduit Debt Obligations

The County has issued economic development revenue bonds, pollution control revenue bonds and industrial development revenue bonds to finance projects for a number of economic development projects including utility projects, healthcare projects, and education projects. The County is obligated for resources received and has legally assigned those to the Trustee. The bonds are paid solely from the payments received from the private-sector entities from their respective projects, therefore, these bonds are not liabilities of the County under any condition, and they are not included as a liability of the County. In addition, no commitments beyond the payments received from the private-sector entities which have been legally assigned to the Trustee, and the maintenance of the tax-exempt status of conduit debt obligations were extended by the County for any of the bonds. This debt will never constitute an indebtedness of the County or a charge against the general credit or taxing power of the County. At June 30, 2025, there are six series of bonds outstanding and the aggregate amount of all conduit debt obligations is \$274,500,000.

Derivative Instruments

Interest Rate Swaps

The intention of the County's implementation of a swap portfolio was to convert variable interest rate bonds to synthetically fixed interest rate bonds as a means to lower its borrowing costs when compared to fixed-rate bonds at the time of issuance. The County executed several floating-to-fixed swaps in connection with its issuance of variable rate bonds and forward starting swaps to lock in attractive synthetically fixed rates for future variable rate bonds. Some of the County's swaps are structured with step-down coupons to reduce the cash outflows of the fixed leg of those swaps in the later years of the swap.

The derivative instruments are valued at fair value. The fair values of the interest rate derivative instruments are estimated using an independent pricing service. The valuations provided are derived from proprietary models based upon well-recognized principles and estimates about relevant future market conditions. The instruments' expected cash flows are calculated using the zero-coupon discount method, which takes into consideration the prevailing benchmark interest rate environment as well as the specific terms and conditions of a given transaction, and which assumes that the current forward rates implied by the benchmark yield curve are the market's best estimate of future spot interest rates.

The income approach is then used to obtain the fair value of the instruments by discounting future expected cash flows to a single valuation using a rate of return that takes into account the relative risk of nonperformance associated with the cash flows and the time value of money. This valuation technique is applied consistently across all instruments. Given the observability of inputs that are significant to the entire sets of measurements, the fair values of the instruments are based on inputs categorized as Level 2.

The mark-to-market value for each swap had been estimated using the zero-coupon method. Under this method, future cash payments were calculated either based on using the contractually-specified fixed rate or based on using the contractually-specified variable forward rates as implied by the SIFMA (Securities Industry and Financial Markets Association) Municipal Swap Index yield curve (formerly known as the Bond Market Association Municipal Swap Index yield curve, or BMA Municipal Swap Index yield curve), as applicable. Each future cash payment was adjusted by a factor called the swap rate, which is a rate that is set, at the inception of the swap and at the occurrence of certain events, such as a refunding, to such a value as to make the mark-to-market value of the swap equal to zero. Future cash receipts were calculated either based on using the contractually-specified fixed rate or based on using the contractually-specified variable forward rates as implied by the SOFR (Secured Overnight Financing Rate) yield curve or the CMS (Constant Maturity Swap rate) yield curve, as applicable. The future cash payment, as modified by the swap rate factor, and the future cash receipt due on the date of each and every future net settlement on the swap were netted, and each netting was then discounted using the discount factor implied by the SOFR yield curve for a hypothetical zero-coupon rate bond due on the date of the future net settlement. These discounted nettings were then summed to arrive at the mark-to-market value of the swap.

All the swaps entered into by the County comply with the County's swap policy. Each swap is written pursuant to guidelines and documentation promulgated by the International Swaps and Derivatives Association ("ISDA"), which include standard provisions for termination events such as failure to pay or bankruptcy. The County retains the right to terminate any swap agreement at market value prior to maturity. The County has termination risk under the contract, particularly if an additional termination event ("ATE") were to occur. An ATE occurs either if the credit rating of the bonds associated with a particular swap agreement and the rating of the swap insurer fall below a pre-defined credit rating threshold or if the credit rating of the swap counterparty falls below a threshold as defined in the swap agreement.

With regard to credit risk, potential exposure is mitigated through the use of an ISDA credit support annex ("CSA"). Under the terms of master agreements between the County and the swap counterparties, each swap counterparty is required to post collateral with a third party when the counterparty's credit rating falls below the trigger level defined in each master agreement. This arrangement protects the County from credit risks inherent in the swap agreements. As long as the County retains insurance, the County is not required to post any collateral; only the counterparties are required to post collateral.

Derivative Instruments

The County has both hedging and investment derivative instruments. Hedging derivative instruments are derivative instruments that significantly reduce an identified financial risk by substantially offsetting changes in the cash flows of an associated hedgeable item. Hedging derivative instruments are required to be tested for their effectiveness. Effectiveness of hedging derivative instruments is first tested using the consistent critical terms method. If critical terms analysis fails because the critical terms of the hedged item and the hedging instrument do not match, a quantitative method is employed, typically regression analysis. On an annual basis and consistent with the fiscal year end, the County employs an external consulting firm to perform this evaluation. Investment derivative instruments are either derivative instruments entered into primarily for income or profit purposes or derivative instruments that do not meet the criteria of an effective hedging derivative instrument.

6. Long-Term Debt And Other Long-Term Liabilities (Continued)

On November 19, 2013, the County fully terminated swaps #06, #12B, and #17 and partially terminated swap #14B. Because swap #14B was only partially terminated, its outstanding notional value was reduced by \$56,825,000 from \$201,975,000 to \$145,150,000. At the transaction closing, the fair values of all the terminated swaps or portions thereof, coupled with their related accrued interest, resulted in a net termination payment of \$0. The County executed this transaction to lower overall swap exposure, reduce interest rate risk, increase cash flow, reduce debt service, and tailor its swap portfolio to better match its variable rate bond portfolio. Upon completion of the termination, the County re-associated the investment component of each of swap derivatives #14A and #14B with variable rate bonds, thereby resulting in the full hedging of these swaps.

On December 19, 2018, the County fully terminated swaps #14A, #14B, #15, #16, and #18, causing a reduction in outstanding notional value of \$442,352,729, from \$1,333,249,387 to \$890,896,658. The transaction closing resulted in a net termination payment of \$5,199,000. The County executed this transaction to lower overall swap exposure, reduce interest rate risk, increase cash flow, and reduce debt service. Upon completion of the termination, the \$47,525,000 in notional amount of swap #12A was re-associated to 2008D-3, from swap #14. Additionally, \$29,125,000 and \$49,950,000 in notional amounts from swap #12A were re-associated to 2008A General Obligation Bonds and 2008C Bonds, respectively, from swap #14B. Notional amounts of swaps #14A and #14B, associated to 2008D-2A, 2008D-2B, and 2010 F-2 PFC Bonds, were not associated with other active hedged swaps as of the termination date.

On May 22, 2023, the County executed two letters of adherence with the International Swaps and Derivatives Association, Inc. (ISDA). These letters affirm the County's adherence to the ISDA 2020 Interbank Offered Rate (IBOR) Fallbacks Protocol and the ISDA 2021 Fallbacks Protocol.

On April 2, 2024, the Department refunded the outstanding principal balance of \$118,025,000 on Series 2008D-3 with Series 2024A. Upon refunding, swap #12A was re-associated with the cash flows of \$199,605,000 of outstanding principal on Series 2008D-2A and Series 2008D-2B. The re-association resulted in a full hedging on Series 2008C-1, 2008D-2A, and 2008D-2B and an excess of \$68,830,000 swap notional amount over-hedged in respect to swap #12A.

Hedging Derivative Instruments

On June 30, 2025, the County had three outstanding floating-to-fixed interest rate swap agreements considered to be hedging derivative instruments in accordance with the provisions of GASB 53. The three outstanding hedging swaps have been structured with step-down coupons to reduce the cash outflows of the fixed leg of those swaps in the later years of the swap.

Forward Starting Swap Agreements Hedging Derivatives

On January 3, 2006, the County entered into five swap agreements (swaps #7A, #7B, #12A, #12B, and #13) to hedge future variable rate debt as a means to lower its borrowing costs and to provide favorable synthetically fixed rates for financing the construction of Terminal 3 and other related projects. Swaps #7A and #7B, with notional amounts of \$150,000,000 each, became effective July 1, 2008, while swaps #12A and #12B, with notional amounts totaling \$550,000,000, became effective July 1, 2009. To better match its outstanding notional of floating-to-fixed interest rate swaps to the cash flows associated with its outstanding variable rate bonds, on April 6, 2010, the County terminated \$543,350,000 in notional amounts of its outstanding floating-to-fixed interest rate swaps (swaps #3, #5, #10A, and #11) and \$150,000,000 in the notional amount of the July 1, 2010, forward starting swap #13. On April 17, 2007, the County entered into two additional forward starting swaps, swaps #14A and #14B, with notional amounts totaling \$275,000,000, which became effective on July 1, 2011, as scheduled and the County later re-associated the investment component of each of swap derivatives #14A and #14B with variable rate bonds. Swaps #14A and #14B were subsequently terminated on December 19, 2018, and Swaps #7A and #7B matured on July 1, 2022.

The notional amounts of the swap agreements match the principal portions of the associated debt and contain reductions in the notional amounts that are expected to follow the reductions in principal of the associated debt, except as discussed in the section on rollover risk.

Due to an overall increase in variable rates, all three of the County's hedging derivative instruments had a positive fair value as of June 30, 2025.

Associated Debt Cash Flows – Hedging Derivatives

The net cash flows for the County's hedging derivative instruments for the year ended June 30, 2025, are provided in the table below.

Hedging Derivative Instruments - Net Cash Flows For the Fiscal Year Ended June 30, 2025

Credit Risk – Hedging Derivatives

The County was exposed to credit risk on the three hedging derivative instruments that had a positive fair value totaling \$2,463,279 as of June 30, 2025. However, a CSA is in place to provide collateral to protect the value of the swaps under specific circumstances. The following are the hedging swaps and their amounts at risk as of June 30, 2025, along with the counterparty credit ratings for these swaps:

Counterparty Credit Ratings and Credit Risk Exposure – Hedging Derivative Instruments at June 30, 2025						
Swap#	Interest Rate Swap Description	Counterparty	Counterparty Ratings			Credit Risk Exposure
			Moody's	S&P	Fitch	
10B	Floating-to-Fixed	JPMorgan Chase Bank, N.A.	Aa2	AA-	AA	1,012,416
10C	Floating-to-Fixed	UBS AG	Aa2	A+	AA-	991,476
12A	Floating-to-Fixed	Citigroup Financial Products Inc.	A2	A	A+	459,387
						<u>\$ 2,463,279</u>

The counterparty to swap #12A was required to post collateral pursuant to the terms of the ISDA CSA Agreement, given that the credit rating of this counterparty declined to the rating threshold defined in the ISDA CSA Agreement. As of June 30, 2025, the cash collateral posted with the custodian for Swap #12A was \$1,746,942.

Basis and Interest Rate Risk – Hedging Derivatives

All the hedging derivative swaps are subject to basis risk and interest rate risk should the relationship between the SOFR rate and the County's bond rates converge. If a change occurs that results in the rates moving to convergence, the expected cost savings and expected cash flows of the swaps may not be realized.

Tax Policy Risk – Hedging Derivatives

The County is exposed to tax risk if a permanent mismatch (shortfall) occurs between the floating rate received on the swap and the variable rate paid on the underlying variable rate bonds due to changes in tax law such that the federal or state tax exemption of municipal debt is eliminated, or its value is reduced.

Termination Risk – Hedging Derivatives

The County is exposed to termination risk if either the credit rating of the bonds associated with the swap or the credit rating of the swap counterparty falls below the threshold defined in the swap agreement, i.e. if an ATE occurs. If at the time of the ATE the swap has a negative fair value, the County would be liable to the counterparty for a payment equal to the swap's fair value. For all swap agreements, except for swaps #08A and #09A, the County is required to designate a day between 5 and 30 days to provide written notice following the ATE date. For swaps #08A and #09A, the designated date is 30 days after the ATE date.

Market Access Risk – Hedging Derivatives

The County is exposed to market access risk, which is the risk that the County will not be able to enter credit markets or that credit will become more costly. For example, to complete a hedging instrument's objective, an issuance of refunding bonds may be planned in the future. If at that time the County is unable to enter credit markets, expected cost savings may not be realized.

Foreign Currency Risk – Hedging Derivatives

All hedging instruments are denominated in US dollars, therefore, the County is not exposed to foreign currency risk.

Rollover Risk and Other Risk – Hedging Derivatives

There exists the possibility that the County may undertake additional refinancing with respect to its swaps to improve its debt structure or cash flow position and that such refinancing may result in hedging swap maturities that do not extend to the maturities of the associated debt, in hedging swaps becoming decoupled from associated debt, in the establishment of imputed debt, or in the creation of losses.

Credit Risk – Investment Derivatives

The County was exposed to credit risk on the investment derivative instruments that had a positive fair value totaling \$2,813,425 as of June 30, 2025. Nonetheless, as described earlier, a CSA is in place to provide collateral to protect the value of the swaps under specific circumstances. The investment swaps and their amounts at risk as of June 30, 2025, along with the counterparty credit ratings for these swaps, are disclosed the table below.

6. Long-Term Debt And Other Long-Term Liabilities (Continued)

Interest Rate Risk – Investment Derivatives

Swaps #02 and #04 are subject to interest rate risk should the relationship between the SOFR and the SIFMA rate converge. If economic conditions change such that these rates converge, the expected cash flows of the swaps and expected cost savings may not be realized.

Swaps #08A, #08B, and #08C and swaps #09A, #09B, and #09C are subject to interest rate risk should the relationship between the 10-year CMS rate (Constant Maturity Swap rate) and the SOFR converge. If economic conditions change such that these rates converge, the expected cash flows of the swaps and expected cost savings may not be realized.

Projected Maturities and Interest on Variable Rate Bonds and Swap Payments

Using the rates in effect on June 30, 2025, the approximate maturities and interest payments of the County's variable rate debt associated with the interest rate swaps, as well as the net payment projections on the floating-to-fixed interest rate swaps, are as follows:

<u>Variable Rate Bonds and Swap Payments - Maturities and Net Payment Projections</u>

Pledged Revenues

Motor Vehicle Fuel Tax Bonds

Motor vehicle fuel tax revenue bonds issued for RTC purposes are collateralized by a maximum of twelve cents per gallon motor vehicle fuel tax levied by the County, except that portion required to be allocated as direct distributions for those political subdivisions not included in the "Las Vegas Valley Area Major Street and Highway Plan." The collateralized twelve cents includes the County's share of the three cents per gallon tax levied by the State pursuant to NRS 365.180 and 365.190 and accounted for in other County funds, and the County's share of the Indexed Fuel Taxes. Pledged revenues for the year ended June 30, 2025 totaled \$91,917,465 for a debt service coverage ratio of 2.35 times.

Indexed Fuel Tax Bonds

Indexed Fuel Tax revenue bonds include taxes calculated and imposed on motor vehicle fuel tax, and special fuels taxes that consist of taxes on diesel fuel, taxes on compressed natural gas, and taxes on liquefied petroleum gas. Pledged revenues for the year ended June 30, 2025 totaled \$233,140,189 for a debt service coverage ratio of 3.19 times.

Arbitrage Rebate and Debt Covenant Requirements

The federal Tax Reform Act of 1986 imposes a rebate requirement with respect to some bonds issued by the County for the RTC. Under this Act, an amount may be required to be rebated to the United States Treasury (called "arbitrage") for interest on the bonds to qualify for exclusion from gross income for federal income tax purposes. Rebutable arbitrage is computed as of each installment computation date and as of the most recent such date the RTC's management believes that there is no rebutable arbitrage amount due. Future calculations might result in adjustments to this determination.

Long-term debt obligations are subject to restrictive debt covenants, including certain revenue levels, debt service coverage ratios and maintenance of a debt reserve account, for which management believes the RTC, is in compliance.

Deferred outflows of resources and deferred inflows of resources

Deferred outflows of resources for RTC consist of \$3,509,628 in unamortized losses on refunded bonds. Deferred inflows of resources for RTC consist of \$9,484,596 in unamortized gains on refunded bonds.

8. Net Position and Fund Balances

Primary Government

Net Position - Government-wide Financial Statements:

The government-wide Statement of Net Position utilizes a net position presentation. Net position is categorized as net investment in capital assets, restricted and unrestricted. Net investment in capital assets is less the related debt outstanding that relates to the acquisition, construction, or improvement of capital assets.

Restricted assets are assets that have externally imposed (statutory, bond covenant, contract, or grantor) limitations on their use. Restricted assets are classified either by function, debt service, capital projects, or claims. Assets restricted by function relate to net position of government and enterprise funds whose use is legally limited by outside parties for a specific purpose. The restriction for debt service represents assets legally restricted by statute or bond covenants for future debt service requirements of both principal and interest. The amount restricted for capital projects represents assets with third party restriction for use on specific projects or programs. The amounts restricted for other purposes within governmental activities include \$280,290,307 for opioid remediation, \$166,751,396 for general government purposes, \$137,702,240 for welfare, \$87,766,690 for health, and \$68,998,106 for other purposes such as culture and recreation, public works maintenance, judicial operations, and other community support. The government-wide statement of net position reports \$2,595,544,358 of restricted net position, all of which is externally imposed.

Unrestricted net position represents financial resources of the County that do not have externally imposed limitations on their use.

Clark County Stadium Authority

The government-wide statement of net position reports \$152,990,356 of restricted net position, of which \$66,420,580 is restricted by enabling legislation for capital projects and \$86,569,776 is restricted by creditors for debt repayment.

Eighth Judicial District Court

The statement of net position reports \$9,572,583 of restricted net position which is restricted for general courts and judicial programs, technology improvements, claims, and other operations.

9. Risk Management

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year 2025, settlements did not exceed insurance coverage. The County maintains the following types of risk exposures:

Self-Funded Group Insurance and Group Insurance Reserve

The County has established self-insurance funds for insuring medical benefits provided to County employees and covered dependents. Employees are offered a choice between a self-insured PPO plan and a self-insured EPO plan. An independent claims administrator performs all claims-handling procedures. Incurred but not reported claims have been accrued as a liability based upon a variety of actuarial and statistical techniques.

Clark County Workers' Compensation

The County has established a fund for self-insurance related to workers' compensation claims. For all employees except fire fighters and police officers, self-insurance is in effect up to an individual stop loss amount of \$2,000,000 per occurrence. For fire fighters and police officers, self-insurance is in effect up to an individual stop loss amount of \$5,000,000 per occurrence. Coverage from private insurers is maintained for losses in excess of the claim stop loss amount up to statutory limits. Incurred but not reported claims have been accrued as a liability based upon a variety of actuarial and statistical techniques.

The County has estimated the potential exposure for costs of indemnity (wage replacement) benefits, medical benefits, and other claim related expenses for disability of public safety employees (fire/bailiffs) who develop heart disease, cancer, lung disease or hepatitis. The estimated liability is the sum of two components:

- The outstanding costs due to reported claims for which the County is currently paying benefits, and
- The outstanding costs for future claims incurred but not reported (IBNR) by the County (current population of active and retired public safety employees who may meet future eligibility requirements for awards under Nevada Revised Statutes).

The claims liability for reported claims is estimated to be \$33,143,582. The claims liability for incurred but not reported (IBNR) claims is estimated to be \$26,096,145. Of the total liability, \$21,622,795 is reported in the Clark County workers' compensation internal service fund. The remaining \$37,616,932 is not funded by the internal service fund and has been reported as a liability in the government-wide statement of net position. The liability is discounted utilizing an interest rate of 4.0%. The anticipated future exposure for potential claims associated with currently active employees based on an actuarial calculation is approximately \$104,771,597, discounted at 4.0%.

9. Risk Management (Continued)

Las Vegas Metropolitan Police Department (LVMPD) and Clark County Detention Center (CCDC) Self-Funded Insurance

The County has established separate self-insurance funds for general liabilities of the LVMPD and CCDC. Loss amounts of \$200,000 or more require approval of the LVMPD Fiscal Affairs Committee. Self-insurance is in effect for loss amounts up to \$2,000,000 per occurrence, accident, or loss. Coverage from private insurers is maintained for losses in excess of the stop loss amount up to \$13,000,000. A third-party claims administrator performs claims-handling procedures for traffic claims. All other claims are administered through the LVMPD Office of General Counsel. Incurred but not reported claims have been accrued as a liability based upon a variety of actuarial and statistical techniques.

LVMPD and CCDC Self-Funded Industrial Insurance

The County has established separate self-insurance funds to pay workers' compensation claims of the LVMPD and CCDC. Self-insurance is in effect up to an individual stop loss amount of \$15,000,000 per occurrence. Coverage from private insurers is maintained for losses in excess of the claim stop loss amount up to \$50,000,000. Incurred but not reported claims have been accrued as a liability based upon a variety of actuarial and statistical techniques.

The County has estimated the potential exposure for costs of indemnity (wage replacement) benefits, medical benefits, and other claim related expenses for disability of public safety employees (police officers/correction officers) who develop heart disease, cancer, lung disease or hepatitis. The estimated liability is the sum of two components:

- The outstanding costs due to reported claims for which the County is currently paying benefits, and
- The outstanding costs for future claims incurred but not reported (IBNR) by the County (current population of active and retired public safety employees who may meet future eligibility requirements for awards under Nevada Revised Statutes).

The claims liability for reported claims is estimated to be \$36,723,963 for LVMPD and \$5,464,755 for CCDC. The claims liability for incurred but not reported (IBNR) claims is estimated to be \$4,082,413 for LVMPD and \$644,120 for CCDC. Of the total liability, \$4,977,979 is reported in the LVMPD self-funded industrial insurance internal service fund and \$1,584,042 is reported in the CCDC self-funded industrial insurance internal service fund. The remaining \$35,828,397 for LVMPD and \$4,524,833 for CCDC are not funded by the internal service funds and have been reported as a liability in the government-wide statement of net position. The liability is discounted utilizing an interest rate of 4.0%. The anticipated future exposure for potential claims associated with currently active employees based on an actuarial calculation is approximately \$54,264,274 for LVMPD and \$8,983,766 for CCDC, discounted at 4.0%.

County Liability Insurance

The County has established a general liability self-insurance fund for losses up to a \$25,000 per occurrence retention limit. Losses in excess of this retention are covered by the County liability insurance pool fund. An independent claims administrator performs all claims-handling procedures. Incurred but not reported claims have been accrued as a liability based upon a variety of actuarial and statistical techniques.

County Liability Insurance Pool

The County has established a general liability insurance pool for the benefit of County funds. Self-insurance is in effect for loss amounts over the \$25,000 retention up to \$2,000,000 per occurrence, accident, or loss. Coverage from private insurers is maintained for losses in excess of the stop loss amount up to \$13,000,000. An independent claims administrator performs all claims-handling procedures. Incurred but not reported claims have been accrued as a liability based upon a variety of actuarial and statistical techniques.

University Medical Center

The University Medical Center does not participate in the County self-insurance funds related to general liability. The University Medical Center self-insures portions of its general liability risks and has internally designated specific self-insured funds for such potential claims. The University Medical Center is self-insured for losses up to \$2,000,000 per claim. Coverage from private insurers is maintained for losses in excess of the stop loss amount up to \$10,000,000. Incurred but not reported claims have been accrued as a liability based upon a variety of actuarial and statistical techniques.

10. Commitments And Contingencies

Encumbrances

The County utilizes encumbrance accounting in its government funds. Encumbrances are recognized as a valid and proper charge against a budget appropriation in the year in which a purchase order, contract, or other commitment is issued. In general, unencumbered appropriations lapse at year end. Open encumbrances at fiscal year-end are included in restricted, committed, or assigned fund balance, as appropriate. The following schedule outlines significant encumbrances included in governmental fund balances:

<u>Governmental Funds Fund Balance - Encumbrances as of June 30, 2025</u>			
Major Funds	Restricted Fund Balance	Committed Fund Balance	Assigned Fund Balance
General Fund	\$ 17,765	\$ -	\$ 33,804,003
LVMPD	-	-	4,733,331

	<u>\$ 363,589,271</u>	<u>\$ 364,480</u>	<u>\$ 232,775,943</u>

Grant Entitlement

The County is a participant in a number of federal and state-assisted programs. These programs are subject to compliance audits by the grantors. The audits of these programs for fiscal year 2025 and certain earlier years have not yet been completed. Accordingly, the County's compliance with applicable program requirements is not completely established. The amount, if any, of expenditures that may be disallowed by the grantors cannot be determined at this time. The County believes it has adequately provided for potential liabilities, if any, which may arise from the grantors' audits. However, the County believes the likelihood of material disallowed costs related to these programs is remote.

Medicare and Medicaid Reimbursements

UMC's Medicare and Medicaid cost reports for certain prior years are in various stages of review by third-party intermediaries and have not been settled as a result of certain unresolved reimbursement issues. The County believes it has adequately provided for any potential liabilities that may arise from the intermediaries' audits.

Litigation

The County is a defendant on various lawsuits, including a lawsuit related to LVMPD involving an alleged wrongful conviction. Although the LVMPD intends to defend this lawsuit, there is a reasonable possibility of an unfavorable outcome, and the estimated damages from unfavorable outcome could reach \$30,000,000, with attorney fees. The County is a defendant in other various lawsuits. The outcome of these lawsuits is not presently determinable, and the extent of possible losses cannot be estimated at this time.

LVMPD is a defendant in a lawsuit related to retirement contributions on certain overtime pay. An unfavorable outcome from this lawsuit is probable, but the amount of loss cannot be estimated at this time.

UMC is involved in litigation and regulatory investigations arising in the ordinary course of business. UMC does not accrue for estimated future legal and defense costs, if any, to be incurred in connection with outstanding or threatened litigation and other disputed matters, but rather records such as period costs when services are rendered.

The County's lease and subscription-based information technology arrangement agreements include customary provisions related to nonpayment and termination. Certain agreements provide that the underlying leased or subscribed assets may serve as collateral for the related obligations. The County's lease and SBITA agreements do not include subjective acceleration clauses or other termination events that would require payment based on the judgment of a third party. The County has elected not to recognize lease and subscription liabilities for short-term arrangements with a maximum possible term of twelve months or less.

Clark County (Excluding UMC and Department of Aviation)

Lease Receivable

The County has entered into eighteen lease agreements involving real property. The leases have interest rates between 0.73 percent and 3.89 percent, and a remaining estimated life of 2 to 18 years. The County recognized \$1,092,838 of lease revenue and \$583,732 of interest revenue related to these leases for the fiscal year ended June 30, 2025.

Department of Aviation (Continued)

Lease Liability

The Department of Aviation entered into a twenty-two year lease agreement for the use of an administrative office building located adjacent to the Airport on August 7, 2007. The lease provides for fixed, periodic payments over the term of the agreement. In addition, the lease includes variable payments that are not based on an index or rate and are therefore excluded from the measurement of the lease liability in accordance with the provisions of GASB 87. These variable payments primarily consist of Common Area Maintenance (CAM) charges assessed annually under the terms of the lease. CAM charges totaled \$240,390 for fiscal year 2025. This amounts was recognized as lease expense in the period incurred. Principal and interest payments of \$1,863,541 and \$345,787 were made for the fiscal year ended June 30, 2025.

The following is a schedule of future payments for leases as of June 30, 2025:

Years ending June 30,	Principal	Interest	Total

Regulated Leases

The Department of Aviation leases certain assets to various third parties as regulated leases, as defined by GASB 87. The leased assets include jet bridges, passenger hold rooms, concourse operations space, baggage service areas, hangars, and tie-down spaces. These leases are regulated under the FAA Rates and Charges Policy and Grant Assurance 22. Certain assets are subject to preferential or exclusive use by the counterparties to these agreements as follows:

- Jet Bridges - 59 of 109 total jet bridges are designated as preferential use
- 26% of available terminal leased space is preferentially leased
- 51% of available terminal leased space is designated as joint-use space
- 23% of available terminal leased space is designated as common use space

For the Airline-Airport use and lease, the Department of Aviation recognized revenue from terminal/building rent, apron use, passenger enplanements, gate use, and landing fees in the amount of \$60,640,708 for the fiscal year ended June 30, 2025. For ground handling, the Department of Aviation recognized lease revenue of \$3,651,582 for the fiscal year ended June 30, 2025 from terminal/building rent and apron use. Rates and charges are calculated annually at the beginning of each fiscal year based on the budgeted revenues, expenses, and debt service requirements and applied to both Airline-Airport use and lease agreements and ground handling agreements. Due to the nature of the rates and charges calculation, expected future minimum payments are indeterminable.

The Department of Aviation entered into various hangars, tie-down spaces, and FBO lease agreements with tenants for the use of spaces. During the fiscal year ended June 30, 2025, total revenues of \$12,621,828 were recorded for these categories of Regulated leases.

The following is a schedule of minimum future rental income on Regulated leases as of June 30, 2025:

Discretely Presented Component Units

RTC

Lease Liability

The RTC entered into a 40-year land lease with LiveWork, LLC on April 2, 2007, as amended by First Amendment of Lease dated September 17, 2007 to lease land. Commencement date for the lease was January 5, 2008. The base lease payment was \$1,250,000 per annum with a 3% annual escalation beginning in January 2009, and an additional 3% escalation in the 5th, 10th, 15th, 20th, 30th, and 35th years. As a condition of the lease agreement, the RTC provided the lessor with a \$5,000,000 letter of credit as a security deposit.

On September 12, 2024, the RTC Board of Commissioners approved the acquisition of Assessor's Parcel Number (APN) 139-34-301-008, the land referenced above, where the Bonneville Transit Center (BTC) is located. In consideration for the property purchased, the RTC paid \$20,000,000 to the owners, assumed and satisfied the existing loan in the amount of \$36,822,920, for a total settlement amount of \$56,957,958, including \$135,038 of closing fees. The transaction was completed on September 20, 2024. Acquiring the land and satisfying the existing loan saved the RTC \$27,953,139 on future rent payments. The acquisition of the land effectively terminated the existing lease.

As of June 30, 2025, the related right-to-use leased land, the corresponding accumulated amortization and lease liability were removed, resulting in a recognition of gain on lease termination of \$4,466,736.

SBITA Liability

RTC has entered into five agreements involving software arrangements. The agreements have a remaining estimated life of 1 to 7 years and RTC used its incremental borrowing rate of 3.69% to determine the present value of the right-to-use assets and SBITA liability. RTC made \$803,690 of principal payments and \$122,415 of interest payments related to these SBITAS for the fiscal year ended June 30, 2025.

12. Joint Ventures

Southern Nevada Water Authority

The Water District, a component unit (see Note 1), has a joint venture with the Southern Nevada Water Authority ("SNWA"). The SNWA is a political subdivision of the State of Nevada, created on July 25, 1991, by a cooperative agreement between the Water District, the Big Bend Water District, the City of Boulder City, the City of Henderson, the City of Las Vegas, the City of North Las Vegas, and the Reclamation District (the "Members"). SNWA was created to secure additional supplies of water and effectively manage existing supplies of water on a regional basis through the cooperative action of the Members.

The SNWA is governed by a seven-member board of directors composed of one director from each member agency. The Water District is the operating agent for the SNWA; the General Manager of the Water District is the General Manager of the SNWA; and the Chief Financial Officer of the Water District is the Chief Financial Officer of the SNWA.

The SNWA has the power to periodically assess the Members directly for operating and capital costs and for the satisfaction of any liabilities imposed against the SNWA. The Water District and other members do not have an expressed claim to the resources of the SNWA except that, upon termination of the joint venture, any assets remaining after payment of all obligations shall be returned to the contributing Members.

In 1995, the SNWA approved agreements for the repayment of the cost of an additional expansion of the Southern Nevada Water System (SNWS). The agreements required contributions from purveyor members, including the Water District, benefiting from the expansion. In 1996, the Water District approved the collection of regional connection charges, regional commodity charges, and regional reliability surcharges to fund these contributions. In March 2012, a regional infrastructure charge based upon meter size was approved, which has been modified since that time to account for changing conditions.

The Water District records these charges as operating revenues, and contributions to the SNWA as operating expenses. However, to avoid a "grossing -up" effect on operating revenues and operating expenses in the Statements of Revenues, Expenses, and Changes in Net Position, revenue collected for the SNWA is offset against the related remittances to the SNWA. Any remaining balance is classified as an operating expense and adjusted in a following period. The table below shows the SNWA regional charges collected for and remitted to the SNWA for the fiscal year 2025.

<u>SNWA Regional Charges Collected for and Remitted to the SNWA for Fiscal Year Ending June 30, 2025</u>

**In governmental activities, net pension liability is generally liquidated by a combination of the major and non-major governmental funds, with the majority liquidated by the General Fund and Las Vegas Metropolitan Police Department Fund.

Plan Description

Public Employees' Retirement System (PERS or System) administers a cost-sharing, multiple-employer, defined benefit public employees' retirement system which includes both Regular and Police/Fire members. The System was established by the Nevada Legislature in 1947, effective July 1, 1948. The System is administered to provide a reasonable base income to qualified employees who have been employed by a public employer and whose earnings capacities have been removed or substantially impaired by age or disability.

Benefits Provided

Benefits, as required by the Nevada Revised Statutes (NRS or statute), are determined by the number of years of accredited service at time of retirement and the member's highest average compensation in any 36 consecutive months with special provisions for members entering the System on or after January 1, 2010, and July 1, 2015. Benefit payments to which participants or their beneficiaries may be entitled under the plan include pension benefits, disability benefits, and survivor benefits.

Monthly benefit allowances for members are computed as 2.5% of average compensation for each accredited year of service prior to July 1, 2001. For service earned on and after July 1, 2001, this multiplier is 2.67% of average compensation. For members entering the System on or after January 1, 2010, there is a 2.5% service time factor, and for regular members entering the System on or after July 1, 2015, there is a 2.25% factor. The System offers several alternatives to the unmodified service retirement allowance which, in general, allow the retired employee to accept a reduced service retirement allowance payable monthly during his or her lifetime and various optional monthly payments to a named beneficiary after his or her death.

Post-retirement increases are provided by authority of NRS 286.575 -.579.

Vesting

Regular members are eligible for retirement at age 65 with five years of service, or age 60 with 10 years of service, or any age with 30 years of service. Regular members entering the System on or after January 1, 2010, are eligible for retirement at age 65 with five years of service, or age 62 with 10 years of service, or any age with 30 years of service. Regular members entering the System on or after July 1, 2015, are eligible for retirement at age 65 with five years of service, or age 62 with 10 years of service, or age 55 with 30 years of service, or any age with 33 1/3 years of service. Police/Fire members are eligible for retirement at age 65 with five years of service, or age 55 with 10 years of service, or age 50 with 20 years of service, or any age with 25 years of service. Police/Fire members entering the System on or after January 1, 2010, are eligible for retirement at age 65 with five years of service, or age 60 with 10 years of service, or age 50 with 20 years of service, or any age with 30 years of service. Only service performed in a position as a police officer or firefighter may be counted towards eligibility for retirement as Police/Fire accredited service.

The normal ceiling limitation on monthly benefits allowances is 75% of average compensation. However, a member who has an effective date of membership before July 1, 1985, is entitled to a benefit of up to 90% of average compensation. Both Regular and Police/Fire members become fully vested as to benefits upon completion of five years of service.

Contributions

The authority for establishing and amending the obligation to make contributions and member contribution rates is set by statute. New hires, in agencies which did not elect the Employer-Pay Contribution (EPC) plan prior to July 1, 1983, have the option of selecting one of two contribution plans. In one plan, contributions are shared equally by employer and employee. In the other plan, employees can take a reduced salary and have contributions made by the employer (EPC).

The System's basic funding policy provides for periodic contributions at a level pattern of cost as a percentage of salary throughout an employee's working lifetime in order to accumulate sufficient assets to pay benefits when due.

The System receives an actuarial valuation on an annual basis indicating the contribution rates required to fund the System on an actuarial reserve basis. Contributions actually made are in accordance with the required rates established by the Nevada Legislature. These statutory rates are increased/decreased pursuant to NRS 286.421 and 286.450.

13. Retirement System (Continued)

The actuarial funding method used is the Entry Age Normal Cost Method. It is intended to meet the funding objective and results in a relatively level long-term contribution requirement as a percentage of salary. For the fiscal year ended June 30, 2024, the statutory Employer/Employee matching rate was 17.50% for Regular and 25.75% for Police/Fire. The Employer-pay contribution (EPC) rate was 33.50% for Regular and 50.00% for Police/Fire.

Summary of Significant Accounting and Reporting Policies

For purposes of measuring the net pension liability, deferred outflows of resources, deferred inflows of resources and pension expense, information about the fiduciary net position of the Public Employees' Retirement System of Nevada (PERS or System) and additions to/deductions from PERS' fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Basis of accounting

Employers participating in PERS cost-sharing, multiple-employer, defined benefit plans are required to report pension information in their financial statements in accordance with Governmental Accounting Standards Board (GASB) Statement No. 68, *Accounting and Financial Reporting for Pensions*.

The underlying financial information used to prepare the pension allocation schedules is based on PERS' financial statements. PERS' financial statements are prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) that apply to governmental accounting for fiduciary funds.

Contributions for employer pay dates that fall within PERS' fiscal year ending June 30, 2024, are used as the basis for determining each employer's proportionate share of the collective contribution amounts.

The total pension liability is calculated by PERS' actuary. The plan's fiduciary net position is reported in PERS' financial statements and the net pension liability is disclosed in PERS' notes to the financial statements. An annual report containing financial statements and required information for the System may be obtained by writing to PERS, 693 W. Nye Lane, Carson City, Nevada 89703-1599, or by calling (775) 687-4200.

Investment Policy

The System's policies which determine the investment portfolio target asset allocation are established by the Board. The asset allocation is reviewed annually and is designed to meet the future risk and return needs of the System.

The following was the Board adopted policy target asset allocation as of June 30, 2024:

Asset Class	Target Allocation	Long-Term Geometric Expected Real Rate of Return
Domestic Equity	34%	5.50%
International Equity	14%	5.50%
Domestic Fixed Income	28%	2.25%
Private Markets	12%	6.65%
Short-term investments	12%	0.50%

As of June 30, 2024, PERS' long-term inflation assumption was 2.50%.

Pension Liability

Net Pension Liability

The net pension liability was measured as of June 30, 2024, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer allocation percentage of the net pension liability was based on the total contributions due on wages paid during the measurement period. Each employer's proportion of the net pension liability is based on their employer contributions relative to the total employer contributions for all employers for the year ended June 30, 2024.

Pension Liability Discount Rate Sensitivity

The following presents the net pension liability of the PERS as of June 30, 2024 and Clark County's proportionate share of the net pension liability of PERS as of June 30, 2024, calculated using the discount rate of 7.25%, as well as what the PERS net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25%) or 1- percentage-point higher (8.25%) than the current discount rate:

	1% Decrease in Discount Rate (6.25%)	Discount Rate (7.25%)	1% Increase in Discount Rate (8.25%)
PERS Net Pension Liability	\$ 29,055,348,823	\$ 18,067,886,503	\$ 9,003,110,455
Clark County proportionate share of PERS Net Pension Liability ⁽¹⁾	\$ 4,729,585,929	\$ 2,941,063,359	\$ 1,465,512,763

(1) The Clark County proportionate share of the PERS net pension liability (discounted at 7.25% above) includes \$1,265,559,249 for Las Vegas Metropolitan Police Department (LVMPD). LVMPD is jointly funded by the County and the City of Las Vegas. The City currently funds 34.0 percent of the LVMPD. The City is liable for \$430,290,145 of the Clark County proportionate share of the PERS net pension liability (discounted at 7.25% above). A receivable has been established in the government-wide statement of net position for the City's portion.

At June 30, 2025 and 2024, the County's proportionate share of the collective net pension liability was 16.27785% and 16.76827%, respectively.

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the PERS Annual Report, available on the PERS website.

Actuarial Assumptions

The System's net pension liability was measured as of June 30, 2024, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation rate	2.50%
Payroll Growth	3.50%, including inflation
Investment Rate of Return	7.25%
Productivity pay increase	0.50%
Projected salary increases	Regular: 4.20% to 9.10%, depending on service; Police/Fire: 4.60% to 14.50%, depending on service; Rates include inflation and productivity increases
Mortality tables	PUB-2010
Other assumptions	Same as those used in the June 30, 2024, funding actuarial valuation

Actuarial assumptions used in the June 30, 2024, valuation were based on the results of the experience study for the period July 1, 2016 through June 30, 2020. The discount rate used to measure the total pension liability was 7.25% as of June 30, 2024. The projection of cash flows used to determine the discount rate assumed plan contributions will be made in amounts consistent with statutory provisions and recognizing the plan's current funding policy and cost-sharing mechanism between employers and members. For this purpose, all contributions that are intended to fund benefits for all plan members and their beneficiaries are included, except that projected contributions that are intended to fund the service costs for future plan members and their beneficiaries are not included. Based on those assumptions, the pension plan's fiduciary net position at June 30, 2024, was projected to be available to make all projected future benefit payments for current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2024.

Las Vegas Valley Water District Retirement Plan

Plan Description

The Water District contributes to the Las Vegas Valley Water District Pension Plan (Plan), a single-employer defined benefit pension trust fund established by the Water District to provide pension benefits solely for the employees of the Water District. A Board of Trustees, comprised of the Water District's Board, has the authority to establish and amend the benefit provisions of the Plan and the contribution requirements of the Water District and the employees. Employee contributions are not required or permitted, except under certain conditions in which employees may purchase additional years of service for eligibility and increased benefits. During fiscal year 2025 employee contributions for this purpose was \$0.9 million.

The Plan was amended effective February 15, 2005, to provide the following: (1) Increase the annual service credit of 2 percent to 2.17 percent for years of service after July 1, 2001 (service credit is the accumulation of pension plan years while an employee was in paid status at the Water District.); (2) Change the benefit formula to increase the calculation of highest average pay by 50 percent of the employer contribution rate charged by Nevada PERS to employers who pay the full contribution rate, as prescribed in the Nevada Revised Statutes; (3) Add shift differential and standby pay to the total compensation counted toward the pension benefit.

Other than cost of living adjustments, the Plan does not provide ad hoc post-retirement benefit increases nor does it administer post-employment healthcare plans. The Plan does not issue a stand-alone financial report.

All Water District employees are eligible to participate in the Plan after attaining age 20 and completing six months of employment. Subject to a maximum pension benefit, normally 60 percent of average monthly compensation, Water District employees who retire at age 65 are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 2 percent of their average monthly compensation multiplied by the years of service prior to July 1, 2001, and 2.17 percent of their average monthly compensation multiplied for the years of service after July 1, 2001. For the purpose of calculating the pension benefit, average monthly compensation means the average of a member's 36 consecutive months of highest compensation, after excluding certain elements, increased by 50 percent of the employer contribution rate charged by Nevada PERS to employers who pay the full contribution rate that is in effect for the 36 consecutive months of highest compensation, while participating in the Plan.

For participants in the plan prior to January 1, 2001, benefits start to vest after three years of service with a 20 percent vested interest; after four years of service, 40 percent; and after five years of service, 100 percent. New participants after January 1, 2001, start to vest at 5 years of service, at which time they are vested 100 percent. The Plan also provides for early retirement and pre-retirement death benefits. The Plan is not subject to the Employee Retirement Income Security Act (ERISA) of 1974 but is operated consistent with ERISA fiduciary requirements.

For employees on or after January 1, 2001, benefits are increased after retirement by cost of living adjustments that become effective on the first month following the anniversary of benefit commencement according to the following schedule:

<u>Schedule of Benefit Increases –</u> <u>Employees hired on or after January 1, 2001</u>	
0.0%	following the 1st, 2nd and 3rd anniversaries
2.0%	following the 4th, 5th and 6th anniversaries
3.0%	following the 7th, 8th and 9th anniversaries
3.5%	following the 10th, 11th and 12th anniversaries
4.0%	following the 13th and 14th anniversaries
5.0%	following each anniversary thereafter

However, if the benefit amount at the time of an increase is at least or equal to the original benefit amount multiplied by cumulative inflation since retirement, as measured by the increase in the Consumer Price Index (All Items), then the increase cannot exceed the average rate of inflation for the three preceding years.

The Water District contributes amounts actuarially determined necessary to fund the Plan to pay benefits when due and to provide an allowance sufficient to finance the administrative costs of the Plan. Contributions cannot revert to or be revocable by the Water District or be used for any purpose other than the exclusive benefit of the participants.

At June 30, 2025, participants in the Plan consisted of the following:

<u>Plan Participants as of June 30, 2025</u>	
Participant Count	2025
Retirees for whom annuities were purchased but are due future COLAs	267
Terminated employees not yet receiving benefits	364
Retirees paid monthly from plan	790

Las Vegas Valley Water District Retirement Plan (Continued)

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting. Employer contributions are recognized when due. Participants do not make contributions except voluntarily under certain conditions to purchase additional years of service. Participant contributions are non-refundable.

Allocated Insurance Contracts

Through December 31, 2013, benefit obligations were recognized and paid when due by purchasing annuity contracts from a life insurance company rated A++ by A.M. Best rating company. Beginning January 1, 2014, benefit obligations are paid by the Plan through a large multi-national bank. Cost of living adjustments for benefit obligations that were initially paid by purchasing annuity contracts from a life insurance company continue to be paid by purchasing additional annuity contracts from a life insurance company. The costs to purchase annuity contracts from a life insurance company for benefit obligations or cost of living adjustments was \$6.6 million the year ended June 30, 2025. The obligation for the payment of benefits covered by these annuity contracts have been transferred to a life insurance company and are excluded from the Plan assets.

Method Used to Value Investments

The domestic equity, international equity, domestic bond, real asset and money market accounts are stated at fair value, measured by the underlying market value as reported by the managing institutions. Investments at contract value are insurance contracts and pooled accounts, stated at contract value as determined by the insurance companies in accordance with the terms of the contracts.

Actuarially Determined Contribution

The Water District's policy is to pay the current year's actuarially determined contribution when due. This amount was determined to be \$49.2 million for the year ended June 30, 2025. The actual amount contributed by the Water District for the year ended June 30, 2025 was \$52.5 million, or \$3.3 million in excess of the actuarially determined contribution.

Net Pension Liability

The total pension liability was determined by an actuarial valuation as of the valuation date, calculated based upon the discount rate and actuarial assumptions listed below. The total pension liability was then projected forward to the measurement date taking into account any significant changes between the valuation date and the fiscal year end. The liabilities are calculated using a discount rate that is a blend of the expected investment rate of return and a high-quality bond index rate. The expected investment rate of return applies for as long as the Plan assets (including future contributions) are projected to be sufficient to make the projected benefit payments. If Plan assets are projected to be depleted at some point in the future, the rate of return of a high-quality bond index is used for the period after the depletion date. The disclosures below exclude assets and liabilities held with a life insurance company, which provides benefits for retirees or their beneficiaries whose benefits were purchased with annuity contracts from the life insurance company.

Actuarial Assumptions

Actuarial cost method	Entry Age Normal Cost Method
Amortization method	20-year amortization of unfunded liability (closed period) as a level percent of pay, using layered bases starting July 1, 2016. In prior years, 30-year amortization of unfunded liability (closed period) as a level percent of pay, using layered bases starting July 1, 2009.
Remaining amortization period	Bases established between July 1, 2016 and July 1, 2020 have remaining amortization periods ranging from 14 to 20 years. Bases established between July 1, 2009 and July 1, 2015 have remaining amortization periods ranging from 16 to 22 years.
Inflation	2.75% per year
Salary increases	4.20% to 9.10% depending on service; Rates include inflation
Discount Rate	The discount rate used to measure the total pension liability was 6.75 percent. The projection of cash flows used to determine the discount rate assumed the Water District's contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the Water District's fiduciary net position was projected to be available to make all projected pension payments for current and inactive employees. Therefore, the long-term expected rate of return on the Water District's plan investments was applied to all periods of projected benefit payments to determine the total pension liability.
Investment rate of return	6.75%, net of pension plan investment expenses, including inflation
Retirement age	Normal retirement age is attainment of age 65. Unreduced early retirement is available after either 1) 30 years of service, or 2) age 60 with 10 years of service. Reduced early retirement benefits are available after attainment of age 55 and completion of 5 years of service (3 years of service if a participant prior to January 1, 2001).
Mortality	Non-Disabled Participants - Pub-2010 General tables projected generationally with Projection Scale MP-2020. Healthy annuitant rates are increased by 30% for males and 15% for females. Beneficiary rates are increased 15% for males and 30% for females. Contingent beneficiary rates are increased 30% for males and 15% for females. Disabled Participants - Pub-2010 Disabled tables projected generationally with Projection Scale MP-2020. Disabled rates are increased by 20% for males and 15% for females.

Changes in Actuarial Assumptions

For the fiscal year ending June 30, 2025, no amounts were reported as changes of assumptions. In addition, future salary increases were assumed to rise and withdrawal rates were assumed to decrease. The Water District did not incorporate any changes in actuarial assumptions from the prior years.

Pension Expense

Total employer pension expense was \$39.0 million for the fiscal year ended June 30, 2025.

Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2025, the Water District reported the following deferred inflows of resources and deferred outflows of resources related to pensions:

	As of June 30, 2025	
	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 34,596,257	\$ 1,023,069

Investment Rate of Return

Investment Rate of Return as of June 30, 2025		
Asset Class	Expected Nominal Return	Target Asset Allocation
Large Cap U.S. Equities	8.10%	31.50%
Small/Mid Cap U.S. Equities	8.76%	13.50%
International Equities	10.40%	15.00%
Core Fixed Income	5.12%	25.00%
High Yield Bonds	6.81%	5.00%
Real Assets	8.70%	10.00%
Expected Arithmetic Average Return (30 years)		7.78%
Expected Geometric Average Return (30 years)		7.12%

The expected geometric average return over 30 years is less than the expected 1 year return due to expected deviations each year from the average which, due to the compounding effect, lower long-term returns.

Pension Investments

Management believes the Water District's pension investment policy conforms to the Water District's enabling act which requires the District to follow the "prudent person" rule, i.e., invest with discretion, care and intelligence. The investment policy does not specify credit quality ratings or maturities except that investments must be those that are allowed by law and those that the investment managers are trained and competent to handle.

To diversify investment risk, the Water District's investment policy currently limits pension plan investments as follows:

Pension Plan investment Limits		
Investment Type	Percent of Portfolio	
Equity Securities	60%	+/- 10%
Fixed-Income Securities	30%	+/- 5%
Real Assets	10%	+/- 3%

Rate of Return

For the year ended June 30, 2025, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 13.2%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

14. Related Party Transactions

Related party transactions include transactions between the County and its discretely presented component units, joint ventures, and other related governmental entities.

Primary Government

The County transfers sales, fuel, and various other taxes and fees deposited in the Master Transportation Plan special revenue fund to the RTC, a discretely presented component unit. Transfers during the fiscal year ended June 30, 2025, totaled \$445,577,589. The balance payable from the Master Transportation Plan fund to the RTC as of June 30, 2025, was \$130,367,590.

The County is reimbursed by the RTC for construction and maintenance of transportation projects. At June 30, 2025, the County had open interlocal contracts totaling \$795,867,555. Of those contracts, \$461,023,543 was spent, and there remain outstanding contract balances totaling \$334,844,012. Reimbursements during the fiscal year ended June 30, 2025 totaled \$149,481,364. The balance receivable from the RTC to the County as of June 30, 2025 was \$21,448,013.

The County is reimbursed by the RFCD for construction and maintenance of flood control projects. At June 30, 2025, the County had open interlocal contracts totaling \$169,976,847. Of those contracts, \$108,395,311 was spent, and there were remaining outstanding contract balances totaling \$61,581,536. Reimbursements during the fiscal year ended June 30, 2025 totaled \$35,527,840. The receivable balance from the RFCD to the County as of June 30, 2025 was \$2,994,630.

The County transferred the District Court operations to the Eighth Judicial District Court (EJDC) effective July 1, 2022. The County continues to fund the operations of the EJDC with monthly contributions. The County contributed \$98,494,043 during fiscal year ended June 30, 2025. There were no outstanding receivables.

Las Vegas Valley Water District

The Las Vegas Valley Water District is a member of the Southern Nevada Water Authority ("SNWA") (see Note 11). Besides being a member of the SNWA, the Water District is its operating agent. Beginning in fiscal year 2009, the SNWA advanced funds to the Water District for expenditures to be made on its behalf. The Water District credits the SNWA interest on a monthly average advance balance at the Water District's current investment earnings rates. The SNWA owed the Water District \$13,425,053 at June 30, 2025 for expenditures made on its behalf in excess of advanced funds, which the District recorded as a current receivable.

The Water District has allocated to and recorded receivable balances from SNWA of \$65,912,100 for net pension liability and \$602,681 for postemployment benefits other than pensions for Water District employees devoted to SNWA operations.

As of June 30, 2025, the Water District recorded a receivable balance of \$2,119,610,000 from SNWA for outstanding general obligation bonds whose proceeds were delivered to SNWA to finance water projects and refund existing debt. The Water District also recorded receivable balance of \$7,195,713 from SNWA for accrued interest related to these general obligation bonds.

15. Postemployment Benefits Other Than Pensions (OPEB)

*For the year ended June 30, 2025, Clark County recognized negative OPEB expense of \$19,416,663, of which, negative \$8,011,178 is for governmental activities and negative \$11,405,485 is for business-type activities.				
**In governmental activities, the OPEB liability is generally liquidated by the General Fund and the Las Vegas Metropolitan Police Department Fund.				

OPEB Plans Administered Through Trusts

Clark County and Department of Aviation Self-Funded OPEB Trusts

General Information about the Other Post Employment Benefit (OPEB) Plans

Plan Description

Clark County Self-Funded (CCSF) OPEB Trust provides OPEB to all permanent full-time employees of Clark County (primary government only) enrolled in the Clark County Self-Funded Group Medical and Dental Benefit Plan. Department of Aviation Self-Funded (DOASF) OPEB Trust provides OPEB to all permanent full-time employees of the Department of Aviation enrolled in the Clark County Self-Funded Group Medical and Dental Benefit Plan. The CCSF and DOASF OPEB Trusts are single-employer, defined benefit OPEB plans administered by Clark County, Nevada. The CCSF and DOASF OPEB Trusts issue a publicly available financial report. The report may be obtained at https://www.clarkcountynv.gov/government/departments/finance/boards_and_committees.php.

Benefits Provided

The CCSF and DOASF OPEB Trusts provide medical, dental, vision, prescription drug, and life insurance benefits to eligible retirees and beneficiaries. Retirees are eligible to continue coverage in the Clark County Self-Funded Group Medical and Dental Benefit Plan as a participant with active employees at a blended premium rate, resulting in an implicit subsidy. Benefit provisions are established and amended through negotiations between the respective unions and the County.

Employees Covered by Benefit Terms

At the June 30, 2024 measurement date, the following employees were covered by the benefit terms:

	CCSF	DOASF
Inactive employees or beneficiaries receiving benefit payments	1,248	182
Active employees	4,939	1,338
Total	6,187	1,520

15. Postemployment Benefits Other Than Pensions (OPEB) (Continued)

Clark County and Department of Aviation Self-Funded OPEB Trusts (Continued)

Contributions

The CCSF and DOASF OPEB Trusts do not have contractually or statutorily required contributions. State law requires health insurance to be provided to retirees at a blended rate. For fiscal year ended June 30, 2025, the estimated implicit subsidy was \$14,010,000 for the CCSF OPEB Trust, and \$1,500,000 for the DOASF OPEB Trust. Clark County and Department of Aviation can make voluntary cash contributions to the plan for purposes of prefunding obligations for past service. Clark County made voluntary cash contributions of \$129,530, and Department of Aviation made voluntary cash contributions of \$50,470 during the fiscal year.

Net OPEB (Asset)/Liability

The CCSF and DOASF OPEB Trusts' net OPEB (asset)/liability was measured as of June 30, 2024, and the total OPEB liability used to calculate the net OPEB (asset)/liability was determined by an actuarial valuation as June 30, 2024.

Actuarial assumptions: The total OPEB liability as of June 30, 2025 was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.70%
Salary increases	3.50%
Investment rate of return	7.25%
Healthcare cost trend rates	7.75% decreasing to an ultimate rate of 4.00%
Retirees' share of benefit-related costs	100% of premium amounts based on years of service

Mortality rates were based on the following:

Pub-2010 headcount weighted mortality table, projected generationally using Scale MP-2021, applied on a gender-specific and job class basis.

The demographic assumptions are based on the Nevada PERS Actuarial Experience Study based on the 2023 Nevada PERS Actuarial Valuation. The salary scale assumption is based on the 2023 Nevada PERS Actuarial Valuation. The inflation assumption is based on the most recent Getzen Model released by the Society of Actuaries for long-term health care cost trend rates development.

The long-term expected rate of return on the CCSF and DOASF OPEB Trusts investments was based on the investment policy of the State of Nevada's Retiree Benefit Investment Fund (RBIF), where the CCSF and DOASF OPEB Trusts invest their assets. RBIF's investment policy objective is to generate a 7.25% long-term return by producing a long-term return from investments which exceeds the rate of inflation by capturing market returns within each asset class.

Discount Rate: The discount rate used to measure the total OPEB liability for the CCSF OPEB Trust was 4.44%. The County is not fully prefunding benefits. The current Plan assets plus future expected employer contributions and investment earnings are expected to be sufficient to make benefit payments to current plan members through June 30, 2044. For this purpose, only employer contributions that are intended to fund benefits of current plan members are included. The projection of the Plan's fiduciary net position and cash flows used to determine the discount rate assumes no employer contributions until necessary at the point of fund depletion, and plan member contributions made at the current contribution rate, trended annually. For determining the discount rate, the long-term rate of expected return on Plan investments (7.25%) was applied to periods of projected benefit payments through June 30, 2044, and the 20-year municipal bond rate (3.93% based on Bond Buyer 20-Bond GO Index) was applied to periods after June 30, 2044 to determine the total OPEB liability.

The discount rate used to measure the total OPEB liability for the DOASF OPEB Trust was 7.15%. The Department of Aviation is not fully prefunding benefits. The current Plan assets plus future expected employer contributions and investment earnings are expected to be sufficient to make benefit payments to current plan members through June 30, 2084. For this purpose, only employer contributions that are intended to fund benefits of current plan members are included. The projection of the Plan's fiduciary net position and cash flows used to determine the discount rate assumes no employer contributions until necessary at the point of fund depletion, and plan member contributions made at the current contribution rate, trended annually. For determining the discount rate, the long-term rate of expected return on Plan investments (7.25%) was applied to periods of projected benefit payments through June 30, 2084, and the 20-year municipal bond rate (3.93% based on Bond Buyer 20-Bond GO Index) was applied to periods after June 30, 2084 to determine the total OPEB liability.

LVMPD OPEB Trust

General Information about the Other Post Employment Benefit (OPEB) Plan

Plan Description

LVMPD OPEB Trust provides OPEB to all permanent full-time employees of the Las Vegas Metropolitan Police Department. Additionally, the LVMPD OPEB Trust subsidizes eligible retirees' contributions to the Public Employees' Benefits Plan (PEBP). The LVMPD OPEB Trust is a single-employer, defined benefit OPEB plan administered by LVMPD. The LVMPD OPEB Trust issues a publicly available financial report. The report may be obtained at <https://www.lvmpd.com/about/news-events/public-notice/lvmpd-oep-trust-fund>.

Benefits Provided

The LVMPD OPEB Trust provides benefits to five classes of employees; Police Protective Association (PPA) employees, Police Managers & Supervisors Association (PMSA) employees, Police Protective Association Civilian Employees (PPACE), Appointed and Deputy Sheriff employees.

LVMPD OPEB Trust provides medical, dental, vision and prescription drug benefits to eligible PPA and PMSA retirees and beneficiaries. Retirees and surviving spouses are eligible to continue coverage in the Las Vegas Metropolitan Police Department Employee Health and Welfare Trust medical plan as a participant with active employees at a blended premium rate, resulting in an implicit subsidy. Effective April 1, 2014, all retirees and spouses over the age of 65 are no longer covered under the Plan. Effective 2017, retirees and spouses over the age of 65 are eligible to continue coverage for dental and vision only.

LVMPD OPEB Trust provides medical, dental, vision, prescription drug, and life benefits to eligible Appointed, Deputy Sheriff, and PPACE retirees and beneficiaries. Retirees and beneficiaries are eligible to continue coverage in the Clark County Self-Funded Group Medical and Dental Benefit Plan as a participant with active employees at a blended premium rate, resulting in an implicit subsidy.

LVMPD OPEB Trust pays a portion of the monthly premiums for former employees who retired and enrolled in the PEBP health plan. The subsidy is based on the retiree's years of service with the County.

Benefit provisions are established and amended through negotiations between the respective unions and the County.

Employees Covered by Benefit Terms

At the June 30, 2024 measurement date, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries receiving benefit payments	1,471
Active employees	5,971
Total	7,442

Contributions

With the exception of the PEBP subsidies required by Nevada Revised Statutes, the LVMPD OPEB Trust does not have contractually or statutorily required contributions. State law requires health insurance to be provided to retirees at a blended rate. For fiscal year ended June 30, 2025, the estimated implicit subsidy was \$8,975,249, and cash contributions to PEBP were \$445,406. Clark County can make voluntary cash contributions to the plan for purposes of prefunding obligations for past service. Clark County made voluntary cash contributions of \$4,000,000 during the fiscal year.

Net OPEB Liability

The LVMPD OPEB Trust's net OPEB liability was measured as of June 30, 2024, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2024.

Actuarial assumptions: The total OPEB liability as of June 30, 2025 was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.30%
Salary increases	Ranges from 4.25% to 14.90% based on years of service and job classification
Investment rate of return	6.25%
Healthcare cost trend rates*	8.00% decreasing to an ultimate rate of 3.75%
Retirees' share of benefit-related costs	0% to 100% premium amounts based on years of service

*Healthcare cost trend rates fluctuate each year until ultimate trend rate is reached.

Mortality rates for Appointed, PPACE, Deputy Sheriff and PEBP employee groups were based on the PUB-2010 general headcount weighted mortality tables projected generationally using mortality improvement scale MP-2021.

Mortality rates for PPA and PMSA employee groups were based on PUB-2010 safety headcount weighted mortality tables projected generationally using mortality improvement scale MP-2021.

The demographic assumptions for PPA and PMSA employee groups were developed based on the 2015 Nevada PERS demographic rates with adjustments applied. The salary increase assumption aligns with the most recent available Nevada PERS full actuarial valuation as of June 30, 2023. The demographic and salary increase assumptions for the PPACE, Appointed and Deputy Sheriff employee groups are based on the Nevada PERS actuarial valuation as of June 30, 2023.

The long-term expected rate of return on the LVMPD OPEB Trust investments, net of investment expenses, was based on the investment policy of the State of Nevada's Retiree Benefit Investment Fund (RBIF) where the LVMPD OPEB Trust invests its assets. The rate is based on the RBIF's investment policy summarized in the following table:

Asset Class	Asset Allocation
Short-term investments	12.00%
International Equity	17.50%
Domestic Fixed Income	28.00%
Domestic Equity	42.50%

Discount rate: The discount rate used to measure the total OPEB liability was 6.25%. The projection of cash flows used to determine the discount rate assumed the County's contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the LVMPD OPEB Trust's fiduciary net position was projected to be available to make all projected OPEB payments for current and inactive employees. Therefore, the long-term expected rate of return on the LVMPD OPEB Trust's plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

The remaining net OPEB liability of \$104,712,259 is jointly funded by the County and the City of Las Vegas. The City of Las Vegas currently funds 34.0% of the LVMPD and is liable for \$35,602,168 of the net OPEB liability. A receivable has been established in the government-wide statement of net position for the City's portion.

Changes in Assumptions: The assumed rate of health benefit election after retirement for PPA and PMSA employee groups was updated to reflect recent experience. The assumed rate of spouse coverage for PPACE, Appointed and Deputy Sheriff employee groups was updated to reflect recent experience. The health care trend rates were updated to reflect the latest economic assumptions.

OPEB Plans Not Administered Through Trusts

General Information about the Other Post Employment Benefit (OPEB) Plans

Public Employees' Benefits Plan (PEBP) is a non-trust, agent multiple-employer defined benefit OPEB plan administered by the State of Nevada. Clark County subsidizes eligible retirees' contributions to PEBP. NRS 287.041 assigns the authority to establish and amend benefit provisions to the PEBP eleven-member board of trustees. The plan is now closed to future retirees, however, County employees who previously met the eligibility requirement for retirement within the Nevada Public Employee Retirement System had the option upon retirement to enroll in coverage under the PEBP with a subsidy provided by the County as determined by the number of years of service. The PEBP issues a publicly available financial report. The report may be obtained at <https://pebp.nv.gov/Resources/reports/fiscal-utilization-reports/>.

Clark County Firefighters Plan (Fire Plan) provides OPEB to all permanent full-time firefighters. The Fire Plan is a non-trust, single-employer defined benefit OPEB Plan administered by the Clark County Firefighters Union Local 1908. The Clark County Firefighters Union Local 1908 issues a publicly available financial report. The report may be obtained by writing to Clark County Firefighters Union Local 1908 Security Fund, 6200 W. Charleston Boulevard, Las Vegas, NV, 89146 or calling 702-870-1908.

UMC Retiree Health Program Plan (UMC RHPP) provides OPEB to all permanent full-time employees of UMC. The UMC RHPP is a non-trust, single-employer defined benefit OPEB Plan administered by UMC.

Benefits Provided

PEBP provides medical, dental, prescription drug, Medicare Part B, and life insurance coverage to eligible retirees and their spouses. Benefits are provided through a third-party insurer.

The Fire Plan provides medical, dental, vision and prescription drug benefits to eligible retirees who remain enrolled in the Clark County Firefighters Union Local 1908 Security Fund's Health & Welfare Plan. Retirees are eligible to continue coverage in the Health & Welfare Plan as a participant with active employees at a blended premium rate, resulting in an implicit subsidy. Benefit provisions are established and amended through negotiations between the union and the County.

UMC RHPP provides medical, dental, vision, prescription drug, and life insurance benefits to eligible retirees and beneficiaries. Retirees are eligible to continue coverage in the Clark County Self-Funded Group Medical and Dental Benefit Plan as a participant with active employees at a blended premium rate, resulting in an implicit subsidy. Benefit provisions are established and amended through negotiations between the respective unions and UMC.

Employees Covered by Benefit Terms

At June 30, 2024 measurement date (June 30, 2025 for the Fire Plan), the following employees were covered by the benefit terms:

	PEBP	Fire Plan	UMC RHPP
Inactive employees or beneficiaries currently receiving benefit payments	656	434	535
Active employees	-	893	3,639
Total	656	1,327	4,174

As of November 1, 2008, PEBP was closed to any new participants.

Total OPEB Liability

The PEBP and UMC RHPP Plan's total OPEB liability was measured as of June 30, 2024, and was determined by an actuarial valuation as of June 30, 2024.

Actuarial assumptions: The total OPEB liability for the PEBP and UMC RHPP as of June 30, 2025 was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.70%
Salary increases	3.50%
Discount Rate	3.93%
Healthcare cost trend rates	7.75% decreasing to an ultimate rate of 4.00%
Retirees' share of benefit-related costs	0% to 100% premium amounts based on years of service

The discount rate was based on Bond Buyer 20-Bond GO Index.

Mortality rates were based on the following:

Pub-2010 headcount weighted mortality table, projected generationally using Scale MP-2021, applied on a gender-specific and job class basis.

The demographic assumptions are based on the Nevada PERS Actuarial Experience Study based on the 2023 Nevada PERS Actuarial Valuation. The salary scale assumption is based on the 2023 Nevada PERS Actuarial Valuation. The inflation assumption is based on the most recent Getzen Model released by the Society of Actuaries for long-term health care cost trend rates development.

The Fire Plan's total OPEB liability was measured as of June 30, 2025, and was determined by an actuarial valuation as of June 30, 2024.

Actuarial assumptions: The total OPEB liability for the Fire Plan as of June 30, 2025 was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Inflation	3.00%
Salary increases	Ranges from 4.66% to 14.86% based on years of service, including inflation and productivity increases
Discount Rate	5.20%
Healthcare cost trend rates	7.25% decreasing to an ultimate rate of 3.75%
Retirees' share of benefit-related costs	100% of premium amounts based on years of service

The discount rate was based on Bond Buyer 20-Bond GO Index.

Mortality rates were based on the following:

Healthy: For retirees and surviving spouses, PUB-2010 Safety Headcount-Weighted tables projected generationally with Improvement Scale MP-2021. For active employees, PUB-2010 Safety Employees Headcount-Weighted tables projected generationally with Improvement Scale MP-2021.

Disabled: PUB-2010 Safety Disabled Headcount-Weighted tables projected generationally with Improvement Scale MP-2021.

15. Postemployment Benefits Other Than Pensions (OPEB) (Continued)

OPEB Plans Not Administered Through Trusts (Continued)

The retirement, withdrawal, and disability assumptions are aligned with the most recent available Nevada PERS full pension valuation. The initial health care trend rates were set to be consistent with projected medical costs for the next four years and then grading to the ultimate trend assumption of 3.75% per year that is consistent with the economic assumptions used in the Getzen model published by the Society of Actuaries. The participation election is based on the Clark County Firefighters Union Local 1908 Security Fund's assumption that 90% of future retirees with at least 20 years of service will elect coverage upon retirement.

General Information about the Other Post Employment Benefit (OPEB) Plans

Plan Descriptions

Public Employees' Benefits Plan (PEBP) is a non-trust, agent multiple-employer defined benefit OPEB plan administered by the State of Nevada. Clark County Regional Flood Control District (the "District") subsidizes eligible retirees' contributions to PEBP. NRS 287.041 assigns the authority to establish and amend benefit provisions to the PEBP eleven-member board of trustees. The plan is now closed to future retirees, however, District employees who previously met the eligibility requirement for retirement within the Nevada Public Employee Retirement System had the option upon retirement to enroll in coverage under the PEBP with a subsidy provided by the District as determined by the number of years of service. The PEBP issues a publicly available financial report. The report may be obtained at <https://pebp.nv.gov/Resources/reports/fiscal-utilization-reports/>.

Retiree Health Program Plan (RHPP) provides OPEB to all permanent full-time employees of the District. The RHPP is a non-trust, single-employer defined benefit OPEB Plan administered by the District.

	PEBP	RHPP
Inactive employees or beneficiaries currently receiving benefit payments	1	7
Active employees	-	22
Total	1	29

As of November 1, 2008, PEBP was closed to any new participants.

Total OPEB Liability

The District's Total OPEB liability was measured as of June 30, 2024, and was determined by an actuarial valuation as of June 30, 2024.

Actuarial assumptions: The total OPEB liability for all plans as of June 30, 2025 was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.70%
Salary increases	3.50%
Discount Rate	3.93%
Healthcare cost trend rates	7.75% decreasing to an ultimate rate of 4.00%
Retirees' share of benefit-related costs	0% to 100% premium amounts based on years of service

The discount rate was based on Bond Buyer 20-Bond GO Index.

Mortality rates were based on the following:

Pub-2010 headcount weighted mortality table, projected generationally using Scale MP-2021, applied on a gender-specific and job class basis.

The demographic assumptions are based on the Nevada PERS Actuarial Experience Study based on the 2023 Nevada PERS Actuarial Valuation. The salary scale assumption is based on the 2023 Nevada PERS Actuarial Valuation. The inflation assumption is based on the most recent Getzen Model released by the Society of Actuaries for long-term health care cost trend rates development.

General Information about the Other Post Employment Benefit (OPEB) Plans

Plan Descriptions

Public Employees' Benefits Plan (PEBP) is a non-trust, agent multiple-employer defined benefit OPEB plan administered by the State of Nevada. Regional Transportation Commission of Southern Nevada (RTC) subsidizes eligible retirees' contributions to PEBP. NRS 287.041 assigns the authority to establish and amend benefit provisions to the PEBP eleven-member board of trustees. The plan is now closed to future retirees, however, RTC employees who previously met the eligibility requirement for retirement within the Nevada Public Employee Retirement System had the option upon retirement to enroll in coverage under the PEBP with a subsidy provided by the RTC as determined by the number of years of service. The PEBP issues a publicly available financial report. The report may be obtained at <https://pebp.nv.gov/Resources/reports/fiscal-utilization-reports/>.

Retiree Health Program Plan (RHPP) provides OPEB to all permanent full-time employees of the RTC. The RHPP is a non-trust, single-employer defined benefit OPEB Plan administered by RTC.

Benefits Provided

PEBP provides medical, dental, prescription drug, Medicare Part B, and life insurance coverage to eligible retirees and their spouses. Benefits are provided through a third-party insurer.

RHPP provides medical, dental, vision, prescription drug, and life insurance benefits to eligible retirees and beneficiaries. Retirees are eligible to continue coverage in the Clark County Self-Funded Group Medical and Dental Benefit Plan as a participant with active employees at a blended premium rate, resulting in an implicit subsidy. Benefit provisions are established and amended through negotiations between the respective unions and the RTC.

Employees Covered by Benefit Terms

At the June 30, 2024 measurement date, the following employees were covered by the benefit terms:

	PEBP	RHPP
Inactive employees or beneficiaries currently receiving benefit payments	16	56
Active employees	-	340
Total	<u>16</u>	<u>396</u>

As of November 1, 2008, PEBP was closed to any new participants.

Total OPEB Liability

The RTC's Total OPEB liability was measured as of June 30, 2024, and was determined by an actuarial valuation as of June 30, 2024.

Regional Transportation Commission of Southern Nevada (Continued)

Actuarial assumptions: The total OPEB liability for all plans as of June 30, 2025 was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.70%
Salary increases	3.50%
Discount Rate	3.93%
Healthcare cost trend rates	7.75% decreasing to an ultimate rate of 4.00%
Retirees' share of benefit-related costs	0% to 100% premium amounts based on years of service

The discount rate was based on Bond Buyer 20-Bond GO Index

Mortality rates were based on the following:

Pub-2010 headcount weighted mortality table, projected generationally using Scale MP-2021, applied on a gender-specific and job class basis.

The demographic assumptions are based on the Nevada PERS Actuarial Experience Study based on the 2023 Nevada PERS Actuarial Valuation. The salary scale assumption is based on the 2023 Nevada PERS Actuarial Valuation. The inflation assumption is based on the most recent Getzen Model released by the Society of Actuaries for long-term health care cost trend rates development.

Las Vegas Valley Water District

General Information about the Other Post Employment Benefit (OPEB) Plan

Plan Description

The Las Vegas Valley Water District (Water District) provides OPEB to all permanent full-time employees of the Water District. The OPEB plan is a single-employer defined benefit OPEB Plan administered by the Water District. The plan is reported as a Trust Fund in the Las Vegas Valley Water District's financial statements.

Benefits Provided

The OPEB plan provides medical, dental, vision, prescription drug, and life insurance benefits to eligible retirees and beneficiaries. Under the OPEB plan, employees who retire directly from the Water District are eligible to continue health benefits through Clark County, Nevada, the Water District's insurance provider. For retirees who retire with pension benefits unreduced for early retirement, the Water District pays the full premium for retirees and 85% of the premiums for their dependents until the retirees are eligible for Medicare or reach age 65. When the retirees are eligible for Medicare, or at 65, the retirees may continue coverage but must pay 100% of the premium. Retirees who retire early with reduced pension benefits can stay enrolled as a participant with active employees paying 100% of a blended premium rate, resulting in an implicit subsidy. Benefit provisions are established and amended through negotiations between the respective unions and the Water District.

Employees Covered by Benefit Terms

At the June 30, 2025 measurement date, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries receiving benefit payments	139
Active employees	1,320
Total	<u>1,459</u>

Contributions

The actuarially determined contribution (ADC) is equal to the service cost (that portion of Water District provided benefit attributable to employee service in the current year) plus an amortization amount of the net OPEB liability. The amortization of the net OPEB liability is based upon a level dollar amortization period over 20 years. The ADC represents the contribution that the Water District would need to make each year to fully fund its net OPEB liability over the next 20 years. The ADC was \$2,000,000 for the year ended June 30, 2025. The Water District's contribution is based upon pay-as-you-go financing. For the year ended June 30, 2025, the Water District's contribution was \$5,600,000, which is equal to the estimated benefit payments and an additional employer contribution of \$3,000,000.

Net OPEB Liability

The Water District's net OPEB liability was measured as of June 30, 2025, and was determined by an actuarial valuation as of July 1, 2024.

15. Postemployment Benefits Other Than Pensions (OPEB) (Continued)

Las Vegas Valley Water District (Continued)

Actuarial assumptions: The net OPEB liability as of June 30, 2025 was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.75%
Salary increases	3.00%
Investment rate of return	6.50%
Healthcare cost trend rates*	5.40% decreasing to an ultimate rate of 4.25%
Retirees' share of benefit-related costs	Retiree with full pension benefits not eligible for Medicare or age 65-15% for dependent coverage. All other retirees pay 100% of premium amounts.

*Healthcare cost trend rates trend up to 5.50% in 2026, then trend down to 4.25% in 2070.

Mortality rates were based on the following:

General and disabled headcount-weighted tables projected generationally with Improvement Scale MP-2020.

The actuarial assumptions used in the June 30, 2025 valuation were not based on a formal experience study. The actuary reviews the experience and assumptions each year and makes recommendations when a change is needed.

The long-term expected rate of return on trust assets was based on the investment policy of the State of Nevada's Retiree Benefit Investment Fund (RBIF), where the Water District's OPEB Plan invests its assets. Based upon the RBIF investment policy, the investment return is assumed to be 6.50%, net of expenses.

Discount rate: The discount rate used to measure the total OPEB liability was 6.50%. The projection of cash flows used to determine the discount rate assumed the Water District's contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the Water District's fiduciary net position was projected to be available to make all projected OPEB payments for current and inactive employees. Therefore, the long-term expected rate of return on the Water District's plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

General Information about the Other Post Employment Benefit (OPEB) Plans

Plan Descriptions

Public Employees' Benefits Plan (PEBP) is a non-trust, agent multiple-employer defined benefit OPEB plan administered by the State of Nevada. Eighth Judicial District Court (EJDC) subsidizes eligible retirees' contributions to PEBP. NRS 287.041 assigns the authority to establish and amend benefit provisions to the PEBP eleven-member board of trustees. The plan is now closed to future retirees, however, EJDC employees who previously met the eligibility requirement for retirement within the Nevada Public Employee Retirement System had the option upon retirement to enroll in coverage under the PEBP with a subsidy provided by the EJDC as determined by the number of years of service. The PEBP issues a publicly available financial report. The report may be obtained at <https://pebp.nv.gov/Resources/reports/fiscal-utilization-reports/>.

Retiree Health Program Plan (RHPP) provides OPEB to all permanent full-time employees of the EJDC. The RHPP is a non-trust, single-employer defined benefit OPEB Plan administered by EJDC.

Benefits Provided

PEBP provides medical, dental, prescription drug, Medicare Part B, and life insurance coverage to eligible retirees and their spouses. Benefits are provided through a third-party insurer.

RHPP provides medical, dental, vision, prescription drug, and life insurance benefits to eligible retirees and beneficiaries. Retirees are eligible to continue coverage in the Clark County Self-Funded Group Medical and Dental Benefit Plan as a participant with active employees at a blended premium rate, resulting in an implicit subsidy. Benefit provisions are established and amended through negotiations between the respective unions and the EJDC.

Employees Covered by Benefit Terms

At the June 30, 2024 measurement date, the following employees were covered by the benefit terms:

	PEBP	RHPP
Inactive employees or beneficiaries currently receiving benefit payments	28	105
Active employees	-	622
Total	<u>28</u>	<u>727</u>

As of November 1, 2008, PEBP was closed to any new participants.

Total OPEB Liability

The EJDC's Total OPEB liability was measured as of June 30, 2024, and was determined by an actuarial valuation as of June 30, 2024.

Actuarial assumptions:

The total OPEB liability for all plans as of June 30, 2025 was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.70%
Salary increases	3.50%
Discount Rate	3.93%
Healthcare cost trend rates	7.75% decreasing to an ultimate rate of 4.00%
Retirees' share of benefit-related costs	0% to 100% premium amounts based on years of service

The discount rate was based on Bond Buyer 20-Bond GO Index

Mortality rates were based on the following:

Pub-2010 headcount weighted mortality table, projected generationally using Scale MP-2021, applied on a gender-specific and job class basis.

The demographic assumptions are based on the Nevada PERS Actuarial Experience Study based on the 2023 Nevada PERS Actuarial Valuation. The salary scale assumption is based on the 2023 Nevada PERS Actuarial Valuation. The inflation assumption is based on the most recent Getzen Model released by the Society of Actuaries for long-term health care cost trend rates development

Changes in Assumptions: The discount rate was updated from 3.65% as of June 30, 2023 to 3.93% as of June 30, 2024. The trend rates were updated to an initial rate of 7.75% (6.75% for Post-65) grading down to an ultimate rate of 4.00%. The Select trend rates were updated to reflect the higher than anticipated rising healthcare costs environment. The termination and retirement rates were updated to the rates from the Nevada PERS Actuarial Valuation report as of June 30, 2023. The salary scale was updated from 3.0% to 3.5% based on the wage growth assumption from the 2023 Nevada PERS Actuarial Valuation. The marriage rate assumption was updated from 30% to 25%, based on aggregate elections experience.

Sensitivity of the total OPEB liability to changes in the discount rate: The following presents the total OPEB liability of the EJDC as well as what the EJDC's total OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (2.93%) or 1-percentage-point higher (4.93%) than the current discount rate:

	1% Decrease 2.93%	Discount Rate 3.93%	1% Increase 4.93%

16. Tax Abatements

State of Nevada Tax Abatements

For year ended June 30, 2025, Clark County tax revenues were reduced by a total of \$8,277,271 under agreements entered into by the State of Nevada that include the following:

- Aviation (NRS 360.753) – Partial abatement of one or more of personal property and local sales and use taxes imposed on aircraft, components of aircraft and other personal property used for certain purposes related to aircraft.
- Data Centers (NRS 360.754) – Partial abatement of one or more of property and local sales and use taxes imposed on a new or expanded data center.
- Renewable Energy (NRS 701A.370) – Partial abatement of one or more of property and local sales and use taxes imposed on renewable energy facilities.
- Standard (NRS 360.750) – Partial abatement of certain taxes imposed on new or expanded businesses.

The total amounts abated by agreement for Clark County for the year ended June 30, 2025, were as follows:

Agreement	Tax Abated	Amount Abated

Total		<u>\$ 8,277,271</u>

17. Department of Aviation Land Transfers

The Southern Nevada Public Land Management Act of 1998, Public Law 105-263, was enacted by Congress in October 1998. A provision of this law provided that the Bureau of Land Management (BLM), an agency of the U.S. Department of the Interior, transfer approximately 5,000 acres of land to the Department, without consideration, subject to the following:

1. Valid existing rights;
2. Agreement that the land be managed in accordance with the law, with 49 U.S.C. §47504 (relating to airport noise compatibility planning), and with regulations promulgated pursuant to that section;
3. Agreement that, if any land is sold, leased, or otherwise conveyed by the Department, such sale, lease, or other conveyance shall contain a limitation that requires uses be compatible with the Interim Cooperative Management Agreement and with Airport Noise Compatibility Planning provisions (14 C.F.R. Part 150); and
4. Agreement that, if any land is sold, leased, or otherwise conveyed by the Department, such sale, lease, or other conveyance shall be at fair market value. The Department contributes 85% of the gross proceeds from the sale, lease, or other conveyance of such land directly to the BLM for use in purchasing, improving, or developing other land for environmental purposes. The Department contributes 5% of the gross proceeds from the sale, lease, or other conveyance of such land directly to the State for use in its general education program. The remainder is available for use by the Department for the benefit of airport development and the Noise Compatibility Program.

Due to the uncertainty of any future benefit to the Department, a value has not been assigned to, nor was income reported relating to, land not yet sold or leased under the Southern Nevada Public Land Management Act of 1998. Gross proceeds from the sale and lease of land related to the Cooperative Management Area for the years ended June 30, 2025 were \$132,689,441. The Department of Aviation's share of these proceeds was \$13,268,944 for the year ended June 30, 2025. As of June 30, 2025, the Department of Aviation has \$84,057,517 payable to the BLM and \$4,944,560 payable to the State related to such land.

18 Subsequent Events

Primary Government

On August 19, 2025, the Board approved a resolution declaring the County's intent to reimburse itself from future bond proceeds or other indebtedness for certain project expenditures which are expected to be paid from Airport System revenues. The Department of Aviation intends to construct improvements to airport properties, including improvements associated with the Harry Reid International Airport modernization plan, in an aggregate amount not to exceed \$400,000,000.

On November 6, 2025, the Department of Aviation finalized the amendment for the extension of the credit facility with the 2008D-2A Bonds provided by Wells Fargo Bank, N.A. for a period of three years, extending the terms of the agreement through February 2029.

In the 36th Special Session of the Nevada Legislature, the Governor signed Senate Bill 7 into law, effective November 29, 2025. The bill revises provisions relating to occupational diseases for police officers and firefighters, removing the requirement that a disease of the lungs be caused by exposure to heat, smoke, fumes, tear gas, or any other noxious gases to be presumed to have arisen out of the course of employment. These provisions apply retroactively to any claims filed on or before the effective date of this bill. The County is currently assessing the financial impact of this bill on worker's compensation claims payable.

¹ In 2022, amounts reported as Changes of Assumptions resulted primarily from changes in assumed life expectancies as a result of adopting Pub-2010 General tables projected generationally using Scale MP-2020, with healthy annuitant rates increased by 30 percent for males and 15 percent for females, beneficiary rates increased by 15 percent for males and 30 percent for females, and contingent beneficiary rates increased by 30 percent for males and 15 percent for females. The prior year valuation used the Headcount-Weighted RP-2014 Employee/Healthy Annuitant tables projected to 2020 using Scale MP-2016 and the Headcount-Weighted RP-2014 Disabled Retiree tables projected to 2020 using Scale MP-2016 and set forward four years. For fiscal year ending June 30, 2022, future salary increases were assumed to range from 9.1 percent for employees with less than 1 year of service to 4.2 percent for employees with 20 or more years of service. The prior year valuation assumed future salary increases ranging from 9.15 percent for employees with less than 1 year of service to 4.25 percent for employees with 15 or more years of service. Assumed withdrawal rates for fiscal year ending June 30, 2022 ranged from 15.75 percent at 0 years of service to 1.5 percent for employees with 24 or more years of service. The prior year valuation assumed withdrawal rates ranging from 16 percent at 0 years of service to 1.75 percent for employees with 17 or more years of service.

Notes to Schedule

Valuation Date: Actuarially determined contribution rates are calculated as of July 1 of the fiscal year in which contributions are reported.

Methods and assumptions used to determine contribution rate as of the last actuarial valuation:

Actuarial cost method Entry Age Normal Cost Method

Amortization method 20-year amortization of unfunded liability (closed period) as a level percent of pay, using layered bases starting July 1, 2016. In prior years, 30 year amortization of unfunded liability (closed period) as a level percent of pay, using layered bases starting July 1, 2009.

Remaining amortization period Bases established between July 1, 2016 and July 1, 2020 have remaining amortization periods ranging from 14 to 20 years. Bases established between July 1, 2009 and July 1, 2015 have remaining amortization periods ranging from 16 to 22 years.

Inflation 2.75% per year.

Salary increases 4.20% to 9.10% depending on service; Rates include inflation.

Discount rate The discount rate used to measure the total pension liability was 6.75 percent. The projection of cash flows used to determine the discount rate assumed the District's contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the District's fiduciary net position was projected to be available to make all projected pension payments for current and inactive employees. Therefore, the long-term expected rate of return on the District's plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Investment rate of return 6.75%, net of pension plan investment expenses, including inflation.

Retirement age Normal retirement age is attainment of age 65. Unreduced early retirement is available after either 1) 30 years of service, or 2) age 60 with 10 years of service. Reduced early retirement benefits are available after attainment of age 55 and completion of 5 years of service (3 years of service if a participant prior to January 1, 2001).

Mortality Non-Disabled Participants - Pub-2010 General tables projected generationally with Projection Scale MP-2020. Healthy annuitant rates are increased by 30% for males and 15% for females. Beneficiary rates are increased 15% for males and 30% for females. Contingent beneficiary rates are increased 30% for males and 15% for females. Disabled Participants - Pub-2010 Disabled tables projected generationally with Projection Scale MP-2020. Disabled rates are increased by 20% for males and 15% for females.

Asset valuation method 5 year phase-in of gains/losses relative to interest rate assumptions.

GASB No. 67 requires the disclosure of the money-weighted rate of return on Plan investments. The money-weighted rate of return considers the changing amounts actually invested during a period and weights the amount of pension plan investments by the proportionate amount of time they are available to earn a return during that period. External cash flows are determined on a monthly basis and are assumed to occur at the beginning of each month. The money weighted rate of return is calculated net of investment expense.

Budgetary Information

The County uses the following procedures to establish, modify, and control the budgetary data presented in the financial statements:

- a. Prior to April 15, the County Manager submits to the Nevada State Department of Taxation the tentative budget for the next fiscal year, commencing on July 1. The budget as submitted contains the proposed expenditures and means of financing them.
- b. The Nevada State Department of Taxation notifies the County of its acceptance of the budget.
- c. Public hearings are conducted on the third Monday in May.
- d. After all the changes have been noted and hearings closed, the County Commission adopts the budget on or before June 1.
- e. The County Manager is authorized to transfer budgeted amounts within functions or funds, but the County Commissioners must approve any transfers between funds or increases to a fund's original appropriated level.
- f. Increases to a fund's budget (augmentations) other than by transfers are accomplished through formal County Commission action.
- g. The General Fund and all special revenue, debt service, and capital project funds have legally adopted annual budgets.
- h. Statutory regulations require budgetary control to be exercised at the function level within the General Fund or at the fund level of all other funds. The County administratively exercises control at the budgeted item level within a department.
- i. All appropriations lapse at the end of the fiscal year. Encumbrances are reappropriated in the ensuing fiscal year.
- j. Budgets are adopted on a basis consistent with the method used to report on governmental funds that are prepared in accordance with the accounting principles generally accepted in the United States of America.
- k. Budgeted expenditure amounts for the year ended June 30, 2025, as originally adopted, were augmented during the year for grants and other County Commission action.

Reconciliation of General Fund (Budget Basis) to the General Fund (Modified Accrual Basis)

This statement reconciles the General Fund as presented for budget purposes to the presentation required under the modified accrual basis of accounting.

The actuarially determined contribution rates in the schedule of contributions are calculated as of June 30, 2024. The following actuarial methods and assumptions were used to determine contribution rates reported in that schedule.

Actuarial cost Method	Entry age normal
Amortization method	<p>Effective June 30, 2022, the outstanding balance of all Regular amortization bases, except for the initial base dated June 30, 2004, were combined and re-amortized over a closed 20-year period, and the outstanding balance of all Police/Fire amortization bases, including the initial base dated June 30, 2004, were combined and re-amortized over a closed 20-year period.</p> <p>Any new UAAL as a result of actuarial gains or losses or a change in actuarial assumptions or methods will be amortized over 20 years.</p> <p>UAAL layers shall be amortized over "closed" amortization periods so that the amortization period for each layer decreases by one year with each actuarial valuation.</p> <p>UAAL layers shall be amortized as a level percentage of payroll.</p>
Asset valuation method	5-year smoothed fair value
Assumed inflation rate	2.50%
Payroll growth assumption for future years	3.50% per year for regular and police/fire employees
Assumed investment rate of return	7.25% (including 2.50% for inflation)
Mortality Rates:

Major Governmental Funds

This section is intended to report the reconciliation of the major fund balance sheets and statement of revenues, expenditures, and changes in fund balance reported on a budgetary basis to the major fund balance sheet and statement of revenues, expenditures, and changes in fund balance reported on a modified accrual basis. Major funds that do not require such a reconciliation are intentionally omitted. Additionally, this section provides additional budgetary comparison schedules of the general fund.

Crime Sales Tax Distribution Fund – to account for the collection and distribution to various jurisdictions of a one-tenth of one percent (0.10%) increase in the Clark County sales and use tax for the specific purpose of employing and equipping additional police officers. The sales tax increase went into effect on April 1, 2017.

LVMPD Crime Prevention Act Sales Tax Fund – to account for the allocation of the one-tenth of one percent (0.10%) increase in the Clark County sales and use tax within the jurisdiction of the Las Vegas Metropolitan Police Department – including unincorporated Clark, the City of Las Vegas, as well as specific allocations for the Las Vegas Strip resort corridor and Fremont Street Downtown corridor. The sales tax increase went into effect on April 1, 2017.

Human Services & Education Sales Tax Fund – to account for the proceeds of the additional one-eighth of one percent (0.125%) sales and use tax imposed as of January 1, 2020. The proceeds are required to be used in accordance with Section 8 of AB 309 from the 2019 Session of the Nevada state legislature.

Community Reinvestment Fund – to account for monies received to be dedicated for community reinvestment.

Post-Employment Benefits Reserve Fund * – to account for the County's obligations, and related expenses, associated with post-employment benefits for Clark County retirees.

Unincorporated Town Funds * – to account for the operations of each unincorporated town. Financing is provided primarily from ad valorem taxes and consolidated taxes. The towns include Bunkerville, Enterprise, Laughlin, Indian Springs, Moapa, Moapa Valley, Mt. Charleston, Paradise, Searchlight, Spring Valley, Summerlin, Sunrise Manor, Whitney, and Winchester.

Clark County Fire Service District Fund * – to account for fire protection services provided within Clark County. Financing is provided by sales and use taxes and ad valorem taxes which may only be used for such fire protection services.

Moapa Valley Fire District Fund – to account for fire protection services provided to the Moapa Valley area. Financing is provided primarily by sales and use taxes which may only be used for financing such fire protection services.

Mt. Charleston Fire District Fund – to account for fire protection services provided to the Mt. Charleston area. Financing is provided by sales and use taxes and ad valorem taxes which may only be used for such fire protection services.

*Reported in the general fund under modified accrual basis with the exception of Laughlin Town Fund, which is reported as a nonmajor special revenue fund.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the Honorable Board of County Commissioners
and the County Manager
Clark County, Nevada

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Clark County, Nevada (County) as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise County's basic financial statements, and have issued our report thereon dated January 9, 2026.

Our report includes a reference to other auditors who audited the financial statements of the University Medical Center of Southern Nevada, the Clark County Water Reclamation District, the Las Vegas Valley Water District, the Big Bend Water District, the Clark County Stadium Authority, the Las Vegas Metropolitan Police Department OPEB Trust, and the Las Vegas Valley Water District Pension and OPEB Plans, as described in our report on the County's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of County's internal control. Accordingly, we do not express an opinion on the effectiveness of County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
