### Analysis

#### Comprehensive Planning

The applicant shall establish the request is consistent with the overall intent of the Master Plan by demonstrating the proposed amendment 1) is based on changed conditions or further studies; 2) is compatible with the surrounding area; 3) will not have a negative effect on adjacent properties or on transportation services and facilities; 4) will have a minimal effect on service provision or is compatible with existing and planned service provision and future development of the area; 5) will not cause a detriment to the public health, safety, and general welfare of the people of Clark County; and 6) adherence to the current goals and policies of the Master Plan would result in a situation neither intended by nor in keeping with other core values, goals, and policies.

The applicant requests a change from Public Use (PU) to Compact Neighborhood (CN). Intended primary land uses in the proposed Compact Neighborhood (CN) land use category include single-family attached and detached homes, duplexes, triplexes, fourplexes, and townhomes. Supporting land uses include accessory dwelling units, multi-family dwellings, and neighborhood-serving public facilities, such as parks, trails, open space, places of assembly, schools, libraries, and other complementary uses.

The proposed Compact Neighborhood (CN) land use category on the site is compatible with the surrounding area. Compact Neighborhood (CN) will allow for a buffer and transition between Interstate 215 to the west and the existing single-family residential to the east. The site is also located on a collector street (Robindale Road) which will be able to accommodate the increased traffic volumes resulting from the proposed density. Furthermore, with the intended use of the site switching from a public use to a residential use, the Public Use (PU) land use category is no longer appropriate for the site. The request complies with Policy 1.4.4 of the Master Plan which encourages infill development and redevelopment in established neighborhoods while promoting compatibility with the scale and intensity of the surrounding area. For these reasons, staff finds

the request for the Compact Neighborhood (CN) land use category is appropriate for this location.
