BACKGROUND:

Clark County Social Services request that the Board of County Commissioners (Board) approve the submission of the grant application to HUD for the Northern Nevada CoC HMIS Project, and authorize the County Manager to accept any grant funds awarded. This is a 12-month project with an opportunity to apply for an annual renewal as part of the CoC consolidated application. Funding is anticipated to start April 1, 2027.

Pursuant to 24 CFR 578.7(b), HUD requires communities and recipients of CoC Program, Emergency Solutions Grant, and other federally funded programs to implement a HMIS and collect data on homelessness. A HMIS is designed to collect client data, generate unduplicated client counts, and track service utilization. Collected data is used by the local jurisdictions and HUD to understand homelessness in the region, plan for services, and allocate funding to end homelessness.

Clark County has successfully applied and received grant funds for HMIS activities since 2011. The grant has increased over the years as HUD has required additional data collection, analysis and reporting capabilities and associated costs. Additionally, the grant increases have coincided with the growth of homeless services provision within the community to provide the required access to HMIS for staff and case managers.

CCSS is applying for \$1,028,667 and the Regional HMIS Interlocal will provide a match of \$257,167 for this project. This grant application will be incorporated into the 2026 Southern Nevada CoC consolidated application that is anticipated to be due to HUD in the Fall of 2026.

The item has been approved as to form by the District Attorney's office.
