SEC. 1. OPENING CEREMONIES

CALL TO ORDER

The meeting was called to order at 9:01 a.m. by Chair Naft with the following members present:

Commissioners Present:

Michael Naft, Chair
William McCurdy II, Vice Chair
April Becker
Jim Gibson
Justin Jones
Marilyn K. Kirkpatrick
Tick Segerblom

Absent:

None

Also Present:

Kevin Schiller, County Manager
Lisa Logsdon, Deputy District Attorney
Lynn Goya, County Clerk
Jewel Gooden, Deputy Clerk
Nancy Maldonado, Deputy Clerk

MICHAEL NAFT

Good morning, I'm going to ask everybody who can get settled in. Is this on? Good morning. I'd like to welcome everybody to the May 19 meeting of the Clark County Commission. We will begin today's meeting with the invocation. If you'd like, please rise and we'll welcome Aron Ra to the podium. Good morning.

INVOCATION

The invocation was given by Aron Ra, The Satanic Temple.

PLEDGE OF ALLEGIANCE

The Pledge of Allegiance was stated by the assembly in attendance.

SEC. 2. COMMISSIONERS' / COUNTY MANAGER'S RECOGNITION

1. Recognize and present proclamations to honor Nevada's Mother of the Year recipients. American Mothers, Inc., based in Washington, D.C., is a non-profit organization committed to honoring mothers for their leadership and service at home, at work, and in the world.

ACTION: RECOGNIZED.

Attachment(s) submitted and filed with the County Clerk's Office

MICHAEL NAFT

Thank you. Good morning, Manager Schiller.

KEVIN SCHILLER

Good morning, Commissioners. Your first item is to recognize and present proclamations to honor Nevada's Mother of the Year recipients, American Mothers Inc. based in Washington, D.C. Which is a nonprofit organization committed to honoring mothers for their leadership and service at home, at work, and in the world.

JIM GIBSON

Thank you. Thank you.

MICHAEL NAFT

Victor, is the handheld on?

JIM GIBSON

There we go. Thank you very much. Each year in partnership with American Mothers, Inc., we're pleased to honor outstanding women who contribute to our community, nurture their families, and who view motherhood not as a role, but as a journey of mutual growth. Please join me in recognizing these outstanding women today.

We want to thank those who are responsible for helping us know and understand who the selections are. These are remarkable people who have accomplished a great deal in their families and in their lives, and we appreciate their example. The 2026 Nevada Mother of the Year is Sarah Banda. We'd invite you to come forward. The 2026 Nevada Mother of Achievement is Kathleen Miller. And the 2026 Nevada Legacy Mother of the Year, our own Mary Beth Scow. And the 2026 Candy Krausman Mothers of Honor are: Jeanalin Rehm, Christina Smith, and Mary Wardle.

Deborah Earl, would you stand? Deborah is the President of the Nevada Chapter of the American Mothers, Inc. Thank you very much for all your work and for what you do. It's always easy to do this recognition, because we all have one. We thank you very much for the remarkable achievement that you have accomplished over the years. And we know that you earned it day after day after day, sometimes brutal day, after brutal day, after brutal day. We appreciate very much your willingness to be here with us today. And this is an interesting world today, so, being proudly here to receive an award for being a mother is something that is of real note to us. Thank you very much and congratulations to all of you.

- 2. Recognize Asian Pacific Islander Middle Eastern (APIME) Heritage Month. Celebrate and honor exceptional citizens and organizations in Clark County.

ACTION: RECOGNIZED.

Attachment(s) submitted and filed with the County Clerk's Office

KEVIN SCHILLER

Commissioners, your next item is to recognize Asian Pacific Islander Middle Eastern (APIME) Heritage Month. Celebrate and honor exceptional citizens and organizations in Clark County. Commissioner Jones.

JUSTIN JONES

Thank you, Mr. County Manager. Good morning. Today and every day, we celebrate the extraordinary achievements, history, and vibrant culture of our Asian, Pacific Islander, and Middle Eastern communities

right here in Clark County. Before we begin the presentations, I want to share a special thank you to the Lohan School of Shaolin for their incredible, powerful performance that brought so much energy to this room this morning. Let's give them a round of applause.

We're going to queue the videos highlighting our honorees, and as the video rolls, you'll hear your name called, so please step forward over here and join us on stage. And I want to give a huge thank you to Kalifano and the Khalaf family for creating stunning, unique geode awards and plaques. Your generosity year after year elevates this community. And to our honorees, thank you for everything you do to make Clark County a more dynamic and beautiful community. Roll tape.

(Video Presentation Begins)

JUSTIN JONES

Hi, this is Justin Jones, County Commissioner for District F. This May, Clark County is proud to join our community in celebrating APIME Heritage Month. This is a vital time for reflection and celebration as we honor the rich history, diverse cultures, and profound contributions that APIME residents bring to Southern Nevada.

Today, I'm privileged to recognize four exceptional individuals whose dedication and leadership continue to strengthen the soul of our community and inspire us all. First, we recognize Coach Kapp. Coach Kapp founded the Sasa Squad Foundation in 2020, to provide local youth with a physical and mental outlet during the pandemic. What began as a volunteer effort has grown into a citywide movement offering free high level football training, to over 100 participants. Coach Kapp used the field to teach leadership, self-discipline, and resilience, empowering our kids to flourish both in athletics and in life. Coach, thank you for your visionary leadership.

Our next honoree is Jhenna Strasser, Human Trafficking Task Force Manager at the Las Vegas Metropolitan Police Department (LVMPD). Jhenna has dedicated her career to victim advocacy, spending years with Metro and the Family Justice Center, supporting survivors of domestic violence and human trafficking. By founding a regional advocate coalition and leading multi-agency coordination efforts, Jhenna has transformed how our community responds to exploitation. Jhenna, thank you for your relentless pursuit of justice and for being a voice for the vulnerable.

We also honor Raja Mourey, a dedicated educator, life coach, and President of the Las Vegas Agent Chamber of Commerce. As a Lebanese-American leader, Raja has spent his life working to help others realize their full potential, through his agency and on purpose coaching. While Raja could not be here today, we are honored to have his wife, Rana, accept this award on his behalf. Raja's commitment to self-growth and community mentorship has left a lasting mark on our local business landscape. We are proud to recognize his impact.

Our final honoree is Genevieve Galman, a prominent first generation Filipina-American attorney and community advocate. As President of the Asian Bar Association, and the Filipino-American Lawyers Association of Nevada, Genevieve has been a trailblazer in expanding legal access for our most vulnerable residents. From recruiting hundreds of pro bono attorneys to establish vital mentorship programs for law students, she is a champion for diversity and justice. Genevieve, thank you for your tireless advocacy and for leading the way for future generations.

TICK SEGERBLOM

Hi, I'm Commissioner Tick Segerblom, proudly representing District E. Together we recognize APIME Heritage Month. An important time to celebrate the cultures, histories, and contributions of APIME

communities, here in Clark County and around our nation. Our community is stronger, more vibrant, and more resilient, because of the diversity and leadership within these communities. This month is not only about honoring heritage, but also about recognizing the lasting impact APIME leaders have made, and continue to make, in shaping our region.

Today, I'm thrilled to recognize three incredible leaders in our community. My first distinguished honoree is Dean Leah Chan Grinvald. Dean Grinvald serves as the Dean and Richard J. Morgan Professor of Law, at the William S. Boyd School of Law, at UNLV (University of Nevada, Las Vegas). She's the first permanent female dean and the first Asian-American to hold this role. Her distinguished career spends private practice international law firms, service as global corporate counsel and leadership and legal education. She's deeply committed to educating the next generation of leaders and advancing civic engagement, both in Nevada and nationwide. I'm also proud to serve with her on the cannabis committee at UNLV.

My second distinguished honoree is Paulina Douangpanya. A proud two-time graduate of UNLV, Paulina has dedicated her career to public service. She began as a District Representative for Congresswoman Susie Lee, working closely with constituents to address local needs, and connect them to vital resources. Today, she continues her service through her work in government relations at Advanta Energy, strengthening communities across the Southern Nevada. If I need something at Nevada Power, I reach out to Paulina. She is a true gem as far as responding, making things happen, and unbelievable, frankly.

My third and final distinguished honoree is Angelica Villarta. Angelica is a community leader, creative strategist, and ecosystem builder, whose work brings together, culture, business, and public engagement. She was perfect for when we created Filipinotown. She helped organize it, made sure everything got off on time, coordinated the whole thing, and it was fantastic what she did. Through her leadership and platform, HAAPIRoots, she creates meaningful spaces that celebrate culture, uplift diasporic voices, and foster connection across our diverse communities.

Dean Grinvald, Paulina, and Angelica, thank you for your leadership, your service, and your commitment to uplifting District E. You have helped me so much in my work and all my constituents, so I can't thank you enough. I'm grateful for the impact you have helped me make in our community.

WILLIAM MCCURDY II

Good morning. I'm Clark County Commissioner William McCurdy II. It is an honor to join you in recognizing APIME Heritage Month. A time to celebrate the rich cultures, history, and contributions that continue to shape and strengthen our community here in Clark County. This month is not only about reflection, but about uplifting the leaders among us who are building a more inclusive, and equitable future for all. Today, I'm proud to recognize three outstanding individuals whose work embodies service, leadership, and community impact.

Farrah Acheson is a resilient and passionate community advocate whose journey as an immigrant, small business owner, and public servant, has shaped her commitment to uplifting others. She served as Vice President of Majid Tahid and Chair of the Democratic Muslim Caucus, where she continues to elevate community voices and advocate for inclusion. A strong voice for families navigating uncertainty and a champion for women, and also future leaders. Farrah is creating space for others to be seen, heard, and empowered.

Felipe Danglapin is a dedicated leader whose career has been rooted in expanding opportunities for working families, particularly within Nevada's Filipino, and AAPI communities. Through his leadership as Chief Operating Officer for SEIU (Service Employees International Union) Local 1107, and his deep involvement in civic and community organizations, Felipe has helped create pathways for financial

empowerment, civic engagement, and economic growth. His work reflects a powerful commitment to lifting others, and strengthening the fabric of our community.

Sam Shaw brings more than 25 years of experience in grassroots organizing, and advocacy for working families. His leadership with SEIU Local 1107 has helped bridge the gap between worker justice, and community empowerment. Advancing efforts that expand healthcare access, protect essential services, and ensure that more voices are heard. Guided by his personal story and deep sense of responsibility, Sam continues to champion dignity, equity, and opportunity for all.

Together, these honorees remind us that true leadership is grounded in service, and our community is strongest when we lift up one another. Congratulations and thank you for your continued dedication to Clark County.

MICHAEL NAFT

Thank you, Commissioner Jones, for once again leading today's APIME Heritage Month. I am proud to introduce District A's honoree, Katherine Francisco, Founder and President of the AAPI, Chamber of Commerce of Southern Nevada. She has spent 30 years of experience in public policy, advocacy, business development, and more. Her career has been dedicated to the success of independent businesses, connecting entrepreneurs with vital resources, and organizing countywide events that provide platforms for businesses to grow and gain exposure.

Catherine ultimately founded the AAPI Chamber on three core pillars: representation, advocacy, and resources. At the heart of her work, she wants to see independent businesses succeed. Catherine's community service includes: leading the media committee for the Southern Nevada Census 2020, serving on the YMCA Marketing Committee, Clark County's Pedestrian Safety Committee, and Board of Family Promise. She is a stakeholder in the Spring Mountain Redevelopment Project, an Advisor for Filipinotown, and is also working on the fair working group of RTCNSN.

Thank you for your work and advocacy, Catherine, for your friendship and for your leadership here in Southern Nevada, and congratulations.

JIM GIBSON

In recognition of APIME Heritage Month 2026, I'm pleased to honor Sgt. (Sergeant) Chris Kinman, with the LVMPD. Sgt. Kinman has been with Metro since 2010 and has been a part of several critical incidents. 10October and more recently, the UNLV active shooter situation, where he was awarded the Medal of Valor for being one of the first officers inside the UNLV Building.

I was fortunate enough to work with Sgt. Kinman, when he was a COP Sgt. for the South Central Area Command. Besides his everyday work duties serving constituents of Districts A, E, and G, Chris was instrumental in working with my office to kick off the guns versus hoses pickleball tournament and toy drive, which is now in its fourth year. He has recently moved on to Metro's Community Engagement Bureau, where he will no doubt continue to excel since community service is what drives him.

Sgt. Kinman raised over \$125,000 for Behind the Blue. Behind the Blue is dedicated to promoting the physical and mental wellness of law enforcement personnel in Southern Nevada. A few more examples of Chris's community-driven commitment include him serving as a board member on the Police Managers and Supervisors Association Charitable Foundation. A nonprofit arm supporting local community initiatives, youth programs such as Cops for Kids, and educational scholarships. He also serves on the Special Olympics Nevada Torch Run Board. Chris is a father of six amazing kids, five boys and a girl ranging in age from one to 15 years. Congratulations to Sgt. Chris Kinman, on this truly deserved recognition. I

thank you for your impactful contributions, not only in your service to Clark County, but to the entire community.

APRIL BECKER

Hi, everyone. I'm Commissioner April Becker. And during APIME Heritage Month, I'm honored to recognize Jan-le Low for her incredible leadership and service to our community. Jan-le is a respected business leader, Founder of Golden Catalyst, former owner of Satay Thai Bistro & Bar and Creator of CNY in the Desert, a nationally recognized Lunar New Year celebration that has brought culture and community together, in Las Vegas for 15 years. She currently serves as Senior Vice President of Corporate Strategy and Development, at National ACE, where she helps support entrepreneurs across the country.

Through her work, supporting small businesses, serving on the White House Initiative on Asian-Americans and Pacific Islanders, and giving back to our community, Ja-le continues to make a lasting impact across Southern Nevada. Jan-le, thank you for everything you do to support small businesses, celebrate culture and strengthen our community. We are grateful for your leadership and proud to recognize you during APIME Heritage Month. Congratulations.

MARILYN K. KIRKPATRICK

Hi, I'm Marilyn Kirkpatrick, Clark County Commissioner for District B. May is APIME Heritage Month. It's a time to celebrate diverse cultures, histories, and contributions of these vibrant communities. As you know, each one of the commissioners honor someone for this important month. I am proud to honor Ken Diaz for his commitment and service to our community. He is our Treasurer here at Clark County. He has a plethora of jobs to do. For instance, he oversees a \$10 billion portfolio, to make sure that the taxpayer money is being well spent and cared for. He oversees the \$11 billion budget. He processed hundreds of thousands of checks every single year on behalf of Clark County.

Ken has been in our community for a very long time. He went to Cashman Middle School. He went to Clark High School. He graduated from UNLV. He then went on to work for the Big Four, which is also known as the large CPA (Certified Public Accountant) companies around the country. And so, Ken is a licensed CPA, but he's so much more than that to the community. He's always given back. He goes out, he speaks with people. He has two children. He's a retired U.S. vet with the Air Force, so that's just a beginner of what Ken does.

Ken, thank you so much for your service to our community. Thank you for the 22 years that you've given here at Clark County. 10 of those years were in budget and internal audit. Thank you for being our Treasurer and we look forward to celebrating you all year long. Congratulations to all of the recipients today and thank you for making Clark County that extra special place.

(Video Presentation Ends)

JUSTIN JONES

Give them one more round of applause.

3. Recognize and present a proclamation designating May 2026 as National Mental Health Awareness Month in Clark County and honor Cook Center for Human Connection for their efforts to expand mental health access; and unveil a new mental health awareness campaign.

ACTION: RECOGNIZED.

Attachment(s) submitted and filed with the County Clerk's Office

KEVIN SCHILLER

Commissioners, your next item is to recognize and present a proclamation designating May 2026 as National Mental Health Awareness Month in Clark County and honor Cook Center for Human Connection for their efforts to expand mental health access; and unveil a new mental health awareness campaign. Commissioner Jones.

JUSTIN JONES

Thank you, Mr. County Manager. As we all know, May is Mental Health Awareness Month. We were out there changing the Welcome Las Vegas sign green in recognition of this important month. And today we're proud to unveil a powerful mental health awareness video created by Clark County in partnership with the Cook Center for Human Connection, and so many incredible voices from across Las Vegas community. This project came about reminding people that they are not alone, and that help, hope, and support are available right here in Clark County. Mental health impacts individuals and families from every background, every age, and every community.

This video brought together incredible group of voices, including: Penn & Teller, Carrot Top, Oscar De La Hoya, Connor Fields, community leaders, athletes, entertainers, first responders, educators, and local organizations, all united behind one message. Mental health matters and no one should struggle alone. This video has continued commitment to supporting our community year round. We encourage everyone to share the video and check in one other. Let's go ahead and roll the video.

(Video Presentation Begins)

Las Vegas, like communities everywhere, has seen the impact mental health struggles can have on individuals and families.

Life will knock you down.

Even creative minds get in a bind.

It's okay to shift gears when you need to.

Even the loudest voices need quiet moments.

Find your space, and give yourself a moment.

We know the power of showing up for one another.

Your mental health matters.

Courage is speaking up, reaching out, and asking for help when you need it.

Every reset is a new round.

Even the best drivers know when to slow down.

Check on your people like you check your prep.

Even headliners need support. And laughter heels, but so does asking for help.

Because strength isn't staying silent.

It's okay to reach out.

The real magic is asking for help.

It takes courage to ask for help. And no one should have to carry what they're going through alone.

You are not alone.

You're not alone.

You are not alone.

You are never alone.

There are people who care, resources that can help, and a community ready to stand with you.

Our community needs you.

Our community needs you.

Taking care of your mental health is not a weakness. It's one of the strongest things you can do.

Success means nothing, if we're not taking care of ourselves and the people around us.

*Your mental health is everything, so fight for it.
And in Las Vegas, showing up for one another is what makes us strong.
Together, Vegas strong.
Together.
Together.
Together.
Together.
Together.
We are Vegas strong.
Vegas strong.
Together we are Vegas strong.
Together we are Vegas strong.
Visit parentguidance.org today. Explore the resources, start the conversations, get the help you deserve.*

(Video Presentation Ends)

JUSTIN JONES

With that, I'm going to invite down Mark Welling and Mary Cass from the Cook Center for Human Connection. They've been working on providing resources, particularly to parents. We know that through COVID, lots of kids, including my own, struggled with mental health challenges and they have provided some fantastic resources that compliment all of the work that Clark County is doing, to bring resources to our community on mental health. I'm going to pass the microphone to my friend, Mark.

MARK WELLING

Thank you, Commissioner. We're proud of this partnership and especially for this critical message that's coming out to our communities. Partnering with Clark County at the Commissioner's office, Commissioner Jones, the work that Christina did with many voices in this community that shared the message, that there's a power and connection. And that will uplift everyone in our community, that have access to these important resources. So, thank you for this partnership. And we hope that you share this message and check out on your neighbors, your communities, your loved ones, not only during this month, but always. To make sure that we have a strong, thriving community, because there's always power and connection. So, thank you.

JUSTIN JONES

Thank you.

4. Present a proclamation to Steve Grierson, Court Executive Officer, in recognition of his retirement and many years of public service within the Clark County justice system.

ACTION: PRESENTED.

Attachment(s) submitted and filed with the County Clerk's Office

KEVIN SCHILLER

Commissioners, your next item is to present a proclamation to Steve Grierson, Court Executive Officer (CEO) in recognition of his retirement and many years of public service within the Clark County justice system.

TICK SEGERBLOM

I was talking to Steve about making sure everyone came out, and I said, "You're here to make sure he's leaving, right?" Anyway, Steve is really the definition of herding cats. Trying to run District Court judges who think they're all superior is almost impossible, but you've done a fantastic job. More importantly, he's reached out to different courts. We have courts that deal with different kinds of people that we all need to respect and honor. And so, I can't be proud enough about what you've done, Steve. And again, thank you so much for making Clark County better. I don't remember, Jim, how many judges there were when we started, but probably like 10 or 11?

JIM GIBSON

I think there were 10.

TICK SEGERBLOM

10. And now how many are there?

JUSTIN JONES

58.

STEVE GRIERSON

58.

KEVIN SCHILLER

58.

TICK SEGERBLOM

You can see what he's had to manage, so, good luck. Anyways, Steve, do you want to say a few words?

STEVE GRIERSON

Sure. Thank you, Commissioner Segerblom, Commissioners Kevin, Jessica, for giving me this opportunity to be recognized in front of your body. I've had a wonderful opportunity and humbled to serve the Eighth Judicial District Court here in Clark County for, it'll be 29 years when I retire. You're not able to be successful as a CEO without great chief judges. I've served with Art Richie, Jennifer Togliatti, Eddie, Dave Barker, Elizabeth Gonzalez, Linda Bell, and our current chief, Jerry Weiss. These are wonderful, incredible leaders and people. I have a great deal of respect and appreciation and a sincere thank you for their leadership, while I've been the CEO.

Our staff is incredible. The people that work for us are incredible, and I really appreciate all the people that have served District Court for all these years. Obviously, my wife has conjured up all of our favors for all of our family members to show up today, and all of our friends, just to make sure the crowd has some people that support me, which is very nice. I couldn't do it without my family. My son Andrew, my beautiful wife, Gretchen. I'm very honored to have served District Court in Clark County for all these years, so, thank you.

TICK SEGERBLOM

Thank you. Thank you, Steve, again. And in reference to the fact that Steve has reached out to made all these specialty courts, we now have an honor for the LIMA Project, which is one of those that coordinates with the police department. It's fantastic. So, nobody-

MICHAEL NAFT

(Inaudible).

TICK SEGERBLOM

Oh, sorry.

MICHAEL NAFT

You can read it.

5. Present a proclamation to the LIMA Program and staff in recognition of their service to the community.

ACTION: PRESENTED.

Attachment(s) submitted and filed with the County Clerk's Office

KEVIN SCHILLER

I'll now read it. Your next item is to present a proclamation to the LIMA Program and staff and recognition of their service to the community. Commissioner Segerblom.

TICK SEGERBLOM

Again, just thank you, LIMA, for what you've done, reaching out to the community. We all know that if we can divert people out of the criminal justice system, that's by far the best way to go. And they're a great, fantastic program working hand in hand with Metro. So, thank you all for coming down and ask you to say a few words. I think this is the true definition of a rose among thorns.

ANGEL LASH

Wow. This is such an honor. I'm going to keep it short and just say, what an honor it is to be up here with these amazing leaders in our community. Thank you, Commissioners, for what you do, your compassion, community, thank you Commissioners for what you do and your compassion and passion to serve. Thank you for the partnership between Eighth Judicial District Court and the LVMPD.

Our partnership is crucial to the work we get to do to serve our community with the LIMA Diversion Program, which stands for Law Enforcement Intervention for Mental Health and Addiction. As we partner together, we're partnering with the vulnerable individuals that we get to serve in this community, which we are so grateful to do. Without our partnership, we wouldn't be able to help with those public safety needs, help our people find a pathway to recovery. Each and every day, I am honored to be beside these amazing men, getting a chance to do that and obviously helping them not cycle through the judicial system. Though we get to represent that, our goal is to connect them to the amazing services in our community to make sure we stay alongside them while they find their pathway and then hopefully be able to give back to the community that has given so much to them by restoring their families, restoring their faith, restoring their dignity, their pride. And so we are so honored that we get a chance to do that each and every day. So thank you.

TICK SEGERBLOM

Thank you. Thank you guys again.

6. Recognize the Clark County Social Services Department and their non-profit partner, Nevada Senior Services, for receiving the 28th Annual Cashman Good Government Award for their Hospital 2 Home program.

ACTION: RECOGNIZED.

Attachment(s) submitted and filed with the County Clerk's Office

KEVIN SCHILLER

Commissioners, your next item is to recognize the Clark County Social Services Department and their nonprofit partner, Nevada Senior Services, for receiving the 28th Annual Cashman Good Government Award for their Hospital 2 Home program. I'll do the presentation on this briefly. The Cashman Good Government Award honors government entities and individuals who put workplace experience together to make citizens' services work better, faster, and cheaper. It's innovative refinements of government operations and changes to processes and procedures that save staff and process timing. More specific to Social Service and Nevada Senior Service, the Hospital 2 Home program, I actually began work on this almost eight years ago. This supports individuals with complex discharge needs and their transition from Hospital 2 Home, reduces long-term hospital stays, frees critical community services and increases access to hospital beds. I'm going to wait a sec.

Yeah. The other piece that I want to add to this, this is just another highlight of Clark County's amazing work. This annually serves over 740 individuals and it's estimated that it's saving over \$11.9 million in return on investment by preventing costly readmissions and also improving the health and wellness of our constituents and our clients. So, I really want to congratulate Social Services, Nevada Senior Service on this. They know I'm selfish to them and very proud of this.

- 7. Recognize Clark County employees who have been selected as Clark County Value Champions.

ACTION: RECOGNIZED.

Attachment(s) submitted and filed with the County Clerk's Office

KEVIN SCHILLER

Commissioners, your last recognition item is to recognize Clark County employees who have been selected as our Clark County Value Champions.

(Video Presentation Begins)

MARILYN K. KIRKPATRICK

Hi, I'm Marilyn K. Kirkpatrick and I'm here on behalf of my entire office in District B, and we really want to give a big shout-out to Josh Erickson. While there's so many great employees here at Clark County, we recognize each and everything they do and make a difference. Josh has gone above and beyond on so many different instances. We wanted to make sure that he gets his own personal shout-out. Josh, thank you for all that you do. There's not been a time where you have said no. You show up every time, you make sure everything is all well put together. You find the resources. I can't think of anything that you haven't done when asked and that you haven't offered when I haven't even asked. So, Josh, thank you so much for all you've done. Clark County is so lucky to have you and we can't wait until we get to work with you again. Thank you again, Josh.

PAM KOCESKI

Hi, my name is Pam Koceski and I am very honored to be here today to speak about the Clark County Fire Department IT (Information Technology) Division. These four individuals handle 32 fire stations, 10 rural fire stations, 365 days a year, 7 days a week, 24 hours a day. If anyone deserves to be recognized, it's Eric, Anthony, Ahmaud, and Chris. So, congratulations, you deserve this.

(Video Presentation Ends)

MICHAEL NAFT

Victor, I'm sure you're working on the next video. Oh, that was the whole team. Wow.

KEVIN SCHILLER

How about a shout-out for Clark County and our employees? Just a couple notes. I think last month I had to say the same thing, but I want to say it again on the RPM (Real Property Management) side, when you talk about 500 plus buildings and every little detail that goes in with that specific to Josh, I get to sit with him pretty regularly on multiple projects. So not only existing buildings, TIs, new buildings. I'm going to give a shout-out for one. We have a opioid treatment center we're working on off of Buffalo. I think I told him when I was there, it's probably one of the most amazing jobs I've seen related to converting a building into a treatment center. So, they just do endless work. I think he's a representative of RPM and all the things they do every day.

And then for fire, what can I say? Yesterday we were at a training center groundbreaking. Back of the house, you guys are doing a lot. There's emergencies, there's response, there's constituents. As I always say, you have to connect all the dots and you guys run like a Porsche. If things aren't working, things go down and you're dealing with people's lives. So really want to recognize you and then I want to hand it over to Commissioner Kirkpatrick to see if she wants to say anything.

JIM GIBSON

Oh, are you kidding?

MARILYN K. KIRKPATRICK

I wasn't planned, but I'm pretty good on my feet. Look, Clark County, I always say we got to tell our story because we have 10,000 plus amazing employees. And the thing about most county employees is it's never no. How do we get there and what issue are you trying to solve? So, you all are a representation of that. And I was just telling Commissioner Gibson specifically to Josh is that Josh starts in Henderson at 5:30 in the morning and gets home at 8:30 in Henderson at night, but it's seven days a week. And that is really a testament to who we are as county employees and what we do. We are so busy fixing and providing and servicing and making sure that everything is together so when people do come to us that we have a safe and stable place for them to get what they need.

So, we couldn't do it without all of you and you are a real postage stamp of what Clark County has to offer. So, congratulations, but most importantly, please thank all of your families because I know that families have to wait a minute for baseball games or dinner at night and it's because you are serving the public and we appreciate that. So, on behalf of all the Commissioners, congratulations.

SEC. 3. PUBLIC FORUM

8. Public Comment

MICHAEL NAFT

Well, thank you everybody. And thank you for those who are here for participating in that recognition ceremony this morning. It, I think, clearly demonstrates the breadth of what we do at Clark County and just how much is going on in this organization. So, we thank you for that. This can bring us to section three of our agenda, which is the public forum. This is the first time set aside for public comment period for items that are on today's agenda. Anyone wishing to speak can come forward at this time, speak for up to three minutes and please state your name for the record.

MIGUEL CANALES

Good morning, County Commissioners. My name is Miguel Canales from the Culinary Union speaking on Item 71. Last Friday, DBE (Disadvantaged Business Enterprise) workers talked to the general managers about the tenant agreement and we still don't know why the company's taking so long to sign. I have a DBE worker would like to comment on this.

CHRIS SIGNS

Good morning, Commissioners. My name is Chris Signs. I was here two weeks ago. The committee accepted the company proposal on May 1. My colleagues, Tony and Manny, who are at that meeting, were there. It has been 19 days later and the companies have stalled. We cannot let the DBE companies continue to delay. Our workers need this wage increase and retro pay. This delay is unacceptable. I hope we can count on the County Commissioners for your support so we can finish the process and get a fair contract. Thank you.

MICHAEL NAFT

Thank you. Good morning. And if you want to line up at two different microphones, we'll take you one at a time. Good morning.

BRIAN AYALA

Good morning, Commissioners. Brian Ayala, 4149 Wagon Trail Lane representing the Day One Group, one of the 9 ACDBE (Airport Concession Disadvantaged Business Enterprise) companies. We have come to an agreement with the union. We're just going through the process of dotting the Is, crossing the Ts, making sure all nine entities have a chance to review. That's it. There's nothing holding anything up.

MICHAEL NAFT

Thank you. Good morning.

NOAH FISHELL

Good morning. My name is Noah Fischell and at this point I would actually like to yield my three minutes to Ms. Lisa Mayo-DeRiso.

MICHAEL NAFT

So, we don't yield time. She can have her own three minutes, she's entitled to. Thank you. Good morning.

LISA MAYO-DERISO

Good morning. Okay, so I'm going to try to make this fit in with the three minutes that I've been given. Today, the Clark County Commission wants to sell the public a polished, sanitized version of the Las Vegas Grand Prix resolution. They want residents to hear three day race weekend. They want the headline to sound—

MICHAEL NAFT

I don't want to interrupt, but I'm sorry. Under our rules, you have to state your name for the record.

LISA MAYO-DERISO

I'm so sorry.

MICHAEL NAFT

That's all right.

LISA MAYO-DERISO

Lisa Mayo-DeRiso, Mayo & Associates. Is that good? Thank you.

They want the cameras focused on the strip light celebrity parties and corporate sponsors, but the people who actually live here know the truth. This is not a three-day event. This is months of lane reductions, traffic nightmares, torn up roads, blocked access, disrupted commutes, delayed deliveries, and customers who simply stop coming. Businesses near the race corridor are devastated annually by the impacts from construction and road closures tied to Formula One preparations. And now the Commission wants to extend the chaos to 2037. Think about that.

The resolution talks about race days, but where is the language about the months of disruption leading up to those race days? Where's the language about the restaurant owner who loses regular customers because nobody can get to their business? Where's the language about workers stuck in traffic for hours? Where's the language about local families avoiding the entire corridor because getting anywhere becomes a nightmare. It's missing because those realities are inconvenient to the sales pitch. The mega resorts cash in, international businesses may cash in, but small businesses, the backbone of this community are too often left behind. And let's be honest about something else, the Commission is trying to lock future residents, future businesses, and future elected officials into a long-term arrangement before the public has truly had an honest, open, transparent conversation about this event.

And here's the part that nobody wants to hear. It's three days until early voting begins. Ballots are sitting on kitchen counters all across Clark County right now. The voters are paying attention. And if residents are tired of the traffic, tired of the disruptions, tired of politician putting corporate interests ahead of local neighborhoods and small businesses, then vote today against the two incumbents who are on the ballot. Thank you.

MICHAEL NAFT

Thank you. For the record, I believe that those comments were related to Item 72. Anyone wishing to speak, please state your name for the record and the item you're speaking towards. Good morning.

GWEN DWIGGINS

Morning. My name is Gwen Dwiggins, G-W-E-N D-W-I-G-G-I-N-S. For the record, my address is 9671 Rankin Ridge Court. I am here to speak on Item 43. I'm here to ask the Commissioners to strongly reconsider extending exclusivity to UMC (University Medical Center) in their relationship with UNLV to be the sole placement for residencies. While UMC has its strengths and many merits, the lack of the self-standing children's hospital with a focus on all areas of pediatric health needs to be addressed in our community. As a parent, when I moved here in 2013, there were inadequate care options for my five-year-old who needed a pediatric endocrinologist. Back to Ohio two to four times per year for seven years to get him the care he needed. No more families should have to leave Las Vegas to ensure access to medical care for their children.

Second, while UMC is known for its trauma, burn and transplant services as a training site, it's grossly limited in the workforce that it can train and develop in other specialties. Diversity in training sites can only add diversity and training, specialty options, and often increases rigor knowing that you're not the only game in town. Choices for families are crucial, but more crucial is simple access, which in turn provides more training opportunities to students (inaudible)—

This is a critical to grow the workforce of qualified pediatric healthcare providers and the potential for these providers to remain here in Las Vegas, specifically allowing Intermountain Health, News Children's Hospital to offer and accept residency, build our community while keeping Medicaid and commercial

insurance dollars local versus continuing to have these dollars go to California and Utah. Please seriously consider this relationship and the exclusivity pathway. It's bad for our economy and it's detrimental to our children who deserve access to high quality pediatric care.

MICHAEL NAFT

Thank you. Good morning.

CYRUS HOJJATY

Good morning, everyone. My name is Cyrus Hojjaty and I'm an employee of Desert Cab and I like to represent all cab limo and ride-share drivers. And let me tell you something, you guys need us. Cyrus, C-Y-R-U-S H-O-J-J-A-T-Y. I'm opposed to Item number 72. This F1 (Formula 1) race has brought a lot of hassle, concern, stress into the streets. This takes about three months of setup and planning, lots of congestion. This means, as a driver, if I don't check the route and find a bypass and get stuck, I could seriously get screwed. It increases our stress. It increases our accident risk. It's very dangerous to drive around these areas when these places are being set up. Stoplights don't work efficiently. Lane markings aren't even showed properly. We don't have these little things that they install in the boulevard. They're just basically paint. How can we see them with all too much lights or all the sun and everything?

And I would suggest to have this event every three years. I'm not anti-racing, but I think we need a little bit of a break. A lot of these riders we get are very spoiled, pushy. My earnings from last year was worse than the previous two years. I mean, this is serious because we as employees working the tourist sector, we're not making much, dry spell from November to December. This is disproportionately hurting small businesses. It's reducing the access points of many condos around the area. Seriously, think about it. Has this actually helped tourism numbers? According to the LVCVA (Las Vegas Convention and Visitors Authority), visitor volume peaked in 2016. What happened in 2016? Oh yeah, parking valet charges. That's right. Our reputation is being harmed as this is mainly catering to the upper 20% or certain types of tourists. I'd like to ask, ladies and gentlemen, why hasn't the establishment corporate media has ever done a poll of registered voters of whether they like F1 in their communities, particularly their workers who work in the tourist area?

And more importantly, we don't have a true mass transit system to take people in an alternative route if there's just so much congestion. Honestly, the so-called loop tunnels, how do we know that's going to work? How do we know that there's going to be enough capacity? This has been a pretty stressful experience for me driving around, going through all the congestion and I'm concerned about my livelihood. I'm trying to make a living. This is why I'm trying alternative sources of living, doing my first project off-topic, but please reconsider this decision, have some compromise deal. We ask you to think twice about this plan or even not go on with it. Thank you.

MICHAEL NAFT

Thank you. Good morning.

ERIC BALLEW

Morning. Eric Ballew, 10633 Amblerwood Avenue, Las Vegas, Nevada, 89144. I'm here to talk about Item 43. I'm passionate about pediatric healthcare because of my son, Tyler Balu. Tyler was a thriving eighth grader at Sig Rogich Middle School, always playing sports and spending time with his incredible friends when he was diagnosed with cancer at 11 years old. We found him incredible doctors at St. Jude in Cedar Sinai and I would've gone anywhere in the world for his treatment, but that meant five months with our family living in separate states. My wife, Renee, and I traded places every 7 to 10 days, so Tyler was never alone. We were an outlier and I had flexibility most Nevada parents don't have. Most families here cannot

afford two one-way airline tickets every single week. We lost Tyler in December of 2022. We had to pull our vehicle over on the shoulder of I-15 to call an ambulance just outside of Baker, California. We were on our way to Los Angeles for Tyler to get his cancer treatment the next morning. The clouds that night were too low for a helicopter. We waited 40 minutes with a 9-1-1 dispatcher on the line. When the ambulance arrived, Tyler flatlined. I was doing chest compressions while Renee squeezed the oxygen bag and the paramedic worked to clear his airway as the ambulance raced to the emergency room. Tyler never spoke to us again. We ultimately lost him a few hours later after being moved to Loma Linda Children's Hospital. Tyler's story is not unique. We are losing Nevada children on the interstate because they must travel out of state for treatment. I will never bash the dedicated doctors, nurses, and hospitals we have in Nevada. They are doing extraordinary work with what they have and that's exactly the point. We need more of them. Pediatric specialists trained right here in Las Vegas that stay in Las Vegas.

The City of Las Vegas honored Tyler's citizen of the month in May 2025 for his strength and courage. Two weeks ago, Metro Police shared some of his story and his teddy bear donation. The post received three times their normal social media engagement. Tyler's journey resonates because every parent here can imagine what it means to need great medicine for their child and not have the specialist needed in the state. Every business leader knows that great hospitals are infrastructure as essential as roads and airports driving economic growth. Ultimately, Nevada has a responsibility to take care of Nevada children. Great medicine is not a partisan issue. It is a Nevada issue. We are rapidly growing and this issue is too important for it to become a turf war over who should provide care to kids in Las Vegas. This is an all hands call and we need absolutely everyone contributing.

Tyler never wanted to be known as the kid with cancer. He just wanted to be home with his friends. I would give anything for one more day with my son. If we weren't so isolated when we called 911, could we have had one more Christmas? I want the next Tyler in Las Vegas to get treatment here in the community in the morning and be home in time to play with his little sisters or make it to football practice in the afternoon. My girls miss their brother. Thank you for letting me share Tyler's story.

MICHAEL NAFT

Thank you for being here. Good morning.

VIRGINIA VALENTINE

Good morning, Chair, Commissioners. My name is Virginia Valentine. I'm with the Nevada Resort Association. I'm here to speak in support of Item 48, which will fund the preparation submission of reports required under AB4 (Assembly Bill) to the County Commissioners and the Nevada legislature and coordination with county and state stakeholders and support data reporting. So, we appreciate your support of this item and all of the work you do for all of us. Thank you.

MICHAEL NAFT

Thank you. Good morning.

AL ROJAS

Hello. My name is Al Rojas. I live in Sunrise Manor. For those who don't know, I've been involved in Neighborhood Watch Digital and we've been involved with over 50 encampment removals and 50 RV removals. I'm speaking on Item 77, which is the proposed closing of the Arroyo Walkway or the Arroyo Pathway from Sahara to Boulder City. I am in total support of that. We have to get on top of this homeless problem and we've been doing major progress. We want to thank our Commissioners for their no camping ordinance and our digital group has been working hard with the cooperation of our Commissioners and we're making significant progress. I want the public to know that as we start closing these large encampments down, they grow, but sometimes they grow back at a smaller rate and the

more that we attack them, the footprint is being reduced and people are actually coming up to me while I pump my gas at the gas station and saying, "Hey, you guys are doing a fantastic job."

So, it may be temporarily closed for a while. We can always close it back up when we get on top of things. I totally support that. Whoever came up with that idea was a fantastic idea. I want to let the county know and the residents that we are moving forward and the new camping ordinance is doing fantastic. Thank you.

MICHAEL NAFT

Thank you. Good morning.

ERIC KING

Good morning. Once again, esteemed leaders, Commissioners. Thank you all. My name is Eric King and I would like to speak on items on behalf of expounding on items, which I just had here, that are including Item 2 and also Item 6. I'd like to hear—

MICHAEL NAFT

Per our rules, you can speak on items on Section 4 or later. So, Section 6, you can speak on now if you'd like to. Or Item 6.

ERIC KING

Section 6. Section 6—Section 6?

MICHAEL NAFT

I'm sorry. Actually, neither of those items are on section four. Is there anything later in the agenda you're here to speak on? Otherwise, you can wait till the second time set aside for public comment.

ERIC KING

Well, I was here to speak on behalf of senior services. I believe there's another item. I just don't know the number right now on senior housing and so forth. I'd like to speak on behalf of seniors and veterans that are seniors, if that's all right, for a couple minutes.

MICHAEL NAFT

I believe we have an item related to CDAC (Community Development Advisory Committee) that that could apply to.

ERIC KING

Okay. Thank you very much. I hadn't put the number in my head on that one, so forgive me. Here I have two minutes. On behalf of it being public islander, as well as there's plenty of seniors that are public islanders here. I like to say Aloha and Mahalo Nui for the graciousness that was shown to them today. So, the aloha spirit is quite a special thing. It beats ever stronger here and makes hearts sing. Here in the 9 Island of Las Vegas and Clark County where we've reduced the blowing sand, ear hearts come alive helping others thrive when the spirit of aloha rolls along on winds that blow a healthier, stronger community nearer to make all of our lives happier and clearer. We want that all for seniors and their health and their longevity. Certainly everyone would agree with me on that. I'd be really excited to continue.

Dialogue's begun already on behalf of the seniors also the health conditions for them here. And I want to say thank you very much. It's part of why I came to the graciousness offered to me by you, Chairman Naft, when I spoke with you a couple weeks back on some other items. So, thank you all for that. Thank you for

hearing this little invocation that I had about Pacific Islander Month in honor of it and seniors that are here in the community from the other eight islands and all around the Pacific. You all are gracious for it and I'm cherished that you allowed me to say that. Thank you all very much.

MICHAEL NAFT

Thank you. And I believe those comments were related to Item 76. Anyone else wishing to speak on public comment, please come forward at this time. Good morning.

ALAN SNELL

Good morning, Commissioners. My name is Alan Snell and I'm here to speak on Item 73, Complete Streets. I was very happy to see that on the agenda. And Complete Streets is essential for Clark County in the Las Vegas area. It's the notion that our public roads need to be engineered for all users, not just people who drive cars, but people who ride bicycles and walk in wheelchairs and any other way of transportation. I don't have to tell you about Clark County and the Las Vegas area about the need to improve our roads for people other than just drivers. I felt so strongly about this that 20 years ago, I actually left my career. I had worked as a journalist. I was at the Tampa Tribune covering the business of sports and stadiums and I actually left because so many people were being killed on our roads, bicyclists and walkers.

I left journalism and I worked six and a half years full time on bicycle safety, road safety issues. When I moved to Las Vegas in 2012 and got back into the business, I was concerned that so many crashes seemed to be almost taken for granted. I was kind of astonished by that and Complete Streets is such an important tool and I'm so glad that Commissioner Jones has brought this to the agenda. It's really essential that we work on this particular topic. This is a transportation issue. This is a public safety issue and I want to point out some projects that show that you guys are actually on the right track.

Fort Apache Road was a road that was completely dangerous. Commissioner Jones helped get that road rebuilt. I biked that road. I biked it once. I said never again. But since it was rebuilt, now I'm using it. It's part of my route. Another great project has been an issue that I've kind of brought to some folks attention and that is our trail system. You have a very long system along the Route 215 highway and you have a trail that crosses Charleston. The curb cuts for bicyclists were at a 45 degree angle, that's the way you designed those trails and it was extremely dangerous. It's really just for the grace of God that people have not been killed or injured there. Again, led by Commissioner Jones, there's a tunnel being built. Great, great move.

For more than 20 years, people have asked for a trail from Summerlin through the Red Rock Canyon, at least to the Red Rock loop. And I'm glad to say that I was happy to celebrate that opening only a few weeks ago. Point 9-9 of a mile, there's obviously a little more to go and it's on track, so I'm really happy about that.

And also Commissioner Jones has created a— He worked on a mountain bike—

MICHAEL NAFT

I hate to cut off your compliments, but you got to wrap up, Mr. Snell.

ALAN SNELL

Okay. Please work on this, work with the City of Las Vegas. I would suggest that you create a Department of Metro Bicycle and Walking and improve in this area. Thanks so much.

MICHAEL NAFT

Thank you very much. Anyone else wishing to speak during the first time set aside for public comment, please come forward at this time. Seeing no one, I will close the public hearing. This moves us to section four of the agenda.

SEC. 4. AGENDA

- 9. Approval of Minutes of the Regular Meeting on April 21, 2026. (For possible action) (Available in the County Clerk's Office, Commission Division)

ACTION: APPROVED.

Attachment(s) submitted and filed with the County Clerk's Office

KEVIN SCHILLER

Commissioners, your next item is approval of the minutes of the regular meeting on April 21, 2026.

MOTION

WILLIAM MCCURDY II

Mr. Chair, I move approval of the minutes.

MICHAEL NAFT

Thank you. There's a motion for approval. Please cast your vote.

VOTE

- VOTING AYE:** Michael Naft, William McCurdy II, April Becker, Jim Gibson, Justin Jones, Marilyn K. Kirkpatrick, Tick Segerblom
- VOTING NAY:** None
- ABSENT:** None
- ABSTAIN:** None

MICHAEL NAFT

That motion passes.

- 10. Approval of Agenda with the Inclusion of Any Emergency Items and Deletion of Any Items. (For possible action)

ACTION: APPROVED (ITEM 43 HEARD SEPARATELY).

Attachment(s) submitted and filed with the County Clerk's Office

KEVIN SCHILLER

Commissioners, your next item is approval of the agenda with the inclusion of any emergency items and the deletion of any items. Staff is recommending that Item 43 under your consent agenda be taken separately.

MOTION

WILLIAM MCCURDY II

With that read into the record, I move approval of the agenda.

MICHAEL NAFT

Thank you. There's a motion for approval with Item 43 being heard separately.

VOTE

VOTING AYE: Michael Naft, William McCurdy II, April Becker, Jim Gibson, Justin Jones,
Marilyn K. Kirkpatrick, Tick Segerblom

Attachment(s) submitted and filed with the County Clerk's Office

University Medical Center of Southern Nevada (Board of County Commissioners sitting as the UMC Board of Hospital Trustees)

43. Approve and authorize the Chief Executive Officer to sign the Academic Health Center Master Affiliation Agreement between the Board of Regents of the Nevada System of Higher Education on behalf of the University of Nevada, Las Vegas, and its School of Medicine and University Medical Center of Southern Nevada; or take action as deemed appropriate. (For possible action)

ACTION: APPROVED.

Attachment(s) submitted and filed with the County Clerk's Office

KEVIN SCHILLER

Commissioners will now move to Item 43, which is to approve and authorize the Chief Executive Officer to sign the Academic Health Center Master Affiliation Agreement between the Board of Regents of the

Nevada System of Higher Education on behalf of the University of Nevada, Las Vegas, and its School of Medicine and University of Medical Center (UMC) of Southern Nevada, or take other action as deemed appropriate.

LISA LOGSDON

Commissioners, before you hear this item, there are two proposed changes to the agreement for the trustees to consider. The first is to revise the term of the agreement to a five-year agreement to remove the auto-renewal provision. Therefore, section 13.1 would read, "This agreement shall have a term of five years from the effective date, such expiration to coincide with the end of the academic year. At least 12 months prior to the expiration of the term, the parties will commence good faith efforts towards extending the term of the agreement or ending the affiliation in such way that will cause the least interruption to the education and ongoing operation of the School of Medicine in UMC." And then consistent with that change to make it a five-year agreement in section 3.2, the first three sentences would also be deleted. And then there's a second request to amend section 3.3A. And the proposal would be to add starting a new pediatric residency program with another hospital at the end of 3.31, which would allow UNLV School of Medicine to have a non-exclusive relationship with respect to the pediatric residency program.

MICHAEL NAFT

Thank you, Ms. Logsdon. I really appreciate you working with all of the stakeholders to get to that amended language that you just read into the record to recap what you've indicated that calls for a five-year agreement with removal of auto-renewals, no exclusivity for pediatrics. And again, this has been a long process to get to this point, but it's something that I believe incorporates all of the stakeholders' concerns. I want to open up the floor now for comments from this Board. Commissioner Kirkpatrick.

MARILYN K. KIRKPATRICK

Thank you, Mr. Chair. And I'm struggling, there's a lot of great things in here but I specifically asked for a separate board that we could have conversations so that the whole community could know specifically what are we doing because it is not—I don't know what we're doing and I'm pretty in the know. So, I am in the GME (Graduate Medical Education) issue is a hot topic for the state, for the feds, for the locally. So, I just want to have some discussion on expectations on Section 3 because it says that there's a GME agreements that's coming back to us. So, I kind of want to know what does that mean? Because it's going to make or break where I go today. And the reason is because I use specific examples of other states that had Johns Hopkins University, UCLA (University of California, Los Angeles), they all have a separate board so everybody kind of knows where we're headed.

And I think it's important for everybody to know, are we missing the mark? I sit on a couple of boards where I can't even really say if we're missing the mark. Some state boards never meet; some other ones do meet. So, I want someone to tell me what should I expect or not expect, so I can wrap my brain around my decision today.

MICHAEL NAFT

Thank you, Commissioner Kirkpatrick. I imagine Ms. Logsdon will encapsulate some of what you're looking for, but I think you have brought this up many times over the years. I think your desire to have more oversight over this relationship is not lost on anyone here. Lisa?

MARILYN K. KIRKPATRICK

It's lost in the paper.

MICHAEL NAFT

Well, let's try to fix that.

LISA LOGSDON

So, in Section three and 3.1, there is the establishment of a GME consortium. And so, under the agreement, UNLV and UMC will work collaborative to establish necessary expansion of those programs. And so, one of the first tasks of that is for those two organizations to meet and in Section 3.1, Section 5 there, it says, "If any third party should be involved in that and the scope of what that would look like..." So, it sounds like maybe you think there's some state stakeholders and some other stakeholders. So, I think if we want to provide that direction, the parties can work for that.

MARILYN K. KIRKPATRICK

Well, listen—Yes. And I'm sorry, I don't mean to say listen, but here's the thing. I wrote the original legislation, just FYI (For Your Information) why I'm so interested in this. And we spent a lot of money separating from UNR (University of Nevada, Reno) at the time, but I felt that we needed to have a lot of this. We have since committed to all these GME programs, whether it be UMC, the state did some extra, some other hospitals, but then we're not... I could show you the list and it got better this last time of the people that are leaving. Why are they leaving? I don't know because I can't find any conversation about what that looks like. So, I would like to see some oversight. I would like to tell parents that we need all these people. I could walk back to when we brought Dr. Troy Reyna to Sunrise because there was not a second opinion in this town.

So, I want it to be very transparent. I want it to be mission driven. I want it to have other people on it so that we can all figure out regionally what's in the best interest of this community. And it's all of those things. So, is that something that they could bring back? And if they don't bring it back, then what are their consequences if they don't bring something back like that?

LISA LOGSDON

So, each year this agreement also comes before this Board because right now you're authorizing about \$17 million in the GME and the support between UNLV and UMC. So, this agreement will come back to you for next year for that funding. So, if maybe we continue to work on that process and it could be an amendment in the next future kind of based on this direction.

MARILYN K. KIRKPATRICK

And is there not like a regular report or another Commissioner that could sit on this? I just feel like they're— I know I hate to be blowing up a deal, but this was a deal for me for a long time, because I think that we need to do better. We need to have every type and not just change when something new comes to our community. So, pediatrics, we've been fighting for years and years and years, okay, but we need all aspects. And I will tell my colleagues, "You can look. We don't have pediatric radiology. We don't have..." There's a list of what we don't have, but then what about my senior citizens? We don't have ear, nose and throat doctors here. We don't have all of those things. And it would be nice if somebody kind of said, this board public meeting where everybody could hear it.

I could watch it. I don't have to go to everything and make people crazy, but I could watch it and see if we're hitting the mission. We're making a dent in the mark of what we need. So, if you tell me that I could hold up the whole thing and the board will agree with me with their money, then maybe I'd feel comfortable voting for it. But I'm serious about wanting this separate board. So, I see UNLV, I see UMC in here, I want you to... I'm not kidding, I want this separate board like other states have that are professional with medical schools. And I'm not going to stop asking until I get it.

MICHAEL NAFT

I think we have several people in the audience who are shaking their head, including our president and our CEO (Chief Executive Officer) of the hospital and university. Commissioner Segerblom?

TICK SEGERBLOM

Yeah, just to echo what Marilyn said, but I think this is the first step. We needed to get involved in this process because the two sides weren't talking. Now I think we've interjected ourselves in, but remember, UMC is the Clark County Commission. So, we can do anything on the UMC side. We can be at any meeting we want to be on. We can publicize anything we want to publicize, but we need to get this thing started, I think, to make sure that the medical school and the new children's hospital can work together going forward. And now we're taking over at UMC so we can be more involved. But I agree with what you're saying but—

MARILYN K. KIRKPATRICK

So, is that a commitment from you that you're going to hold their money if we don't get this agreement? Is that what you're saying because I think—

TICK SEGERBLOM

I would do more than hold their money. I want to make sure it doesn't happen.

MARILYN K. KIRKPATRICK

Okay, perfect.

MICHAEL NAFT

Commissioner McCurdy II.

WILLIAM MCCURDY II

I think Commissioner Kirkpatrick makes a strong point. It has been brought up several times. I'd be more than happy to work with you, bring everyone together and bring all the stakeholders together to make sure that we get this done. But also just want to note that we've come a long way with having this agreement before us today. It's been a lot of conversations, a lot of meetings, and a lot of deliberation about where we're going into the future. And I'm just so proud of the work that has been done to get us to this point. And thank you, Chairman, for making sure that we got here. So, I think this is a good deal.

MOTION

MICHAEL NAFT

Thank you. If there's no other discussion on this item, I'm prepared to move for a motion of approval of Item 43 with the additional amendments read into the record by Ms. Logsdon. Please cast—

MARILYN K. KIRKPATRICK

Oh, and the commitment's that we're going to revisit this GME—

MICHAEL NAFT

My motion is inclusive of Commissioner Kirkpatrick's comments.

MARILYN K. KIRKPATRICK

Okay, because I'm going to hold you all to it.

MICHAEL NAFT

I move approval.

MICHAEL NAFT

That motion passes. Thank you.

KEVIN SCHILLER

Commissioners, there's been a request to move quickly to—

MICHAEL NAFT

I'm sorry, before we wrap up that, Manager Schiller, I did just want to comment though that now that that item is behind us, this is actually a really exciting time for healthcare in this community. I want to draw some attention if people leave, there are several items beyond that one we just heard on today's agenda. The affiliation agreement is significant. It's a big step forward. The comments that were made are important. But also, today we've got a TEFRA hearing Item 61 related to Intermountain, the state's first standalone pediatric hospital that's coming to our valley. Tomorrow, we have multiple items related to that as well in our capacity as a land use Board. There are some really exciting things happening and it's a tribute to a lot of people in and outside of this room, so I didn't want to let that moment pass without saying that. Thank you.

General Administration

- 44. Approve and authorize the Chair to sign the correction of the 2022-2023 thru 2025-2026 Secured and the 2023-2024 thru 2025-2026 Unsecured Assessment Roll AR-0519-26-10 and order the corrections to be made. (For possible action)

ACTION: CONDUCTED.

Attachment(s) submitted and filed with the County Clerk's Office

KEVIN SCHILLER

Commissioners, we can now move to the public hearing section of your agenda. Your first public hearing is to conduct a provisional order hearing concerning the proposed increase to the aggregate maximum amount of annual assessments imposed for Special Improvement District No. 97B - Las Vegas Boulevard Beautification Maintenance between Sahara Avenue and Mandalay Bay Road.

MICHAEL NAFT

Thank you. At this time, I'll open the public hearing. Anyone wishing to speak on Item 51, please come forward at this time. Seeing no one, I will close the public hearing. Does the clerk have any written complaints, protests, or objections?

LYNN GOYA

There are no complaints.

MICHAEL NAFT

Is there anyone present wishing to be heard on the provisional order? Seeing none. We'll close the public hearing, and we can now move on to Item 52.

52. Conduct a public hearing to hear any and all complaints, protests or objections with respect to the assessment roll for Special Improvement District No. 97B - Las Vegas Boulevard Beautification Maintenance between Sahara Avenue and Mandalay Bay Road; approve, adopt, and authorize the Chair to sign a resolution confirming the assessment roll and resolving all related protests; introduce an ordinance levying assessments; and set a public hearing to consider the ordinance for Tuesday, June 2, 2026, at 10:00 a.m., for Special Improvement District No. 97B. (For possible action)

ACTION: APPROVED (RESOLUTION R-5-19-26-3); ORDINANCE INTRODUCED AND PUBLIC HEARING SET FOR TUESDAY, JUNE 2, 2026, AT 10 A.M. (BILL 5-19-26-1).

Attachment(s) submitted and filed with the County Clerk's Office

KEVIN SCHILLER

Commissioners, your next public hearing is to conduct a public hearing to hear any and all complaints, protests or objections with respect to the assessment roll for Special Improvement District No. 97B - Las Vegas Boulevard Beautification Maintenance between Sahara Avenue and Mandalay Bay Road; approve, adopt, and authorize the Chair to sign a resolution confirming the assessment roll and resolving all related protests; introduce an ordinance levying assessments; and set a public hearing to consider the ordinance for Tuesday, June 2, 2026, at 10:00 a.m., for Special Improvement District No. 97B.

MICHAEL NAFT

Just a point of clarification. On Item 51, a motion was not required.

LISA LOGSDON

That is correct. It was just to hold a public hearing.

MICHAEL NAFT

Okay. Thank you. We're on Item 52. Thank you for reading that into the record. We'll open the public hearing. Anyone wishing to speak, please come forward. Does the clerk have any written complaints, protests, or objections?

LYNN GOYA

We have no complaints, protests, or objections.

MICHAEL NAFT

Thank you. Is there anyone present wishing to be heard on the final assessment roll? Seeing none, I'll close the public hearing.

MOTION

WILLIAM MCCURDY II

Move for adoption of the resolution.

MICHAEL NAFT

There's a motion to adopt the resolution. Please cast your vote.

There's a motion to adopt the resolution. Please cast your vote. A motion passes.

KEVIN SCHILLER

Commissioners, your next item is conduct—

LISA LOGSDON

Sorry. We need to introduce the ordinance.

MICHAEL NAFT

I've got to introduce the ordinance. I'll ask the clerk to read the ordinance by title.

LYNN GOYA

An ordinance concerning Clark County Nevada Improvement District number 97B: Strip Maintenance, providing for the payment or the cost and expenses of maintaining certain improvements, assessing the cost of said maintenance against the accessible lots, tracts, and parcels of land, benefiting by said maintenance. Ratifying, approving, and confirming all action previously taken, and prescribing details in connection therewith.

MICHAEL NAFT

Thank you. I'll set the public hearing for the ordinance for Tuesday, June 2, 2026, at 10 a.m.

53. Conduct a public hearing to hear any and all complaints, protests or objections with respect to the assessment roll for Special Improvement District No. 114B - Las Vegas Boulevard South Strip Maintenance between Mandalay Bay Road and Russell Road; approve, adopt, and authorize the Chair to sign a resolution confirming the assessment roll and resolving all related protests; introduce an ordinance levying assessments; and set a public hearing to consider the ordinance for Tuesday, June 2, 2026, at 10:00 a.m., for Special Improvement District No. 114B. (For possible action)

ACTION: APPROVED (RESOLUTION R-5-19-26-4); ORDINANCE INTRODUCED AND PUBLIC HEARING SET FOR TUESDAY, JUNE 2, 2026, AT 10 A.M. (BILL 5-19-26-2).

KEVIN SCHILLER

Commissioners, your next item is to conduct a public hearing to hear any and all complaints, protests or objections with respect to the assessment roll for Special Improvement District No. 162B - Laughlin Lagoon Waterfront project in the unincorporated township of Laughlin, Nevada; approve, adopt, and authorize the Chair to sign a resolution confirming the assessment roll and resolving all related protests; introduce an ordinance levying assessments; and set a public hearing to consider the ordinance for Tuesday, June 2, 2026, at 10:00 a.m., for Special Improvement District No. 162B.

MICHAEL NAFT

Thank you. At this time, I'll open the public hearing. Does the clerk have any written complaints, protests, or objections?

LYNN GOYA

There are no written complaints, protests, or objections.

MICHAEL NAFT

Is there anyone present wishing to be heard on the final assessment roll? Seeing no one, I will close the public hearing.

MOTION

WILLIAM MCCURDY II

Move adoption of the resolution.

MICHAEL NAFT

And accept that motion for adoption, please cast your vote.

MICHAEL NAFT

That motion passes. I'll introduce the ordinance and ask the clerk to read the ordinance by title.

LYNN GOYA

An ordinance concerning Clark County, Nevada Improvement District number 162B. Laughlin Lagoon Maintenance provided the payment for the cost and expenses of maintaining certain improvements, assessing the cost of said maintenance against the assessable lots, tracts, and parcels of land benefit by said maintenance, ratifying, approving, and confirming all action previously taken and prescribing details in connection with therewith.

MICHAEL NAFT

Thank you very much. I'll set the public hearing for the ordinance for Tuesday, June 2, 2026, at 10 a.m.

56. Conduct a public hearing; approve, adopt, and authorize the Chairman to sign a Resolution to Augment the Fiscal Year 2026 Las Vegas Metropolitan Police Department Fund (2080). (For possible action)

ACTION: APPROVED (RESOLUTION R-5-19-26-7).

KEVIN SCHILLER

Commissioners, your next item is to conduct a public hearing; approve, adopt, and authorize the Chairman to sign a Resolution to Augment the Fiscal Year 2026 Las Vegas Metropolitan Police Department Fund (2080).

MICHAEL NAFT

Thank you. Manager Schiller, is there a presentation on this item? Ms. Colvin?

JESSICA COLVIN

This augmentation is from budgetary savings from the previous year, and will be used to roll into the FY (Fiscal Year) 26 fiscal year for salaries, benefits, and services and supplies.

MICHAEL NAFT

Thank you. At this time, I'd like to open the public hearing. Anyone wishing to speak, please come forward at this time. Please state your name for the record.

AL ROJAS

My name is Al Rojas. I live in a Sunrise Manor. Like I said before, I've been involved in a neighborhood watch. We've been helping a lot with improving the safety in our community. I totally support this ordinance. We definitely need more law enforcement out there; however, I was doing some research on this item, and we do need more patrolling to control the traffic, but I do have some suggestions, that we ought to look into that will help law enforcement bring a lot of the accidents that are happening on the street. One of the major problems that we have is that we're very populated now. We have a high density. If you look at the research, it currently states that speed limits of 45 miles per hour with this type of density in many of our streets are the major cause of what's going on.

I'm asking that we reduce some of these speed in certain areas, from 45 miles per hour, down to 35 miles per hour, especially on the east side. Some of the streets, like Owens, which are highly residential, and Washington, there's no need for them to be at 45 miles per hour. We also want to reduce the speeds over on Nellis. Lamb has come down to some 35 miles per hour zones, but we need to reduce the speeds, because people who are driving at 45, they're going to drive 48, 50. You can't. If you're at 45 miles, you get hit at 45 miles per hour. Your chances of survival are less than 3%. Go look up the research on that, so we really have to start addressing that. We also have a high Latino population. I happen to be Latino. I don't listen. I don't watch much Latino stations, but we definitely need to do some Latino commercials to reduce speed and bring that up to the awareness. I'll speed up on the other stuff. There's some areas that are 25 miles per hour zones.

The city of Las Vegas has speed bumps in some of these residential areas. I recommend that we start looking into that, especially on Mount Hood, between Lake Mead, and I would be like Washington and Bonanza. The other thing that I found to be effective, I should have brought my zero tall, there's an

ordinance that we're trying to come up with, have zero fatalities. I'm showing that having those speed signs, those solar speeds, those speed monitoring signs, they do slow traffic down. I think we ought to have more at one mile intervals, especially on Hollywood Boulevard. I think that people do slow down. They're going to speed up, slow down again, and it's going to change people's driving behaviors. These are the things, and I do support this ordinance. Thank you very much. Bye.

MICHAEL NAFT

Thank you. Seeing no one else, I will close the public hearing and accept a motion.

MOTION

JIM GIBSON

I move approval.

MICHAEL NAFT

There's a motion for approval. Please cast your vote.

Commissioners, your next item is to conduct a public hearing and approve, adopt and authorize the Chair to sign an ordinance to amend Clark County Air Quality Regulations Section 12.2, "Permit Requirements

for Major Sources in Attainment Areas (Prevention of Significant Deterioration),” Section 12.3, “Permit Requirements for Major Sources in Nonattainment Areas,” and Section 12.4, “Authority to Construct Application and Permit Requirements for Part 70 Sources,” to incorporate requirements associated with the serious nonattainment classification under the 2015 ozone standards, incorporate U.S. Environmental Protection Agency feedback, and ensure consistency across other sections and federal language; amend Section 12.5, “Part 70 Operating Permit Requirements,” to add language for portable major source requirements, ensure consistency across other sections and federal language, add new insignificant activities; and make necessary editorial, administrative, and nonsubstantive revisions throughout Sections 12.2-12.5; and providing for other matters properly related thereto; and to authorize the Control Officer to compile and submit the approved ordinance and all related documentation, including the Technical Support Document, to the Nevada Division of Environmental Protection for U.S. Environmental Protection Agency approval into the Nevada State Implementation Plan.

MICHAEL NAFT

Thank you. Good morning.

MARCI HENSON

Good morning, commissioners Marci Henson, the director of the Department of Environment Sustainability. In front of you today is proposed rule changes to our permitting requirements for major sources. We did conduct a public workshop in January, and also put these rules out for public comment. We did receive some excellent comments from business and industry. We've worked to address those, and are presenting to you today our final rules for consideration. These are part of our ozone state implementation plan for serious non-attainments, and I can answer any questions that you have.

MICHAEL NAFT

Thank you. Are there any questions? I'll open the public hearing. Anyone wishing to speak, please come forward. Welcome.

ERIC KING

Thank you, again, chairman and fellow leaders. My name's Eric King. Very excited that there's continuous attention paid to the air quality here. I mentioned in a poem just a little while ago, we've reduced the blowing sand here in the desert, which 20 plus years ago, that were here know, was much more prevalent. I hope it continues to be fine-tuned and direct attention paid to it, is very exciting to me from a designer's standpoint here, this very complex thing we call Las Vegas and our community and our structures here. I'd be really thrilled to encourage any of our wonderful commissioners here to carry on a dialogue.

I'm seeking to participate more, in regards to our urban heat island effect and ways to mitigate that in wind, certainly blowing hot winds and the quality of air probably has been discussed in some fashion with that. So, I just wanted to bring it to light that the air quality certainly has improved. I'm not trying to waste everybody's time, but a lot of times, things like air and air quality get taken for granted, so I'd be really thrilled to find out what has been effective with the leadership and all the outreach for engaging the public to understand better how we all can thrive longer, better, and healthier, because we're more aware of what it could be, our quality of life, including quality of air. I thank y'all for your time.

MICHAEL NAFT

Thank you. Anyone else wishing to speak, please come forward at this time. Seeing no one, we'll close the public hearing.

MOTION

WILLIAM MCCURY II

58. Conduct a public hearing and approve, adopt, and authorize the Chair to sign an ordinance to amend Title 8, Chapter 8.20 of the Clark County Code by adding a new section designated as 8.20.020.417 - Water park to establish regulations pertaining to the licensing and operation of Water parks; amending Section 8.20.276 to exclude Water parks from businesses required to be open to the general public; amending Section 8.20.020.325 to include Water parks; and providing for other matters properly related thereto. Commission District: All (Sitting as the Liquor & Gaming Licensing Board) (For possible action)

ACTION: APPROVED (ORDINANCE 5376; EFFECTIVE 6/3/2026).

Attachment(s) submitted and filed with the County Clerk's Office

KEVIN SCHILLER

Commissioners, your next item is to conduct a public hearing and approve, adopt, and authorize the Chair to sign an ordinance to amend Title 8, Chapter 8.20 of the Clark County Code by adding a new section designated as 8.20.020.417 - Water park to establish regulations pertaining to the licensing and operation of Water parks; amending Section 8.20.276 to exclude Water parks from businesses required to be open to the general public; amending Section 8.20.020.325 to include Water parks; and providing for other matters properly related thereto.

MICHAEL AFT

Thank you. Good morning.

VINCENT QUEANO

Good morning, Mr. Chair, members of the commission. Vince Queano, director of business license. I don't have a formal presentation, but the proposed ordinance defines waterparks. It also amends Clark County Code 8.20276, that adds water parks to the license categories that are allowed to serve alcohol while closed to the public.

MICHAEL NAFT

Thank you. This is a public hearing. I'll open it at this time. Anyone wishing to speak, please come forward, and I'll remind you, these are very narrowly tailored items, so please keep your comments directed right at them.

AL ROJAS

Okay. Well, I did some research on this. My name is Al Rojas. We're involved with Neighborhood Watch. Now, I have no idea why you guys want to include alcohol on these water parks, which include the splash guards when we're having homeless people. As part of our neighborhood watch, we're getting complaints of homeless people going out there and taking showers and washing—

MICHAEL NAFT

Your comments are being directed at public facilities. This is not related to that.

AL ROJAS

No, but you're saying that you guys want to make it so that you can do alcohol at water parks.

MICHAEL NAFT

We're not able to deliberate with you at this time. I'm just telling you this is not—

AL ROJAS

I'm just saying that I'm against it. That's all I'm saying.

MICHAEL NAFT

Understood.

AL ROJAS

I'm just saying that I'm totally against that for the following, for those reasons. We're going to be having homeless people drinking alcohol on your parks. Is that okay? Go ahead.

MICHAEL NAFT

I don't believe you have a full understanding of what's before us. If you have a seat, it could be explained to you.

AL ROJAS

Okay. Thank you very much.

MICHAEL NAFT

Anyone else wishing to speak at this time, please come forward. Seeing no one, I'm going to close the public hearing and turn it over to Commissioner Jones.

MOTION

JUSTIN JONES

Thank you, Mr. Chair. Just to clarify, alcohol is already permissible in water parks. Water parks are very narrowly defined, and in this case, Cowabunga Canyon, and so this is only allowing them to shut down the entire facility in order to have private events, so that is all that this ordinance does, but that I'll move for approval.

MICHAEL NAFT

Thank you. There's a motion for approval on Item 58. Please cast your vote.

- 59. Conduct a public hearing; approve, adopt, and authorize the Chair to sign an ordinance to amend Title 13, Chapter 4 of the Clark County Code by adding section 13.04.275 relating to the design, operation, maintenance, and commissioning of single lane tunnel systems designated Chapter 42 of the International Fire Code; and providing other matters properly related thereto. Commission District: All (For possible action)

ACTION: APPROVED (ORDINANCE 5377; EFFECTIVE 7/1/2026).

Attachment(s) submitted and filed with the County Clerk's Office

KEVIN SCHILLER

Commissioners, your next item is to conduct a public hearing; approve, adopt, and authorize the Chair to sign an ordinance to amend Title 13, Chapter 4 of the Clark County Code by adding section 13.04.275 relating to the design, operation, maintenance, and commissioning of single lane tunnel systems designated Chapter 42 of the International Fire Code; and providing other matters properly related thereto.

MICHAEL NAFT

Thank you. Good morning, Chief Samuels.

BILLY SAMUELS

Good morning, commissioners. Billy Samuels. Just give a little bit of clarification on the ordinance and why we got to where we're at today, it's a unique transportation system, single-lane tunnels using standard highway passenger vehicles to move people. There is no current NFPA National Fire Protection Association standard that captures all of the elements of this system. It's a challenging framework for life safety requirements, a consistent design, and installation operation, but what Chapter 42 is going to do is provides definitions specific to single lane tunnels. It provides details on allowable vehicles within the system. It includes information regarding emergency egress and signage. It contains requirements for fire alarms, fire suppression systems, and emergency ventilation. It also outlines expectations for communication systems, including emergency responder systems. It includes requirements for safety during the construction of tunnels and other underground spaces, and at the end, it incorporates provisions for specialized fire department response vehicles to be used within the system. I'm happy to answer any questions, any concerns. Go from there.

MICHAEL NAFT

Thank you, Chief. At this time, I will open the public hearing on Item 59. Anyone wishing to speak, please come forward at this time.

ERIC KING

Thank you, again, Chairman. My name's Eric King. On behalf of firefighters here and near and everywhere, I'd like to say please use a very wonderful burnishing stone to polish up all these safety concerns for not only people in the tunnels driving, but also for the heroes that will go in if there's anything wrong with that. I'm sure you're all doing a great job of that already, and it's very exciting people like Mr. Musk and the warring company to be augmenting our city in some truly futuristic ways, and it is very thrilling to see Clark County in such support of such endeavors. Thank you all, and for all the heroes among us, Chief Samuels included. Thank you for your service.

MICHAEL NAFT

Thank you. Anyone else wishing to speak, please come forward at this time. Seeing none, I'll close the public hearing on Item 59. Commissioner Kirkpatrick?

MARILYN K. KIRKPATRICK

Sorry. Sorry. I saved up. The last couple of weeks I've been quiet. Chief Samuels, I want to just turn to page 5 of the ordinance. Page 5, Section 42.04.2, and I just want to make sure that it's very clear. I see your backups are coming behind you, so sorry. I just want to put some things on the record, because I don't like messy. I'm over messy, and I want to be clear that everybody knows where we're headed, going forward. The means of egress. There has been much discussion about this particular portion of the ordinance prior to in any building department conversation. So, I just want you to put on the record that what I'm reading is that yes, egress, and you will have to follow chapter 10 of the building codes so that there's no mistake.

BILLY SAMUELS

Yes, correct. Yes, ma'am. This ordinance does not trump the building code when it comes to Chapter 10 and those things. Those things have to comply first, and this ordinance will supplement that.

MARILYN K. KIRKPATRICK

And they do go hand in hand. Okay, so then I want you to talk to me about, and it's in here more than one place, but here's the closest place I found it, so the communication systems, right? When you talk about areas of refuge cross passages, so my understanding, and I think I've been pretty clear on what this means when we go back to the depth of the length of the tunnel, that there's a comfort level. I remember it's like 15 Between 15 and 15, 15 minutes get out, 15 minutes to save someone, and then 15 minutes to get there, right? Is that a national thing?

BILLY SAMUELS

Mm-hmm.

MARILYN K. KIRKPATRICK

So, I want to make sure when we talk about these areas of refuge in cross passages, what the expectation is, because my expectation, I'm going to tell you what mine is, and I want you to correct me if I'm wrong and I'm okay if I'm wrong, but these are mitigation essentials, ways in case we can't. There's reasons, right? Maybe we couldn't do every 1500 feet or whatever. If we couldn't meet the depth, there's always a workaround, but number one is public safety, so am I reading this right? Because I don't want it to become the norm, where there's every areas of refuge every 1500 feet, because that is not what I think we're trying to get to, so please make sure I got it clear because I'm a stickler for words.

BILLY SAMUELS

Yes, ma'am. The areas of refuge and cross passages, they do comply with NFPA standards. You have to have a fire rating door for a certain amount. The communication side, there has to be communication within the areas of refuge and those cross passages. I think that's what you're talking about. We do have a distance associated when it comes to greater than 1,250 feet on where they will be actually established, and we have solidified where that's actually going to occur, where they're compliant with for this ordinance.

MARILYN K. KIRKPATRICK

So, there would never be an instance where, and I believe we have done this in the past in the county, and I don't necessarily agree with it, but there would never be an instance, where somebody would only have areas of refuge in the system?

BILLY SAMUELS

You still have to have anything greater than, at 2,500 feet, you have to have a compliant exit to the surface, so within that system, there will be areas of refuge, there will be cross passages, because there is going to be some locations where it's just impossible to build, but with that, within that 2,500 linear feed, you will have an exit to the surface that's compliant with Chapter 10 and with this ordinance.

MARILYN K. KIRKPATRICK

And that is important, because the ADA (Americans with Disabilities Act) requirements and everything else, right? We have to plan for worst case scenarios, so if we have to plan, then there's a way for people to get to some safety until we can make the full rescue. Is that the intent behind it?

BILLY SAMUELS

Yes, ma'am. That's the intent.

MARILYN K. KIRKPATRICK

Okay. Then, so my last one is on Section 42.11 of the fire department response vehicles. I've been living this for many years, so I want now you to tell me what the expectation is, because I've heard blame being pointed everywhere, and as far as I'm concerned, I don't care whose fault it is. I want it fixed, so what is the expectation? Because one, we brought this up in the beginning. This is so like, crazy for me, because we brought this up in the beginning. Somebody will drive down at the wrong way. Oh, it never happened. It sure as heck did happen right away. What happens if there's a fight down there because people are waiting and something happens? Oh, sure as heck did happen. And the tunnels are specifically a size that doesn't fit your typical fire response down there. And we are first to get there. So, I thought two years ago we were supposed to have a fire response vehicle that could go down there. And my understanding is it's not quite finished yet and they're waiting on us. So where are we on this? And what is the expected date? And when can I make sure that it's there?

BILLY SAMUELS

That is the onus that's on the fire department right now. We do have that in our hands. We owe The Boring Company a spec vehicle feedback on that. So that is currently on us.

MARILYN K. KIRKPATRICK

But is it a vehicle that can meet a grade that can transport people out?

BILLY SAMUELS

Yes, ma'am. The current vehicles that we have, they're side-by-side cars. They're just inadequate for the performance. The vehicles that we are specing out would meet those needs. It has the power we need.

One thing that we talked about, a couple years ago, was that bidirectional component. When you look at it now, when you look at trying to load up a patient into a bidirectional vehicle, it doesn't really just make sense. But we have been working with FLIR and the infrared systems that we have going forward, so we can back into the operation and then to remove people successfully. So again, the specs the onus is on the Clark County Fire Department to provide that to TBC (The Boring Company).

MARILYN K. KIRKPATRICK

So, I'm just seeing this section in my mind is broad. And so, what can I call you at 7 a.m. and say, "Hey, what's going on?" So, what is it that we want? What is it that we get? And when is the timeframe to get it?

BILLY SAMUELS

I appreciate you letting me sleep until 7.

MARILYN K. KIRKPATRICK

Who, what, where, when and how? That's what I want to know.

BILLY SAMUELS

That's on me right now, Commissioner. I will get those out. I'll try to get it by close of business this week and I'll get it over to TBC, and then you guys will have eyes on it as well. I think we're fairly confident with what we have been working on. Way more than we have in the past. So I think we can get this across the finish line. And it is broad. And I think purposely when you look at five years, 10 years down the road, things are going to change. And so this doesn't give us that latitude to actually make those changes necessary.

MARILYN K. KIRKPATRICK

No, and I'm not here to call you out. I'm just saying that I want to resolve the issue on all sides. In the past many times I like broad because it allows us to negotiate. But on this particular project, I'm no longer a fan of broad because everybody has a different interpretation and I want to make sure it's very clear. So as long as I can call you in a week and the other side has whatever they need or you tell me where we are in the process. I like timeframes. I'm good with that. And I do understand that we may have to adjust depending on where we may allow these tunnels later. Because what works today at the Westgate may not work at the Tropicana.

So, I understand the broad, but I at least want some type of—In my mind, this should say something to the effect that— And Lisa, I'm not trying to change it, but I just want to tell you what I think it should say. That upon a building permit submittal, before the permit is issued, that there should be those mitigation efforts, including what type of fire response before it's actually issued. I do that with solar on purpose because before we get too far into it, I want to know. So that way, what if there's a construction incident? What if there's this? So that's my expectation, in case anybody's wondering, that when you go get your building permit, that should already be dialed in. So, I just want you to know what my expectation— That's how I'm going to interpret it with you, Lisa, forever. So as long as everybody's okay with that. That's all I have.

MICHAEL NAFT

Commissioner Gibson?

MOTION

JIM GIBSON

I guess I'm okay with that. I'm trying to figure— No, the reality is that you and your leadership team have worked countless hours, hundreds, thousands of hours in an effort to try and come to a place where there's a meeting of the minds. And the same is true for The Boring Company. They have committed resources and an effort to get there. And there probably have been times when I would've said, "They're never going to get there." This is the culmination of all of that work. And I appreciate the work that the manager and Lisa have added to all of that effort, so that we can now codify what's expected of us, what's expected of your department, and what's expected of the permittee. These permits are many in number. And there's a whole lot of work that has yet to be done. But we have agreed in principle as to the location of stations at Harry Reid International Airport, which is a monumental thing. We've been working at UNLV on easements and defining the route from UNLV. There'll be a station there as I understand it.

The work now is ready to just blow up, just explode. I don't mean blow up in the terms of it's dead, but rather to explode in the sense that we're ready to really move forward. And the adoption of this ordinance helps us get to that place. So I think that the ordinance, I get the broadness issue on the point that was made by my colleague, I think that under the circumstances, because we don't yet have it defined, the only way you could narrow it enough to be meaningful is if you could actually put the specs in. So, I think as long as we're all committed to bringing the definition of that vehicle and the specs related to that vehicle to a place where it really works in terms of the public safety response. And we're relying upon you and your team to provide that to us. I think this is good enough.

It'd be really nice if we could specify a vehicle, but I think your point is well-taken and I think that between building and fire and our legal representatives, I think we all understand where we're going. So, if there isn't anything more, Mr. Chair, I move the adoption of the ordinance.

MICHAEL NAFT

Thank you. There's a motion. Please cast your vote.

That motion passes.

61. Conduct a public hearing and approve, adopt and authorize the Chair to sign a resolution approving the issuance, solely for purposes of Section 147(f) of the Internal Revenue Code of 1986, as amended, by the Colorado Health Facilities Authority, in one or more series, of tax-exempt 501(c)(3) Revenue Bonds (Intermountain Health) in an amount not to exceed \$864,000,000 with respect to health care facilities located in Clark County, Nevada in order to (a) finance, refinance, or reimburse the costs of acquiring, constructing, renovating and equipping certain health care facilities, (b) provide one or more debt service reserve funds for the benefit of all or a portion of the Bonds, (c) pay a portion of the interest to accrue on the Bonds, (d) pay certain working capital expenditures, and (e) pay certain costs of issuance of the Bonds. (For possible action)

ACTION: APPROVED (RESOLUTION R-5-19-26-8).

Attachment(s) submitted and filed with the County Clerk's Office

KEVIN SCHILLER

Commissioners, your next item is to conduct a public hearing and approve, adopt and authorize the Chair to sign a resolution approving the issuance, solely for purposes of Section 147(f) of the Internal Revenue Code of 1986, as amended, by the Colorado Health Facilities Authority, in one or more series, of tax-exempt 501(c)(3) Revenue Bonds (Intermountain Health) in an amount not to exceed \$864,000,000 with respect to health care facilities located in Clark County, Nevada in order to (a) finance, refinance, or reimburse the costs of acquiring, constructing, renovating and equipping certain health care facilities, (b) provide one or more debt service reserve funds for the benefit of all or a portion of the Bonds, (c) pay a portion of the interest to accrue on the Bonds, (d) pay certain working capital expenditures, and (e) pay certain costs of issuance of the Bonds.

MICHAEL NAFT

Thank you very much. I believe for the record, McKay Owens is somebody that's here representing Intermountain. If you want to come forward and just state your name for the record. And if there is anything you'd like to add, do it at this time.

MCKAY OWENS

Yes, absolutely. My name is McKay Owens. I'm the Vice President of Debt and Capital Markets for Intermountain Health. Good morning, commissioners. I just wanted to first say thank you for addressing this request today. Intermountain is very excited to be partnering with the community and to be expanding access to healthcare services within Southern Nevada. Just to provide a little more background on this request, Intermountain will be investing over the next several years well over \$1 billion to expand healthcare services in the community here, with a lot of that related to expanding access to coverage for children within our community.

Related to this issue, there are two projects that the tax-exempt bonds will help finance over the following years. One is a project recently completed, the Badura Clinic. This is nearly a \$70 million project that's consolidated multiple clinics in Southwest Las Vegas, about 92,000 square feet. And then the project which we've heard about a few times earlier today is the new children's hospital. That project alone is expected to cost over \$1 billion. And will consist of about 830,000 square feet, over 200 beds, and will provide comprehensive services for children within the community, inpatient beds, emergency department, surgery, imaging, and more. That project will be located on the UNLV Harry Reid Research and Technology Park. Intermountain Health is leasing approximately 33 acres from UNLV to be able to build the hospital on that location. We hope to begin construction later this year, and the hospital would open in 2030.

Related to this item specifically, Intermountain is a nonprofit organization. You all are very familiar with the TEFRA process. There's a couple items following this for charter schools. Intermountain as a nonprofit organization is subject to the same federal tax law requirements, to hold a public hearing and allow the community the opportunity to provide any comments related to the projects to be funded with tax-exempt bonds. So, I will just reiterate this is simply a logistical requirement that allows Intermountain to finance a portion of these projects over the next several years, and to utilize tax-exempt bond proceeds to help fund that project. Happy to answer any questions that you might have.

MICHAEL NAFT

Thank you very much. This is a public hearing. At this time, I'll open up the public comment period. Anyone wishing to speak, please come forward.

ERIC KING

I'm Eric King, thank y'all. It's very exciting to see such progress for the youth here in our valley. And I'd just like to make a plug for the wellness community here that there may indeed be greater and greater support amongst leadership and informed people about how attention dollars and resources go to making more aware our youth in this country of greatness, that we all know are much heavier more often as they grow and less healthy than we were accustomed to many years ago. I'm sure that very well-intentioned people here with Intermountain are going to add some great things. And my hope is that there will be further conversations. Because people like me stand up for kids in the valley, our future, and say wellness is on the way and integrative medicine is happening. And it'd be wonderful to shine more light on all those beautiful pathways. Thank you.

MICHAEL NAFT

Thank you very much. Anyone else wishing to speak, please come forward at this time. Hi.

ANNA DANCHIK

I'm Anna Danchik, Comptroller. I just wanted to put on the record these are not obligations of the county. It's just an IRS (Internal Revenue Service) process.

MICHAEL NAFT

Correct. Thank you for putting that on the record.

LINDY SCHUMACHER

Good morning. Lindy Schumacher. Do you want my address?

MICHAEL NAFT

That's okay.

LINDY SCHUMACHER

11055 Sanctuary Cove, Las Vegas 89135. I was going to speak earlier, but I needed to wait and see how this all went down. We are the largest contributors to Intermountain. We believe that this was the next step after building the Kirk Kerkorian School of Medicine, that the key to success was residencies and a strong children's hospital. When you look at our like-minded communities like Arizona, when I ask people in Arizona what was the big thing that meant that you progressed in medicine and why we didn't, and they said they started with the children's hospital. They said, "You can't be serious about medicine if you don't take care of your children." So, I wanted on behalf of the anonymous donor who will never walk in this room, get to say and compliment all of you for what you've done today. You prioritized the county over one entity. You prioritized students over adults. You prioritized the future that it does include a children's hospital, a standalone children's hospital.

You are elected to do exactly as you have done. And you stepped up and asked those difficult questions. You said no. You said, "This is not good enough for this community." On behalf of the largest donor in this community, I think that really says a lot and we are watching and we are listening. You are on the right side of history on this day, and I just wanted to thank you.

MICHAEL NAFT

Thank you very much. Anyone else wishing to speak, please come forward at this time. If not, I will close the public hearing on Item 61.

MOTION

WILLIAM MCCURDY II

Mr. Chair, I move for approval.

MICHAEL NAFT

Thank you. There's a motion for approval. Please cast your vote.

VOTE

MICHAEL NAFT

That motion passes.

- 62. Conduct a public hearing and approve, adopt and authorize the Chair to sign a resolution approving the issuance by the Public Finance Authority (Wisconsin), in one or more series, of tax-exempt 501(c)(3) revenue bonds in an amount not to exceed \$10,000,000 in order to (a) finance, including through reimbursement, the acquisition, construction, improving, renovating, operating, and/or equipping of a charter educational facility located at 8377 West Patrick Lane, Las Vegas, Nevada 89113 for use by Amplus Academy, (b) fund a debt service reserve fund for the Bonds, (c) pay capitalized interest with respect to the Bonds and related working capital, and (d) pay certain costs of issuance of the Bonds. (For possible action)

ACTION: APPROVED (RESOLUTION R-5-19-26-9).

Attachment(s) submitted and filed with the County Clerk's Office

KEVIN SCHILLER

Commissioners, your next item is to conduct a public hearing and approve, adopt and authorize the Chair to sign a resolution approving the issuance by the Public Finance Authority (Wisconsin), in one or more series, of tax-exempt 501(c)(3) revenue bonds in an amount not to exceed \$10,000,000 in order to (a) finance, including through reimbursement, the acquisition, construction, improving, renovating, operating, and/or equipping of a charter educational facility located at 8377 West Patrick Lane, Las Vegas, Nevada 89113 for use by Amplus Academy, (b) fund a debt service reserve fund for the Bonds, (c) pay capitalized interest with respect to the Bonds and related working capital, and (d) pay certain costs of issuance of the Bonds.

MICHAEL NAFT

Thank you. I believe Rachelle Hulet is here. If there's anything you'd like to put on the record, thanks for being here.

RACHELLE HULET

Yes. Oh, am I on?

MICHAEL NAFT

You're on.

RACHELLE HULET

Okay. Good morning, Chair Naft, and Commissioners and staff. Thank you for letting me be here with you today. I'm Rachelle Hulet, the founder and CEO of Amplus Academy. First off, I wanted to just say how excited we are about the IHC (Intermountain Health) hospital that's going in right across the street from our school. We're really excited for our potential partnership with them and excited for their project to get underway. The school is pursuing tax-exempt bond financing for its upcoming capital project, which is an expansion of the five-acre parcel adjacent to our current Durango campus. This is a project that's been going on for quite some time. We purchased the land back in 2017, so we're excited that we are moving forward with this project. It is located in Clark County and we do have two previous tax-exempt bond issues that are outstanding, so these bonds will just be issued as additional bonds similar to the previous ones that we've already received.

MICHAEL NAFT

Thank you very much. At this time, I will open the public hearing. Anyone wishing to speak, please come forward. Ms. Danchik, something for the record?

ANNA DANCHIK

No, just to clarify, these are not obligations of the county.

MICHAEL NAFT

Thank you.

ANNA DANCHIK

Just the IRS purpose.

MICHAEL NAFT

Thank you very much. I'll close the public hearing.

MOTION

WILLIAM MCCURDY II

Mr. Chair, I move approval.

JUSTIN JONES

That motion passes.

63. Conduct a public hearing and approve, adopt and authorize the Chair to sign a resolution approving the issuance by the Public Finance Authority (Wisconsin), in one or more series, of tax-exempt 501(c)(3) revenue bonds in an amount not to exceed \$35,000,000 in order to (a) finance, refinance and/or reimburse the acquisition, construction, improvement, equipping, and furnishing of a charter educational facility located at 818 West Brooks Avenue, North Las Vegas, Nevada 89030 for use by The Delta Academy, (b) fund a debt service reserve fund for the Bonds, (c) pay capitalized interest with respect to the Bonds and related working capital, and (d) pay certain costs of issuance of the Bonds. (For possible action)

ACTION: APPROVED (RESOLUTION R-5-19-26-10).

Attachment(s) submitted and filed with the County Clerk's Office

KEVIN SCHILLER

Commissioners, your next item is to conduct a public hearing and approve and adopt, authorize the chair to sign a resolution approving the issuance by Public Finance Authority Wisconsin in one more series of tax-exempt 501(c)(3) revenue bonds in an amount not to exceed \$35 million in order to A, finance, refinance, and/or reimburse the acquisition, construction, improvement, equipping, and furnishing of a charter educational facility located at 818 West Brooks Avenue, North Las Vegas, Nevada, 89030 for use by the Delta Academy. B, fund a debt service reserve fund for the bonds. And C, pay capitalized interest with respect to the bonds and relating working capital. And D, pay certain costs of issuance of the bonds.

MICHAEL NAFT

Thank you. Good morning. Are you here on behalf of Delta Academy? If you just want to—

KYLE KONOLD

Kyle Konold. I am the superintendent of Delta Academy.

MICHAEL NAFT

Very good.

JESSICA SHAHAM

I'm Jessica Shaham, bond counsel from Kutak Rock for the Delta Academy financing.

MICHAEL NAFT

Very good. Is there anything that you'd like to add for the record?

KYLE KONOLD

Pretty much our previous temporary expired, so—

MICHAEL NAFT

Very good. Yep. We'll close the public hearing. Oh, I'm sorry. I'll open the public hearing. Ms. Danchik.

ANNA DANCHIK:

Oh, again, just to clarify, these are not obligations of the county.

MICHAEL NAFT

Thank you very much. I will close the public hearing. Commissioner McCurdy II.

MOTION

WILLIAM MCCURDY II

Yes, Ms. Chair, I move approval.

64. Conduct a public hearing; approve, adopt, and authorize the Chair to sign an ordinance amending Title 22, Chapter 22.16, of the Clark County Code by deleting Chapter 22.16 in its entirety and adopting a new Chapter 22.16 entitled "Amusement Ride and People Mover Code" to adopt and incorporate nationally recognized standards governing the design, manufacturing, operation, testing, maintenance, inspection, quality assurance, and classification of injuries, update and modernize regulatory provisions; and establish enforcement provisions and penalties; and provide for other matters properly relating thereto.
Commission District: All (For possible action)

ACTION: APPROVED (ORDINANCE 5378; EFFECTIVE 6/3/2026).

Attachment(s) submitted and filed with the County Clerk's Office

KEVIN SCHILLER

Commissioners, your next item is to conduct a public hearing; approve, adopt, and authorize the Chair to sign an ordinance amending Title 22, Chapter 22.16, of the Clark County Code by deleting Chapter 22.16 in its entirety and adopting a new Chapter 22.16 entitled "Amusement Ride and People Mover Code" to adopt and incorporate nationally recognized standards governing the design, manufacturing, operation, testing, maintenance, inspection, quality assurance, and classification of injuries, update and modernize regulatory provisions; and establish enforcement provisions and penalties; and provide for other matters properly relating thereto.

MICHAEL NAFT

Good morning.

JIM GERREN

Good morning, commissioners. Jim Gerren. I'm the director of the Clark County Building Department. This is a pretty straightforward ordinance. We're just replacing the old Amusement and Transportation System Code that was adopted 18 years ago in May of 2008, with a new ride code and we're changing the title to avoid some confusion. The new title is Amusement Ride and People Mover Code. There were some people who were confusing what we applied the old Amusement and Transportation System Code to. So, I want to clarify for the people in the audience and people watching, this new version of the Amusement Ride and People Mover Code does not apply to the Las Vegas Loop or The Boring Company's efforts building the tunnels. I also want to clarify because we did receive after our introduction last board meeting, we received a call from Virginia Valentine who put us in contact with one of her members. We immediately met with that member of the Nevada Resort Association, Barris Kaiser, and addressed some of his concerns.

So, to clarify, this ordinance does not have any retroactive requirements that would affect any of the existing rides. They're able to stay in operation under their original approvals. We have all the records of those original approvals. So, anything in the new code would just be from this point moving forward on new rides. I would like to take a moment to thank principal engineer Brian Lenihan, who's in the audience, and his team, including Tony Garcia, Agatha Lallana, and Sean Flores for developing this new version of the Amusement Ride and People Mover Code. And with that, I'd be happy to answer any questions you may have.

MICHAEL NAFT

Thank you, Director Gerren. At this time, I'll open the public hearing. Anyone wishing to speak, please come forward at this time. Seeing no one, I will close the public hearing. Commissioner Kirkpatrick.

MARILYN K. KIRKPATRICK

Thank you. Mr. Gerren, so you told me everybody it doesn't apply to. So, who actually does it apply to for the general public? So, is this the carnival rides in the parking lots that we see or who exactly is this going to apply to?

JIM GERREN

Okay. It definitely does not apply to those. The state handles all of those temporary traveling carnivals. This applies to the permanent rides like the rollercoaster at New York-New York, the Vegas High Roller Ferris wheel, the monorail between Mandalay Bay and Luxor and Excalibur, the actual Las Vegas Monorail, things like that. Any rides or amusement things that are permanent in nature, more than six months, we permit through the Amusement Ride and People Mover Code. We handled The Boring Company's Las Vegas Loop through the normal building permit process, not the ride process.

MARILYN K. KIRKPATRICK

Okay. No, I just wanted to be clear so it wasn't confusing.

MOTION

MICHAEL NAFT

Thank you. There's a motion by Commissioner Gibson for approval. Please cast your vote.

- 65. Conduct a public hearing to approve or deny a Special Event Preliminary Approval Application from She's Got Game, LLC to hold a special event on July 16, 2026, at 3780 South Las Vegas Blvd, Las Vegas, NV 89109 (Toshiba Plaza); and providing for other matters properly related thereto. Commission District: G (For possible action)

ACTION: APPROVED.

Attachment(s) submitted and filed with the County Clerk's Office

KEVIN SCHILLER

Commissioners, your final public hearing is to conduct a public hearing to approve or deny a Special Event Preliminary Approval Application from She's Got Game, LLC to hold a special event on July 16, 2026, at 3780 South Las Vegas Blvd, Las Vegas, NV 89109 (Toshiba Plaza); and providing for other matters properly related thereto.

MICHAEL NAFT

Good morning, Director Queano.

VINCE QUEANO

Good morning, Mr. Chair, Members of the Commission, Vince Queano with the Office of Sports and Special Events. The proposed special events is a celebration of female Olympians that would feature a parade on Las Vegas Boulevard and the Toshiba Plaza. At this moment we do have a presentation from the applicant, She Got Game LLC. I believe we have Rhiannon Ellis and we have Flavor Flav himself. Thank you.

MICHAEL NAFT

Good morning.

RHIANNON ELLIS

Hi. Good morning, everyone. I'm Rhiannon Ellis. I manage Flavor Flav (inaudible) the catalyst behind his support of women's sports. And I'm helping (inaudible) everything for the She Weekend. What started off as just an innocent tweet to support and celebrate female athletes, has really turned into a movement. Flav is a longtime Vegas resident. There's no other or better place that he would want to celebrate these athletes than Las Vegas. These Olympians really represent the best of us in the country, and they should have a celebration that recognizes that. We do understand the social responsibility we have with this weekend and the opportunity to make a social impact and change. So, we (inaudible) She Weekend representing sports, hospitality and entertainment in partnership with MGM Resorts. The weekend would go from July 16 to the 19. And we're asking you to consider for Thursday, July 16, that we want to start the weekend with a free public parade and concert in Toshiba Plaza.

Took some very positive feedback to involve the community more in the parade elements, as both a participation and to help build out the parade. So, we have tasked members of our team who oversee more community involvement. And we're working with some of the local youth teams and some of the summer camps to help build that out. I'll let Flav give a little bit (inaudible)

FLAVOR FLAV

I just want to say thank you for giving me the opportunity. And I'm honored, you know what I'm saying, to be able to bring these United States Olympic athletes here to Las Vegas. I am a girl dad and I am a big supporter of women sports.

MICHAEL NAFT

I'm sorry to interrupt you. My colleagues are reminding me that we need your name for the record.

FLAVOR FLAV

What happened? Huh?

RHIANNON ELLIS

They need your name for the record.

FLAVOR FLAV

Oh. Oh. I'm sorry. My name is Flavor Flav— my name is William Drayton, AKA Flavor Flav. I'm sorry, guys.

MICHAEL NAFT

Thank you. We're strict around here.

FLAVOR FLAV

But yeah, but I just wanted to just really thank the Board of Clark County, you know what I'm saying, and the people of the state of Nevada for seeing my vision of doing something real good and great for these

female athletes, that won gold this year. I decided to bring them all here to fabulous Las Vegas. Why? Because there's no better city for me to have these girls celebrate their winnings than Las Vegas. And plus when a lot of people come to Vegas, they think of Flav. So, everybody say I should run for mayor. I might be your next mayor. I don't know. I'm just joking, just joking. Anyway, but thank you guys though for seeing my vision and allowing us to really do something great for the city of Las Vegas by bringing these athletes here to Las Vegas. And I'm quite sure the athletes are definitely going to appreciate it more. So just thank you guys for seeing my vision.

MICHAEL NAFT

Thank you. Anything else? At this time I will open the public hearing. Anyone wishing to speak, please come forward. All right. If our applicants, if you'd want to step to the side for a moment. Please state your name for the record.

ERIC KING

My name is Eric King, huge fan of this man over here and apparently now the lady who's taking good care of him and our athletes. Huge fan of all sports and that Las Vegas has met my wishes for the past 20 plus years now of being a true sports town. Very excited about that. And to have such great fans of sports to help us along, awesome. Also, I'd like to say in terms of youth, I would like to make a plug for the volleyball teams that are here in town, which don't get as much love from sponsors, we know, as many other sports. Love basketball, was a religion of mine growing up, my favorite probably, and certainly enjoyed many great times with great people. And I know our youth, as I described being heavier more often than they used to be, could benefit a lot from that.

Not only have I played countless games of basketball and volleyball with joyous people of all ages, including 80 plus years old, but seeing eight-year olds and under and so forth thrive in that milieu of hero worship, which I am guilty of for many sports athletes as well as their community leaders who support all of that, speaks volumes to what becomes in the mind of a child possible, not only for their health and wellbeing and longevity, but for the greatness of America, Las Vegas certainly, and our community in general. So, thank you all for having me take a little bit of time. And I look forward to hopefully knowing this kind man and this nice lady better along with other great heroes I already worship in town. And some of you are sitting facing me right now. So, thank you all and I look forward to great things coming from this synergy and more things to happen like it for all of our youth. Thank you.

MICHAEL NAFT

Thank you. Next speaker.

AL ROJAS

Yeah. My name is Al Rojas. I'm a resident here of Clark County. Definitely Las Vegas is moving towards a sports town and we definitely want to encourage athletes coming here. I also would like to say that for young kids, I hope that we get some of our elementary schools and middle schools to come down and meet some of these athletes. Young kids, especially in the inner cities need a vision. I grew up in an inner city. I'm an electronics engineer. Since I was a kid, I went to a lot of these high-tech companies and I had a vision. It kept me off the streets. It kept me out of trouble. And I had a long-term vision as a young kid. We need to start moving in that direction to lower crime in our community. I totally support this program. And it's really strange because I am going to be making the testimony that in 2036 it looks like Las Vegas is going to be hosting the Olympics. I don't know how this happened, but I will be testifying that during public comment. Thank you.

MICHAEL NAFT

Thank you. Anyone else wishing to speak, please come forward. Seeing none, I'll turn it to Commissioner Gibson.

MOTION

JIM GIBSON

Thank you, Mr. Chair. I think all of us understand the need to recognize every one of our athletes, and that appears to be something that got missed in the translation. So, I move approval of the event. I also think it's important to note that last week we announced that the Professional Women's Hockey League has been expanded to include a Las Vegas and a Canadian team. There are five of each country. And it'll be an opportunity for us to open the door for our friends in Canada to come and watch their hockey teams play our hockey team. This is an exciting event. If you think about all the things that we've done in sports in the recent years, obviously this is another opportunity to further establish ourselves as the sports and entertainment leader of the world. And so, with that, sir, I move approval of the item.

MICHAEL NAFT

Thank you. There's a motion for approval. Please cast—Before we do that, Commissioner Segerblom.

TICK SEGERBLOM

Just wanted to remind Flav that the city of Las Vegas is great, but you're in Clark County at this parade.

FLAVOR FLAV

Clark County. Well, thank you, Clark County. Hey, this is the—I'm going to tell you something. I don't care what nobody say, but I live in the best city. I don't care what nobody say. Las Vegas is my city. This is the best city. Thank you all for giving me this opportunity for these girls. This is going to be real big. It's going to be an historical event. And this is going to be an event that people around the world will never, never, never, ever forget. And I just want to thank y'all for allowing me to have the opportunity to be able to do this right here in Las Vegas. And also thank y'all for giving the girls the key to the city.

RHIANNON ELLIS

Key to the Strip.

FLAVOR FLAV

Yes.

RHIANNON ELLIS

Key to the Strip.

FLAVOR FLAV

Oh—

MICHAEL NAFT

The Strip.

UNIDENTIFIED SPEAKER

The key to the Strip.

MICHAEL NAFT

We'll have to send them down the road for that.

FLAVOR FLAV

Okay. The key to the Strip. The key to the Strip. But thanks for giving the girls the key anyway though.

MICHAEL NAFT

Thank you very much. There's a motion for approval on the floor. Please cast your vote.

FLAVOR FLAV

God Bless.

END PUBLIC HEARINGS

SEC. 8. INTRODUCTION OF ORDINANCES

- 66. Introduce an ordinance to create a new Clark County Air Quality Regulation Section 108, "VOC Emissions Control for Paper, Film, Foil, Fabric, or Vinyl Coating Operations," to regulate sources that may cause or contribute to volatile organic compound emissions within the 2015 ozone nonattainment boundary by implementing emissions standards, work practices, permitting or registration requirements, and recordkeeping and reporting requirements; and providing for other matters properly related thereto; and to set a public hearing. (For possible action)

ACTION: INTRODUCED AND SET FOR PUBLIC HEARING ON TUESDAY, JUNE 2, 2026, AT 10 A.M. (BILL 5-19-26-5).

Attachment(s) submitted and filed with the County Clerk's Office

KEVIN SCHILLER

Commissioners, we can now move to your introduction of ordinances. Item 66 is an ordinance to create a new Clark County Air Quality Regulation Section 108, "VOC Emissions Control for Paper, Film, Foil, Fabric,

or Vinyl Coating Operations," to regulate sources that may cause or contribute to volatile organic compound emissions within the 2015 ozone nonattainment boundary by implementing emissions standards, work practices, permitting or registration requirements, and recordkeeping and reporting requirements; and providing for other matters properly related thereto; and to set a public hearing.

MICHAEL NAFT

Thank you, Manager Schiller. I will introduce the ordinance and set the public hearing for Tuesday, June 2, 2026, at 10 a.m.

67. Introduce an ordinance to create a new Clark County Air Quality Regulation Section 122, "Reasonably Available Control Technology for Major Sources in HA 212," to codify the reasonably available control technology determinations for certain major stationary sources that may cause or contribute to emissions of nitrogen oxides or volatile organic compounds within the ozone nonattainment boundary; repeal Section 121, "Reasonably Available Control Technology Determinations for Specific Major Stationary Sources in the 2015 8-Hour Ozone NAAQS Moderate Nonattainment Area HA 212"; and providing for other matters properly related thereto; and to set a public hearing. (For possible action)

ACTION: INTRODUCED AND SET FOR PUBLIC HEARING ON TUESDAY, JUNE 2, 2026, AT 10 A.M. (BILL 5-19-26-6).

Attachment(s) submitted and filed with the County Clerk's Office

KEVIN SCHILLER

Commissioners, your next item is an ordinance to create a new Clark County Air Quality Regulation Section 122, "Reasonably Available Control Technology for Major Sources in HA 212," to codify the reasonably available control technology determinations for certain major stationary sources that may cause or contribute to emissions of nitrogen oxides or volatile organic compounds within the ozone nonattainment boundary; repeal Section 121, "Reasonably Available Control Technology Determinations for Specific Major Stationary Sources in the 2015 8-Hour Ozone NAAQS Moderate Nonattainment Area HA 212"; and providing for other matters properly related thereto; and to set a public hearing.

MICHAEL NAFT

I'll introduce the ordinance and set the public hearing for Tuesday, June 2, 2026, at 10 a.m.

68. Introduce an ordinance amending Title 20 of the Clark County Code, Chapter 20.10, Section 20.10.010, to amend rentals, fees, and charges-Harry Reid International Airport (LAS); and provide for other matters properly related thereto; and set a public hearing; or take other action as appropriate. (For possible action)

ACTION: INTRODUCED AND SET FOR PUBLIC HEARING ON TUESDAY, JUNE 2, 2026, AT 10 A.M. (BILL 5-19-26-7).

Attachment(s) submitted and filed with the County Clerk's Office

KEVIN SCHILLER

Commissioners, your next items an ordinance amending Title 20 of the Clark County Code, Chapter 20.10, Section 20.10.010, to amend rentals, fees, and charges-Harry Reid International Airport (LAS); and provide for other matters properly related thereto; and set a public hearing; or take other action as appropriate.

MICHAEL NAFT

I'll introduce the ordinance and set the public hearing for Tuesday, June 2, 2026, at 10 a.m.

SEC. 9. BUSINESS ITEMS

69. Identify emerging issues to be addressed by staff or by the Board at future meetings; receive updates on the activities of the various regional boards and commissions; and direct staff accordingly.

ACTION: STAFF DIRECTED TO LOOK INTO A HEAT MITIGATION TASK FORCE.

Attachment(s) submitted and filed with the County Clerk's Office

KEVIN SCHILLER

We can now move to your business section of your agenda. Commissioners, your next item is identify emerging issues to be addressed by staff or by the board of future meetings, receive updates on the activities of various regional boards and commissions and direct staff accordingly.

MICHAEL NAFT

Commissioner Segerblom.

TICK SEGERBLOM

I get priority today. So earlier today on item 37, we changed the name of Cesar Chavez Park to Mariachi Park, and I just wanted to point out that that's a very positive thing. And this Saturday at 9 a.m. at the park, we're going to celebrate with a lot of Mariachi bands and food and everything. So, thank you, fellow Commissioners.

MICHAEL NAFT

Thank you. Commissioner Kirkpatrick.

MARILYN K. KIRKPATRICK

Thank you, Mr. Chair. So, I wanted to get the board's appetite. Commissioner Segerblom, this year, you did the Heat Summit last year. I've been doing it with the Health District, and I'd be interested because it's a talking point, right? That everybody's going in different directions. So, I like the opiate task force. When we set up that board, well, quite frankly, we were mandated by the state to set up that board, but when we did it, we got a lot of good information out, and I'm nervous that the legislature might do the same thing again on heat mitigation because everybody's got their own opinions.

But at the end of the day, there are zip codes that we got to work inward and work out, but maybe, we got to change some policies. So, I would like to know if the board would be interested in establishing a task force.

We already have all these regional agencies working together, but they're all doing their own thing, which I don't like silos, and I do think we can move more mountains. A great example is the tree giveaway. We've been giving away trees for four years, right? And then people say, "Not enough trees." Okay. Well, we're trying to do it in the areas where it is really hot pockets. We had looked at once upon a time cool paving like they do in Arizona.

And I think that if maybe you brought all these agencies together, which they all have a small task of what they're supposed to be doing, the health district's involved because it's in the statute. RTC is involved because it's part of making sure when people get buses, Clark County Social Services is involved because we do all of the cooling stations. So maybe if we brought them all together, we could have a regional staff level conversation and accomplish more than what we're doing today. Is that a nice way to say that?

TICK SEGERBLOM

So, if I could just follow up and second that, that's a fantastic idea. And anything we can do to help you, please.

MICHAEL NAFT

Anyone else for emerging issues? Thank you.

70. Approve the Clark County Parks and Recreation Director's reappointment of Mary Sabo to the Art Committee for her second and final 3-year term ending May 17, 2029. (For possible action)

ACTION: APPROVED.

Attachment(s) submitted and filed with the County Clerk's Office

KEVIN SCHILLER

Next item, Commissioners, is to approve the Clark County Parks and Recreation Director's reappointment of Mary Sabo to the Art Committee for her second and final three-year term ending May 17, 2029.

PATRICK ALMEIDO

Good morning. Good morning, Mr. Chair and Commissioners. Patrick Almeida, director of Parks and Recreation. The item before you today is approval of the reappointment of Mary Sabo to her final three-year term on the Public Art Committee. Ms. Sabo is a visual artist, project manager, and arts administrator, graduate from UNLV with a bachelor in fine arts and sculptural concentration. But she also serves as the senior visual arts specialist for the City of Las Vegas Cultural Affairs.

So, her background in project management and visual art, but also in a public setting is certainly an asset that we look for on our public art committee. So, we seek your approval this morning, and I'm happy to answer any questions you may have.

MOTION

WILLIAM MCCURDY II

Mr. Chair, I move to for the reappointment of Mary Sabo.

MICHAEL NAFT

Thank you. There's a motion for approval. Please cast your vote.

VOTE

VOTING AYE: Michael Naft, William McCurdy II, April Becker, Jim Gibson, Justin Jones, Marilyn K. Kirkpatrick, Tick Segerblom

MICHAEL NAFT

That motion passes.

KEVIN SCHILLER

Thank you.

MICHAEL NAFT

Thank you.

71. Accept and approve the Business Impact Statement pursuant to NRS 237.090 for the proposed ordinance amending Title 20 of the Clark County Code, Chapter 20.10, Section 20.10.010 to amend rentals, fees, and charges-Harry Reid International Airport; and provide for other matters properly related thereto; or take other action as appropriate. (For possible action)

ACTION: APPROVED.

Attachment(s) submitted and filed with the County Clerk's Office

KEVIN SCHILLER

Commissioners, your next item is to accept and approve the business impact statement pursuant to NRS 237.090 for the proposed ordinance amending Title 20 of the Clark County Code, chapter 20.10, section 20.10.010 to amend rentals, fees, and charges, Harry Reid International Airport and provide for other matters properly related thereto or take other action as appropriate.

MICHAEL NAFT

Good morning.

JOE PERKOWSKI

Good morning, Commissioners. Joe Perkowski, airport chief financial officer. The item before you here is for our annual budget. We met with the airlines on April 22 and presented our budget, and we got unanimous approval from them on May 1st. So, with that, we are recommending that the board determine that the ordinance described here does not impose a significant burden to the airlines.

MICHAEL NAFT

Thank you. Any questions from the Board?

JUSTIN JONES

Mr. Chair, yeah, I just wanted to chime in on this. I know there had been a request by the Chair to be able to attend that meeting with the airlines. I think that it was unfortunate that that did not occur. I think these decisions affect not just the airport itself, but the entire community and the priorities that I know you're working on right now relating to renovation of Harry Reid International, in particularly Terminal 1 need to be continually prioritized.

And while I'll support this item today, I certainly hope that future boards, that there is much more involvement between this board and the decision making of the airline representatives on that committee so that we can make the renovations that are truly necessary at Terminal 1. I was in Nashville earlier this month, and it was quite transformational to see the work that they had done as a gateway to their tourist destination and returning to Terminal 1 in particular, it's not the gateway that it should be. We need to do better.

MICHAEL NAFT

Thank you, Commissioner Jones. Director Chrisley, I know you're aware of this board's desire, my desire to prioritize this project. I know we certainly want even more than we've already been receiving as far as hands-on information and involvement in it. I'll let you respond further.

JIM CHRISLEY

Yeah, definitely. Thank you. Jim Chrisley, Director of Aviation for the record. But yes, Terminal 1 remodel and renovation is definitely our priority in our long-term capital planning. The item before you, the rates and charges for our O&M budget, our annual O&M process that's outlined in our airline use and lease agreement. We do want to come back to you in June with an update on where we're at on the modernization program as well as continue those conversations and those updates. Probably again at the end of the year when we have a little more information to share or more details.

MICHAEL NAFT

And I guess I would say too then to Commissioner Jones's point, if you could notify us ahead of the next consortium meeting, the airline consortium meeting, that would be useful information.

JIM CHRISLEY

Absolutely. We will notify you they are an annual meeting, and we'll go from there. Thank you.

MICHAEL NAFT

Thank you. Anything else related to Item 71?

MOTION

WILLIAM MCCURDY II

Seeing no one, I move that we accept and approve the business impact statement.

MICHAEL NAFT

Thank you. There's a motion for acceptance of the business impact statement. Please cast your vote.

That motion passes. Thank you.

- 72. Approve, adopt, and authorize the Chair to sign an amendment to the resolution recognizing the Las Vegas Grand Prix (LVGP) as an annual event. (For possible action)

ACTION: APPROVED.

Attachment(s) submitted and filed with the County Clerk's Office

KEVIN SCHILLER

Commissioners, your next items to approve, adopt, and authorize the Chair to sign an amendment to the resolution recognizing the Las Vegas Grand Prix (LVGP) as an annual event. By way of introduction of this item, a couple comments. This is an amendment to the original inaugural race resolution. This would extend through 2037.

I did want to point out some key pieces to this when we were approached by F1. As you know, we have our special events process, and we have continued with previous events, EDC, the rodeo. You have an evolution of how events evolve related to setup, takedown. They have committed to installation and removal improvements. Those improvements include track lighting foundations, underground conduit for power and communication, and then installation of permanent gates related to improved traffic road flow. As you know, this is a significant economic impact to our community and upwards of a billion dollars.

It employs many people within the community, and I think this is just a continued effort for us to continue to improve the process as we annualize this event through 2037. And with that, I'll turn it over to the board.

MOTION

MICHAEL NAFT

Thank you. I'm happy to make a few comments, but is there anyone from the board that would like to speak? If not, I'll start out by saying I support this, but it's got to come with very clear parameters that the purpose of more time is to condense the timeline.

That is the purpose of what's before us in my mind, why I'm supportive of it. I think there are clear things that have been demonstrated through the work that you and your office have done in conjunction with the organizers that set a path for a condensed timeline and condensed disruption. And it's going to be really important that the county make sure that we continue to stay on that point. Seeing nothing further, I'll go ahead and move for approval and adoption of Item 72.

- 73. Receive a report from the Director of Public Works on the status of Complete Streets projects identified in the 2022 Clark County Complete Streets Opportunities Report and discuss adoption of a formal Complete Streets policy and direct staff accordingly. (For possible action)

ACTION: RECEIVED.

Attachment(s) submitted and filed with the County Clerk's Office

KEVIN SCHILLER

Commissioners, your next item is to receive a report from the Director of Public Works on the status of Complete Streets projects identified in the 2022 Clark County Complete Streets Opportunities Report and discuss adoption of a formal Complete Streets policy and direct staff accordingly. Commissioner Jones.

JUSTIN JONES

Thank you, Mr. Manager. I think Mr. Cederburg has the presentation.

MICHAEL NAFT

Good morning.

DENIS CEDERBURG

Good morning. Denis Cederburg , Department of Public Works. What's left of the morning, I should say. This is a presentation on a study that was performed by CA Group together with the UNLV Center for Business and Economic Research and the UNLV Transportation Research Center.

It was a contract that would explore Complete Street opportunities within Clark County. Executive summary, Complete Streets enables safe access for all users, pedestrians, bicycles, motors, and transits riders of all ages of abilities can safely move along and across the complete street. The balance between safety and convenience for all users utilizing Complete Street helps determine the road design.

No complete street will be the same due to the variety of roadways and user needs. So, the group undertook a study of potential street opportunities within Clark County in which they can engage the integration of complete streets. They looked at summarized their findings and efforts, including literature review, evaluation criteria, recommendations, and a prioritized list of potential complete streets.

The project process and phases, literature review, review of plans, documents and existing conditions. They looked all over the nation and other locations on complete streets, evaluated agency models for complete streets policies, and they did an evaluation of existing ordinances and regulations, permitting development processes for land use modifications in Clark County.

They also did an evaluation criteria. The project team incorporated information from all their literature research, determined the highest potential roadway corridors as complete streets. The criteria included considerations such as safety, access, mobility, demographic, socioeconomic land use, health and aesthetic characteristics along the roadway sections, historical and latent travel demand estimates by mode and their sensitivity to the right-of-way and proximity land use characteristics.

They developed the project evaluation and prioritization schedule based on that criteria this task identified corridors where complete streets could be applied within industry standards and leverages open access resources such as the Clark County Open Web. The project team evaluated the initial candidate quarters and classified each quarter as eliminated from consideration or recommended for further consideration.

The quarter evaluation categories considered safety, and the value of the value of statistical life (VSL) based on crash data and models considered from zero to three. A low VSL was zero. A high VSL was three. Another evaluation criteria was connectivity, the percentage of automobile ownership by census block, annual average daily traffic, RTC (Regional Transportation Center) Southern Nevada Regional Walkability Plan, and the RTC Regional Bicycle and Pedestrian plan for Southern Nevada. The ranking was little or no connectivity had zero high-tech connectivity with three or more modes ranked three.

They also considered land and neighborhood US census block on density and residential to commercial mixed data. Zero had low density compared to other Canada corridors and mixed zoning half mile buffer is not between 50% to 70% residential.

The highest rating the quarters located in high density area compared to other Canada quarters with mixed use zoning, half mile buffer is between 50 and 70% residential. They also looked at economic activity, the American Community Survey ACS, quarterly census of employment and wages, and Clark County FY23 assessor data for the average property value per unit. Quarters with Nevada DETR US Census and Clark County data indicate high income, high property value, high unemployment track compared to other Canada Corps received the lowest rating.

The highest rating was given to Canada quarters that DETR US Census Clark County Assessors data indicated a low income, low property value, and low employment track compared to other candidate quarters.

They also considered the environment. They used the RTC Heat Vulnerability Index map. High heat vulnerability received the highest ranking. Low heat vulnerability received the lowest ranking. The initial candidate quarters included Twain Avenue between Paradise and Spencer, Vegas Valley Drive between Tam O Shanter and east of Vegas Valley Drive, University Center Drive between East Tropicana Avenue and Desert and Road, Karen Avenue, Paradise Road to McLeod, Sierra Vista, Paradise Road to Maryland Parkway, West Harmon, Spring Valley Parkway to Harmon Coast Court, Carey Avenue, North Pecos Road to Sloan Lane, Spring Mountain, Spring Mountain Rainbow to Aldebaran Avenue, Durango West Warm Springs to Badura, Jeffrey Street, Spencer Street to Southeastern Avenue, Owens Avenue, Nellis end of Owens Avenue, Warm Springs Road, Fort Apache, South Jones Boulevard, and around Sunset Park, including Eastern Avenue and Sunset Road.

After going through the scoring matrix, they identified this ranking of quarters. Twain had the highest point value. Around Sunset Park had the lowest point value. The streets of Durango, Warm Springs Road and around Sunset were considered no further consideration, primarily because of the volumes of traffic on these roadways.

I should mention that we've done work on Twain Avenue. We've done work on Karen Avenue. We've also done Carey Avenue, and we're now working on Spring Mountain Road. Future projects do include Owens Avenue. Two projects were recommended for further consideration. Twain Avenue between Paradise and Spencer Street, they recommended various alternatives for complete streets opportunities.

One was adding bike lane with current lane configuration. Two was adding wider sidewalks with a landscape buffer, no bike lane. Three was add bike lane, parking one lane in each direction, plus sidewalk. For Twain Avenue, we did do a section of Twain Avenue between Algonquin and Spencer Street over near Orr Middle School. This is what Twain Avenue looked into before condition.

This is what it looked at in the after condition. We took away a travel lane in each direction. We added a buffered bike lane and parking on both sides of the street. Spring Mountain Road was the second project for reconsideration. It had a proposal with the current lane configuration of adding a buffered landscape area plus sidewalk, and it showed this is current lane configuration three westbound, two eastbound lanes. The alternative was to remove a lane, add wider sidewalk, two lanes at each direction with a center turn lane or median.

For Spring Mountain Road, we did a second phase for Spring Mountain Road. We did an analysis of traffic operations, traffic safety, looked at the proposed improvements, performed a benefit-cost analysis, and

wrote up a summary and conclusion. The conclusion came up with this cross section associated with Spring Mountain Road. It approved removing one of the westbound lanes, considering constructing two lanes in each direction, landscape buffer and a pedestrian wider sidewalk with a median.

This gives you the type of configuration you would have. It's just an overschematic of two lanes in each direction with median. We also did a portion of Karen Avenue, which was not considered for recommendation for the consideration, but we have reconstructed Karen Avenue. This is in the before condition. This is in the after condition.

We added buffer bike lane parking, a pedestrian crossing for school crossing. We added street lights and sidewalk where none existed. Also, Carey Avenue was on the list of projects. This was in the before condition. We added two lanes in each direction, a median, buffered bike lanes, sidewalks and streetlights in this area. This is another view of Carey Avenue going east. It did not extend to Toiyabe. Before, it used to wind through a residential neighborhood. What we did is we acquired right away from Nellis Air Force Base. We put a new connection on Carey Avenue between Toiyabe and Christy, added median center streetlights offset sidewalk.

What also this did is there's three schools located on the east side of Carey. They used to use Lake Mead Boulevard for their routing. They now use Carey Avenue as a more efficient route.

Finally, this is county's current Complete Street's policy. It's in the Clark County Master Plan Transform Clark County. It's policy 4.1.7 Complete Streets. So, seek opportunities to integrate complete streets attributes as part of county infrastructure projects to the maximum extent practical as a means to reduce traffic congestion. Improve air and water quality. Increase the quality of life of residents by providing safe, convenient, and comfortable routes for walking, bicycling, public transportation, and driving. That concludes my presentation.

JUSTIN JONES

Thank you, Mr. Cederburg. I appreciate the update and a lot of work has been done. Certainly I've worked with you and your team on Spring Mountain and some of the other projects that are in my district. I know my colleagues have done the same. In terms of the policy that was adopted into Transform Clark County, how does that filter down into the design process in Public Works when new projects are considered?

DENIS CEDERBURG

Well, on our projects, we've done quite a few reconstructions of a lot of our streets. All of those were typically on 80-foot streets. We've incorporated buffered bike lanes or bike lanes. We've added sidewalks and streetlights where none existed. Recent example is Harmon Avenue between Maryland Parkway and Boulder Highway. We did East Hacienda between Mountain Vista and Stephanie Street and typically all east side streets where we do reconstruction where the majority of them are in poor condition. We've gone through looking at the bicycle and walkability plan, added sidewalks, all the ADA improvements and buffered bike lanes or bike lanes where we can.

JUSTIN JONES

Great. I know we're coming up on the adoption of our next 10-year CIP plan, capital improvement plan, for public works. And there have been allocations of dollars, sort of line items for Complete Streets projects in the past and some of those have been drawn down for specific projects. I understand that there is going to be a line item on there for complete streets improvements and safety improvements. How will that get translated into projects going forward?

DENIS CEDERBURG

What we do with RTC, we create these buckets and when we draw down on the money. But when we actually do the agreement with RTC, it usually identifies a project limit such as Fort Apache between Warm Springs and Blue Diamond, and that'll include complete streets elements. So that gives us a portion of the budget to apply to that project for complete streets. So, we look at the street itself. We don't typically do an agreements as a complete street description in the agreements. It's usually just a road with the limits, and it includes bike lanes, buffered bike lanes, sidewalks, and streetlights.

JUSTIN JONES

Okay. And I know one of the issues that this board has raised in the past, RPM gives us a monthly project book. We've asked your department to do something similar, and we are getting quarterly reports now as a result of that. How can we make sure that those quarterly reports better reflect some of the improvements that you've identified today that have been completed?

DENIS CEDERBURG

Yes. What we've done is because of what we've—Commissioner Naft has asked about safety improvements. You've asked about complete streets, is now to track and identify those types of improvements that we apply to our roadway reconstruction projects and our new roadway projects.

JUSTIN JONES

Okay. And in terms of the projects that were identified as a result of the evaluation, I know there's been some of the Twain improvements completed. Spring Mountain is sort of in process with design. How do we ensure that the remainder of the projects as we look forward to the 10-year CIP get funded and completed?

DENIS CEDERBURG

Ensuring the projects get funded, that's all part of the capital improvement progress. Budgets sometimes go up. Budgets go down. So, each year, we have the opportunity to modify the budget to add complete streets and add streets that are we going to reconstruct. So, I guess the assurances that we will give you is from Public Works as a department will ensure that those projects are brought to your attention and shown that there are complete streets elements being included in those projects.

We completed Cactus Avenue between Fort Apache and Buffalo. That has a buffered bike lane in it, two lanes, a bridge over the wash. We re-striped Cactus between Buffalo and Rainbow to add a lane. We've done Gomer. Gomer had a road in it that was three lanes. We took out a lane, put a buffered bike lane in it. That project was not identified on the capital project. At your request, we simply went out and did it.

JUSTIN JONES

Understood. I appreciate that. I do hope that similar improvements, since it's not just Justin's policy, this is complete streets policy that's been adopted by this entire Board, are incorporated throughout the county. So, I'll cede floor.

MICHAEL NAFT

To follow up on that point, at what point in the process will we see those? As you know, I've seen designs that are 60% done, 60% complete. And then I have comments to make, and it sets the project back years. So, what is that commitment from public works with the commissioner whose district it is and where we have a state?

DENIS CEDERBURG

I think right now with the commissioner in the district, we meet on a monthly basis that have scheduled those monthly meetings for us to go over the project list in your district, and that's to avoid those type of commitments in the future or comments in the future of where we've got so long, and there's a request from a commissioner to add a specific amenity or type of mode of transportation is to continue with those monthly meetings and bring those to your attention so you're aware of what's going SA, and you can comment on the earlier spaces.

MICHAEL NAFT

I know it's straying a little bit from the agenda item, but could you comment—Since the time I've been here, you've had vacancies in senior level positions in your department And I'm thrilled that we're starting to fill, one specifically. Could you just maybe update us on assignments and tasks of those leaders in your department? And then I think you have one of the highest vacancy rates countywide right now in your department. What are we doing to actively fill it? Your department, every presentation we've heard today depends on your department. All of us have your roads in our districts. Some of us have almost exclusively your roads. We need the department to be responsive, more responsive even so than it is. How are we filling those positions?

DENIS CEDERBURG

A good majority of those positions are in our road division, which experiences over a 20% vacancy rate. Many of them are, they've gone through a series of retirements lately. They've lost a couple assistant managers. We just hired one assistant manager in road division. We go through maintenance workers quite often. It's an entry level position. Many times they get trained, and they get their CDL, and they move on to other areas where they can make a little more money. And where they're making more money in other agencies, there's vacancies.

We do tend to lose them to other agencies. But what we've done on the senior management, I now have two senior deputy directors and a deputy director. We're looking at a manager for administration-type services in Public Works right now. That position was posted. It's been recruited for, and we anticipate interviews in the next month or so.

MICHAEL NAFT

That's great. Thank you. Anyone else have comments?

JIM GIBSON

I might make a comment. I've appreciated the monthly meeting. It's helped us get more granular in terms of what we understand about what's going on. An example of the good work that is being done is this work that we're doing on Hollywood in an effort to complete, not in the term of art that we're talking about here today, but complete that road so that we get more movement across the valley.

And that is going to be a really big thing for us. One of the challenges that we've seen both is we worked on Tropicana Boulevard and the depressed roadway. And on Hollywood is that there are, in my opinion, far too many times when we're required to do NEPA work that almost appears needless. But in the end, it's required of us and that really sets us back. Now, we've lived long enough to get through some of it. We've made some changes in terms of what we're going to do with Tropicana. We're making a presentation of the Board of Regents here in the next few days. But those monthly meetings, I appreciate the way that you come to those meetings. You and Kaizad, as you really make an effort to help us understand exactly what's happening. And you've been responsive to the things that I've asked of you. So, I appreciate very much all of that work. I get it that if there's something wrong with the pay scale, then we need to take a hard look at it because there isn't a department that is more impactful across the

entire county than your department. And if there's work to be done there, then we need to continue working on it. Thank you very much for your presentation.

DENIS CEDERBURG

Just a comment on the Hollywood extension. It does contain a lot of complete street elements. It has two safety elements, two roundabouts going forward with it. It's a road that's done from scratch through an open area. We have a separated buffered bike lane multi-use trail along the entire length of it.

JIM GIBSON

That's right.

DENIS CEDERBERG

Across through the Wetlands Park area.

JIM GIBSON

Well, not only that, we've bridged a portion of the area where it crosses so that the wildlife can move back and forth anywhere near the wetlands park. I mean, it's going to be an incredible street and we really appreciate the work that's been done there.

DENIS CEDERBURG

Thank you.

MICHAEL NAFT

Commissioner?

TICK SEGERBLOM

And at Commissioner Gibson's suggestion, you went out and decided to put a fence down Boulder Highway, which has made a huge difference. I just did a press conference with you. We just did a \$500,000 another couple of miles and we're going to keep doing it, but it's really going to change the pedestrian fatality on that road, which you did on your own. So, thank you.

JIM GIBSON

No, that was a very good idea. And when we met first with Jeff Clark, who's the area commander in the Southeast, I wondered whether or not that was something we would be able to get on. As it turns out, I think last year we had five fatalities right there in the first area that we fenced, or excuse me, a year ago. This past year we had zero. It has made an enormous difference. And the Boulder Highway is probably one of the least safe pedestrian for pedestrians roads that we have in all of Clark County and that's been really critical. And thank you for that too.

MICHAEL NAFT

Thank you very much.

DENIS CEDERBURG

Thank you.

Item 74 heard after Item 43.

74. Receive a presentation from the A's on the stadium development, including phasing of development and design elements of the site and direct staff accordingly. (For possible action)

ACTION: RECEIVED.

Attachment(s) submitted and filed with the County Clerk's Office

KEVIN SCHILLER

Commissioners, there has been a request to go to Item 74 under your business section and then we'll move to public hearings. Item 74 is to receive a presentation from the A's on the stadium development, including phasing of development and design elements of the site and direct staff accordingly.

MICHAEL NAFT

Good morning.

SANDY DEAN

Good morning. Great. Sandy Dean with the ownership group with the As. I'm joined by Marc Badain and Tyler Van Eeckhaut, and we're going to each of us address a section of the presentation. We're going to begin with Tyler, who's from Mortenson McCarthy, who's going to give a construction update on what's happening with the ballpark. And I just want to say this is my first time being back here in a year and we're excited to get to share with you the progress that's been made in what we're doing together. Tyler.

TYLER VAN EECKHAUT

Good morning. Thank you, Sandy. Clark County Board of Commissioners, thank you for the opportunity to share on behalf of Mortenson McCarthy, also known as MMJV. I am Tyler Van Eeckhaut, the project director representing both firms today. So currently, I just wanted to start with sharing a little bit about where we're at with our craft workforce. We have around 550 craft workforce on site each and every day that are contributing and really doing a tremendous job performing the work here on site. None of that would be possible if it wasn't for all of the work that went into the approvals, the time, the energy of Clark County, the Water Reclamation, the Building Department, Public Works, all of the above. And I just want to be extremely appreciative of that group. There's tireless amount of hours and effort that's going in behind the scenes that a lot of people don't see, that's contributing to the success of the ballpark of where we're at today. We'll go ahead and go to the next slide please.

I'm going to start with some of the information here on both the construction update and the project coordination, not intended to read every single line item here. There's also some photos that we'll speak to here in a moment that help illustrate a lot of the progress that's happened on site, but there is tremendous amount of work happening on pretty much every single level of the ballpark currently. We are poured out with our structural concrete on our lower suite level as well as our main concourse level. So that's creating a full walkway around the full extent of the ballpark. We're currently working on our event level, so we have activities such as slab on grade that's progressing and then interior CME (Construction Materials Engineering) walls. We're working on the exterior of the ballpark. So, we're looking at actually starting to enclose some of these areas so that we can continue with successor work, which is really exciting.

And then probably most exciting that a lot of people are able to see as they're driving by the ballpark is looking at the steel structure itself. We have the bowl structure that's continued to progress on site. We're fabricating the large truss assemblies on the ground, which I'll show some pictures of. And then we have these substantial shoring towers which are going to hold up that roof structure, which are really exciting. A lot of the things happening behind the scenes, so project coordination continues to go well, again, with the efforts of Clark County which we're very appreciative of. All primary permit packages for the building have been approved. We're getting a lot of deliveries of off-site fabricated elements such as

the escalators, and then continuing all of our fabrication of steel off-site. Again, a lot of this is helpful when we look at some of the pictures, which I'll speak more to.

So, the video here helps demonstrate a lot of the progress that's happened since February. We wanted to just help illustrate a lot of the work that's happening in such a short amount of time. So, this video flies over starting around the south end of the ballpark, but when I say that the structural decks are complete, even when you rewind to February, a lot of that work was still in progress. At this time in the ballpark, we're now in March, we hadn't even started any of the structural steel that I had mentioned previously. So, all of what you see there that is the structural steel in the ballpark just started more recently that you start to see here in this video here in April. The green shoring towers, those have been elevated since this was shot. And that's really, I think, helping everybody visualize how substantial some of the structure will be when we talk about the roof structure in particular.

This video here on April 20, it actually is showing in the top left corner currently that last pan and joist deck pour that we had that was shortly after this video was taken. We had a nice opportunity to celebrate with the craft after that in which Mr. John Fisher joined us as well. Here in this video, you're seeing that large crane being erected. So that is one of the largest cranes in North America that we currently have on site. That'll help support the erection of the truss steel. And then since that video's been filmed, we have another one here on the southeast corner as well that'll help erect some of this steel. So exciting for us construction nerds. But again, it's hopefully exciting for you as well because this is a lot of your efforts have helped contribute to this clearly.

So, speaking a little bit about some upcoming milestones, we've talked a little bit about where we've been. Now I'd like to start sharing a bit about where we're going. So those shoring towers, not going to speak about those again. But what we now have is two of those very large roof structure cranes that are going to help support the erection of the primary structure. And a lot of what this visual is intended to help communicate is the progression of what you're going to see here in the next couple of months with the roof steel in particular. So, we're going to start the actual assembly. We've assembled these trusses on the ground and we're going to start setting those in place here early June. So, for anybody driving around the ballpark, looking at the ballpark, it's going to start to look substantially different, which we're very excited about.

We spoke a bit about the masonry. Another exciting activity is in about three weeks we're going to start our precast stadia. So that is precast treads that's going to sit and actually create the bowl in which people will sit on and that'll sit on top of the steel that you saw in the previous video and photos. MEP underground interior roughing and framing. I'm going to skip to some of the photos because I think that'll be more helpful to illustrate. For this slide, what I really want to communicate here is we're extremely excited to share that we are on schedule. Again, that's because of the contributions of the county, it's because of the tremendous workforce. But a big part of what our obligation is, is meeting the obligation and the dates in which we've committed to, and we're excited to share today that we continue to be on schedule.

The next video here is our 4D model. This is helping to illustrate our plan that we use to communicate with both our trade partners, maybe community members, what the visualization is and the progression of the work here. So, this goes all the way back to a year ago when we just started with earthwork. What you're seeing here is a lot of the piles and the foundations going into place. Right behind where that tower crane is, roughly speaking, is home plate right at the diamond there. So, our work started behind home plate. So anytime that you're either visiting the site or you're looking at the ballpark, you'll see the most progression of work right behind home plate and then we've progressed up and then out. So, this

video will help illustrate and communicate as that structure started to come up and then continue to work its way around.

This is roughly speaking probably in the January to February of this year timeframe, getting closer to the March, April currently and then when that steel started and the bowl was in April. So, this is a plan that is really helpful to make sure that we don't have any issues that surprise us in the future. It's a way that we can visualize, make sure that we're executing the work safely and make sure that we are thinking of any potential problems that could arise in the future. So, the environment that we create and we help establish is one in which everyone can speak up, everyone has a voice. And this is a tool that allows for anybody to be able to speak up and say, "Hey, I have a concern. I have a question and I'd like to make sure that we're on the same page."

This is getting closer to the end of this year. We're getting close-ish to roof structure finalizing, which will happen in 2027. A lot of the enclosure on the roof is going in at this time and progressing around the ballpark. There's these really tremendous ETFE and PTFE is what it's called. That's the clear stories that you see at the very top of the ballpark between the different pennants. That's what's being illustrated here in the green coming across the ballpark now. And then one of the final elements and one of the most extraordinary aspects of the build will be the cable net on the very north side of the ballpark that looks out at the tremendous strip view, and that's what you're seeing being glazed here in the video. The final couple of months after the project gets glazed is purely us finishing out the interiors, finishing up our commissioning and then we're done. So that's all it takes.

Okay, just a couple more here to make sure that you're following the progression of the ballpark. As I know words are not always as helpful as visuals. So, this visual really helps illustrate the exterior facade that blue that you see is our exterior weather board, that's helping us get enclosed for the event level and lower suite level. This slide's helping to illustrate some of that bull steel. You can see the large truss steel. And there's another photo here in the background, the shoring towers and then the substantial crane in the middle of the ballpark. The other image that you can see in the bottom left of this photo is one of the buttresses. So, this is the foundation that'll actually hold up the roof steel itself and those trusses that you see in this image. Don't let the images fool you here, and for anybody that's driven by the ballpark, this is substantially very large steel that we're putting really sophisticated plans in order to make sure that we don't have any problems. But this is the steel that you're going to start seeing being erected early June.

This is showing some of the steel progression, but then I want to point your attention to the bottom photos. This is showing the progression of some of the interior work, the framing, the interior MEP (Mechanical, Electrical, and Plumbing), a lot of our slab on grade work and then the start of some of the CMU (Concrete Masonry Unit) progressing on those levels as well. And then I think this photo on the left side is just fun to help understand how large these buttresses are that's supporting the truss steel. Before we get to outside the ballpark, I wanted to just take a moment to speak about how we're progressing on our community participation. There is a slide on this in just a moment, but I'm excited to share that we are continuing to meet the requirements of SB1 (Senate Bill). This is not only a requirement for us, but it's how we conduct our business. It matters, it makes a difference and it's something that really does matter.

So, we're currently trending at 15.08% of the required 15%, but what that translates to and I think is a little bit more tangible... I want to make sure I get the number right, \$155 million of committed funds to small business firms, so a substantial dollar value. Additionally, as it relates to workforce, we're currently trending around 78% of targeted workforce above the required 51%. I'd like to hand it back to Mr. Sandy Dean.

SANDY DEAN

Thanks, Tyler. And I'll just say even from the perimeter of the site now, you can really see the bowl taking shape and how vertical it's going to be. And for people who've toured the site, you can get a feel for how close the seats are going to feel to the field, so there's a lot of excitement there. Tyler has basically been describing everything that's happening inside the perimeter of the ballpark. For ourselves internally, we often talk about that as inside the nine acres. Our ballpark site is exactly a nine acre circle. I'm going to take a moment and talk some about what is going on outside the nine acres. Bally's, our partner is in charge of what happens outside the nine acres. And also we can build things for the ballpark outside the nine acres if it's consistent with Bally's plan and needed for the ballpark.

Our entitlements for the ballpark included the approval of a 2,500 car garage in the southeast corner of the site, and also a central utility plant that was contemplated to serve the entire site. When we talk about central utility plant, it's important to say that's the place where we'll make chilled water for air conditioning, and hot water for heating and some electrical infrastructure to support that. As Bally's has worked on their phasing, and especially with the expectation that a hotel tower is likely to be beyond a phase one of whatever they would build, a couple of changes are coming out of the design for the outside the nine acre plan. And one is that for much of 2025, we and Bally's together expected there would be a single central utility plant that would serve the entire site. And because of the rate at which they expect that they're going to phase what they build, it feels like it's a much better decision to phase the central utility plant. And I'm going to in a minute show a picture that'll be worth 1000 words, hopefully.

Their central utility plant was going to go just north of the southeast garage up against the eastern side of the property. And we're going to leave that site for a second phase two of the central utility plant. And we're going to create a phase one of the central utility plant that'll be on what would have been the eastern edge of the garage on the site, and I'm going to see if I can make the slides work. So, on the left-hand side of the picture, you can see kind of the whole site plan with the ballpark and the southeast garage. And on the right picture you can see to the north of the garage it says, "Future IR Cup." IR is a mysterious acronym for integrated resort. And what's in green is basically a 50-foot strip being taken out of what would have been the garage footprint. And making that available for a utility plant for the A's and possibly some additional improvements on the site.

Any questions on any of that? Okay, then I'm going to just talk about the garage for a minute. With the hotel tower expecting to be beyond a phase one for Bally's, we're also going to phase the southeast garage. It's contemplated to be 2,500 stalls at full capacity, but we're going to have a first one phase of 1,500 stalls that should be ready for opening day. And as more development happens on the site, that could be expanded to go back to the contemplated 2,500 stalls. Any questions? Okay, I'm going to—

MICHAEL NAFT

You're doing great.

JIM GIBSON

So, I'll have a couple of questions and comments in a few minutes, but we'll let you finish the presentation.

SANDY DEAN

Okay. That's the end of my piece. Should I bring on the next piece?

JIM GIBSON

Well, Sandy, you're really moving. Sure.

SANDY DEAN

Thank you, Commissioner Gibson. I'm going to bring up Marc Badain. Thanks guys.

MARC BADAIN

I guess Tyler gets the 9 acres, Sandy gets outside the 9 acres, I get everything else. You guys were kind enough to allow us to come in December and share a little bit about what we were doing in the community, so thank you for that. Thank you for giving us the opportunity again. Similar to Tyler, I'm not going to read everything that's on the slide, but we've been out and in force in the community at what feels like 5 to 10 events per week. We've had a chance to engage with a lot of causes close to you and we'll continue to do that. One point I did want to point out on this slide is in the bottom right, you see 56 current A's and Legends employees based in Las Vegas. And if we'd had this meeting a year ago, that would have been two. So, we've been relocating a number of people and we've been hiring a lot of people and that will continue.

And what I enjoy about that, especially for those that get to relocate here, is how much they enjoy engaging in this community. And I think if they were at this meeting today just to see the diversity and what gets done in this community and the 14 people that you honored earlier. And sitting behind me is Flava Flav for some reason, I just— What goes on in this community just amazes me every single day and I love living here and it's fun to bring some new people and get them to see A, where they're moving to, the impact they're having. You heard Tyler talk about the jobs and all of the job creation and that extends not just to the construction side, but to the front office as well. All those folks are moving here, are buying, renting homes, engaging their community, joining boards, volunteering their time and becoming key members of this community and that will continue.

Over the summer a number of our executives employees as their kids are finishing up the school year in California, are moving here. So that number will be significantly higher a year from now. This is just a logo page to show some of the organizations that we've spent some time with and supported over the last few months. And you've seen the work on the site. We have an experience center now open at UnCommons. We've been able to do a lot of tours there for the community in addition to our sales efforts, and also do some hard hat tours at the stadium at the ballpark so people can see the progress, and see the workforce and see what they're a part of building. So, we encourage all of you to continue to join us on those. We've had a great quarter. We have some exciting things coming up. We have six games in June.

The team is currently in first place and we have six games the second week of June against the Milwaukee Brewers and the Colorado Rockies. So hopefully, you can join us for some of those games as well and we'll be doing a lot of community engagement and activation around those games. From a sales update standpoint, we opened our preview center back in December, but really didn't start selling until March. The community has responded very strongly. We're doing very well, but I did want to point out in addition just to the premium product that's on sale now, our plan is to have price points for everybody in this community, for families, affordable ticketing, deals for locals. So those will continue and we'll continue to give sales updates as that progress. I think, Sandy, you're back up to answer questions unless you have any for me.

MICHAEL NAFT

No, thank you very much. Commissioner Gibson.

JIM GIBSON

Thank you very much. When I first met representatives of the A's organization, including the family members, one of the first things that we talked about was the immersive experience that's going to be for you when you come into this community and what would be expected of you. But what we felt you would

bring and what you've demonstrated over the course of the months is that all of that and considerably more than we imagine has been on the table. You've been living it. We really appreciate the way that you've invested, engaged, activated, and integrated. You've done everything that we could have hoped for, and we know that it'll only get better the longer you're here. Because we're talking about a couple of changes for the CUP (Conditional Use Permit) and the Southeast Garage, I think it's appropriate and I've talked to our attorneys and with our director of planning that we instruct the staff—

And Mr. Manager and Ms. Logsdon, I want to make sure that this works, but I'd like to provide some instruction to the staff to administratively handle the phasing of the CUP and the phasing of the garage structure. Obviously, it needs to be parked adequately, and it will be. A lot of that will be determined over the course of time. We still have the ability to do that. We have an approval that would authorize up to the 2,500 parking spaces, but at the moment, in order to get this stadium, keep the stadium on schedule, I think it's appropriate and I'll let you weigh in, Lisa, that we provide that instruction to staff. I'm happy to answer any questions there may be. Lisa?

LISA LOGSDON

Yes. These approvals can be done administratively, and so this was kind of information for the Board, and if the Board had any concerns with that, their opportunity to make any of those comments, so this process will be handled administrative by Comp Planning.

JIM GIBSON

Good. Do you need anything more, Ms. Ammerman?

JENNIFER AMMERMAN

No. This is Jennifer [Ammerman] from Comp Planning. We have the direction I think we need, and we'll move forward.

JIM GIBSON

Okay. When do you think you'll be ready to submit an application for administrative review? Sandy?

SANDY DEAN

There's work going on. The permit plans for the garage were basically done, and those are being modified to account for the phasing, and so I think those are probably within a month or something. The central utility plant is a little bit longer, but probably within two months, and we're pushing hard to move those things along as fast as we can.

JIM GIBSON

And then, just one other question. The pedestal, the garage and the pedestal in the northwest corner is also an integral part of what's inside the 9 acres. It's a true connector, right? Because there's a difference in elevation. The stadium sits, what? 37 feet higher than the sidewalk?

SANDY DEAN

Yes. The front door of the stadium is up at 37 or 38 feet. The bridges from Excalibur and MGM, they're not quite the same. They're like 22 and 25 or something. Bally's is working on their plans for that and their financing for that, and that's in process. We've been thinking about contingency plans if that doesn't come together, and we're going to talk about that on Thursday at the Stadium Authority meeting. We can share more about that if you want to talk about that here.

JIM GIBSON

Well, I think that the only concern we have is that everything is proceeding at pace, and you have the time to complete everything. That'll stay top of mind, all the way through the end of this thing. I know the A's are concerned, Bally's is concerned, and the county is concerned.

SANDY DEAN

Yeah. We're working on that every day. We, today, have time to sort all of this out. Hey, the clock is ticking. So, there's some things that have to get resolved in the next couple of months, and we're going to be working on it daily until then.

JIM GIBSON

All right. Then, just one interesting fact, the height of the roof of the stadium will be approximately as high as the room tower at MGM. Is that a true statement?

SANDY DEAN

Actually, I think for people who come visit the site, you look at the geometry of the bowl, which has really taken shape, that's a lot, but then you turn around and look at the MGM tower, and you're like, "Wow. There's more to come here."

JIM GIBSON

Yes. I think there's another comment that is important. Mortenson McCarthy has brought all of the skill and talent, together with the subcontractors and the incredible workforce that we have here, to do an amazing thing. This is not just an iconic structure that's being built, but it's a complex structure. I think this is as good evidence, as there ever has been, that we can build anything here. We really appreciate the professional level of work that's being done there, and the expertise and leadership that's being provided. It's an amazing thing. The reality is that the A's fit in Las Vegas. It's also nice to be in first place, and that's been fun.

SANDY DEAN

We agree. We felt really welcomed. We can't say that enough. Thank you.

MARILYN K. KIRKPATRICK

I know. I want to say something.

JIM GIBSON

Ms. Kirkpatrick has a question or a comment. She probably has a little of both.

MARILYN K. KIRKPATRICK

No. Actually, I would just say I've been the hardest about the community benefit agreement in all of the things and I want to compliment you on. To date, Stomper is super popular throughout the valley. You've been very generous with that. I also want to point out, because I know what I've learned about you all, is there are just some things that you do that you don't want any notoriety for, and that's a good trait to have, in my book. In my book, that's a good trait, because everybody can cut ribbons. Everybody can say all the things that they do, but at the end of the day, if it's really more about making sure that things get done, and I want to point out that when those kids were playing little league and they were trying to finish off their season, you guys stepped up to the plate without any fanfare or anything.

That's really who, those are the partners I want in this community, are the people that will step up and make sure that a nine-year-old's dream comes true, because that's most important, right? So, you have won me over with the way that you are handling it, and I've been hard on you from day one. It's no secret

there, but by not always having to be the grandstander and all that goes a long ways with me, so I wanted to point that out. I wanted to point out that I look forward to continuing those community benefits, because this is what we should be doing, and I appreciate that. I don't give compliments very often, so take it for what it is, but it goes a long ways when you don't have to shout at the top of your lungs what you're doing.

MICHAEL NAFT

We'll ask the clerk to print that for the record for you.

SANDY DEAN

Can we put that in bold, in bigger font, in the record? Thank you, Commissioner Kirkpatrick.

JIM GIBSON

Yeah, I'd tattoo it on my forearm if I were you.

MICHAEL NAFT

All right. We will be moving on to the next item. Thank you, Mr. Dean.

75. Receive a presentation from the Las Vegas Convention and Visitors Authority about their various programs and services. (For possible action)

ACTION: RECEIVED.

Attachment(s) submitted and filed with the County Clerk's Office

KEVIN SCHILLER

Commissioners, your next item is to receive a presentation from the Las Vegas Convention and Visitors Authority (LVCVA) about their various programs and services.

MICHAEL NAFT

Good morning. Good afternoon.

STEVE HILL

Good afternoon, Chair Naft, Members of the Board. I'm Steve Hill. I'm the CEO of the Las Vegas Convention and Visitors Authority. I appreciate the opportunity to be with you today, maybe particularly today. We at the LVCVA and I personally am aware that often the more successful at our job we are, the more difficult we make your job and the job of your staff. And I just want to say thank you for all of the work that you do, all of the work that your staff does in order to move this city forward. Today is a great example of that. There are obviously a couple of agenda items prior to me today that really matter to us. Boring Company, from Formula 1, from the A's ballpark, all of those have created thousands of hours of work here at the county and wouldn't have been possible if you hadn't all done such a fantastic job at your jobs and have moving the city forward. So, thank you for doing that. Thank you for the partnership. We very much appreciate it.

I am cognizant of the hour. I'm going to try and move through the presentation here today quickly. You're welcome to interrupt me if you have questions along the way. Happy to answer them at the end of the presentation as well. I'm going to talk a little bit about where the destination is right now, how the city's doing to, a little bit about '25 or 2025, which I think all of you are very aware of. Talk about many of the great things that are going on in our city right now, how we see the future to the extent that we can, talk

a little bit about what we have coming this summer, including some of the marketing work that R&R and the team here at the LVCVA have done. We're pretty excited about it.

I'm going to break a little bit of news before I start. We have a couple of folks in Cairo, Egypt, right now. Janice Burke, who is our new chief sports officer and Tyler Baldwin, who works for her, participated in a really intense competition to bring an event called the World Gymnaestrada to the United States for the first time, actually out of Europe for the first time. And overnight here, but today in Cairo, Las Vegas was awarded that event. That event includes about 25,000 participants, we think well over 100,000 room nights, that will take place in July of 2031. We haven't yet — Well, we just did, announced that event. So, this is an area that Janice has a great deal of history and she is an expert in the sports industry internationally. She opens up new opportunities for us and this is one of the first one and it is going to be a big one, so we're excited to host that in 2031.

You all know this, but I just want to point out how important the tourism and hospitality industry is to Las Vegas. We talk about 250,000 direct jobs in the industry. But to put that in perspective, that's about one in every five or six jobs that are in Clark County. It's also one in every 10 people who live here. And so, it is obviously an enormous industry. We remain the community that is most reliant on a single industry. It brings nearly \$90 billion a year in direct and indirect economic impact.

Numbers that you know from 2025, and we compare these often still to 2019, same number of hotel rooms, occupancy drop, visitation dropped as we went through 2025. The count numbers were down. The financial numbers, whether that's RevPAR (Revenue Per Available Room) or average daily rate or gaming win were somewhat better than the drop that we saw in just pure visitation. Convention attendance remained flat from 2024 to 2025, still has not completely recovered from 2019. And as you can see, international continues to suffer. That is the difference between 2024 and 2025 is largely the drop from Canada that we have talked about and experienced last year.

Q1, on the other hand, was a very good quarter. We saw some increase in visitation. We saw a real significant increase in convention attendance. The increase that we saw across the board in March is about two thirds attributed to ConExpo being here. As pointed out, the ConExpo comes once every three years and it gives us the opportunity to see what a show of that magnitude, and we have four or five of them typically, means to the destination because they're not here for two years. The other shows that we have like this, CES (Consumer Electronics Show), the Home Builders, SEMA (Specialty Equipment Market Association), those shows are here every year so we don't see the contrast. ConExpo, the year that it is here makes about a 10% difference in the entire revenue of the city in the tourism and hospitality industry the year they're here versus the year they're not. It's a remarkable spotlight that it puts on the importance of those major trade shows.

But anyway, good first quarter. And we continue to lead the nation and the world in so many different ways. We have the most hotel rooms of any city in the world, we are the number one trade show destination in the world by such a margin that really no one has the opportunity to catch us. Allegiant Stadium was the number one grossing stadium in 2025 in the United States, number two in the world, and The Sphere was the highest grossing venue. Remarkable additions that you have helped facilitate over just the last number of years.

We have become the sports and entertainment capital of the world and there are so many events that are here now. I don't need to go through all those you're aware I think of all of them, but we just, for example, had EDC (Electric Daisy Carnival) in town this last weekend. A remarkable thing, 180,000 people a day for three days at the Speedway. They are looking at the opportunity to maybe expand that, which would be fantastic. But just another successful event that Las Vegas hosts.

We are clearly the meetings capital of the world. We now have 15 million square feet of meeting space. We had six million convention attendees in 2025. We are at a pace to exceed that number this year and that industry brings I think at least \$10 billion a year in direct spending from visitors annually. You can see some of the largest trade shows that we have and we put this up to show you that, but also to show you the international reach of these shows. Each one of these shows brings between 20% and 40% of their attendees from countries outside of the United States. They are a big part of our international visitation. Those folks tend to come and stay longer. It's obviously a huge part of our industry here in Southern Nevada.

I don't need to show you much about The Loop. I appreciate all the assistance that you have made over the last number of years to help move this project forward. As Commissioner Gibson pointed out earlier, the work that you have done now brings about the opportunity to move forward more quickly. We are excited about that. This is how we see the next phases of this project connecting the entire resort corridor and then hopefully beyond from there.

Our partnership with the folks at the airport or Reid Airport matters a great deal. It is, as Commissioner Jones pointed out earlier, the gateway to our city. It is the last thing that many of our visitors experience on their way home. This month, we are directly connected to 154 destinations, both domestically and internationally. If you look over the entire year, that number jumps to about 170. We're connected directly to 9 countries through 28 total airlines.

And just to give you a sense of where we are in our international connection, we're obviously down in Canada. From a capacity standpoint airlines are responding to the reduction in demand and so reducing the number of seats that they have coming to Las Vegas from Canada. But everywhere else in the world we are either growing or maintaining where we are. We still have a handful of real targets that we want to go after internationally, whether that's Tokyo or Sao Paulo. We were able to recently announce a direct connection through Qantas to Sydney, Australia, which was on our target list. We want to be in Istanbul or Dubai, and we continue to look at direct connections in Europe.

We have seen just recently we announced that the Michelin Guide is going to return to Las Vegas and the Southwest. They are doing so with a different business model. They used to concentrate on individual cities. That has stopped really making business sense for them. So, they will be doing this in the Southwest. They will be hosting their dinner in which they will make their announcements for their winters on August 26th at the Fontainebleau. And we're excited to welcome Michelin back to Las Vegas and to be able to recognize the fantastic culinary scene that we have here in Las Vegas. That's one of the biggest reasons, the biggest draws that we have.

I often say that we are the only city in the world that has the ability to treat 60 or 70 or 80,000 people like a VIP all at the same time. And a big reason for that is the magnitude of the fantastic restaurants that we have in town. We all know we have the hotel rooms, but we have a place to seat 50 and 60 and 80,000 people in an evening at a fantastic restaurant so that when we host these great events, we can also elevate those events by the experience that those visitors have around that event.

You know about the A Stadium. You saw a whole presentation today. I will skip through this. You've seen the stadium going up. Certainly exciting, certainly going to be exciting to start to see the roof be constructed as well. As Sandy mentioned earlier today, there is a Stadium Authority meeting on Thursday. We are going to get a little further into the question that was raised during that conversation here around what the alternatives are for that Northwest Plaza. Start to understand that timeline a little better, at least put a spotlight on that.

Looking ahead, we've got some really big things coming, some of which I think everybody is well aware of, some of which maybe not as much. As Commissioner Gibson pointed out earlier, we were able to welcome the professional Women's Hockey League to Las Vegas. In a press conference last week, they will start play at T-Mobile Arena in November. We're certainly excited about that. That league's only been in existence for three years. It's had some really great success. They're averaging 9,300 attendees per game. We will have a draft between now and the time they start in November to round out the team here in Las Vegas. Five of the world champions that will be hosted here in Clark County are going to be in that draft, so we're excited to see where they land. Hope to have one of them land here in our city.

We've got College Football National Championship coming up in January of this year. Something that may not have drawn quite as much attention, but we have the Women's Big 10 Championship that we're going to host in March, ahead of a women's super regional where right now there are four regionals leading to the semi-finals and finals of both the men's and women's NCAA (National Collegiate Athletic Association) tournament. The women have gone to a super regional format where two of those regionals are played in a city, and so we will have two of the women's regional tournaments played simultaneously at T-Mobile in late March and into early April, so we're excited about that.

We've got the Hard Rock that nobody can miss going up on Las Vegas Boulevard. We're excited for their opening in late 2027. And then we come back in early 2028 for the Big 10 Men's basketball Championship. And the women's and men's basketball championship happened in Las Vegas. This will be the first time that a major Big 10 sport has had their championship west of the Mississippi. We're proud that they chose Las Vegas. We know it's the right place for them to do it. We look forward to continuing to develop the relationship with the Big 10.

Right after the men's Big 10 championship and all of the other conference championships that we host here in Las Vegas, we will host the men's final four in April 1 actually and 3 of 2028. We're going to have to work to make sure that the men's final four championship doesn't occur on the exact same date that we open the A's ballpark, because it is going to happen within 10 days plus or minus of each other. So, we'll make sure that we talk to Major League Baseball and put a little time between those two events, but that's going to be a pretty exciting period of time for our destination.

And then certainly not least, but last at least on this list, we are going to bring back the Super Bowl in 2029 (inaudible) about that as well.

Then I think as you all know, as we went through summer of 2025, we experienced the biggest downturn that we'd seen last year. Our visitation was down 11%, 12%, at one point 13%. So, we are leaning in hard to improve those results as we go through summer of 2026. Some of this is an advertising campaign. Some of this is opportunities for our visitors, and I'll talk a little bit about a couple of those. We have a few more surprise announcements coming up as we move through the next week. But we're excited about the opportunities that our visitors are going to have this summer and looking to have a great set of results for summer in 2026.

The LVCVA, so we have a few videos.

(Video Presentation Begins)

STEVE HILL

This is a sizzle reel for our Pack for Vegas event.

(Video Presentation Ends)

STEVE HILL

Some of the great work from R&R and our marketing department.

We are Las Vegas, so we are not just going to have a fantastic fireworks show on July 4, which we are going to have that will rival our New Year's Eve fireworks, but we are going to have fireworks on each of eight weekends. And the other seven weekends are smaller, they will be on pods of three properties, but we're going to give our visitors an opportunity to experience this in Las Vegas for each of eight weeks. Excited about that, know that's going to be a real draw as we go through the summer. And then this is one of our 15-second spots.

(Video Presentation Begins)

(Video Presentation Ends)

Anyway, we've got six of those that we will roll out over the next few months. And with that, I am happy to answer any questions you may have.

MICHAEL NAFT

Thank you, Mr. Hill. Are there questions? Commissioner Jones, then Gibson.

JUSTIN JONES

Thank you, Mr. Chair. Thank you, Mr. Chair, and thank you, Mr. Hill, for your presentation. Congratulations on all of the success from the LVCVA. I'm excited about the Michelin Star Gride. We have fantastic restaurants on the strip, but we all know that the best food is in Chinatown, right?

STEVE HILL

Absolutely.

JUSTIN JONES

I mentioned earlier that I've been to Nashville recently. I got to be there with a bunch of economic developers and planners. They're rebuilding their NFL Tennessee Titan Stadium there. That project is part of a much larger redevelopment project in which they are incorporating public trails, public park, and a performing arts center. I guess a lot of that is incorporated into the economic development work that the city is doing. You see that also in Orlando. They have a unification of their Visit Orlando messaging, their tourism, their convention, and their economic development.

You're an expert in economic development. You arguably have brought the biggest economic diversification project to the state in this century. What can we do better to leverage the amazing work that the LVCVA is doing to ensure that when we do have another downturn, we all hope we don't, but we're going to, but that we have the diversification of businesses that we need. Sports is awesome. I'm looking forward to NBA (National Basketball Association) and MLS (Major League Soccer) and all the other new franchises that are coming here, but we've also got to be prepared for the fact that we need other industries to come here and see the amazing folks that we have here in Las Vegas.

STEVE HILL

Well, obviously the work that you do at the county, the work that you partner with LVGEA (Las Vegas Global Economic Alliance) and Daniel Casey now is exceptionally important. I believe in diversifying the economy even more than we have. We have become more diverse. I mean, that is something that tends to get a little bit lost. Some of the high profile things that we get to do in tourism and hospitality may drown out that message, but we have gotten more diverse.

The diversity that we're seeing in our industry I think provides opportunity for economic diversity too, building around the sports industry that's coming. We are bringing more and more sports to Las Vegas, and more and more customers for potential businesses that support that industry itself. And there's so many ways to do that. That can be healthcare, that can be nutrition. It can be training issues, it can be the media side of that. So many, certainly the gaming aspect and everything around gaming and sports. So that's an opportunity. We've seen more manufacturing companies come to Clark County and I think that's an opportunity.

One of the things that I think the community can do a better job of is understanding the stories that we actually have to tell, the success stories that are here, why they happened so that they can be a trigger for others who are considering mostly expanding. Most companies don't really relocate. They look for places to expand. This is a fantastic place for many companies to expand, and so I think it's an opportunity for us to do a better job of telling those stories.

The other thing I'll point out is that in a couple of ways we are resource constrained, and so looking to focus on areas that don't require the same level of resources, whether that's big plots of land or quite a bit of water, those types of opportunities will exist and they certainly may still make sense. But with the move toward technology, with the move toward AI, with all of those technology based jobs, they're not resource intensive and a focus on that I think matters and would be helpful for our community.

JUSTIN JONES

Appreciate that and look forward to a follow-up meeting between you and Danielle.

JIM GIBSON

Mr. Hill, can you talk a little bit about Memorial Day and what we'll be doing?

STEVE HILL

Well, I can talk about some of what we're going to be doing on Memorial Day, but we've got to surprise on Memorial Day evening that's going to be pretty spectacular too that we're going to wait to unveil until we get to that evening. But Memorial Day's always a fantastic weekend in Las Vegas and this year it's headlined by BTS. So, if that's what you were referring to, absolutely. They have sold out four different dates at Allegiant Stadium, which is a pretty remarkable thing. And I'm sure it was a record sellout for several hundred thousand tickets. So that's going to be one of the highlights this weekend, but there will be a few more and we're excited to unveil those on Monday as well.

JIM GIBSON

That will be exciting. Thank you.

MICHAEL NAFT

Anything else? Thank you very much. Thanks for the work and the partnership.

STEVE HILL

Thank you. Appreciate it.

76. Discuss the composition, priorities, and role of the Community Development Advisory Committee and recommend that funding agreements require Clark County branding and recognition in printed materials and on-site and direct staff accordingly. (For possible action)

ACTION: STAFF DIRECTED TO RETURN TO THE BOARD IN TWO WEEKS WITH AN ITEM AMENDING THE COMPOSITION AND PRIORITIES OF THE COMMUNITY DEVELOPMENT ADVISORY COMMITTEE.

Attachment(s) submitted and filed with the County Clerk's Office

KEVIN SCHILLER

Commissioners, your next item is to discuss the composition, priorities, and role of the Community Development Advisory Committee and recommend that funding agreements require Clark County branding and recognition in printed materials and on-site and direct staff accordingly.

MICHAEL NAFT

Thank you. I'm sure several of us have comments on this. I'll throw a couple of things out. For starters, this body, while some members of this body have done a really good job and have been very valuable to us, this is kind of some bureaucracy that we've created for ourselves for absolutely no long-term benefit. There's nothing in federal requirements, there's nothing locally that requires this body. So, I think from a starting point, anything that we have is above and beyond what is required. We have exceptionally talented people in this building who can continue to provide analysis and recommendations.

At minimum, I would suggest that if there's support at minimum to reduce the size of this body, it's too many people. All of us serve on various bodies. At a certain point, there's just too many people to have a meaningful conversation and I think that number is 36.

Reducing it to my proposal, and I'm open for discussion, would be 7 voting members, 3 non-voting members. The 7 voting members would be appointed by each commission district. Three non-voting members would be appointed by the 3 cities that partner with us on this North Las Vegas, Boulder City, and Mesquite, and I think that would perhaps lead to better conversation.

I would also point out that I think participation really matters in this. There are some individuals who have participated at a very high level, but unfortunately about half this body hasn't even scored the applications. And so, I don't know why exactly we would continue to appoint people if they're —if they're not scoring the applications, then it's probably not a good body for them to be a part of. We need that work to get done. So, I think limiting the size to 7 would help with some of those other problems.

And then the other piece that I think several of us have alluded to over time and Commissioner Kirkpatrick spoke to recently was to make sure that in our guidelines on the CHF (Community Housing Funds) funds with the award, we're making sure that Clark County is represented in that agreement. And so there is some language in there right now, provisions that require notifications and certain recognitions. I think that staff can come back to us with clear regulations that really reflect the county's significant role in some of these projects and I think that'd be a value to the broader community.

I'll pause there. Commissioner Kirkpatrick.

MARILYN K. KIRKPATRICK

Well, I have a couple thoughts. So, one, I mean, look, I'm going to just be honest, I have 5 Town [Advisory] Boards (TAB). Most of them are rural. It doesn't make sense for them to drive all the way from Logandale for something that's never going to impact them. But it's a requirement that we've got to fill the box. So, I just think that maybe the town board could actually hear whatever the projects they are and then they could at least keep them in the loop communication or something. But I'm not interested in 40 members of the Board.

I am most frustrated with— So, I'm going to try to think how to say this nicely because I want to be really direct. But I'm most frustrated with we always share all of our money with everybody, when each entity gets their own set of money and they do whatever they want and they don't necessarily share. But I'm

most frustrated with we fund a project once and then they just keep coming back every time, like we're going to fund the whole thing. So, there could be a \$1 billion project. Clark County gives them \$10 million and then they're back every year. Or it's no different than when they apply for the services one and they hire 10 employees and then they come back every year with an expectation.

And we see this really in OAG (Outside Agency Grant) because heaven forbid that you take somebody off the list, how dare you? We thought that we were entitled for life until the end of the project. But I think that we need to know what is the whole budget? What is the whole plan? We ask everybody else what does their operation look like? How is that going to be funded? Because what happens if that money goes away? Then the program goes away and I'm not interested in working on those type of programs.

And I do think during COVID we did some really good transparency pieces with everybody that we gave money to. We asked all the right questions, we put our logos on things. Because I said it last time and I was mad last time, but I'm trying to be nicer this time but, at the end of the day, Clark County's so busy working that we're not even making the ribbon cuttings. And oh by the way, they're not even accommodating our schedule to be at the ribbon cutting and we funded it and they've done nothing. So, we should get credit for what credit is due. We should have our logo on everything that we fund. Not just this, everything that we fund because, at the end of the day, I sure get the calls when people are complaining about why they don't have funding. They quickly send them to me.

But people should know that our \$11 billion budget is going to all these things. Food banks would not exist if Clark County didn't step up, social service, foster care. I tell everybody all the time, "Hey, not for nothing. Foster care kids, they have everything they need on the first day of school. You know why? Because we make sure that happens". That is not the message out there. So, I could go on my soapbox about this, but it needs to really be condensed. And if we want other folks' opinion, I think the TAB could give us that opinion, right? Because that's what we do anyways, we appoint one of them. But at the same time, I want to prioritize Clark County projects because we need them across the valley, and we all represent Clark County across the valley. So that's my two cents. I'm very passionate about this, and thank you for bringing it back.

MICHAEL NAFT

Thank you. Commissioner Jones?

JUSTIN JONES

I would say ditto on size of CDAC and prioritizing unincorporated Clark County projects. I think the other thing that some of the other jurisdictions do better is being proactive in identifying projects as opposed to reactive. We really just wait around until —I don't want to say that we haven't tried within our own departments, but our own departments haven't been as proactive or responsive in coming up with projects themselves or identifying nonprofits that we want to partner with to accomplish our goals as a county. So, I think that we need to do a better job of defining what we want to accomplish and then how do we get there. We have a much more expanded redevelopment area than we used to before. We have lots more land as a result of that in which we could partner with redevelopment dollars to accomplish goals pairing the CDBG funds with redevelopment dollars or other dollars.

JIM GIBSON

I concur with the comments that my colleagues have made. I think that the one thing that I've pushed for —And I haven't meant to say that we need to have 35 or 40 people on the committee, but I think that citizen input is an important way to get the word out that we are doing things. When I go to some of these groundbreaking or ribbon cuttings, I get asked, "What does a county do?" And I'm like, "I'm here because we contributed millions of dollars to help build this thing."

I think it's important for people to understand where their tax dollars are going. And if we don't do this right, the word doesn't get out. In the end, the good that we do is just immeasurable. I think of the St. Jude's out in Boulder City. They came to us, we made a grant to them. It turns out that because of the structure of the grant, they couldn't receive it. So that wasn't the end of it. So, what Clark County did was we figured out another way to provide them with the resource. And if you go out to St. Jude's, what an incredible facility. If you haven't been there, you need to go there. And the good we do there is immeasurable.

So, I think that there are so many examples of things that have really worked for people. And to the extent that we can keep people involved — I don't care if it's seven. Or actually, I would prefer it to be seven because we know we'd get the involvement that we're after here. And you're right, there are a few people who do all the work, and that's probably the way it is anywhere, but if you limit it to seven you're more likely to get work from all seven. So, I think that's a very good idea. Whether it's the town board, which I think is another way to expose all of this to our citizens, or it's the we keep the CDAC and we do something as you suggested, Mr. Chair.

MICHAEL NAFT

Thank you. Any other comments related to this? If not, just to encapsulate what I heard. We're going to bring back — And hopefully, in two weeks time we can bring back an agenda item. I think this has been well-thought-out already. Not sure who to look at, but in two weeks time we can bring back an agenda item that encapsulates the discussion today, which would limit the size to seven represented by each member of this board. There would be a prioritization for Clark County projects. There would be a requirement for citizen participation, which would be in the form of those seven appointees. And there will be some language that expands on current CHF funding agreements, maybe to include —RPM already has existing language related to brand standards and other things related, we can probably bring that back for the board's consideration.

KEVIN SCHILLER

Chairman, I just wanted to add one piece. I think it was during COVID -- I actually still have it in my office —one of the things we discussed because, to Commissioner Kirkpatrick's comments, there's so many things we fund contractually and you had done a mock-up of a brand, "Powered by Clark County," whether it's a sticker, whether it's any of those pieces, some type of requirement in the contract which just displays that. Even outside of the brand, there's some ways we can go about that. So, we'll brainstorm some ideas too.

MICHAEL NAFT

I stole it from your office a couple of days ago and gave it to Dagny.

KEVIN SCHILLER

Oh, okay.

MARILYN K. KIRKPATRICK

Well, I'm going to just say it should be on every project that we do. Every, not just this. But I just want to make sure that you're including in there some guidance on the entire budget so that we see before, when we get the grants, so we see what the whole enchilada is before we give a piece away.

MICHAEL NAFT

Okay. Any further direction needed, Kevin?

KEVIN SCHILLER

No, thank you.

MICHAEL NAFT

Very good. Thank you. Item 77.

77. Discuss the removal of a pedestrian trail generally located between Sandhill Road and Boulder Highway, along the I-11 alignment; and take any action as deemed appropriate. (For possible action)

ACTION: STAFF DIRECTED.

Attachment(s) submitted and filed with the County Clerk's Office

KEVIN SCHILLER

Commissioners, next item is to discuss the removal of a pedestrian trail generally located between Sandhill Road and Boulder Highway along the I-11 alignment and take any action as deemed appropriate.

MICHAEL NAFT

Good afternoon.

DENIS CEDERBURG

Denis Cederburg, Clark County Public Works.

MICHAEL NAFT

Could you use the handheld?

DENIS CEDERBURG

This is Denis Cederburg, Clark County Public Works. This is a request from Commissioner Segerblom to remove a portion of the trail that parallels I-11 between Charleston and Tropicana. This map that I have here, you have Charleston to the right and you have Tropicana to the left. The dash line indicates where the trail is on street. The solid line indicates where the trail is within the I-11 right-of-way.

As you can see, it starts on Sandhill Road. Sahara goes to a paved trail to Boulder Highway then goes to on street, picks up on the east side of I-11 down to Twain, crosses back over to the west side, runs by Chaparral High School to Flamingo. Then it's on street through this subdivision along Lamb Boulevard and then a small portion over here ties into Tropicana.

The portion that we're seeking input on is a request to remove the portion between Sahara and Boulder Highway here. It's adjacent to the new subdivision that's just gone in along Boulder Highway at this location.

MICHAEL NAFT

Thank you. Commissioner Segerblom?

TICK SEGERBLOM

Yes. I think this is a great idea for have these trails, and truthfully, when it was created it was probably used a lot, but unfortunately right now it's just become homeless camps. And what we do is we go out, we give them notice, we offer services, but if they won't take them, we have to have them removed. And honestly, they call it a "cleaning week." So, we move them and we clean it up and then they go around the corner and literally within a day or less, they're back.

A lot of this borders the freeway. So, the NDOT (Nevada Department of Transportation) has one side on the fence, we have the other side. We've worked with NDOT to try to coordinate the two, but a lot of times they'll just jump the fence and we can't touch them. So anyway, I hate to be so graphic and negative, but the truth is I think we need to maybe start with this piece and see if we can make a difference because, honestly, it's not being used as a trail.

And we are bringing residential communities into this neighborhood, so we are providing more services. And with people there, I think a lot of things that we overlooked in the past, we're starting to see it more closely. So, a lot of these neighborhoods have requested this too.

MICHAEL NAFT

Very good. It looks like you have unanimous support. Thank you, Denis.

DENIS CEDERBURG

Thank you.

78. Go into closed session, pursuant to NRS 241.015(4)(c) as amended by AB52, to receive information from the District Attorney regarding potential or existing litigation involving a matter over which the Board has supervision, control, jurisdiction or advisory power, and to deliberate toward a decision on the matter, and pursuant to NRS Chapter 288.220, to receive a report on the status of ongoing labor negotiations; and direct staff accordingly. (For possible action)

ACTION: NO CLOSED SESSION WAS HELD. NO ACTION WAS TAKEN BY THE BOARD.

Attachment(s) submitted and filed with the County Clerk's Office

PUBLIC COMMENTS

MICHAEL NAFT

That was our final item. So, we will now move to the final time set aside for public comment. Anyone wishing to speak, please come forward at this time. State your name for the record. You may speak for up to three minutes.

SHOSHANA

Hello, my name is Shoshana. I'm a resident. I'm here once again to urge the Commissioners to support the Constitution and the separation of religion from government by eliminating prayer from our County Commission meetings. The smart decision is to retire the invocations entirely, just like 70% of the cities and counties in Nevada do not bring any religion or praying into their public meetings. As I have stated previously, this building and workplace should not be used as a house of worship when there are thousands of tax-exempt churches, synagogues, and temples in the area to choose from.

But since the Bible right here is the source of the prayers at these meetings, I would like to point out a few interesting things that most people probably don't know. Christianity and Islam are based on Judaism. It was written for the Jewish people only, but later on it was plagiarized and became someone else's religion and then changed the narrative completely as a result. Biblical scholars don't know who wrote the scriptures in the Bible and there were absolutely no witnesses to any of it because it was all written years after the characters in it were already deceased.

Your Bible thinks the earth is 6,000 years old, but a thing called science determined that the earth is 4.5 billion years old. The 10 Commandments were written specifically for the Jewish people and no one else. And actually there are 613 commandments. The Virgin Mary was not a virgin in the Hebrew text. Her name was actually Miriam and the Hebrew text described her as, and I don't know if I'm pronouncing it correctly, "almah," which means a young woman. She was a young woman, but after mistranslation, mistranslation, and so on and so forth, and the obsession with virgins by the writers of this, whoever they were, which is pretty disgusting, they incorrectly labeled Mary as a virgin.

In the New Testament, Jesus was born Jewish by a Jewish mom and his two Jewish dads -- yes, God is Jewish -- who all lived by the customs of Judaism and who hung out with his 12 Jewish buddies, who was later murdered as a Jew by the Romans. And then the Greek writers who wrote the New Testament decided to convert a dead Jewish guy into a Christian. Truth. Please look it up. It's absolutely true. So now do you see why the source of the invocations is something that really doesn't belong here? Again, please retire the invocations and keep things simple. Keep all religions out of these meetings. The people elected you to govern the county, not provide a forum for personal religious beliefs. Thank you.

MICHAEL NAFT

Thank you. Good afternoon.

ERIC KING

Hello again. Thank you all. And, Chair, thank you for the time here. Eric King, longtime resident here. Wanted to touch on a couple of items. I want to thank again Commissioner Kirkpatrick for voicing her fandom of trees being more part of the Las Vegas landscape. We need a whole bunch more advocacy for that for us to weather the storms of heat that seem coming wave after wave to us. I'd also like to thank Commissioner Jones for advocating for economic diversity and prides to do that, I know we're all championing that as well, to echo some of my recent comments and communications with government and I'm really thrilled to hear from leadership that we are grateful to have.

One other item happened, I'm bringing it up now because of recent occurrence. Just shortly after I was here last time, I was about to cross a sidewalk and I had some pressure coming from somebody I didn't expect and it was just outside the building here. And so, what occurred, and I wanted to just touch on it, is that there was some construction, as you well know, along Bonneville. And to cross that, I could not get through in my wheelchair the yellow tape that was blocking off the signal for the crosswalk signal to then button be pushed.

And needed to get where I was going and I needed to get across the street. And so not one but two corners at that time were preventing me from, because there's no curb there to safely get to the buttons, understandably with the construction. So, I wanted to just advocate for a moment here for consideration -- I don't know if it'll be public works or whoever else -- but to have brought in some remedy for that, which hopefully would be something like a mobile traffic light and street crosswalk signal. I think I've seen those somewhere in town before they place.

So I'm almost out of time here, but I'd also like to bring full circle the economic development and the trees advocacy back into the equation of what I began a robust plea for with our urban heat island effect and an ongoing conversation that I certainly look forward to carrying forward to great results and outcomes.

And I thank you again for your leadership. Have a great day.

MICHAEL NAFT

Thank you. I believe that intersection's in the City of Las Vegas jurisdiction. I think they meet tomorrow in public forum. Good morning, afternoon.

LINDY SCHUMACHER

Hi, I'm back. I'm glad I stayed. I watched the video from the LVCVA and it was such a beautiful reminder of how proud we all should be about this city. It was also a reminder how great we are at taking care of people who aren't from here, who are visiting here and leaving. We care so dearly about their experience. And the people who live here, we struggle desperately to find the right decisions in education and healthcare.

A lot of things occurred to me as I sat here for three plus hours -- this is unbearable, guys, I appreciate all that you do -- is that we have something in common. I took a few notes. We are all chained to UMC. You pay their bills with limited knowledge and oversight and the Kirk Kerkorian School of Medicine and the NHBC (Nevada Health and Bioscience Corp.), which is my babies, we inherit their self-serving agreements. This is by design and frankly, I'm so thrilled that we have all figured it out.

For those of you who don't know, I am a CPA (Certified Public Accountant). I'm a business person first. And the one thing I was missing when I knew that the future of giving away billions of dollars was the politics behind it. So, I worked for Bob Broadbent for five years and he taught me how to play a beautiful game of chess. And what occurred to me a year ago was I wasn't playing it, I was getting played.

And I watched three things happen. Well, two things happen, one of which you stopped. But the first one was about a year ago when we watched UMC circumvent UNLV on the residencies. They no longer needed to work with them, they could work around them. And that was like, "Whoa, wait a minute." That was a chess game I didn't see coming. And I kept saying to UNLV, "Hey, keep your eye on this." And it didn't happen. The second move that they made was this agreement that we have fixed. It's not perfect, it's far from it, but it is better.

I want to make you aware of what I believe to be the third move. I believe the third move is that UMC continues to deteriorate UNLV to a point where they are literally going to take the practice plan. Now for those of you who know what that means, it basically means UNLV School of Medicine, the Kirk Kerkorian School of Medicine will be a shell. It will literally serve UMC and only UMC, which brings me to what you mentioned earlier, which was the committee.

This committee needs to be born here. It can't be something we just sit around and hope someone's going to show up. I'll tell you who's not going to show up: UMC. I'll tell you who's not going to participate with goodwill: it's UMC. It has to be something we insist upon as county commissioners that we sit in a room, we work together and we come back to you with a plan. We've studied it. It's not that we haven't studied it. We've studied it. We have a myriad of studies that say, "Here are the categories you need." And then UMC hijacks. They hijack the money, they hijack the residency, and they hijack the future of medicine in Southern Nevada.

So, I implore you, with your beautiful presentation of, "This is what we need," you couldn't have me at hello any more than you do. So, I would implore that we come up with a better idea than just saying we're going to do it, we have to insist upon it. Thank you.

MICHAEL NAFT

Thank you.

AL ROJAS

My name's Al. My name's Al Rojas. I live in here in Sunrise Manor. Just very briefly, I've been doing some research on hosting the Olympics here in Las Vegas and it looks like we do have the infrastructure, or we will have it. And I'm just asking that maybe we do an exploratory committee on what it would take to host the Olympics, maybe 2040. But let's not forget, now would be a good time to start. And just doing some research, we'll probably bring in more sports. We're moving in a sports direction. We just saw that we're going to be having the women's gold medalists. So, something to look into. And if you guys do start the exploratory committee, this administration or this commission group will go down on record as the people who had the foresight to host the Olympics here in Las Vegas. Thank you.

MICHAEL NAFT

Thank you. Good afternoon.

ARON RA

My name is Aron Ra. I'm a member of the Satanic Temple, which believes in separation of church and state and does not believe that a government building should be used as a place of worship. The Satanic Temple is an atheistic religion of ethics and does not believe in a literal Satan, demons, an afterlife, nor the supernatural. Instead, Satan is used as a metaphor representing critical thinking, autonomy, and the pursuit of knowledge.

Satan serves as a symbol of enlightenment, rational inquiry, and resistance to deception, rather than evil. Satan is merely a fictional character appropriated and modified to frighten you and your children to coerce belief in a particular God or version of God. Without the element of fear as a weapon of coercion, Judaism, Christianity, and Islam would not exist. Religious faiths often use fear as a means of manipulation of the masses. Most religions condition you to be God-fearing, to live in fear of a mythological devil, and live in fear of a mythical God.

Therefore, I ask you to sincerely question your religion and the evil acts promoted in the Bible that most believers have never even read. Ask yourself, why am I believing this? Why am I praying to a God that the scriptures describe as domineering, narcissistic, and fundamentally evil? I ask that you reflect and critically evaluate your belief system. Ask yourself whether all of this is really true. Where's the evidence?

Ultimately, it must be established that personal religious faith does not belong in our government meetings where you are here as representatives of the community and not as representatives of any religion. Please support the separation of religion and government and remove all religious worship from these meetings. End the invocations and continue to do the jobs you were elected to perform. Thank you.

MICHAEL NAFT

Thank you. Good afternoon.

TOM LIN

Good afternoon, Commissioners. My name is Tom Lin. I live at the 211 Apartments just a few blocks away. I'm sorry to keep everyone from lunch. I'll keep this brief. I'm here to ask the Board to consider a AC repair ordinance, a clear standard for restoring air conditioning when it fails during extreme heat.

Clark County recorded 513 heat associated deaths in 2024, and 284 heat associated deaths in 2025. The Southern Nevada Health District's report shows heat associated deaths concentrated in the central lower income, multifamily corridors of the valley, including the unincorporated townships governed by this Board. This year has started even hotter than either of the last two summers. Las Vegas just broke its all-time March temperature record. We hit 100 degrees in early May weeks before summer officially starts.

NOAA (National Oceanic and Atmospheric Administration) puts Nevada at the center of the hottest summer forecast in the country. Even without a forecast, summer is already here.

I'd like to submit three documents to the clerk if I could. I'll do it after I've — The most important is a news story from July 2024. This was from 8 News Now investigated a low income apartment complex near Maryland and Desert Inn. A mother with three children, one of them medically susceptible to seizures when he overheats, went four full weeks without air conditioning during record heat. The neighbor's unit went out on July 4. Management kept saying a part was on order. Nevada already calls air conditioning an essential service. The law requires the landlord to remedy a failure. That law was on the books for every one of those four weeks. The law exists, the enforcement doesn't.

The fix is not radical. North Las Vegas has required rental cooling since 1995. For 30 years, only one jurisdiction in this county has had a habitability standard. Phoenix, Arizona sets an indoor maximum of 82 degrees. Los Angeles County adopted the same standard just last year. So, I'd like to ask the Board to consider three things for a cooling repair ordinance. One, a maximum indoor temperature standard such as 82 degrees, the threshold both Phoenix and Los Angeles County use. And two, mandatory interim relief, a portable unit or temporary lodging, if the landlord can't restore cooling.

MICHAEL NAFT

Thank you.

TOM LIN

I'd be glad to — Oh, sorry.

MICHAEL NAFT

You can finish your sentence, but.

TOM LIN

I'd be glad to share a more in depth memo with staff. Thank you for your time.

MICHAEL NAFT

Thank you for yours. Anyone else wishing to speak?

ALAN SNELL

Yes, sir. Alan Snell, Clark County resident. It was really instructive to hear your Public Works director's presentation on the Complete Streets report. And I was really happy to see the before and after photos, which are very explicit in how you can improve the safety and welfare of people using your roads. He showed several examples of roads that were really not very well done. And then after the Complete Street's treatment, you saw the buffered bike lanes, you saw very specific safety measures taken that will save lives. I can't stress this enough, last year you had four Clark County School District kids killed walking or biking to or from school. That's a crisis situation that has to be dealt with. Complete Streets is one of the tools that you can use to help that. That's really important.

Something else I need to point out to you, an outside organization called People for Bikes. There's two national groups, People for Bikes and the League of American Bicyclists. People for Bikes looked at your infrastructure for bicycling, and Las Vegas, the Las Vegas area. You came in at the 29 percentile. That's not good. And the issue is that they're looking at your network. They're looking at your routes all around the Las Vegas metro area.

I talked to Denis before he left and I really appreciate the time he gave me to talk about the report. And we talked about really the biggest problem is the gaps between the safe sections of your roads. I appreciate the fact that you guys are taking action to try to improve a situation that you guys inherited. For decades, Clark County, we have to be honest, basically built roads like highways with traffic lights and now you're making progress. I highlighted some of Justin's work earlier today. This is great stuff.

I really implore you to, number one, work with Las —the city to form some kind of overall bicycle/walker kind of plan where you guys are now integrated, you have a banner and you have a specific emphasis on improving these things. This is a life or death issue. This isn't about recreational bicyclists having a good time around the neighborhood. You will save lives. I guarantee you that you will save lives by improving your biking and walking infrastructure. I can't stress that enough.

I spent six years of my life working on the issue. I quit journalism to work on this. I feel very strongly about it. Please make this one of your top priorities. There's a lot of room that you can improve on and you're going in the right direction. Keep the path, make it a priority. Thanks.

MICHAEL NAFT

Thank you. Anyone else wishing to speak? Seeing none, I will close the public comment and recess until tomorrow at 9 a.m. We'll see you there. Thank you.

END PUBLIC COMMENTS

There being no further business to come before the Board at this time, at the hour of 1:19 p.m., Chair Michael Naft recessed the meeting to the hour of 9 a.m. on Tuesday, May 26, 2026, for the Zoning agenda.

PLEASE NOTE: THE COUNTY CLERK KEEPS THE OFFICIAL RECORD OF ALL PROCEEDINGS OF THE COUNTY COMMISSION, THE CCWRD BOARD OF TRUSTEES, THE UMC HOSPITAL BOARD OF TRUSTEES, THE CLARK COUNTY LIQUOR AND GAMING LICENSING BOARD, AND THE CLARK COUNTY REDEVELOPMENT AGENCY. TO OBTAIN A COMPLETE AND ACCURATE RECORD OF ALL PROCEEDINGS, ANY PHOTOGRAPH, MAP, CHART, OR ANY OTHER DOCUMENT USED IN ANY PRESENTATION TO THE BOARD/TRUSTEES, REQUESTS SHOULD BE SUBMITTED TO THE COUNTY CLERK.

TO REFERENCE AGENDA ITEM ATTACHMENTS ONLINE: REFER TO THE MEETING LINK BELOW, SELECT THE ITEM (FILE # COLUMN), AND CLICK THE LINK FOR THE DESIRED ATTACHMENT.
