History & Request

The original request was to allow a recreational facility (concert/events/festivals), live entertainment, fairground, and on-premises consumption of alcohol with accessory uses, including food, beverages, and retail uses on the subject site, which is located on the southwest corner of Sahara Avenue and Las Vegas Boulevard South. A review (AR-23-400102) was approved with an added condition for the applicant to come back in 1 year for another review. This review is intended to ensure compliance with the conditions of approval of UC-22-0190, including to review the need for pedestrian bridges (pedestrian grade separation systems) as depicted in the easement areas on the plan). The site is used for a variety of outdoor recreational events such as concerts, festivals, special events, live music, fairground use, food festivals, and sporting events. The multi-use event/festival event attendance ranges from up to 25,000 attendees to events with up to 85,000 attendees and up to 10,000 support staff.

The event site is a large open area, which will include a unique set-up to accommodate each individual event. Permanent structures include an administrative building and 3 restroom buildings. The administrative building is located on the south side of Sahara Avenue, and the 3 restroom buildings are distributed around the site. Two restroom buildings are located on the north side of the event parcel, and the other restroom building is located on the southeast portion of the event site.

The north, east, and west property lines for the event site are enclosed with an 8 foot high fence made of 6 inch steel tubes. There are pedestrian access gates along Las Vegas Boulevard South, Sahara Avenue, and on the northwest side south of Southbridge Lane. All the pedestrian access gates along Las Vegas Boulevard South are set back 50 feet from the 20 foot wide pedestrian access easement/sidewalk to provide adequate area for queuing. The access gate to the north, adjacent to the bus stop and turn-out area along Las Vegas Boulevard South, are located slightly

south of the bus stop turn-out area to provide adequate area for pedestrian circulation/movement, boarding of buses and to reduce conflicts with access to the event gate/queuing area.

A bus turn-out to accommodate two, 60 foot long buses, and 2 bus shelters are depicted on the northeast corner of the event site along Las Vegas Boulevard South. A bus turn-out to accommodate 1 bus and shelter is shown on the north side of the event site along Sahara Avenue. Two easement areas (north/south and east/west) for future pedestrian grade separation structures (bridges) are shown on the northeast corner of Las Vegas Boulevard South and Sahara Avenue. Primary waste/trash removal is facilitated by using trash collection stations located around the site.

Landscaping

Previously approved landscaping includes a 10 foot wide landscape area and a detached 20 foot wide pedestrian access easement/sidewalk along the Las Vegas Boulevard South frontage. A 10 foot wide landscape area with an attached 10 foot wide sidewalk is located along the Sahara Avenue frontage. A small area adjacent to the administration building shows a 25 foot wide landscape area adjacent to the 10 foot wide sidewalk along Sahara Avenue. Additionally, 10 foot wide landscape areas are provided along Southbridge Lane and Circus Circus Drive with 5 foot wide sidewalks.

Elevations

Three property lines (north, east, and west) of the event site were previously approved to be enclosed by an 8 foot high perimeter fence constructed of 6 inch steel tubes. The fence and decorative gates are painted white with 6 inch decorative metal columns on each side of the gate. There is an existing 8 foot high CMU and wrought iron fence along the south property line. All buildings have a similar height of 20 feet and are constructed of concrete masonry units in several colors and decorative metal panels. Shielded pole mounted lighting is approximately 30 feet high along the perimeter of the event site and on the pick-up/drop-off areas, as well as along the interior pedestrian route connecting the event site and the taxi/shuttle area. A variety of temporary structures are used for the different events consisting of, but not limited to tents, stages, booths, bleachers, amusement and carnival rides, seating structures, and vending machines.

Floor Plans

The previously approved 3 restroom buildings are 6,145 square feet, 7,589 square feet, and 8,440 square feet respectively. The administration building is 2,700 square feet with 2 roll-up doors. The remainder of the facility uses temporary structures for stages, set-up, seating structures, vending, and amusement rides, which will allow a variety of events.

Signage

No changes were proposed for the existing on-premises signage as part of the previous application, and temporary sign packages for each event will be reviewed in conjunction with temporary commercial event applications.

Previous Conditions of Approval

Listed below are the approved conditions for AR-23-400102 (UC-22-0190):

- If required, applicant to submit an Event Traffic Management Plan to Public Works;
- If required, applicant to obtain Special Event permits from the Las Vegas Metropolitan Police Department;
- 30 days to coordinate with Public Works - Design Division and to dedicate any necessary right-of-way and easements for the Las Vegas Boulevard South/Sahara Avenue pedestrian bridge improvement project;
- Coordinate with the City of Las Vegas for the Las Vegas Boulevard South/Sahara Avenue pedestrian bridge improvement project;
- Staging shall be prohibited within the right-of-way;
- No advertising within the right-of-way;
- Owner acknowledges that the proposed non-standard improvements (landscaping and fencing) are within a portion of the area planned for a 200 foot wide right-of-way per Title 30 and the Clark County Transportation Element;
- Future applications, whether individually or cumulatively (including this application), that are demonstrated to have a sufficient traffic impact upon Las Vegas Boulevard South may require the owner, or its successors, to dedicate its proportionate share of all or portions of the planned right-of-way for Las Vegas Boulevard South adjacent to its property according to the requirements of the Clark County Transportation Element and Title 30;
- Owners or its successors shall remove any non-standard improvements (fences and landscaping) related to this application or any future applications within the planned

right-of-way at its own expense, in the event dedication of the planned right-of-way is required;

- Maintain the required width of all public access walkway segments so that a minimum Level of Service "C" is achieved under peak pedestrian volumes.

Fire Prevention Bureau

- Provide a Fire Apparatus Access Road in accordance with Section 503 of the International Fire Code and Clark County Code Title 13, 13.04.090 Fire Service Features.
- Applicant is advised that fire/emergency access must comply with the Fire Code as amended.

Applicant's Justification

The applicant states that UC-22-0190 was approved with the condition of a 1 year review. The first annual review was completed in September of 2023 (AR-23-400102) and conditioned another 1 year review. Furthermore, a condition of approval was 2 years to review analysis for pedestrian bridges as depicted in the easement areas on the plan. This condition is not applicable because the bridge has not been constructed, but an easement was recorded April 2023. Since the most recent review, 4 special events have been approved through Comprehensive Planning. These special events are also reviewed by Public Works and the Las Vegas Metropolitan Police Department to ensure compliance with previous approval conditions. The special event submittals address burdens on state roadways, traffic control measures, proof of insurance, litter management, on-site medics, pyrotechnics, food sales, and any other additional concerns.
