Services

Applause eRecords - add functionality to prevent stripping the indexed data from the request:	34 hrs	\$7,650
<ul style="list-style-type: none"> - This happens as a result of an eRecord code customization put into Clark Recorder during the week of the Acclaim go-live; Clark Recorder is now asking for changes to that code. - Solution would allow for Applause records to be treated differently than standard eRecords by allowing the index field stripping rules to be applied individually to each type of submission (eRecord, Applause). 		
Professional Services: Configure/test/implement Clark Recorder's test & production environments	26 hrs	\$5,200
Total Development Project Investment		\$12,850
