Analysis

Current Planning

A use permit is a discretionary land use application that is considered on a case by case basis in consideration of Title 30 and the Comprehensive Master Plan. One of several criteria the applicant must establish is that the use is appropriate at the proposed location and demonstrate the use shall not result in a substantial or undue adverse effect on adjacent properties.

The existing shopping center includes a variety of commercial uses, and staff does not anticipate any negative impacts from the proposed supper club with a theater. Abundant parking is available to accommodate the additional uses, and although residential uses are located around the periphery of the shopping center, the size of the development (28.7 acres) acts as a buffer between the proposed theater and supper club and surrounding residential development. As a result, staff can support the request.

Approval.
