## **SECTION 2 – RECITAL OF PREMISES, PURPOSE AND INTENT**

2.01 Recitals. This Agreement is predicated upon the following facts and findings:

(a) Statutory Authorization. The County is authorized, pursuant to NRS §278.0201 through 278.0207, inclusive, to enter into binding Development Agreements with persons having a legal or equitable interest in real property to establish long range plans for the development of such property.

(b) Ownership Interest. Owner represents that it has, will acquire, or has the right to acquire, fee title ownership of the Subject Property.

(c) County Authorization, Hearing and Ordinance. All preliminary processing with regard to the Planned Community has been duly completed in conformance with all applicable laws, rules and regulations. The County Commission, having given notice as required by law, held a public hearing on Owner's application seeking approval of the form of this Agreement and the execution hereof by the County. At the described meeting, the County Commission found that this Agreement is consistent with the County's plans, policies and regulations, including the County Master Plan, that the Agreement meets the requirements of Title 30 of the Clark County Code, and that the execution hereof by and on behalf of the County is in the public interest and is lawful in all respects. During the same meeting at which the public hearing was held, the County Commission adopted the Ordinance approving this Agreement and authorizing the execution hereof by duly constituted officers of the County. Said ordinance was scheduled to be effective two weeks after adoption. County agrees to record a certified copy of the ordinance as required by NRS §278.0207.

(d) County Intent. The County desires to enter into this Agreement in conformity with the requirements of NRS, and as otherwise permitted by law, and this Agreement to provide for public services; public uses and urban infrastructure; to promote the health, safety and general welfare of the County and its inhabitants; to minimize uncertainty in planning for and securing orderly development of the Planned Community and surrounding areas; to insure attainment of the maximum efficient utilization of resources within the County at the least economic cost to its citizens; and to otherwise achieve the goals and purposes for which the State statute and County ordinance authorizing Development Agreements were enacted.

(e) Owner Intent. In accordance with the legislative intent evidenced by NRS §278.0201 through §278.0207, inclusive, authorizing Development Agreements and the intent of the County in adopting an ordinance allowing Development Agreements, Owner wishes to obtain reasonable assurances that Owner may develop the Planned Community in accordance with the conditions established in this Agreement. Owner acknowledges that there are insufficient public services, which includes facilities and infrastructure, existing or planned at this time. In order to develop the subject property, Owner is willing to enter into this Development Agreement in order to pay Owner's fair share of the costs to provide certain public services, facilities, and infrastructure in

the area of this Planned Community. Owner further acknowledges that this Agreement was made a part of the County Record at the time of its approval by the County Commission and that the Owner agrees without protest to the requirements, limitations, or conditions imposed by this Agreement and the Concurrent Approvals.

(f) Acknowledgment of Uncertainties. The parties acknowledge that circumstances beyond the control of either party could defeat their mutual intent that the Planned Community be developed in the manner contemplated by this Agreement. Among such circumstances is the unavailability of water or other limited natural resources, federal regulation of air and water quality, and similar conditions. Owner recognizes that water shortages could affect the County's ability to perform its obligations hereunder. Owner further acknowledges and agrees this Agreement does not relieve the Owner from compliance with existing, changed, modified or amended rules regulations, laws, ordinances, resolutions, fees codes, etc., of other governmental agencies. Such rules, regulations, laws, ordinances, resolutions, fees, codes, etc. of governmental entities must be complied with by the Owner and are not locked in nor a part of this Agreement. It is not the intent of the parties nor shall this Section be construed as excusing the County of any obligation hereunder or depriving Owner of any right under this Agreement, which can be performed.

(g) Provision of Water and Sewer Service. Owner clearly understands and agrees that, amongst other requirements, water commitment and sanitary sewer system development approval must be obtained from the proper governmental entities namely the Las Vegas Valley Water District and the Clark County Water Reclamation District. Fees and services for such commitments and systems are established by said governmental entities and must be paid and complied with by the Owner in accordance with said governmental entities requirements as amended from time to time. This Agreement or the County does not guarantee or provide the provision of water and sewer services.

2.02 Incorporation of Recitals. The foregoing recitals shall be deemed true and correct in all respects with respect to this Agreement and shall serve as the basis for the interpretation of this Agreement.

2.03 Permitted Uses, Density, Height and Size of Structures. Pursuant to NRS §278.0201 and the Code, this Agreement must set forth the maximum height and size of structures to be constructed on the Subject Property, the density of uses and the permitted uses of the land. County agrees the Planned Community may be developed to the density and with the land uses set forth in the Land Use and Development Guide/Plan, along with the development standards set forth in the Concurrent Approvals and the Applicable Rules.

### **SECTION 3 – DEVELOPMENT OF THE PLANNED COMMUNITY**

Nothing herein shall be construed to require the Owner to develop the Planned Community or any part thereof.

3.02 Reliance on Concurrent Approvals and Applicable Rules. County hereby agrees that Owner will be permitted to carry out and complete the entire Planned Community in accordance with the uses and densities set forth in the Concurrent Approvals subject to the terms and conditions of this Agreement and the Applicable Rules. Pursuant to the terms of this Agreement and subject to Owner's infrastructure obligations described in this Agreement, the development of the Planned Community may proceed as if all of it were in an area designated "Community District 2" notwithstanding that portions of the Planned Community which otherwise have the characteristics of "Community District 3".

## **SECTION 5 – REVIEW AND DEFAULT**

5.01 Frequency of Reviews. As required by NRS §278.0205 and the Development Agreement Ordinance, at least once every twenty-four (24) months during the Term of this Agreement, Owner shall provide and County shall review in good faith a report submitted by Owner documenting the extent of Owner's and County's material compliance with the terms of this Agreement during the preceding twenty-four (24) months. If at the time of review an issue not previously identified in writing is required to be addressed, the review, at the request of either party, shall be continued to afford sufficient time for response.

5.02 Opportunity to be Heard. County and Owner shall be permitted an opportunity to be heard orally and in writing before the County Commission regarding their performance under this Agreement in the manner set forth in Development Agreement Ordinance.

5.03 Procedures in the Event of Noncompliance. In the event of any noncompliance with any provision of this Agreement, the party alleging such noncompliance shall deliver to the other in writing a courtesy notice, not less than thirty (30) calendar days prior to declaring a default under this Agreement. The time of notice shall be measured from the date of post mark which may be sent by regular mail.

The courtesy notice shall state the reason for noncompliance, any action necessary to correct the noncompliance, specify the nature of the alleged default and, where appropriate, the manner and period of time in which the noncompliance may be satisfactorily corrected. During the period of time the default letter is pending, the party alleged to be in default shall not be considered in default for the purposes of termination or institution of legal proceedings. If the default is corrected, then no default shall exist and the noticing party shall take no further action. If the default is not corrected within thirty (30) calendar days, the following courses of action shall apply:

(a) County Procedures

(i) Intent to Remedy Noncompliance. After proper notice and the expiration of the above-referenced periods for correcting the alleged default, the Director of Development Services, or his or her designee, may do one or both of the following options:

- (1) Immediately direct County staff to recommend that all future zoning, land use, and mapping applications within the Planned Community be conditioned so that the building permits to be issued as a result of those approvals shall not be issued until the default is corrected, or;
- (2) Issue a letter providing notice of County's intent to set the matter for hearing before the County Commission. The letter shall notify Owner of the action taken. In the event the County selects this option, County shall give Owner at least seven (7) business days notice to correct the default before the matter is scheduled for a hearing. The letter notifying Owner of the hearing shall contain the intended hearing date. The seven (7) business days will be measured from the date of the certified mailing of the notice.

(ii) Hearing Schedule. If the default is not corrected within the time specified above, the matter shall be scheduled and noticed as required by law for consideration and review by the County Commission on the next available Commission zoning agenda.

(iii) Review by County Commission. Following consideration of the evidence presented before the County Commission and a finding based on substantial evidence that a default has occurred by Owner and the default remains uncorrected, the County Commission may authorize the suspension of building permits within the Planned Community or may amend or terminate this Agreement. Termination shall not in any manner rescind, modify, or terminate any Vested Right in favor of Owner, existing or received, as of the date of the termination. Owner shall have twenty-five (25) calendar days after the date of notice of the County Commission's decision is filed with the Clark County Clerk, Commission Division, to institute legal action pursuant to Sections 5.05 and 5.06 hereof, to determine whether the County Commission abused its discretion in determining whether a default existed and remained uncorrected.

(b) Owner Procedures

(i) After proper notice and the expiration of the above-reference periods for correcting the alleged default, Owner may issue a letter requesting a hearing before the County Commission for review of the alleged default. Upon receipt of the letter, County shall schedule an item to consider the alleged default on the next available Commission zoning agenda.

(ii) Review by County Commission. Following consideration of the evidence presented before the County Commission and a finding based on substantial evidence that a default has occurred by County and remains uncorrected, the County Commission shall direct County staff to correct the default. Owner shall have twenty-five (25) calendar days after the date of notice of the County Commission's decision is filed with the Clark County Clerk, Commission Division, to institute legal action pursuant to this Section hereof to determine whether the County Commission abused its discretion in determining whether a default existed and remained uncorrected.

(c) Waiver. Failure or delay in giving any notice provided for herein shall not constitute a waiver of any default. Except as otherwise expressly provided in this Agreement, any failure or delay by any party in asserting any of its rights or remedies in respect to any default shall not operate as a waiver of any default or of any such rights or remedies, or deprive such party of its right to institute and maintain any actions or proceeding which it may deem necessary to protect, assert, or enforce any of its right or remedies.

(d) Notices. All notices provided for herein shall be sent to and in the manner provided in Section 7.08 of this Agreement.

5.04 Option to Terminate. After proper notice and the expiration of the above-referenced period for correcting the alleged default, the party alleging the default shall give notice of intent to amend or terminate this Agreement pursuant to NRS §278.0205 (the "Notice of Intent"), with notices sent in the manner provided by Section 7.08 of this agreement. Following any such Notice of Intent, the matter shall be scheduled and noticed as required by law for consideration and review by the County Commission.

5.05 Unavoidable Delay or Default, Extension of Time for Performance. Neither party hereunder shall be deemed to be in default, and performance shall be excused, where delays or defaults are caused by war, acts of terrorism, insurrection, strikes, walkouts, riots, floods, earthquakes, fires, casualties, acts of God, restrictions imposed or mandated by governmental entities, failure of governmental agencies (other than County) to perform acts or deeds necessary for the performance of this Agreement, enactment of conflicting state or federal laws or regulations, new or supplementary environmental regulations, litigation, or similar matters beyond the control of the parties. If written notice of any such delay is given to County within thirty (30) calendar days after the commencement thereof, an automatic extension of time, unless otherwise objected to by County within ten (10) business days of such written notice, shall be granted coextensive with the period of the enforced delay, or longer as may be required by circumstances or as may be subsequently agreed to between County and Owner.

5.06 Institution of Legal Action. The County and Owner agree that the County would not have entered into this agreement if it were liable for damages under or with respect to this Agreement. Accordingly, the County and the Owner may pursue any remedy at law or equity available for breach, except that neither the Owner nor the County shall be liable to the other or to any other person or entity for any monetary damages whatsoever. Prior to the institution of any legal action, the party seeking legal action must give the thirty (30) day notice of default as set forth in Section 5.03. Following such notice, a public hearing must be held by the County Commission where the allegations will be considered and a decision

regarding their merits will be reached. Any judicial review of the County Commission's decision or any legal action taken pursuant to this Agreement will be heard by a Court under the standard review appropriate to Court review of zoning actions, and the decision of the County Commission shall be overturned or overruled if their decision is clearly arbitrary and capricious. Judicial review of the decision of the County Commission shall be limited to the evidence presented to the County Commission at the public hearing. If a party desires to present new or additional evidence to the Court, they may petition the Court to remand the matter to the County Commission to consider the additional or new evidence. Jurisdiction for judicial review or any judicial action under this Agreement shall rest exclusively with the Eighth Judicial District Court, State of Nevada.

5.07 Applicable Laws. This Agreement shall be construed and enforced in accordance with the law of the State of Nevada.

## **SECTION 6 – CONFLICTING LAWS**

6.01 Conflicting State or Federal Rules. In the event that any conflicting state or federal laws or regulations enacted after the Effective Date prevent or preclude compliance with one or more provisions of this Agreement or require changes in plans, maps or permits approved by the County, this Agreement shall remain in full force and effect as to those provisions not affected, and the conflicting laws or regulations shall not be applied retroactively, and:

(a) Notice and Copies. Either party, upon learning of any such matter, will provide the other party with written notice thereof and provide a copy of any such law, regulation or policy or an account of any such action or inaction together with a statement of how any such matter conflicts with the provisions of this Agreement; and

(b) Modification Conferences. The parties shall, within thirty (30) calendar days of the notice referred to in the preceding subsection, meet and confer in good faith and attempt to modify this Agreement to bring it into compliance with any such federal or state law or regulation, or accommodate any such action or inaction.

6.02 County Commission Hearings. In the event the County believes that an amendment to this Agreement is necessary pursuant to this Section 6 due to the effect of any federal or state law or regulation, the proposed amendment shall be scheduled for hearing before the County Commission. The County Commission shall determine the exact nature of the amendment or suspension necessitated by such federal or state law or regulation or action or inaction. Owner shall have the right to offer oral and written testimony at the hearing. Any suspension or modification ordered by the County Commission pursuant to such hearing is subject to judicial review as set forth in 5.06. The parties agree that any matter submitted for judicial review shall be subject to expedited review in accordance with Rule 2.15 of the Eighth Judicial District Court of the State of Nevada.

6.03 Cooperation in Securing Permits. The County shall use its best efforts to cooperate with Owner in securing any County permits, licenses or other authorizations which may be required as a result of any amendment or suspension resulting from actions initiated under this Section 6. Owner will be responsible to pay all applicable fees in connection with securing of the permits.

## SECTION 7 – GENERAL PROVISIONS

7.01 Enforcement and Binding Effect. Subject to the limitations of NRS §278, this Agreement is enforceable by either party in accordance with its terms notwithstanding any change (which, except for this Agreement, would otherwise be applicable) in any of the Applicable Rules. Nothing in this Agreement shall prevent the County from increasing "cost based fees" which are deemed to be administrative fees for issuance of land use approvals, building permits, plan checks, or inspections which are based upon actual costs to the County and which are uniformly applied to all development and construction subject to the County's jurisdiction. "Cost based fees" do not include the fees addressed in Section 4.01 of this Agreement.

7.02 Duration of Agreement. The Term of this Agreement shall commence upon the Effective Date and shall expire on the date the land use application expires or upon the eighth (8th) anniversary of the Effective Date, whichever occurs earliest, unless extended by written agreement executed by County and Owner.

7.03 Assignment.

(a) Transfer Not to Relieve Owner of its Obligation. Except as expressly provided herein, no assignee or transferee of any portion of the Planned Community within the area covered by a recorded subdivision map shall be subject to the obligations of Owner as to the portion of the Planned Community so assigned or transferred nor be deemed to have assumed all such obligations, and such assignment or transfer shall not relieve Owner of its obligation as to the assigned or transferred portion of the Planned Community.

(b) Transfer to an Affiliate of Owner. The rights of Owner under this Agreement may be freely transferred or assigned to any entity, partnership, or corporation, which Owner controls, or in which Owner has a controlling interest, or which controls Owner; provided, such entity shall assume in writing all obligations of Owner hereunder.

(c) Third Party Assignment. The rights and obligations of Owner under this Agreement may be freely transferred or assigned to a third party not affiliated with Owner, provided such third party assumes in writing all obligations of Owner hereunder as to the assigned or transferred portion of the Planned Community along with a copy of the sale, transfer, conveyance, or assignment agreement wherein the third party assumes the obligations of the Owner. Upon any such assignment hereunder, the Owner shall be relieved of all obligations and liabilities under or in connection with this agreement. In connection with the conveyance of any portion of the property, Owner shall provide County with written notice of any sale, transfer, conveyance or assignment of any unimproved portion of the Planned Community.

(d) Financial Transactions. **Neighborhood Meeting Summary**

The applicant conducted a neighborhood meeting on December 17, 2020, as required by the nonconforming amendment process. All owners within 1,500 feet of the project site were notified about the meeting. There were no attendees present at the virtual (Zoom) meeting for this item.

Site Plans

The plans depict a proposed 273,222 square foot furniture distribution center (Ashley Home Store) consisting of a single building located in the central portion of the site and 3 future retail pad sites located to the east along Riley Street (a private drive aisle). The site is bounded by roads on 3 sides of the development. Access to the site is provided by 1 driveway on Sunset Road, 2 driveways on Riley Street. No access is shown on Rafael Rivera Way. Parking for the facility is spread out through the site and meets the CMA Design Overlay standards. The building is set back 97 feet from Sunset Road, 179 feet from Riley Street, 117 feet from Rafael Rivera Way. Loading areas and trash enclosures are located on the west side of the building. The service area that contains overhead doors and loading docks is not technically screened from the CC 215 frontage road (Rafael Rivera Way); however, the site is depressed by approximately 16 feet. A total of 285 parking spaces are provided where 281 parking spaces are required.

### Landscaping

Waivers of development standards are being requested to allow for an alternative landscape plan to accommodate the existing approved and constructed conditions. Some landscaping is provided along Rafael Rivera Way; however, due to the severe slopes, additional landscaping and sidewalk could not be provided. Trees along Riley Street are typically 60 feet on center with tree clusters at the corners and entry points. Where trees are provided on Rafael Rivera Way, they are 30 feet on center. Also, alternative landscaping to accommodate the existing approved and constructed conditions is being requested along Sunset Road. Trees are typically 40 feet on center with tree clusters at the corners and entry points and groundcover is provided at 50 percent per Code. The pad site parking lot landscaping will be addressed in the future. A 6 foot decorative retaining wall that is set back 11 feet from property line runs along Rafael Rivera Way. The wall is needed to accommodate the elevated road system. The landscape materials include large trees, shrubs, and groundcover.

### Elevations

The building will be 60 feet high and constructed of concrete tilt-up panels with glass store fronts, and vertical/horizontal reveal lines with color changes. Other building materials will consist of decorative metal ribbon panels and metal canopies over the doorways. The height of the building varies from 45 feet to 60 feet and has been designed to break-up the roofline and enhance the overall look of the building. The loading dock area will be located on the west side of the building.

### Floor Plans

The plans show the building will consist of a 93,042 square foot office/showroom (first floor 49,082 square feet; second floor 43,960 square feet) where customers can come view and select furnishing for their respective projects, with the remaining area 180,180 square feet being utilized for distribution warehouse activities.

### Signage

This site is in the CMA Design Overlay District and as such signage requires approval as part of a design review. This request is for the distribution warehouse site and depicts the location, height, square footage, and materials being used. The sign types within this submittal package consists of freestanding, monument, canopy, and wall signs.

The plan depicts a 70 foot high freestanding sign on Rafael Rivera Way and a monument sign on Riley Street. The 70 foot high freestanding sign is located on the southwest portion of the site. The sign is double face which includes a 576 square foot animated video display near the center of the main sign face. The overall sign area is 864 square feet and is oriented in a north/south direction. The 10 foot high monument sign is located at the main driveway entrance onto Riley Street and is 70 square feet in area. Both the wall signs and freestanding sign have elements that are compatible with the materials used for the building in the complex and will consist of internally illuminated cabinets and panel channel letters.

### Applicant's Justification

The applicant indicates the proposed Ashley Furniture Home Store and distribution facility on this site is appropriate given the proximity to CC 215 and Sunset Road. The use is consistent

and compatible with the surrounding area. The area along the CC 215 has seen many changes in land use from commercial uses to light industrial and distribution warehouse uses. In addition, M-D zoning can be found along Sunset Road heading east of the subject site. This project will bring significant employment and provide much needed services to the growing southwest section of Clark County.

### STANDARDS FOR APPROVAL:

The applicant shall demonstrate that the proposed request meets the goals and purposes of Title 30.

### Analysis

#### Current Planning

#### Zone Change

The applicant shall provide Compelling Justification that approval of the nonconforming zoning boundary amendment is appropriate. A Compelling Justification means the satisfaction of the following criteria as listed below:

- 1. A change in law, policies, trends, or facts after the adoption, readoption or amendment of the land use plan that have substantially changed the character or condition of the area, or the circumstances surrounding the property, which makes the proposed nonconforming zone boundary amendment appropriate.*

The distribution warehouse is located adjacent to an existing large scale retail business (IKEA) and since 2014, several parcels located north of the CC 215 along Sunset Road that were designated for commercial development in the land use plan have been reclassified into business design manufacturing land uses. In addition, M-D zoning can be found along Sunset Road heading east of the subject site. The proposed project is appropriate for a location bounded on 2 sides by the CC 215.

- 2. The density and intensity of the uses allowed by the nonconforming zoning is compatible with the existing and planned land uses in the surrounding area.*

The density and intensity of the use being proposed by this amendment is compatible with the existing and planned land uses in the area. The project in terms of scale, intensity, and density are compatible with the adjacent development (IKEA Outlet) located adjacent to the site. Furthermore, the overall site has been designed to minimize impacts on the surrounding commercial land uses. The site has immediate access to Sunset Road, which connects to the frontage road to the CC 215 entrance ramp.

3. *There will not be a substantial adverse effect on public facilities and services, such as roads, access, schools, parks, fire and police facilities, and stormwater and drainage facilities, as a result of the uses allowed by the nonconforming zoning.*

The proposed zone change will not result in any additional impacts on surrounding infrastructure not already contemplated in the area. The facility will take advantage of the adjacent CC 215 for any traffic and will utilize existing infrastructure. There has been no indication from service providers that this request will have a substantial adverse effect on public facilities and services. Various Clark County service departments have reviewed the development proposal based on the information submitted by the applicant and, based on the comments received from those service providers, the project is not anticipated to have additional impacts on the surrounding infrastructure beyond what would have been anticipated for a commercial development.

4. *The proposed nonconforming zoning conforms to other applicable adopted plans, goals, and policies.*

Pursuant to the policies of the new Urban Land Use Policies, Policy 10 “encourages site design to be compatible with adjacent land use and off-site circulation patterns.” The site is located adjacent to existing commercial development with quick access to Sunset Road and the CC 215. Not only is the proposed development compatible with the general policy of the Urban Land Use Policies, but it is also compatible with the more specific industrial policies of the Comprehensive Master Plan. Industrial Policy 100 requires developments to be complementary with abutting uses through site planning and building design on the perimeter. Appropriate buffers, setbacks, landscaping, building height and materials, and adjoining land uses and densities should be considered and integrated into industrial developments. The buildings are designed to blend well with the existing to the east. The buildings have been oriented in such a way to ensure the loading areas and ramps are located near the center of the site, buffered by the sloped berm of the CC 215.

## **Summary**

### Zone Change

The density and intensity of the proposed project are consistent and compatible with existing and planned developments in this area. There has been no indication that the proposed project will have an adverse impact on public services or facilities in this area. The proposed project complies with other goals and policies within the Clark County Comprehensive Master Plan. Staff finds the applicant has provided a Compelling Justification to warrant approval of the nonconforming zone boundary request.

### Waivers of Development Standards

According to Title 30, the applicant shall have the burden of proof to establish that the proposed request is appropriate for its existing location by showing that the uses of the area adjacent to the property included in the waiver of development standards request will not be affected in a substantially adverse manner. The intent and purpose of a waiver of development standards is to modify a development standard where the provision of an alternative standard, or other factors which mitigate the impact of the relaxed standard, may justify an alternative.

#### Waiver of Development Standards #1 (Increase Building Height)

Staff can support the increase in building height. Portions of the main roofline are approximately 60 feet in height, which is only 10 feet above the permitted height and the additional height is a result of breaking-up the roofline and providing architectural features at the main entry on the building. Additionally, there is no existing residential in the area and the height increase will not negatively impact the surrounding industrial and commercial uses. In addition, the requested building height is similar to approved heights in the area. Furthermore, the proposed building is approximately 16 feet below grade of Rafael Rivera Way.

#### Waiver of Development Standards #2 (Loading Area)

The loading areas and ramps are located near the center of the site and buffered by the sloped berm of the CC 215. The site is depressed from the frontage road (Rafael Rivera Way) and varies from 2 feet to 16 feet with slopes of up to 40 percent. Landscaping is provided where possible; however, a screen wall is not practical and would create a canyon effect along Rafael Rivera Way with walls over 12 feet in height. The loading docks will be significantly lower than the roadway and direct line of sight is not possible. Therefore, staff can support this portion of the request.

#### Waiver of Development Standards #3 (Sign Height)

Staff does not typically support a request to increase the height of freestanding signs within the CMA Design Overlay District adjacent to the CC 215. In 2014, IKEA outlet had a freestanding sign approved at a maximum height of 108 feet. Since 2005, there have been a number of different automobile dealerships and shopping centers along the CC 215 that were approved to increase the height of freestanding signs. The site is approximately 16 feet below the grade of Rafael Rivera Way; therefore, staff can support the sign height if limited to 70 feet.

#### Waiver of Development Standards #4 (Sign Animation)

Staff finds that the proposed size of the freestanding sign and amount of animation is not consistent with the intent of the CMA sign regulations. The animated portions of the sign exceed the allowable standard for animation in the CMA by 723 percent. Staff does not support waivers in the CMA without mitigating circumstances. In the CMA, the intent is to discourage signs which contribute to visual clutter of the streetscape and ensure that signage enhances the overall development and the immediate area. The proposed request for sign area and animation is excessive and is not compatible with the surrounding area; therefore, staff cannot support this portion of the request.

#### Waivers of Development Standards #5a, #5b, & #8 (Perimeter Landscape and Screening)

The alternative landscaping and screening that will be provided with this project is visually appealing and provides an adequate amount of plant material to meet the intent of Code. Slopes created by a difference in grade between this site and the road surface of the frontage road make landscaping and sidewalk impractical. Furthermore, other projects including the IKEA site have been approved to modify landscape and screening requirements from Code. Therefore, staff can support this portion of the request.

### Design Reviews #1 & #2

The intent of the CMA Design Overlay District is to encourage and promote a high quality level of development that produces a stable environment in harmony with existing and future development and protects the use and enjoyment of neighboring properties. The design of the proposed distribution center and signage (excluding the animation portion of the request design review #2) complies with the intent and requirements of the CMA Design Overlay District. Staff finds that the buildings comply with Urban Specific Policy 19 of the Comprehensive Master Plan which encourages breaking-up the mass of the buildings through height variations. Urban Specific Policy 7 encourages land uses that are complementary and are of similar scale and intensity. Staff finds that the proposed building is also complementary to the existing IKEA outlet site located to the east of the project site; therefore, staff can support this portion of the request.

### **Public Works - Development Review**

#### Waiver of Development Standards #6a

The applicant is responsible for maintenance and up-keep of any non-standard improvement; the County will not maintain any landscaping placed in the right-of-way. Staff can support this request but the applicant must execute and sign a License and Maintenance Agreement for any non-standard improvements within the right-of-way.

#### Waiver of Development Standards #6b

Staff cannot support the request to allow a non-standard improvement within the right-of-way. The applicant is proposing to construct a retaining wall adjacent to Rafael Rivera Way which will not allow Clark County Public Works access to maintain the slope adjacent to the frontage road. There is an existing slope easement that allows the County the ability to get the necessary equipment in the areas and maintain the integrity of the slope.

#### Waiver of Development Standards #7

Staff cannot support the request to not install the sidewalk adjacent to Rafael Rivera Way. While staff understands that the sidewalk has not been installed along the eastern portion of Rafael Rivera Way, west of Durango Drive, the addition of the sidewalk adjacent to the frontage road will provide a safe pathway for pedestrians.

#### Waiver of Development Standards #9

Staff has no objection to the reduction in the throat depth for the Sunset Road commercial driveway. Although the throat depth is not meeting the minimum standard, the applicant is provided a designated right turn lane and eliminated parking near the driveway, which provides more room for vehicles to safely exit the right-of-way to gain access to the site.

### Design Review #3

This design review represents the maximum grade difference along the boundary of this application. This information is based on preliminary data to set the worst case scenario. Staff will continue to evaluate the site through the technical studies required for this application. Approval of this application will not prevent staff from requiring an alternate design to meet Clark County Code, Title 30, or previous land use approval.

### **Staff Recommendation**

Approval of the zone change, waivers of development standards #1, #2, #3, #5a, #5b, #6a, #8, #9, and design reviews #1 and #3; denial of waivers of development standards #4, #6b, #7, and design review #2. This item has been forwarded to the Board of County Commissioners for final action.

If this request is approved, the Board and/or Commission finds that the application is consistent with the standards and purpose enumerated in the Comprehensive Master Plan, Title 30, and/or the Nevada Revised Statutes.

**PLANNING COMMISSION ACTION:** May 18, 2021 – APPROVED – Vote: Unanimous

### **Current Planning**

- Resolution of Intent to complete in 3 years;
- Limit sign radiance to 300 nits (auto adjusted);
- Minimum time for display of message is 6 seconds before message changes to a new image;
- Enter into a standard development agreement prior to any permits or subdivision mapping in order to provide fair-share contribution toward public infrastructure necessary to provide service because of the lack of necessary public services in the area;
- Certificate of Occupancy and/or business license shall not be issued without final zoning inspection.
- Applicant is advised that the County is currently rewriting Title 30 and future land use applications, including applications for extensions of time, will be reviewed for conformance with the regulations in place at the time of application; a new application for a nonconforming zone boundary amendment may be required in the event the building program and/or conditions of the subject application are proposed to be modified in the future; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; and that the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified.

### **Public Works - Development Review**

- Enter into a cost participation agreement for a sidewalk along Rafael Rivera Way from the private drive aisle, known as Riley Street, west/northwest to the concrete barrier;
- Grant an easement along the entire frontage of the site adjacent to Rafael Rivera Way for pedestrian access;
- Grant an easement over the sidewalk along the entire frontage of the site adjacent to the private drive aisle, known as Riley Street, for pedestrian access;

- Traffic study and compliance;
- Execute a Restrictive Covenant Agreement (deed restrictions);
- Execute a License and Maintenance Agreement for any non-standard improvements within the right-of-way;

- Coordinate with Clark County Public Works - Directors Office for the Beltway frontage road improvement project;
- Coordinate with Public Works - Development Review for improvements in or adjacent to the slope easements.
- Applicant is advised that off-site improvement permits may be required and that approval of this application will not prevent Public Works from requiring an alternate design to meet Clark County Code, Title 30, or previous land use approvals.

**Building Department - Fire Prevention**

- Applicant is advised to show on-site fire lane, turning radius, and turnarounds (portions of site included in this scope may not allow access to future pads); and to submit plans for review and approval prior to installing any gates, speed humps (speed bumps not allowed), and any other fire apparatus access roadway obstructions.

**Clark County Water Reclamation District (CCWRD)**

- Applicant is advised that a Point of Connection (POC) request has been initiated for this project; to email [sewerlocation@cleanwaterteam.com](mailto:sewerlocation@cleanwaterteam.com) and reference POC Tracking #0334-2021 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require a new POC analysis.
