BACKGROUND:**Project Description**

General Summary

- Site Address: N/A
- Site Acreage: 5.03(portion)/5.16(site)
- Existing Land Use: Undeveloped with a billboard on site

Applicant's Justification

The applicant is requesting a zone change on almost the entirety of the property from CG (Commercial General) Zone to RS2 (Residential Single-Family) Zone. The area that has been excepted out of this request is a billboard lot that is roughly a tenth of an acre. The subject site is proposed for a 48 lot single-family residential subdivision with a density of 9.54 dwelling units per acre. According to the applicant, the subject parcel is located at the end of a dead end street further limiting vehicular circulation for future commercial development. Existing utility and service infrastructure exists in the area, and the residential request will reduce the potential impacts such as traffic, noise, and light pollution that would otherwise be associated with CG zoning.

STANDARDS FOR APPROVAL:

The applicant shall demonstrate the proposed request is consistent with the Master Plan and is in compliance with Title 30.

Analysis

Comprehensive Planning

In addition to the standards for approval, the applicant must demonstrate the zoning district is compatible with the surrounding area. Although the subject site does not abut RS2 zoning, some of the adjacent parcels surrounding this site are zoned for more intensive residential development. Therefore, the presence of RS2 zoning is compatible and compliments nearby land uses in the area. Furthermore, the parcel has been zoned for commercial purposes since 2001 yet remains undeveloped. The request complies with Policy 1.4.4 of the Master Plan which encourages in-fill development in established neighborhoods while promoting compatibility with the scale and intensity of the surrounding area. The request also complies with Policy 1.1.1 of the Master Plan which encourages the provision of diverse housing types at varied densities and in numerous locations to expand housing options that are less prevalent such as duplexes, townhomes, and smaller lot compact single-family residential subdivisions. For these reasons, staff finds the request for the RS2 zone is appropriate for this location.

Department of Aviation

The property lies just outside the AE-60 (60-65 DNL) noise contour for the Harry Reid International Airport and is subject to continuing aircraft noise and over-flights. Future demand for air travel and airport operations is expected to increase significantly. Clark County intends to continue to upgrade the Harry Reid International Airport facilities to meet future air traffic demand.

Staff Recommendation

Approval. This item has been forwarded to the Board of County Commissioners for final action.

If this request is approved, the Board and/or Commission finds that the application is consistent with the standards and purpose enumerated in the Master Plan, Title 30, and/or the Nevada Revised Statutes.

PLANNING COMMISSION ACTION: December 16, 2025 – APPROVED – Vote: Unanimous Absent: Gibson

Department of Aviation

- Applicant is advised that issuing a stand-alone noise disclosure statement to the purchaser or renter of each residential unit in the proposed development and to forward the completed and recorded noise disclosure statements to the Department of Aviation's Noise Office at landuse@lasairport.com is strongly encouraged; that the Federal Aviation Administration will no longer approve remedial noise mitigation measures for incompatible development impacted by aircraft operations which was constructed after October 1, 1998; and that funds will not be available in the future should the residents wish to have their buildings purchased or soundproofed.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been completed for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking 0255-2025 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require another POC analysis.
