**BACKGROUND:**

On December 21, 2021, the Board of County Commissioners approved a pre-qualification list to be used to select professional service providers for the period of January 1, 2022 through December 31, 2023. Stantec Consulting Services, Inc. (Corporation) was selected from the pre-qualification list category, [Service] Hydraulic/Hydrology (Detention/Retention and Storm Drain Conveyance), to provide design engineering services for the Jess Waite Wash Diversion Dike and Sedimentation Basin project.

County staff negotiated the attached professional engineering services contract with Stantec Consulting Services, Inc. The contract describes the services to be provided and stipulated terms. The time of performance is effective to November 28, 2024, unless time extensions are granted. The project includes, but not limited to, flood control improvements to the Jess Waite Wash Diversion Dike and Sedimentation Basin located in Bunkerville, Nevada, consisting of modifying the height of the existing berm along the diversion dike, extending the diversion dike west to discharge into a natural wash, installing grade control structures and lining the berm with soil-cement to provide erosion protection, increasing the capacity of the sedimentation basin, and related appurtenances necessary to make a good, complete, and serviceable project.

Stantec Consulting Services, Inc. currently holds a Clark County Business License.

Pursuant to the Nevada Revised Statute 332.115(1)(b), contracts for professional services are not adapted to award by competitive bidding and, therefore, are exempt from the bidding requirements.

The District Attorney's Office has reviewed and approved the contract as to form.
