### STANDARDS FOR ADOPTION:

The applicant shall demonstrate that the proposed request meets the goals and purposes of the Master Plan and Title 30.

### Analysis

#### Comprehensive Planning

The applicant requests a change from Ranch Estate Neighborhood (RN) to Low-Intensity Suburban Neighborhood (LN). Intended primary land uses in the proposed Low-Intensity Suburban Neighborhood land use designation include single family detached homes. Supporting land uses include accessory dwelling units and neighborhood serving public facilities, such as parks, trails, open space, places of assembly, schools, libraries, and other complementary uses.

Staff finds the request to redesignate the site to Low-Intensity Suburban Neighborhood (LN) to be too intense for, and not compatible with, the surrounding area. The site is immediately adjacent to developed R-E (RNP-I) zoned properties planned for Ranch Estate Neighborhood uses to the north and east. The request does not comply with Policy 1.5.1 of the Master Plan which supports the protection of existing Rural Neighborhood Preservation (RNP) areas as defined by NRS 278; and Policy 1.5.2 which promotes adopting and implementing standards to protect the established character and lifestyles associated with RNP areas and minimize future conflicts with higher intensity development planned on sites that are adjacent to RNP areas. Suggested strategies in the Master Plan include providing transitioning densities with larger lots adjacent to RNP areas or clustering higher intensity housing units away from the shared edge of the RNP. Therefore, staff cannot support the proposed request.

#### Staff Recommendation
