BACKGROUND:

Project Description

General Summary

- Site Address: 6211 Vegas Valley Drive
- Site Acreage: 15.20 (portion)
- Existing Land Use: Solar power facility

Applicant's Justification

The applicant states that the proposed Urban Neighborhood (UN) land use category is appropriate for the site since it would support Goal 1.1 of the Master Plan that encourages providing diverse housing options to meet the needs of residents of all ages, income levels, and abilities; and Goal 1.2 which promotes expanding the number of long-term affordable housing units available in Clark County. Furthermore, the higher density proposed for the site will be buffered from the lower density residential in the area by the adjacent Public Use (PU) and Business Employment (BE) uses. The proposed plan amendment will not result in any additional impacts on surrounding infrastructure not already contemplated in the area.

STANDARDS FOR ADOPTION:

The applicant shall demonstrate the proposed request is consistent with the Master Plan and is in compliance with Title 30.

Analysis

Comprehensive Planning

The applicant shall establish the request is consistent with the overall intent of the Master Plan by demonstrating the proposed amendment 1) is based on changed conditions or further studies; 2) is compatible with the surrounding area; 3) will not have a negative effect on adjacent properties or on transportation services and facilities; 4) will have a minimal effect on service provision or is compatible with existing and planned service provision and future development of the area; 5) will not cause a detriment to the public health, safety, and general welfare of the people of Clark County; and 6) adherence to the current goals and policies of the Master Plan would result in a situation neither intended by nor in keeping with other core values, goals, and policies.

The applicant requests a change from Public Use (PU) to Urban Neighborhood (UN). Intended primary land uses in the proposed Urban Neighborhood (UN) land use category include single-family attached and detached homes, duplexes, triplexes, fourplexes, townhomes, and multi-family. Supporting land uses include accessory dwelling units (where allowed by underlying zoning), multi-family dwellings, and neighborhood-serving public facilities.

The request for the Urban Neighborhood (UN) land use category on the site is not compatible with the surrounding area. The proposed residential use would be adversely impacted since the site is essentially surrounded by industrial uses including an electric generation facility to the north (planned for Business Employment (BE)), a recycling center and an automobile auction facility to the east (planned for Business Employment (BE)), and a wastewater treatment plant to the west (planned for Public Use (PU)). Furthermore, the change to the Urban Neighborhood (UN) land use category may adversely impact future residents on the site due to nuisances such as odors and/or noise. Title 30 would typically require the existing recycling center to the east to be 600 feet from any nonindustrial use, the existing wastewater treatment plant to the west to be 1,000 feet from any nonindustrial use, and the existing electric generation (large scale) facility to the north to be 1,000 feet from any nonindustrial use, which the proposed residential use would not meet any of these requirements. The request does not comply with Policy SM-1.1 of the Master Plan which encourages reinvestment and revitalization of older neighborhoods in Sunrise Manor that is compatible with existing development. For these reasons, staff finds the request for the Urban Neighborhood (UN) land use category is not appropriate for this location.

Staff Recommendation

Denial. If approved, adopt and direct the Chair to sign a resolution adopting the amendment. This item will be forwarded to the Board of County Commissioners' meeting for final action on July 22, 2026 at 9:00 a.m., unless otherwise announced.
