**Project Description**

General Summary

- Site Address: 6211 Vegas Valley Drive
- Site Acreage: 15.20 (portion)
- Existing Land Use: Solar power facility

Applicant's Justification

The applicant states that the proposed zone change to RM32 is appropriate since the site will be buffered from the lower density residential in the area by the existing adjacent and abutting industrial and public facility zoned properties. The proposed zone change will not have adverse impacts on the surrounding community or existing infrastructure or services.

The applicant shall demonstrate the proposed request is consistent with the Master Plan and is in compliance with Title 30.

### Analysis

#### Comprehensive Planning

In addition to the standards for approval, the applicant must demonstrate the zoning district is compatible with the surrounding area. The request for RM32 zoning on the site is not compatible

with the surrounding area. The proposed residential use would be adversely impacted since the site is essentially surrounded by industrial uses including an electric generation facility to the north (zoned IP, IL, & IH), a recycling center and an automobile auction facility to the east (zoned IP & IH), and a wastewater treatment plant to the west (zoned PF). Furthermore, the change from PF to RM32 zoning may adversely impact future residents on the site due to nuisances such as odors and/or noise. Title 30 would typically require the existing recycling center to the east to be 600 feet from any nonindustrial use, the existing wastewater treatment plant to the west to be 1,000 feet from any nonindustrial use, and the existing electric generation (large scale) facility to the north to be 1,000 feet from any nonindustrial use, which the proposed residential use would not meet any of these requirements. The request does not comply with Policy SM-1.1 of the Master Plan which encourages reinvestment and revitalization of older neighborhoods in Sunrise Manor that is compatible with existing development. For these reasons, staff finds the request for RM32 zoning is not appropriate for this location.
