Site Plans

The plans depict a proposed 1,170 square foot storage building west of an existing single-family residence. The structure is 6 feet away from the existing residence, 15 feet from the south property line, and 5 from the west property line adjacent to Monte Cristo Way. Access to the storage building is from the existing driveway off Monte Cristo Way to the west or through the front gate via the cul-de-sac on the east.

There is no new landscaping proposed with this request.

### Elevations & Floor Plans

Elevations depict a proposed 1,170 square foot storage building up to 17 feet in height with 2 roll-up doors on the west side elevation and 1 roll-up door with an entry door on the east elevation. The exterior material will match the existing house.

### Applicant's Justification

The applicant states that there is 10 feet from the Monte Cristo Way pavement to the east property line, and another 5 foot setback to the proposed accessory building will make it 15 feet from the pavement of the street.
