

CLARK COUNTY BOARD OF COMMISSIONERS

AGENDA ITEM

Petitioner: Marci Henson, Department of Environment and Sustainability

Recommendation:

Introduce an ordinance to repeal Clark County Air Quality Regulations Section 50, "Storage of Petroleum Products," and Section 51, "Petroleum Product Loading into Tank Trucks and Trailers"; and providing for other matters properly related thereto; and set a public hearing. (For possible action)

BACKGROUND:

On September 17, 2024, the Board of County Commissioners approved amendments to Clark County Air Quality Regulations (AQRs) Section 13, "National Emission Standards for Hazardous Air Pollutants," and Section 14, "New Source Performance Standards." New subsections in each (Sections 13.3 and 14.2) will be included in the Nevada State Implementation Plan to satisfy federal obligations to reduce volatile organic compounds in a moderate nonattainment area for ozone. These two subsections regulate petroleum storage tanks, bulk gasoline plants and terminals, and associated equipment leaks.

Sections 50 and 51 have become obsolete with the adoption of Subsections 13.3 and 14.2; therefore, both should be repealed.

Staff recommends that a public hearing be set for December 3, 2024, at 10:00 a.m.
