Project Description

General Summary

- Site Address: N/A
- Site Acreage: 4.70
- Existing Land Use: Undeveloped

Applicant's Justification

The applicant states that the request for the Urban Neighborhood (UN) land use category is appropriate since Urban Neighborhood (UN) exists to the northeast across Silverado Ranch Boulevard, Neighborhood Commercial (NC) is adjacent to the west, and the site has close access to Interstate 15 and Las Vegas Boulevard to the west. The request will also support Goals 1.1 and 1.2 of the Master Plan which promotes opportunities for diverse housing options and expanding the number of long-term affordable housing units. The proposed plan amendment will not result in any additional impacts on surrounding infrastructure not already contemplated in the area.

STANDARDS FOR ADOPTION:

The applicant shall demonstrate the proposed request is consistent with the Master Plan and is in compliance with Title 30.

Analysis

Comprehensive Planning

The applicant shall establish the request is consistent with the overall intent of the Master Plan by demonstrating the proposed amendment 1) is based on changed conditions or further studies;

2) is compatible with the surrounding area; 3) will not have a negative effect on adjacent properties or on transportation services and facilities; 4) will have a minimal effect on service provision or is compatible with existing and planned service provision and future development of the area; 5) will not cause a detriment to the public health, safety, and general welfare of the people of Clark County; and 6) adherence to the current goals and policies of the Master Plan would result in a situation neither intended by nor in keeping with other core values, goals, and policies.

The applicant requests a change from Mid-Intensity Suburban Neighborhood (MN) to Urban Neighborhood (UN). Intended primary land uses in the proposed Urban Neighborhood (UN) land use category include single-family attached and detached homes, duplexes, triplexes, fourplexes, townhomes, and multi-family. Supporting land uses include accessory dwelling units (where allowed by underlying zoning), multi-family dwellings, and neighborhood-serving public facilities.

The request for Urban Neighborhood (UN) is not compatible with the surrounding area. Urban Neighborhood (UN) allows for greater than 18 dwelling units per acre (du/ac). Although there are properties planned for Urban Neighborhood (UN) and zoned RM32 in the area, they are located on the north side of Silverado Ranch Boulevard and separated from the subject site by a 100 foot wide arterial street. Properties south of Silverado Ranch Boulevard are developed at a much lower density. The adjacent single-family residential subdivision to the east is zoned RS20. Although the subdivision was developed as a planned unit development, the density of the subdivision is still approximately 3 du/ac. The request does not comply with Policy 1.4.4 of the Master Plan which promotes development compatible with the scale and intensity of the surrounding area. For these reasons, staff finds the request for the Urban Neighborhood (UN) land use category is not appropriate for this location.
