BACKGROUND:

Project Description

General Summary

- Site Address: N/A
- Site Acreage: 7.04
- Existing Land Use: Undeveloped

Applicant's Justification

The applicant states that the proposed RS3.3 zoning is compatible with the surrounding properties in the area. The proximity of the site to Blue Diamond Road provides commercial opportunities to potential residents of the site. The proposed zoning will not have a detrimental effect on the surrounding public facilities, infrastructure, and services. Surrounding developments have brought the required facilities directly adjacent to the site including sewer, water, power, cable, etc.

Analysis

Comprehensive Planning

In addition to the standards for approval, the applicant must demonstrate the zoning district is compatible with the surrounding area. The request for RS3.3 zoning is compatible with the surrounding area. The abutting single-family residential subdivision to the east is zoned RS3.3. The proposed RS3.3 zoning on the site would be a continuation of the same zoning along the south side of Agate Avenue. A similar subdivision located adjacent to a Neighborhood Protection (RNP) Overlay is approximately 700 feet to the northwest and is also zoned RS3.3. The proposed RS3.3 zoning will also provide an appropriate transition from the more intense mixed-use development zoned CC to the south and the RS20 (NPO-RNP) zoned single-family residential properties to the north. Agate Avenue will also provide a buffer and separation from the Ranch Estate Neighborhood (RN) land use category and RS20 (NPO-RNP) zoned properties to the north. Although there is a single-family residence zoned RS20 (NPO-RNP) on the adjacent property to the west, that property is planned for Neighborhood Commercial uses. For these reasons, staff finds the request for RS3.3 zoning is appropriate for this location.
