### STANDARDS FOR APPROVAL:

The applicant shall demonstrate that the proposed request is consistent with the Master Plan and is in compliance with Title 30.

### Analysis

#### Comprehensive Planning

While the proposed subdivision has proper and functional access and the lots are laid out orderly on the site, staff is concerned the size and placement of the lots is resulting in the reduction of setbacks and other Title 30 requirements. Staff finds the required reductions are the result of a self-imposed hardship and the project could be developed to meet Code requirements. Additionally, staff is not supporting the accompanying waivers of developments standards and design review requests. For these reasons, staff is unable to support this request.

#### Staff Recommendation

Denial. This item will be forwarded to the Board of County Commissioners' meeting for final action on **August 5, 2026** at 9:00 a.m., unless otherwise announced.

If this request is approved, the Board and/or Commission finds that the application is consistent with the standards and purpose enumerated in the Master Plan, Title 30, and/or the Nevada Revised Statutes.
