Project Description

General Summary

- Site Address: N/A
- Site Acreage: 2.09
- Existing Land Use: undeveloped

Applicant's Justification

The applicant requests to change the master plan category of the parcel to Low-Intensity Suburban Neighborhood in support of a proposed residential subdivision. According to the applicant, the project site is bounded to the north and west by existing RS5.2 zoned subdivisions with a master plan category of Mid-Intensity Suburban Neighborhood, and the proposed change meets several County land use policies within the Master Plan, including Goal 1.1 Policy 1.1.1, Mix of Housing Types which encourages the provision of diverse housing types at varied densities and in numerous locations. According to the applicant, the policy specifically encourages development of smaller single-family lots as a fulfillment of this policy. Goal 1.4 Policy 1.4.4, Infill and Redevelopment which encourages infill development and redevelopment in established neighborhoods through flexible standards and other regulatory incentives, while promoting compatibility with the scan and intensity of the surrounding area. According to the applicant, development of the proposed lots will help reduce the number of infill parcels within this neighborhood.

STANDARDS FOR ADOPTION:

The applicant shall demonstrate the proposed request is consistent with the Master Plan and is in compliance with Title 30.

Analysis**Comprehensive Planning**

The applicant shall establish the request is consistent with the overall intent of the Master Plan by demonstrating the proposed amendment 1) is based on changed conditions or further studies; 2) is compatible with the surrounding area; 3) will not have a negative effect on adjacent properties or on transportation services and facilities; 4) will have a minimal effect on service provision or is compatible with existing and planned service provision and future development of the area; 5) will not cause a detriment to the public health, safety, and general welfare of the people of Clark County; and 6) adherence to the current goals and policies of the Master Plan would result in a situation neither intended by nor in keeping with other core values, goals, and policies.

The applicant requests a change from Ranch Estate Neighborhood to Low-Intensity Suburban Neighborhood. Intended primary land uses in the proposed Low-Intensity Suburban

Neighborhood include single-family detached homes. Supporting land uses include accessory dwelling units and neighborhood-servicing public facilities, such as parks, trails, open space, places of assembly, schools libraries ad other complementary uses.

The property is currently zoned RS5.2, and a proposal for a 10 lot single-family subdivision is also being requested for the site as a companion item to this request. The request meets Goal 1.1 Policy 1.1.1, Mix of Housing Types of the Master Plan, which encourages the provision of diverse housing types at varied densities and in numerous locations. The surrounding area includes a number of existing single-family subdivisions, and the subdivisions directly north and west of the subject site are designated as Mid-Intensity Suburban Neighborhood. The majority of parcels in the surrounding area are also designated as Mid-Intensity Suburban Neighborhood, which are of greater density and intensity then proposed by the applicant. The proposed change to the Low-Intensity Suburban Neighborhood land use category is more compatible to the existing zoning, RS5.2, of the site than the current Ranch Estate Neighborhood land use category. For these reasons, staff finds the request for the Low-Intensity Suburban Neighborhood land use category is appropriate for this location.
