### STANDARDS FOR ADOPTION:

The applicant shall demonstrate the proposed request is consistent with the Master Plan and is in compliance with Title 30.

## **Analysis**

### **Comprehensive Planning**

The applicant shall establish the request is consistent with the overall intent of the Master Plan by demonstrating the proposed amendment 1) is based on changed conditions or further studies; 2) is compatible with the surrounding area; 3) will not have a negative effect on adjacent properties or on transportation services and facilities; 4) will have a minimal effect on service provision or is compatible with existing and planned service provision and future development of the area; 5) will not cause a detriment to the public health, safety, and general welfare of the people of Clark County; and 6) adherence to the current goals and policies of the Master Plan would result in a situation neither intended by nor in keeping with other core values, goals, and policies.

The applicant requests a change from Business Employment (BE) to Entertainment Mixed-Use (EM). The intended primary land uses in the proposed Entertainment Mixed-Use land use designation include a mix of retail, restaurants, entertainment, gaming, lodging, and other tourist-oriented services, as well as office uses. Supporting land uses include high density residential, as well as public facilities such as civic and government uses, plazas, pocket parks, and other complementary uses.

Staff finds the request for Entertainment Mixed-Use (EM) land use category appropriate for this location. There does not appear to be a demand for light industrial uses along the south side of Arby Avenue as several parcels are developed with commercial, office, or higher density residential uses. The proposed plan amendment to Entertainment Mixed-Use (EM) is appropriate since the site is located near the 215/Durango interchange with existing intense developments. Policy SV1.3 encourages infill development that supports more varied housing types, density, and price points, which then allows residents to remain in the neighborhood regardless of age, family structure, or income. The request also complies with Policy 1.3.3 of the Master Plan which encourages the integration of restaurants, medical offices, and other daily needs services as part of or adjacent to new neighborhoods to minimize the need for longer vehicle trips. In addition, a mixed use project with a density of 72 dwelling units per acre was approved on this site and remains active. For these reasons, staff finds the request for the Entertainment Mixed-Use (EM) land use category appropriate for this location.

### **Staff Recommendation**

Adopt and direct the Chair to sign a resolution adopting the amendment. This item has been forwarded to the Board of County Commissioners for final action.

If this request is adopted, the Board and/or Commission finds that the application is consistent with the standards and purpose enumerated in the Master Plan, Title 30, and/or the Nevada Revised Statutes.
