### Site Plans

The plans depict a new commercial retail center on 5 different parcels located on the north side of Windmill Lane between Haven Street and Rancho Destino Road. Currently, there are 2 existing single-family residential homes on 2 of the parcels. The existing home adjacent to Haven Street will be demolished due to poor conditions and the existing home adjacent to Rancho Destino Road will remain and be remodeled to accommodate commercial uses. Access to the site is from 1 driveway that is centrally located on Windmill Lane. Pedestrian pathways are shown from Windmill Lane and between the buildings. A total of 6 commercial buildings are proposed, including the converted residence, with a mixture of both retail and restaurants. The 3 buildings closest to Windmill Lane show drive-thru lanes. The drive-thru lanes for the central and eastern buildings are buffered from the north by the proposed retail buildings, while the drive-thru lane for the western building is only partially buffered from the residential properties to the north. A total of **88** parking spaces are provided where 78 parking spaces are required and a maximum of **89** parking spaces are permissible. Along Windmill Lane is a detached sidewalk will be installed with landscaping per Code.

### Landscaping

The plans depict landscaping along Windmill Lane, Rancho Destino Road, and Haven Street. Haven Street, Rancho Destino Road **and Windmill Lane** will **each** have detached sidewalks with **5 foot wide** landscape strips on both sides of a detached sidewalk. The plans depict interior parking lot landscaping; **with landscape islands are shown every 6 spaces**. The landscape buffer along the north property line is **15 feet wide per Code**.

### Elevations

The plans depict commercial buildings that vary in height from 22 feet to 32 feet. The buildings' exterior depicts a stucco finish with stone veneer columns, stone materials, pitched roofline and parapet walls, glazed storefront windows, and metal canopies. The commercial buildings incorporate horizontal articulation with variation in roofline, and changes in texture, materials, surface colors, and columns.

### Floor Plans

Buildings A and B are proposed retail and restaurant spaces. Buildings C, D, and E are proposed restaurants with drive-thrus. Building F, which is the dwelling that will be converted, shows office spaces, but the applicant indicates this building may be for retail as well.

### Applicant's Justification

The applicant states the commercial site is justified on this parcel because it will be developed with shops and services that are essential to the adjacent residential neighborhoods. The home adjacent to Haven Street will be demolished because it is in poor condition. The home adjacent to Rancho Destino Road will remain because it is in very good condition and can be remodeled to accommodate a commercial use. The request for **88** parking spaces where a maximum of 89

parking spaces are permissible as some of the buildings could potentially become restaurants. The drive-thrus will have very little effect on the residential areas to the north.

### **STANDARDS FOR APPROVAL:**

The applicant shall demonstrate that the proposed request is consistent with the Master Plan and is in compliance with Title 30.

### **Analysis**

#### **Comprehensive Planning**

##### Waivers of Development Standards

The applicant shall have the burden of proof to establish that the proposed request is appropriate for its proposed location by showing the following: 1) the use(s) of the area adjacent to the subject property will not be affected in a substantially adverse manner; 2) the proposal will not materially affect the health and safety of persons residing in, working in, or visiting the immediate vicinity, and will not be materially detrimental to the public welfare; and 3) the proposal will be adequately served by, and will not create an undue burden on, any public improvements, facilities, or services.

Waiver of Development Standards #1  
**No longer needed.**

Waiver of Development Standards #2  
**No longer needed.**

Waiver of Development Standards #3  
**No longer needed.**

Waiver of Development Standards #4  
Staff can support the request to reduce the residential adjacency for a drive-thru to less than 200 feet. Building C has a drive-thru that begins adjacent to Haven Street and is 190 feet away from the residential properties to the north. In addition, the applicant proposes **5 large trees within the landscape buffer area directly north of the drive-thru in addition to a landscape island and landscape area to help screen the drive-thru from the residential uses to the north. Those trees are in addition to the trees provided for the required landscape buffer along the north property line which should mitigate any impact to the adjacent single-family residential development.** The revised plans and additional landscaping will help screen the drive-thru; therefore, staff can support this waiver request.

#### Design Review

Development of the subject property is reviewed to determine if 1) it is compatible with adjacent development and is harmonious and compatible with development in the area; 2) the elevations, design characteristics and others architectural and aesthetic features are not unsightly or undesirable in appearance; and 3) site access and circulation do not negatively impact adjacent roadways or neighborhood traffic.

The design of the buildings is appropriate for the site. Therefore, staff **can** support the proposed design review.
