Enterprise TAB meeting with Public Works

Background Information Regarding Advanced Planning for Additional/Expanded Arterials:

Enterprise is a rapidly expanding town.

- There is significant undeveloped land in Enterprise and possible expansion outside the disposal boundary.
- Enterprise includes approximately 15 sq miles outside the federal disposal boundary.
- There are significant connectivity barriers to road expansion.
- A plan is underway to add 15,000 affordable homes, most of which will be built in Enterprise.

Significant connectivity barriers:

- South of CC215, arterial roads are spaced every two miles.
- Interstate 15 limits east/west access.
- 4 Major Projects: 3 are active (Southern Highlands, Mountain's Edge and Rhodes Ranch), one failed (Pinnacle Peaks).
 - Arterial and collector roads have been removed from the transportation grid.
 - Enclosed subdivisions have vacated local roads for more homes.
 - Major projects' plans have not added sufficient road facilities to serve the public.
- South of CC 215, only three east/west arterials are available. All are not fully built out from I-15 to Fort Apache Rd.
 - UPRR tracks block or inhibit road development.
 - Geographic features, 12% or greater slopes block arterial and collector road development.

Two Requested Items for Discussion with Public Works:

1) Enterprise Arterials:

- Current arterials in Enterprise are underdeveloped.
 - 2 of 3 developed arterials need to be fully built, including utilities' installation where needed.
 - Warm Springs Rd development is underway.
 - NDOT needs to further develop Blue Diamond Rd.
- Additional east-west connectivity needs to be added.
 - Robindale Rd. built out from Las Vegas Blvd to Durango Dr.
 - Work with NDOT for bridge across I-15
 - Work with UPRR for bridge across UPRR tracks
 - Windmill Ln build out from Valley View Blvd to Durango Dr.
 - Eliminate sawtooth sections.
 - Work with UPRR for bridge across UPRR tracks
 - Pebble Ln expansion.
 - Work with NDOT for bridge across I-15.
 - Develop arterial standards from Las Vegas Blvd to Decatur Blvd.
 - Develop collector standards from Decatur Blvd to Lindell Rd.
 - Develop collector standards from Bronco St to Rainbow Blvd.
 - Develop arterial standards from Rainbow Blvd. to Hualapai Way.
- Additional North-south connectivity needs to be added.
 - Valley View Blvd from CC215 bridge to Somerset Hills Ave.
 - The land to the west of Valley View Rd is developing rapidly.
 - The intersection of Valley View and Silverado Ranch Blvd will need to be signalized.
 - The NV DMV facility will bring high volume of vehicles.

Enterprise TAB meeting with Public Works

2) Update rural road standards:

- The Rural Road Standards, developed in 2001, no longer meet the needs of the RNP neighborhoods.
- The RTC local street design standard does not meet the needs of the RNP neighborhoods.
 - The local/collector street design restricts RNP activities.
 - The update RTC diagrams for rural roads.
- Desired RNP-NPO roads design characteristics:
 - Provide a safe path for pedestrians, bicycles and horses.
 - Provide drainage to prevent flooding.
 - Vehicle lanes reduced to 1 or 2 as a traffic mediation measure.
 - Provide other traffic mitigation to slow down cut-through and local traffic.
 - Consider the use of mini traffic circles.
 - What street lighting types are needed are needed?
