### Analysis

#### Comprehensive Planning

##### Plan Amendment

The applicant shall establish the request is consistent with the overall intent of the Master Plan by demonstrating the proposed amendment 1) is based on changed conditions or further studies; 2) is compatible with the surrounding area; 3) will not have a negative effect on adjacent properties or on transportation services and facilities; 4) will have a minimal effect on service provision or is compatible with existing and planned service provision and future development of the area; 5) will not cause a detriment to the public health, safety, and general welfare of the people of Clark County; and 6) adherence to the current goals and policies of the Master Plan would result in a situation neither intended by nor in keeping with other core values, goals, and policies.

The applicant requests a change from Business Employment (BE) to Corridor Mixed-Use (CM). Intended primary land uses in the proposed CM land use category include a mix of retail, restaurants, offices, service commercial, entertainment, and other professional services. Supporting land uses include moderate density multi-family residential dwelling, as well as public facilities such as civic and government uses, plazas, pocket parks, places of assembly, schools, libraries, and other complementary uses.

The request for Corridor Mixed-Use (CM) is compatible with the surrounding area. The adjacent and abutting properties to the west and south are currently planned for CM uses. Furthermore, properties along this stretch of Silverado Ranch Boulevard have been transitioning to CG zoning, which is conforming to the CM land use category. The request complies with Policy 1.3.3 of the Master Plan which encourages the integration of restaurants, medical offices, and other daily

needs services as part of or adjacent to new neighborhoods to minimize the need for longer vehicle trips; as a number of new residential developments have been or are being constructed in the vicinity. For these reasons, staff finds the request for the CM land use category is appropriate for this location.
