### History & Site Plan

UC-0932-06 was previously approved for a resort hotel/casino with various components and amenities, and included all associated accessory and incidental commercial uses, buildings, and structures. Since approval, the project has been revised by many subsequent applications, the ownership of the project has changed several times, and construction has stopped along various stages of construction throughout the years.

Today, the resort hotel/casino consists of 3,719 guest rooms. The street level plan for the resort will house several elements including the casino, bars and lounges, the hotel entrance and guest registration area, coffee shop, restaurants, several other retail centers, and a garden.

UC-1242-06 was approved for an office complex consisting of several buildings (modular buildings) that will be used as construction offices. The subject site is currently under construction for The Drew Las Vegas. Primary access to the site is from Elvis Presley Boulevard through a gated entrance that is set back 60 feet from the right-of-way. As construction progresses, the construction office buildings will be moved to different locations on the site and finally when construction is completed they will be absorbed as part of the parking structure.

### Elevations

The previously approved plans depict the maximum height for all the buildings is 20 feet.

### Floor Plans

The previously approved plans depict the buildings varying in size from 4,320 square feet to 1,440 square feet.

Listed below are the approved conditions for UC-1242-06:

#### Current Planning

- Submit revised plans to staff on any building relocation within the site until the buildings are phased out;

#### Signage

Signage was not part of the original application.

#### Applicant's Justification

The applicant indicates this is the third extension of time for UC-1242-06. This request is being filed with 8 other requests for extensions of time (on the same site) and is required because the current owners recently purchased the uncompleted project and need time to review and evaluate all existing land use approvals before commencing the project. The applicant is working towards progressing on the project by replacing all existing bond approvals and obtaining building permits to continue construction. The applicant is requesting a 3 year extension of time and would like all approvals to run concurrently.
