for Incorporating Updates to Sections 13 and 14

INCORPORATING BY REFERENCE FEDERAL UPDATES TO DELEGATED FEDERAL REGULATIONS

Proposed Amendments

Pursuant to Title 40, Parts 61 and 63 of the Code of Federal Regulations (40 CFR Parts 61 & 63), stationary sources that emit specific types and quantities of hazardous air pollutants are subject to National Emission Standards for Hazardous Air Pollutants (NESHAP) requirements. Specific types of stationary sources that emit criteria pollutants, such as carbon monoxide and particulate matter, are subject to New Source Performance Standards (NSPS) requirements pursuant to 40 CFR Part 60. The U.S. Environmental Protection Agency (EPA) has delegated the responsibility for administering certain NESHAP and NSPS requirements to Clark County. On September 17, 2024, the Board amended Sections 13 and 14 of the Clark County Air Quality Regulations (AQRs) to incorporate by reference those requirements in effect as of August 1, 2024.

The proposed regulatory amendments will incorporate federal updates to the delegated NESHAPs and NSPS through July 1, 2025, as listed in Attachment 1. The ordinance will ensure that federal NESHAP and NSPS requirements are current and continue to be administered by the county.

COMMENTS RECEIVED AND DAQ RESPONSES

DAQ published a notice in the *Las Vegas Review-Journal* and made Sections 13 and 14 available for public comment, both online and at its offices, from July 28 to September 2, 2025. No comments were received during this period. Staff has scheduled a public hearing before the Clark County Board of County Commissioners for October 7, 2025.
