**BACKGROUND:**

**Project Description**

General Summary

- Site Address: N/A
- Site Acreage: 2.43
- Existing Land Use: Undeveloped

Applicant’s Justification

The applicant is requesting a master plan amendment from Ranch Estate Neighborhood (RN) to Low-Intensity Suburban Neighborhood (LN). The applicant is also requesting a zone change for this site from RS20 to RS5.2. This zone change requires a master plan amendment to the Low-Intensity Suburban Neighborhood land use category. According to the applicant, the plan amendment acknowledges the importance of fostering a well-integrated community environment that not only supports residential uses but also embraces a mix of different residential intensities. This transition is intended to create a corridor that offers a blend of services, amenities, and housing options to enhance the overall quality of life for residents.

**Prior Land Use Requests**

Application Number	Request	Action	Date
ZC-1026-05	Zone change which adopted the RNP-I overlay to the site and reclassified the site from R-E to R-E (RNP-I)	Approved by BCC	October 2005

**Surrounding Land Use**

	<b>Planned Land Use Category</b>	<b>Zoning District (Overlay)</b>	<b>Existing Land Use</b>

**STANDARDS FOR ADOPTION:**

The applicant shall demonstrate the proposed request is consistent with the Master Plan and is in compliance with Title 30.

**Analysis**

**Comprehensive Planning**

The applicant shall establish the request is consistent with the overall intent of the Master Plan by demonstrating the proposed amendment 1) is based on changed conditions or further studies; 2) is compatible with the surrounding area; 3) will not have a negative effect on adjacent properties or on transportation services and facilities; 4) will have a minimal effect on service provision or is compatible with existing and planned service provision and future development of the area; 5) will not cause a detriment to the public health, safety, and general welfare of the people of Clark County; and 6) adherence to the current goals and policies of the Master Plan would result in a situation neither intended by nor in keeping with other core values, goals, and policies.

The applicant requests a change from Ranch Estate Neighborhood (RN) to Low-Intensity Suburban Neighborhood (LN). Intended primary land uses in the proposed LN land use category include single-family detached homes. Supporting land uses include accessory dwelling units and neighborhood serving public facilities, such as parks, trails, open space, places of assembly, schools, libraries, and other complementary uses.

Staff finds the request to redesignate the site to Low-Intensity Suburban Neighborhood (LN) to not be compatible with the surrounding area. The intent of a balanced land use plan is to encourage an orderly development pattern with an appropriate spatial distribution of land uses that complement each other. This application is for low density suburban residential development (up to 5 dwelling units per area) and is not in character with the adjacent large rural estate lots to the north, south, and west of this site. Additionally, the proposed subdivision is directly adjacent to a residence that has a large equestrian facility; and therefore, is still a viable RNP neighborhood. The request does not comply with Policy EN-1.1 of the Master Plan which promotes the integrity of contiguous and uniform neighborhoods through development regulations that encourage compatible infill development; Policy 1.5.1 which supports the protection of existing Rural Neighborhood Preservation (RNP) areas; Policy 1.5.2 which promotes adopting and implementing standards to protect the established character and lifestyles associated with RNP areas and minimizing future conflicts with higher intensity development planned on sites that are adjacent or within RNP areas. For these reasons, staff finds the request for the LN land use category not appropriate for this location.
