**BACKGROUND:****Project Description**

## General Summary

- Site Address: N/A
- Site Acreage: 8.35
- Existing Land Use: Undeveloped

Applicant's Justification

The applicant is requesting a zone change to RM18 (Residential Multi-Family 18). The subject site is proposed for a 118 lot single-family attached townhouse project with a density of 14.13 dwelling units per acre. According to the applicant, the proposed zoning district appears to be a more compatible designation for the site being that it is adjacent to a large RS2 development to the east. Furthermore, the proposed request will not have any substantial adverse effect on the surrounding public facilities and services already contemplated for the area.

The applicant shall demonstrate the proposed request is consistent with the Master Plan and is in compliance with Title 30.

## **Analysis**

### **Comprehensive Planning**

In addition to the standards for approval, the applicant must demonstrate the zoning district is compatible with the surrounding area. Currently, the property is zoned CG and RS20 and has been undeveloped for many years. The proposed density of this project is compatible with the nearby land uses in the area. The request complies with Policy 1.1.1 of the Master Plan which encourages the provision of diverse housing types at varied densities and in numerous locations; in particular, seek opportunities to expand “middle” housing options that are less prevalent such as duplexes, townhomes, triplexes, fourplexes, and smaller multiple family complexes. For these reasons, staff finds the request for the RM18 Zone appropriate.

### **Staff Recommendation**

Approval. This item has been forwarded to the Board of County Commissioners for final action.

If this request is approved, the Board and/or Commission finds that the application is consistent with the standards and purpose enumerated in the Master Plan, Title 30, and/or the Nevada Revised Statutes.
