## **SECTION 2 – RECITAL OF PREMISES, PURPOSE AND INTENT**

2.01 Recitals. This Agreement is predicated upon the following facts and findings:

(a) Statutory Authorization. The County is authorized, pursuant to NRS §278.0201 through 278.0207, inclusive, to enter into binding Development Agreements with persons having a legal or equitable interest in real property to establish long range plans for the development of such property.

(b) Ownership Interest. Owner represents that it has, will acquire, or has the right to acquire, fee title ownership of the Subject Property.

(c) County Authorization, Hearing and Ordinance. All preliminary processing with regard to the Project has been duly completed in conformance with all applicable laws, rules and regulations. The County Commission, having given notice as required by law, held a public hearing on Owner's application seeking approval of the form of this Agreement and the execution hereof by the County. At the described meeting, the County Commission found that this Agreement is consistent with the County's plans, policies and regulations, including the County Master Plan, that the Agreement meets the requirements of Title 30 of the Code, and that the execution hereof by and on behalf of the County is in the public interest and is lawful in all respects. During the same meeting at which the public hearing was held, the County Commission adopted the Ordinance approving this Agreement and authorizing the execution hereof by duly constituted officers of the County. Said ordinance was scheduled to be effective two weeks after adoption. County agrees to record a certified copy of the ordinance as required by NRS §278.0207.

(d) County Intent. The County desires to enter into this Agreement in conformity with the requirements of NRS, and as otherwise permitted by law, and this Agreement to provide for public services; public uses and urban infrastructure; to promote the health, safety and general welfare of the County and its inhabitants; to minimize uncertainty in planning for and securing orderly development of the Project and surrounding areas; to insure attainment of the maximum efficient utilization of resources within the County at the least economic cost to its citizens; and to otherwise achieve the goals and purposes for which the State statute and County ordinance authorizing Development Agreements were enacted.

(e) Owner Intent. In accordance with the legislative intent evidenced by NRS §278.0201 through §278.0207, inclusive, authorizing Development Agreements and the intent of the County in adopting an ordinance allowing Development Agreements, Owner wishes to obtain reasonable assurances that Owner may develop the Project in accordance with the conditions established in this Agreement. Owner acknowledges that there are insufficient public services, which includes facilities and infrastructure, existing or planned at this time. In order to develop the Subject Property, Owner is willing to enter into this Development Agreement in order to pay Owner's fair share of the costs to provide certain public services, facilities, and infrastructure in the area of this Project. Owner further acknowledges that this Agreement was made a part of the County Record at the time of its approval by the County Commission and that the Owner agrees without protest to the requirements, limitations, or conditions imposed by this Agreement and the Concurrent Approvals.

(f) Acknowledgment of Uncertainties. The parties acknowledge that circumstances beyond the control of either party could defeat their mutual intent that the Project be developed in the manner contemplated by this Agreement. Among such circumstances is the unavailability of water or other limited natural resources, federal regulation of air and water quality, and similar conditions. Owner recognizes that water shortages could affect the County's ability to perform its obligations hereunder. Owner further acknowledges and agrees this Agreement does not relieve the Owner from compliance with existing, changed, modified or amended rules regulations, laws, ordinances,

resolutions, fees codes, etc., of other governmental agencies. Such rules, regulations, laws, ordinances, resolutions, fees, codes, etc. of governmental entities must be complied with by the Owner and are not locked in nor a part of this Agreement. It is not the intent of the parties nor shall this Section be construed as excusing the County of any obligation hereunder or depriving Owner of any right under this Agreement, which can be performed.

(g) Provision of Water and Sewer Service. Owner clearly understands and agrees that, amongst other requirements, water commitment and sanitary sewer system development approval must be obtained from the proper governmental entities namely the Las Vegas Valley Water District and the Clark County Water Reclamation District. Fees and services for such commitments and systems are established by said governmental entities and must be paid and complied with by the Owner in accordance with said governmental entities requirements as amended from time to time. This Agreement or the County does not guarantee or provide the provision of water and sewer services.

2.02 Incorporation of Recitals. The foregoing recitals shall be deemed true and correct in all respects with respect to this Agreement and shall serve as the basis for the interpretation of this Agreement.

2.03 Permitted Uses, Density, Height and Size of Structures. Pursuant to NRS §278.0201 and the Code, this Agreement must set forth the maximum height and size of structures to be constructed on the Subject Property, the density of uses and the permitted uses of the land. County agrees the Project may be developed to the density and with the land uses set forth in the Land Use and Development Guide/Plan, along with the development standards set forth in the Concurrent Approvals and the Applicable Rules.

### **SECTION 3 – DEVELOPMENT OF THE PROJECT**

3.01 Time for Construction and Completion of the Project. Subject to the terms of this Agreement and Applicable Rules, Owner shall have discretion as to the time of commencement, construction, phasing, and completion of any and all development of the Project. Nothing herein shall be construed to require the Owner to develop the Project or any part thereof.

3.02 Reliance on Concurrent Approvals and Applicable Rules. County hereby agrees that Owner will be permitted to carry out and complete the entire Project in accordance with the uses and densities set forth in the Concurrent Approvals subject to the terms and conditions of this Agreement and the Applicable Rules. Pursuant to the terms of this Agreement and subject to Owner's infrastructure obligations described in this Agreement, the development of the Project may proceed.

3.03 Air Quality Conformity. Owner acknowledges County has adopted an air quality plan and agrees to comply with the applicable provisions thereof, including any state and federal rules and regulations.

3.04 Dust Mitigation. Owner will educate Builders and contractors within the Project of the applicable rules of the Clark County Department of Air Quality & Environmental Management with respect to dust mitigation and will encourage compliance therewith.

3.05 Water Conservation. Owner agrees to encourage water conservation in the Project. Owner agrees to design any open space using the best available, water conserving techniques, including but not limited to proper soil preparation and water conserving irrigation systems and equipment. Landscaping adjacent to public streets shall be limited to water conserving plant materials.

3.06 Temporary Storm Water Construction Permit. Owner agrees to educate Builders and contractors within the Project on the requirements for a Temporary Storm Water Construction Permit issued from the Nevada Division of Environmental Protection (NDEP).

## SECTION 4 – PUBLIC FACILITIES

4.01 Public Facilities. Owner agrees that prior to issuance of any building permit for a single family dwelling, multiple family dwelling, retail, office, industrial or hotel use in the Project, they will pay the fees as set forth in the Public Facilities Chart below, hereinafter referred to as Chart 4.01-A, except as modified by this Section 4.01.

In addition, the fees set forth in Chart 4.01-A below may be increased or decreased from time to time during the term of this Agreement if the modified fees are uniformly applied to all development and construction within the Public Facilities Needs Assessment area. The County and Owner agree that any fee modifications shall be applied only for building permits not yet issued. Owner and the County will not be entitled to any payment or reimbursements for fees paid for building permits issued prior to any such fee modification.

Notwithstanding any other provision in this section no grading or building permit shall be issued in any area not protected by the drainage facilities identified in the approved Drainage Study.

## **SECTION 5 – REVIEW AND DEFAULT**

5.01 Frequency of Reviews. As required by NRS §278.0205 and the Development Agreement Ordinance, at least once every twenty-four (24) months during the Term of this Agreement, Owner shall provide and County shall review in good faith a report submitted by Owner documenting the extent of Owner's and County's material compliance with the terms of this Agreement during the preceding twenty-four (24) months. If at the time of review an issue not previously identified in writing is required to be addressed, the review, at the request of either party, shall be continued to afford sufficient time for response.

5.02 Opportunity to be Heard. County and Owner shall be permitted an opportunity to be heard orally and in writing before the County Commission regarding their performance under this Agreement in the manner set forth in Development Agreement Ordinance.

5.03 Procedures in the Event of Noncompliance. In the event of any noncompliance with any provision of this Agreement, the party alleging such noncompliance shall deliver to the other in writing a courtesy notice, not less than thirty (30) calendar days prior to declaring a default under this Agreement. The time of notice shall be measured from the date of post mark which may be sent by regular mail.

The courtesy notice shall state the reason for noncompliance, any action necessary to correct the noncompliance, specify the nature of the alleged default and, where appropriate, the manner and period of time in which the noncompliance may be satisfactorily corrected. During the period of time the default letter is pending, the party alleged to be in default shall not be considered in default for the purposes of termination or institution of legal proceedings. If the default is corrected, then no default shall exist and the noticing party shall take no further action. If the default is not corrected within thirty (30) calendar days, the following courses of action shall apply:

(a) County Procedures

(i) Intent to Remedy Noncompliance. After proper notice and the expiration of the above-referenced periods for correcting the alleged default, the Director of Development Services, or his or her designee, may do one or both of the following options:

- (1) Immediately direct County staff to recommend that all future zoning, land use, and mapping applications within the Project be conditioned so that the building permits to be issued as a result of those approvals shall not be issued until the default is corrected, or;

(2) Issue a letter providing notice of County's intent to set the matter for hearing before the County Commission. The letter shall notify Owner of the action taken. In the event the County selects this option, County shall give Owner at least seven (7) business days notice to correct the default before the matter is scheduled for a hearing. The letter notifying Owner of the hearing shall contain the intended hearing date. The seven (7) business days will be measured from the date of the certified mailing of the notice.

(ii) Hearing Schedule. If the default is not corrected within the time specified above, the matter shall be scheduled and noticed as required by law for consideration and review by the County Commission on the next available Commission zoning agenda.

(iii) Review by County Commission. Following consideration of the evidence presented before the County Commission and a finding based on substantial evidence that a default has occurred by Owner and the default remains uncorrected, the County Commission may authorize the suspension of building permits within the Project or may amend or terminate this Agreement. Termination shall not in any manner rescind, modify, or terminate any Vested Right in favor of Owner, existing or received, as of the date of the termination. Owner shall have twenty-five (25) calendar days after the date of notice of the County Commission's decision is filed with the Clark County Clerk, Commission Division, to institute legal action pursuant to Sections 5.05 and 5.06 hereof, to determine whether the County Commission abused its discretion in determining whether a default existed and remained uncorrected.

(b) Owner Procedures

(i) After proper notice and the expiration of the above-referenced periods for correcting the alleged default, Owner may issue a letter requesting a hearing before the County Commission for review of the alleged default. Upon receipt of the letter, County shall schedule an item to consider the alleged default on the next available Commission zoning agenda.

(ii) Review by County Commission. Following consideration of the evidence presented before the County Commission and a finding based on substantial evidence that a default has occurred by County and remains uncorrected, the County Commission shall direct County staff to correct the default. Owner shall have twenty-five (25) calendar days after the date of notice of the County Commission's decision is filed with the Clark County Clerk, Commission Division, to institute legal action pursuant to this Section hereof to determine whether the County Commission abused its discretion in determining whether a default existed and remained uncorrected.

(c) Waiver. Failure or delay in giving any notice provided for herein shall not constitute a waiver of any default. Except as otherwise expressly provided in this Agreement, any failure or delay by any party in asserting any of its rights or remedies in respect to any default shall not operate as a waiver of any default or of any such rights or remedies, or deprive such party of its right to institute and maintain any actions or proceeding which it may deem necessary to protect, assert, or enforce any of its right or remedies.

(d) Notices. All notices provided for herein shall be sent to and in the manner provided in Section 7.08 of this Agreement.

5.04 Option to Terminate. After proper notice and the expiration of the above-referenced period for correcting the alleged default, the party alleging the default shall give notice of intent to amend or terminate this Agreement pursuant to NRS §278.0205 (the "Notice of Intent"), with notices sent in the manner

provided by Section 7.08 of this Agreement. Following any such Notice of Intent, the matter shall be scheduled and noticed as required by law for consideration and review by the County Commission.

5.05 Unavoidable Delay or Default, Extension of Time for Performance. Neither party hereunder shall be deemed to be in default, and performance shall be excused, where delays or defaults are caused by war, acts of terrorism, insurrection, strikes, walkouts, riots, floods, earthquakes, fires, casualties, acts of God, restrictions imposed or mandated by governmental entities, failure of governmental agencies (other than County) to perform acts or deeds necessary for the performance of this Agreement, enactment of conflicting state or federal laws or regulations, new or supplementary environmental regulations, litigation, or similar matters beyond the control of the parties. If written notice of any such delay is given to County within thirty (30) calendar days after the commencement thereof, an automatic extension of time, unless otherwise objected to by County within ten (10) business days of such written notice, shall be granted coextensive with the period of the enforced delay, or longer as may be required by circumstances or as may be subsequently agreed to between County and Owner.

5.06 Institution of Legal Action. The County and Owner agree that the County would not have entered into this Agreement if it were liable for damages under or with respect to this Agreement. Accordingly, the County and the Owner may pursue any remedy at law or equity available for breach, except that neither the Owner nor the County shall be liable to the other or to any other person or entity for any monetary damages whatsoever. Prior to the institution of any legal action, the party seeking legal action must give the thirty (30) day notice of default as set forth in Section 5.03. Following such notice, a public hearing must be held by the County Commission where the allegations will be considered and a decision regarding their merits will be reached. Any judicial review of the County Commission's decision or any legal action taken pursuant to this Agreement will be heard by a Court under the standard review appropriate to Court review of zoning actions, and the decision of the County Commission shall be overturned or overruled if its decision is clearly arbitrary and capricious. Judicial review of the decision of the County Commission shall be limited to the evidence presented to the County Commission at the public hearing. If a party desires to present new or additional evidence to the Court, such party may petition the Court to remand the matter to the County Commission to consider the additional or new evidence. Jurisdiction for judicial review or any judicial action under this Agreement shall rest exclusively with the Eighth Judicial District Court, State of Nevada.

5.07 Applicable Laws. This Agreement shall be construed and enforced in accordance with the law of the State of Nevada.

## **SECTION 6 – CONFLICTING LAWS**

6.01 Conflicting State or Federal Rules. In the event that any conflicting state or federal laws or regulations enacted after the Effective Date prevent or preclude compliance with one or more provisions of this Agreement or require changes in plans, maps or permits approved by the County, this Agreement shall remain in full force and effect as to those provisions not affected, and the conflicting laws or regulations shall not be applied retroactively, and:

(a) Notice and Copies. Either party, upon learning of any such matter, will provide the other party with written notice thereof and provide a copy of any such law, regulation or policy or an account of any such action or inaction together with a statement of how any such matter conflicts with the provisions of this Agreement; and

(b) Modification Conferences. The parties shall, within thirty (30) calendar days of the notice referred to in the preceding subsection, meet and confer in good faith and attempt to modify this Agreement to bring it into compliance with any such federal or state law or regulation, or accommodate any such action or inaction.

6.02 County Commission Hearings. In the event the County believes that an amendment to this Agreement is necessary pursuant to this Section 6 due to the effect of any federal or state law or regulation, the proposed amendment shall be scheduled for hearing before the County Commission. The County Commission shall determine the exact nature of the amendment or suspension necessitated by such federal or state law or regulation or action or inaction. Owner shall have the right to offer oral and written testimony at the hearing. Any suspension or modification ordered by the County Commission pursuant to such hearing is subject to judicial review as set forth in Section 5.06. The parties agree that any matter submitted for judicial review shall be subject to expedited review in accordance with Rule 2.15 of the Eighth Judicial District Court of the State of Nevada.

6.03 Cooperation in Securing Permits. The County shall use its Best Efforts to cooperate with Owner in securing any County permits, licenses or other authorizations which may be required as a result of any amendment or suspension resulting from actions initiated under this Section 6. Owner will be responsible to pay all applicable fees in connection with securing of the permits.

## **SECTION 7 – GENERAL PROVISIONS**

7.01 Enforcement and Binding Effect. Subject to the limitations of NRS §278, this Agreement is enforceable by either party in accordance with its terms notwithstanding any change (which, except for this Agreement, would otherwise be applicable) in any of the Applicable Rules. Nothing in this Agreement shall prevent the County from increasing "cost based fees" which are deemed to be administrative fees for issuance of land use approvals, building permits, plan checks, or inspections which are based upon actual costs to the County and which are uniformly applied to all development and construction subject to the County's jurisdiction. "Cost based fees" do not include the fees addressed in Section 4.01 of this Agreement.

7.02 Duration of Agreement. The Term of this Agreement shall commence upon the Effective Date and shall expire on the date the land use application expires or upon the eighth (8th) anniversary of the Effective Date, or when all obligations hereunder are satisfied, whichever occurs earliest, unless extended by written agreement executed by County and Owner.

7.03 Assignment.

(a) Transfer Not to Relieve Owner of its Obligation. Except as expressly provided herein, no assignee or transferee of any portion of the Project within the area covered by a recorded subdivision map shall be subject to the obligations of Owner as to the portion of the Project so assigned or transferred nor be deemed to have assumed all such obligations, and such assignment or transfer shall not relieve Owner of its obligation as to the assigned or transferred portion of the Project.

(b) Transfer to an Affiliate of Owner. The rights of Owner under this Agreement may be freely transferred or assigned to any entity, partnership, or corporation, which Owner controls, or in which Owner has a controlling interest, or which controls Owner; provided, such entity shall assume in writing all obligations of Owner hereunder.

(c) Third Party Assignment. The rights and obligations of Owner under this Agreement may be freely transferred or assigned to a third party not affiliated with Owner, provided such third party assumes in writing all obligations of Owner hereunder as to the assigned or transferred portion of the Project along with a copy of the sale, transfer, conveyance, or assignment agreement wherein the third party assumes the obligations of the Owner. Upon any such assignment hereunder, the Owner shall be relieved of all obligations and liabilities under or in connection with this agreement. In connection with the conveyance of any portion of the property, Owner shall provide County with written notice of any sale, transfer, conveyance or assignment of any unimproved portion of the Project.

(d) Financial Transactions. Owner has full discretion and authority to transfer, assign or encumber the Project or portions thereof in connection with financing transactions, without limitation on the size or nature of any such transaction, the amount of land involved or the use of the proceeds therefrom, and may enter into such transaction at any time and from time to time without permission of or notice to County.

7.04 Amendment or Cancellation of Agreement. Except as otherwise permitted by NRS §278.0205 and Section 5 of this Agreement, this Agreement may be amended from time to time or canceled only upon the mutual written agreement of the parties hereto; provided however, that to the extent this Agreement expires pursuant to Section 7.02 above.

7.05 Indemnity; Hold Harmless. Except as expressly provided in this Agreement, Owner shall hold County, its officers, agents, employees, and representatives harmless from liability for damage or claims for damage for personal injury, including death and claims for property damage which may arise from the direct or indirect operations of Owner or those of its contractors, subcontractors, agents, employees, or other persons acting on Owner's behalf which relate to the development of the Project. General Summary

- Site Acreage: 2.8
- Project Type: Hotel with commercial building for future retail/restaurant uses
- Number of Hotel Units: 94
- Number of Stories: 4 hotel/1 commercial building

- Square Feet: 13,940 hotel/4,650 commercial building
- Parking Required/Provided: 286/342 (includes shared parking with development to the north)

Site Plan

The original plans for this project depicted a 6 foot setback for the proposed commercial building from the future right-of-way line of Las Vegas Boulevard South. The plans also depicted a drive-thru service in conjunction with the commercial building which raised concerns for staff. The applicant has submitted revised plans which removed the drive-thru service and increased the building setback to the future right-of-way line. Therefore, waivers #1a and #1b can be withdrawn and design review #2 will be for the commercial building without a drive-thru service.

The site is approximately 2.8 acres of undeveloped land located between Las Vegas Boulevard South and the Giles Street alignment, approximately 425 feet south of Cactus Avenue. Giles Street along the east side of this site has been vacated. Access to the site is provided by a proposed driveway from Las Vegas Boulevard South on the southwest corner of the site and a cross access with the existing commercial development to the north. A future cross access with the adjacent parcel to the south is depicted on the southwest corner of the site. The project consists of 2 buildings being a commercial building for retail and restaurant uses and a hotel. The commercial building is located on the northwestern portion of the site and the hotel is located on the south half of the eastern half of the site. The plans indicate the western 100 feet of the site will be taken for right-of-way for Las Vegas Boulevard South. The proposed commercial building will be set back 11 feet from the future right-of-way line for Las Vegas Boulevard South. Parking for the project is located to the north and east of the hotel building and to the south and east of the commercial building. The proposed development is required to have 118 parking spaces and 100 spaces are provided on the site. The applicant has a shared access and parking agreement with the property owner of the commercial development to the north. With the shared access and parking agreement with the commercial development to the north, the 2 developments are required to have 286 parking spaces and 342 spaces will be

provided. The plan depicts a pool and patio area on the south side of the hotel building located between the building and the south property line.

The cross section plan indicates that the hotel building will be increased approximately 2 feet above the existing grade of the site and the commercial building approximately 3.3 feet above existing grade. The cross section plan indicates the proposed finished floor elevations for the project will be similar to the finished floor elevation for the existing single family residence to the east but approximately 3 feet higher than the existing commercial building to the north.

#### Landscaping

The plan depicts a minimum 10 foot wide landscape area consisting of large evergreen trees along the east property line adjacent to an existing single family residence. The plan shows the western 100 feet of the site as part of the future right-of-way for Las Vegas Boulevard South. A detached sidewalk is depicted within the right-of-way that is set back approximately 5 feet from the back of curb. Between this detached sidewalk and the edge of the future right-of-way the plan depicts trees, shrubs, and groundcover within this area. Within the 11 foot setback to the future right-of-way line for the commercial building the plan depicts landscaping consisting of trees, shrubs, and groundcover, which the plans indicate will remain when future street improvements widen the right-of-way. Additional landscape areas are provided in the parking areas and adjacent to the buildings. Landscaping within the parking areas to the north of the hotel and to the east of the commercial building do not comply with the requirements of Figure 30.64-14; however, the number of trees required for the parking areas is provided and located throughout the site.

#### Lighting

The plan indicates that lighting will consist of wall mounted light fixtures and parking lot light poles. The wall mounted light fixtures will consist of LED fixtures set approximately 14 feet above grade on the buildings. There will be a total of 10 parking lot light poles. These light poles will consist of eight, 16 foot high poles located in the central and western portions of the site and two, 12 foot high poles along the east portion of the parking lot nearest the existing residential use. All light fixtures will be downcast to minimize or eliminate light pollution.

#### Elevations

The commercial building is 1 story with a maximum height of 24 feet. The building has a flat roof behind a parapet wall that varies between 21 feet and 24 feet in height. The exterior of the building has a stucco finish painted in earth tone colors.

The hotel building is 4 stories with a maximum height of approximately 50 feet. The building has a flat roof behind parapet walls that vary the height of the building between 44 feet and 50 feet. The exterior of the building consists of a stucco finish painted in earth tone colors, stone veneer, and multiple surface plane variations to give both vertical and horizontal articulation which include accent bands and reveal lines.

#### Floor Plans

The commercial building has an area of 4,650 square feet. The plan indicates the building will be constructed as a shell building where the interior of the building will be completed by future

building permits to meet the needs of future tenants. The plans indicate the building could be divided into 2 lease spaces.

The hotel building has an area of 13,940 square feet divided between 4 floors with a total of 94 guest rooms. The first floor will consist of guest rooms, a fitness center, meeting rooms, lobby area, and support areas. Floors 2 through 4 will consist of guest rooms and house keeping storage areas.

Signage

Signage is not a part of this request.

Applicant's Justification

The applicant indicates that the proposed zone change is consistent and compatible with existing and planned land uses in the area. There will be no negative impacts to the surrounding properties. There is existing landscaping within the right-of-way for the development to the north and this project proposes to provide similar improvements which will provide a uniform streetscape. The buildings will have similar architectural elements that provide for a seamless development site and a contemporary style of urban architecture that is compatible with the surrounding area. The reduced driveway throat depth is consistent with other driveway geometrics in the immediate area with no adverse impacts and exceeds the throat depths of the existing shopping center to the north. All light fixtures will be in compliance with Title 30 standards. The site is lower toward the center of the parcel which requires excess fill to maintain proper drainage.

**Surrounding Land Use**

	<b>Planned land Use Category</b>	<b>Zoning District</b>	<b>Existing Land Use</b>
North	Commercial Tourist & Commercial General	C-2	Commercial development
South	Commercial Tourist & Office Professional	H-2	Undeveloped
East	Rural Neighborhood Preservation (up to 2 du/ac)	R_E (RNP-I)	Single family residential
West	Commercial Tourist	H-1	Undeveloped

\*The subject site is within the Public Facilities Needs Assessment (PFNA) area.

**STANDARDS FOR APPROVAL:**

The applicant shall demonstrate that the proposed request meets the goals and purposes of Title 30.

**Analysis**

**Current Planning**

Zone Change

The site is designated as Commercial General by the Enterprise Land Use Plan. The proposed reclassification to a C-2 zoning district is within the range of intensity allowed by the Commercial General land use designation in the Land Use Plan. Therefore, the request conforms to the Land Use Plan. The reclassification of this site to a C-2 zone will expand an existing C-2

zoned node of approximately 11.2 acres located on the northeast and southeast corners of Cactus Avenue and Las Vegas Boulevard South. This site is currently zoned H-2, which is an antiquated zoning district that the County is slowly trying to eliminate. The reclassification of this site from an H-2 zone to a C-2 zone will further the County's goal of eliminating the H-2 zoning district; therefore, staff can support the zone change,

#### Waivers of Development Standards

According to Title 30, the applicant shall have the burden of proof to establish that the proposed request is appropriate for its existing location by showing that the uses of the area adjacent to the property included in the waiver of development standards request will not be affected in a substantially adverse manner. The intent and purpose of a waiver of development standards is to modify a development standard where the provision of an alternative standard, or other factors which mitigate the impact of the relaxed standard, may justify an alternative.

#### Waivers of Development Standards #1a & #1b

Revised plans have been submitted by the applicant which have eliminated the need for these waivers of development standards. These waivers may be withdrawn.

#### Waiver of Development Standards #2

The plans depict landscaping within the future right-of-way of Las Vegas Boulevard South, which is common for developments located along Las Vegas Boulevard South. The plans show an area between the edge of the future right-of-way and the proposed commercial building that is 11 feet wide, which will be a landscape area consisting of trees, shrubs, and groundcover. The landscape area depicted within the future 11 foot setback is similar to landscaping that has been approved for other commercial developments along Las Vegas Boulevard South. Therefore, staff can support the alternative submitted by the applicant.

#### Design Review #1

The proposed hotel building is a contemporary architectural design that is consistent with other commercial buildings in the area. The required setbacks are being maintained for the building and an intense landscape buffer is being provided to the existing residence to the east; therefore, staff can support this design review.

#### Design Review #2

The original plans submitted for this building included requests for a setback reduction and a drive-thru service which staff did not support. The applicant submitted revised plans that eliminated these requests. The proposed commercial building is a contemporary architectural design that is consistent with other commercial buildings in the area. The required setbacks are being maintained for the building and an 11 foot wide landscape buffer is being provided between the building and the future right-of-way line for Las Vegas Boulevard South; therefore, staff can support this design review.

#### Design Review #3

The information submitted by the applicant indicates that the proposed lighting will be in conformance to the requirements of Title 30. With the proposed intense landscape buffer along

the east property line the lighting from this site should have no adverse effects on the existing single family residence to the east; therefore, staff can support this design review.

#### Design Review #4

The landscaping plan is depicting 2 areas where parking lot landscaping does not comply with the standards of Figure 30.64-14, which is an area north of the hotel building and east of the commercial building. However, the plan indicates that the required number of trees for the parking area is being provided and distributed throughout the site. Since the alternative is limited to 2 areas within the parking lot and the required number of trees will be provided on the site, staff can support this design review.

#### **Public Works - Development Review**

##### Waiver of Development Standards #3

The applicant is responsible for maintenance and up-keep of any non-standard improvement; the County will not maintain any landscaping placed in the right-of-way. Staff can support waiver of development standards #3 but the applicant must execute and sign a License and Maintenance Agreement for any non-standard improvements within the right-of-way.

##### Waiver of Development Standards #4

Staff has no objection to the reduction in the throat depth for the Las Vegas Boulevard South commercial driveway. Since the site will have cross access with the existing commercial development to the north the additional commercial driveways should see equal use, further mitigating the potential impacts from the reduced throat depth.

##### Design Review #5

This design review represents the maximum grade difference along the boundary of this application. This information is based on preliminary data to set the worst case scenario. Staff will continue to evaluate the site through the technical studies required for this application. Approval of this application will not prevent staff from requiring an alternate design to meet Clark County Code, Title 30, or previous land use approval.

#### **Staff Recommendation**

Approval.

If this request is approved, the Board and/or Commission finds that the application is consistent with the standards and purpose enumerated in the Comprehensive Master Plan, Title 30, and/or the Nevada Revised Statutes.

#### **PRELIMINARY STAFF CONDITIONS:**

##### **Current Planning**

- Applicant is advised that the County is currently rewriting Title 30 and future land use applications, including applications for extensions of time, will be reviewed for conformance with the regulations in place at the time of application; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; and that the waivers of development standards and design reviews must commence within 2 years of approval date or they will expire.

**Public Works - Development Review**
