**BACKGROUND:**

On December 7, 2021, the Board of County Commissioners (Board) adopted a policy that allows Clark County (County) Real Property Management the authority to conduct Job Order Contracting in accordance with policy guidelines, Senate Bill 67 of the 2021 Nevada Legislature, and applicable Federal, State and Local codes and regulations.

The County elected to create the pilot program to gather data on the use of job order contracts for certain public works in Clark County as a means to assist in the procurement of construction services. Job Order Contracting (JOC) can play a vital role in county contracting. The JOC process is an alternative procurement method intended to augment the current procurement processes authorized by law for the maintenance, repair, alteration, demolition, renovation, remediation, or minor construction of a public work for the County.

Each quarter, the County will provide a written report to the Board summarizing the work that has been initiated and completed within the pilot program, with a final presentation of the annual report occurring in April of each year.

This item was presented to the County Long Range Planning Committee on June 28, 2022.
