**PROPOSED LAND USE PLAN:**

ENTERPRISE - MID-INTENSITY SUBURBAN NEIGHBORHOOD (UP TO 8 DU/AC)

**BACKGROUND:**

**Project Description**

General Summary

- Site Address: N/A
- Site Acreage: 7.04
- Existing Land Use: Undeveloped

Applicant's Justification

The applicant states that the proposed Mid-Intensity Suburban Neighborhood (MN) land use category is compatible with the surrounding properties directly to the east and south. Additionally, the request provides a buffer between the properties to the south and to the north. The proposed land use category change will not have a detrimental effect on the surrounding public facilities, infrastructure, and services. Surrounding developments have brought the required facilities directly adjacent to the site including sewer, water, power, cable, etc.

### STANDARDS FOR ADOPTION:

The applicant shall demonstrate the proposed request is consistent with the Master Plan and is in compliance with Title 30.

### Analysis

#### Comprehensive Planning

The applicant shall establish the request is consistent with the overall intent of the Master Plan by demonstrating the proposed amendment 1) is based on changed conditions or further studies; 2) is compatible with the surrounding area; 3) will not have a negative effect on adjacent properties or on transportation services and facilities; 4) will have a minimal effect on service provision or is compatible with existing and planned service provision and future development of the area; 5) will not cause a detriment to the public health, safety, and general welfare of the people of Clark County; and 6) adherence to the current goals and policies of the Master Plan would result in a situation neither intended by nor in keeping with other core values, goals, and policies.

The applicant requests a change from Low-Intensity Suburban Neighborhood (LN) to Mid-Intensity Suburban Neighborhood (MN). Intended primary land uses in the proposed Mid-Intensity Suburban Neighborhood (MN) land use category include single-family attached and detached, and duplexes. Supporting land uses include accessory dwelling units and neighborhood-serving public facilities, such as parks, trails, open space, places of assembly, schools, libraries, and other complementary uses.

The proposed Mid-Intensity Suburban Neighborhood (MN) land use category on the site is compatible with the surrounding area. The abutting single-family residential subdivision to the east is planned for Low-Intensity Suburban Neighborhood (LN) uses but a nonconforming zone change (Nzc-0600-17) was approved for R-2 zoning (RS3.3 equivalent) which is conforming to the proposed Mid-Intensity Suburban Neighborhood (MN) land use category. A similar subdivision located approximately 700 feet to the northwest that is also planned for Low-Intensity Suburban Neighborhood (LN) uses was also approved for R-2 zoning (RS3.3 equivalent) through a nonconforming zone change (Nzc-20-0524). The proposed Mid-Intensity Suburban Neighborhood (MN) land use category will also provide an appropriate transition from the more intense mixed-use development to the south and the RS20 (NPO-RNP) zoned single-family residential properties to the north. Agate Avenue will also provide a buffer and separation from the Ranch Estate Neighborhood (RN) land use category and RS20 (NPO-RNP) zoned properties to the north. Although there is a single-family residence zoned RS20 (NPO-RNP) on the adjacent property to the west, that property is planned for Neighborhood Commercial uses. For these reasons, staff finds the request for the Mid-Intensity Suburban Neighborhood (MN) land use category is appropriate for this location.

### **Staff Recommendation**

Adopt and direct the Chair to sign a resolution adopting the amendment. This item has been forwarded to the Board of County Commissioners for final action.

If this request is adopted, the Board and/or Commission finds that the application is consistent with the standards and purpose enumerated in the Master Plan, Title 30, and/or the Nevada Revised Statutes.
