STANDARDS FOR APPROVAL:

The applicant shall demonstrate the proposed request is consistent with the Master Plan and is in compliance with Title 30.

Analysis

Comprehensive Planning

In addition to the standards for approval, the applicant must demonstrate the zoning district is compatible with the surrounding area. Staff cannot support the request for RS2 zoning on the site. The site is much more conducive for a higher density project. The site is located along a state

highway (Boulder Highway) with high frequency bus transit (Boulder Highway Express – BHX) and access to Bus Route 202 along Harmon Avenue. Policy 1.1.2 of the Master Plan encourages concentrating higher-density housing in areas with access to existing or planned high-frequency transit, major employment centers, existing infrastructure, and other services. Additionally, adjacent properties to the east are zoned RM32 which allows up to 32 dwelling units per acre (du/ac) and the adjacent properties to the southeast are zoned RM18 which allows up to 18 du/ac. Furthermore, properties to the northwest and southwest are planned for Entertainment Mixed-Use which allows densities greater than 18 du/ac. For these reasons, staff finds the request for RS2 zoning is not appropriate for this location.
