Recognition
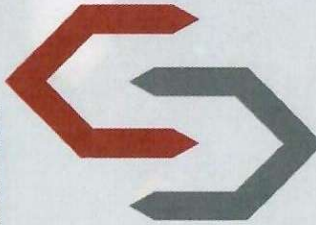

UNLV Cyber Clinic - Growing with Clark County

Collaborating with A-TECH's Cybersecurity Club

One of the Clinic's first clients - a Clark County business

Hosting California Congressman Ro Khanr

Student Testimonials

"

Through the Cyber Clinic, I've been able to form meaningful relationships, participate in enriching professional events, and most importantly, find ways to give back to the community. These opportunities have not only helped shape my growth but have solidified my passion for cybersecurity.
-Hendry Lai

When I first joined Cyber Clinic I just wanted some experience that I could put down on my resume that would help me land a job. After such a short time in the clinic I've been pushed to achieve things that I did not know I was capable of doing, both academically and personally. I'm most proud to say after joining the Cyber Clinic I've felt the impact of having a true support foundation for the first time in my life and I couldn't be more grateful.
-Habtamu Fedil

The Cyber Clinic gave me the foundation and tools to be able to step into the world of cybersecurity with confidence. To say that this organization has helped impact my cybersecurity career is an understatement, it separated me from others by showing employers that cybersecurity was not just a career but a passion.
-Joe Castro
