BACKGROUND:

Project Description

General Summary

- Site Address: N/A
- Site Acreage: 2.91

Applicant’s Justification

The applicant states the proposed Business Employment (BE) land use category on the site would be compatible with the surrounding area since there are a number of industrial warehouse developments in the area. Furthermore, Clark County Department of Aviation owned parcels to the north would likely become industrial zoned parcels once auctioned.

STANDARDS FOR ADOPTION:

The applicant shall demonstrate the proposed request is consistent with the Master Plan and is in compliance with Title 30.

Analysis

Comprehensive Planning

The applicant shall establish the request is consistent with the overall intent of the Master Plan by demonstrating the proposed amendment 1) is based on changed conditions or further studies; 2) is compatible with the surrounding area; 3) will not have a negative effect on adjacent properties or on transportation services and facilities; 4) will have a minimal effect on service provision or is compatible with existing and planned service provision and future development of the area; 5) will not cause a detriment to the public health, safety, and general welfare of the people of Clark County; and 6) adherence to the current goals and policies of the Master Plan would result in a situation neither intended by nor in keeping with other core values, goals, and policies.

The applicant requests a change from Neighborhood Commercial (NC) to Business Employment (BE). Intended primary land uses in the proposed Business Employment (BE) land use category include office, distribution centers, warehouse/flex space, technology, and light-industry. Supporting land uses include small-scale commercial services, such as restaurants, athletic clubs, service-commercial, and other similar uses.

The request for the Business Employment (BE) land use category on the site is compatible with the surrounding area. The area has been transitioning to industrial uses where a number of office/warehouse developments exist in the area. The adjacent properties to the north are already

planned for Business Employment (BE) uses. Although the abutting properties to the east are planned for Neighborhood Commercial (NC) uses, the properties are zoned IP which is conforming to the Business Employment (BE) land use category. Although the adjacent property to the west is zoned RS20, the property is not being used for residential purposes but as a place of worship. The abutting property to the south is a cemetery and will not be adversely impacted. The site is located near Harry Reid International Airport, and therefore, the request complies with Policy 5.5.1 of the Master Plan which promotes designating and supporting the development of industrial and employment uses in areas that are proximate to major air, rail and highway facilities. For these reasons, staff finds the request for the Business Employment (BE) land use category is appropriate for this location.

Staff Recommendation

Adopt and direct the Chair to sign a resolution adopting the amendment. This item has been forwarded to the Board of County Commissioners for final action.

If this request is adopted, the Board and/or Commission finds that the application is consistent with the standards and purpose enumerated in the Master Plan, Title 30, and/or the Nevada Revised Statutes.
