Letter of Interest, Boulder City Library Board of Trustees position

I ask that you consider me for the open position on the Boulder City Library Board of Trustees. I love the Boulder City Library and want to help it serve our entire community in practical and creative ways now and into the future.

I have been a resident of Boulder City for over ten years, since September 2014, though I visited annually for several years prior to that. My best friend was head of Adult Services for many years, and through her I came to appreciate and value the unique position our library holds in our community and its relationship with LVCCLD. I have a great deal of respect for the challenges that our librarians face and have been impressed with their commitment to providing quality service to their patrons.

Throughout my life I have been a voracious reader and frequent patron of my local libraries. We moved around a great deal when I was growing up and the comfort of being able to access the library helped provide stability. As an adult, the access to non-book materials for loan greatly enhanced my appreciation of libraries. When I became disabled, having access to online resources via the library was a lifeline.

In the years that I have lived here I have attended and participated in several library programs, from crafts to cooking. I’ve enjoyed the experiences immensely and frequently mention the programs to my friends and family to encourage them to check out their own libraries for similar offerings.

I attend pottery classes at the Art Center and I frequently recommend library programs and services to my classmates & instructor. We are all excited to get to showcase some of our work in the Library in May. I’ve taken to talking up the library in pretty much every setting I find myself in. Including, now, on the Boulder City subreddit.

I feel strongly that our library can help make Boulder City not just a tourist town, but a place that residents can thrive in. The meeting rooms, movies, programs, wide variety of lending materials and maker space machines are incredibly beneficial to our community. It is my hope that we can get the public to support funding to finish out the library construction so that we can best serve our patrons well into the future.

Boulder City is my home and I want to do what I can to help my home be welcoming and supportive for all of our people. I feel that being on the Board of Trustees would allow me to give back to the community that has been supportive and welcoming to me.
