Project Description

General Summary

- Site Address: N/A
- Site Acreage: 2.43
- Project Type: Single-family residential subdivision
- Number of Lots: 12
- Density (du/ac): 4.93
- Minimum/Maximum Lot Size (square feet): 5,640/8,899

Project Description

The map depicts a proposed 12 lot single-family subdivision consisting of all lots facing internally toward an east to west oriented private street. Access to the subdivision is via a proposed driveway along the east property line adjacent to Miller Lane. The private street includes roll curbs on both sides and a sidewalk along the south side. The street terminates in a hammerhead turnaround at the west end of the subdivision.

STANDARDS FOR APPROVAL:

The applicant shall demonstrate that the proposed request is consistent with the Master Plan and is in compliance with Title 30.

Analysis

Comprehensive Planning

The layout of the subdivision is orderly, with lots arranged on both sides of the internal streets. The lots take access only from internal and external local public streets, and no double-frontage lots are proposed, as common lots are used to separate the subdivision from the perimeter streets. The lot sizes meet the minimum requirements of the RS5.2 zoning district. However, staff finds that the applicant did not provide a compelling justification for terminating the internal street as a hammerhead rather than a cul-de-sac and therefore did not satisfy the requirements of Title 30. Staff finds that the hammerhead design represents a self-imposed hardship. Staff does not support the companion plan amendment, zone change, or waivers of development standards; therefore, staff cannot support this request.

Staff Recommendation

Denial. This item has been forwarded to the Board of County Commissioners for final action.

If this request is approved, the Board and/or Commission finds that the application is consistent with the standards and purpose enumerated in the Master Plan, Title 30, and/or the Nevada Revised Statutes.
