Analysis

Comprehensive Planning

In addition to the standards for approval, the applicant must demonstrate the zoning district is compatible with the surrounding area. The request for RM18 zoning is compatible with the surrounding area. RM18 zoning will allow for a buffer and transition between Interstate 215 to the west and the existing RS5.2 zoned single-family residential developments to the east. The site is also located on a collector street (Robindale Road) which will be able to accommodate the increased traffic volumes resulting from the proposed density. The request complies with Policy 1.4.4 of the Master Plan which encourages infill development and redevelopment in established neighborhoods while promoting compatibility with the scale and intensity of the surrounding area. For these reasons, staff finds the request for RM18 zoning is appropriate for this location.
