VII. General Business

1. Review FY2022 budget request(s) and take public input regarding suggestions for FY2024 budget request(s) (for possible action)

No vote was made

Discussion as follows:

Parks and Recreation

Item 1 - is in predesign

Item 2 - the bleachers have been brought to ADA standard. Town board members have mixed feelings about the cost of covering the arena.

Item 3 - Lois is curious if Green Valley Grocery can assist with this cost since they are rebuilding across the street and upgrading their facilities.

Notes: Sewer line is being ran from the high school to the edge of Heyer and Frehner. Joe mentioned that there are elevation issues so that is something to consider. Brian - has concern about funding septic since there are current efforts to connect to sewer.

Description for Clarification: this item is to request a commercial septic dumping station to serve RV's/visitors.

Item 5 - a splash pad is included in the ball field upgrade

Other

Item 2 - a go cart racing track is coming soon as Jeff Hobbs has acquired land

Brian asked about the bleacher repairs and damage to the covered stalls. John Stastny - a total of 30 pods are going to be replaced and the project will take approx. 125 days to completion. The same contractors will reinstall the bleachers which will include the addition of a power box on the west end of the bleachers. The pad for the plaza stage is going to be redone with an addition of ground anchors. Concrete will also be installed on the south walkway leading into the midway.

VIII. Public Comment

Lois discussed the flooding issues and the large need for flood control for the community. Narita Espinosa - on behalf of Cappalappa, discussed the drainage issues at Bonneli Ave and Moapa Valley Blvd. They had to dispose of two dumpsters full of items due to water damage which includes office furniture. They are asking for the community's assistance. Brian -mentioned that the detention basin will be installed in the next couple of years and the approval to rebuild some of the dams that were previously ordered removed by the state. Wil - this issue has remained a priority for Marilyn. She is working with multiple entities on an organized effort. These projects are handled by the Regional Flood Control District. Lois thanked their local first responders for serving the community.

IX. Next Meeting Date

The next regular meeting will be October 12, 2022

X. Adjournment

The meeting was adjourned at 7:25 p.m.
