NOTICE IS HEREBY GIVEN of a public comment period for the proposed *Second Maintenance Plan for the 1987 24-hour PM₁₀ National Ambient Air Quality Standard (NAAQS): Las Vegas Valley Maintenance Area, Clark County, Nevada*. The Las Vegas Valley (Hydrographic Area (HA) 212) nonattainment area was redesignated to attainment for the 1987 PM₁₀ NAAQS on October 6, 2014 (effective November 5, 2014), following U.S. Environmental Protection Agency approval of the *Redesignation Request and Maintenance Plan for Particulate Matter*. This document serves as the second 10-year maintenance plan for the PM₁₀ maintenance area and demonstrates how the area will remain in attainment of the standard through 2035. If adopted, the plan will be submitted to the state of Nevada and EPA as a revision to the Nevada State Implementation Plan.

NOTICE IS FURTHER GIVEN that a 30-day public comment period will begin on May 21, 2025, and end at 4:00 PM on June 20, 2025. The public may review and provide written comments on the proposed plan during this period.
