**BACKGROUND:**

**Project Description**

**General Summary**

- Site Address: N/A
- Site Acreage: 2.5
- Existing Land Use: Undeveloped

Applicant’s Justification

The applicant states the request for Low-Intensity Suburban Neighborhood (LN) is appropriate for the site since the adjacent properties to the north are also planned LN and the adjacent property to the east, although zoned R-E (RNP-I), is a non-residential place of worship. The request also addresses the need for in-fill development in Clark County and reduces urban sprawl.

### STANDARDS FOR ADOPTION:

### Analysis

#### Comprehensive Planning

The applicant shall establish the request is consistent with the overall intent of the Master Plan by demonstrating the proposed amendment: 1) is based on changed conditions or further studies; 2) is compatible with the surrounding area; 3) will not have a negative effect on adjacent properties or on transportation services and facilities; 4) will have a minimal effect on service provision or is compatible with existing and planned service provision and future development of the area; 5) will not cause a detriment to the public health, safety, and general welfare of the people of Clark County; and 6) adherence to the current goals and policies of the Master Plan would result in a situation neither intended by nor in keeping with other core values, goals, and policies.

The applicant requests a change from Ranch Estate Neighborhood (RN) to Low-Intensity Suburban Neighborhood (LN). Intended primary land uses in the proposed LN land use category include single family detached homes. Supporting land uses include accessory dwelling units and neighborhood serving public facilities, such as parks, trails, open space, places of assembly, schools, libraries, and other complementary uses.

The request for Low-Intensity Suburban Neighborhood (LN) is compatible with the surrounding area. The adjacent properties to the north are planned LN along with the properties to the southeast. Although the 2 parcels to the east and northeast planned for Ranch Estate Neighborhood (RN) would be cut-off from the other RN planned properties to the west and south by a change to LN on this site, those 2 parcels are not viable as RN planned or R-E (RNP-I) zoned properties. The parcel to the east is developed as a place of worship, and therefore, is not characterized as a residential property. The parcel to the northeast is adjacent to LN planned and

R-D zoned properties to the north and west, and places of worship to the east and south; and therefore, already is an isolated RN planned parcel that is located adjacent to an arterial street (Bermuda Road). Furthermore, public rights-of-way (Fairfield Avenue and Frias Avenue) will separate the proposed LN on the subject site from the existing RN planned properties to the west and south. The request complies with Policy 1.4.4 which encourages in-fill development and redevelopment in established neighborhoods while promoting compatibility with the scale and intensity of the surrounding area. For these reasons, staff finds the request for the LN land use category is appropriate for this location.

### **Staff Recommendation**

Adopt and direct the Chair to sign a resolution adopting the amendment. This item will be forwarded to the Board of County Commissioners' meeting for final action on **January 22, 2025** at 9:00 a.m., unless otherwise announced.

If this request is adopted, the Board and/or Commission finds that the application is consistent with the standards and purpose enumerated in the Master Plan, Title 30, and/or the Nevada Revised Statutes.
