LAND USE PLAN:

SPRING VALLEY - MID-INTENSITY SUBURBAN NEIGHBORHOOD (UP TO 8 DU/AC)

BACKGROUND:

Project Description

General Summary

- Site Address: 5076 Thunder River Circle
- Site Acreage: 0.13
- Project Type: Daycare
- Square Feet: 1,130 (daycare area)/3,678 (overall residence)
- Parking Required/Provided: 3/2

Site Plan & Request

The plan depicts an existing attached single-family residence that is used as a daycare within an existing residential subdivision. Access to the property is from Thunder River Circle to the west. The daycare operates primarily on the first floor of the home and is considered a commercial use since more than 6 children will be supervised at a time. The plan shows 2 parking spaces located on the driveway and 3 parking spaces are required. A shade canopy in the rear yard is being proposed as an additional play area with artificial turf. Waivers for residential adjacency standards, buffering and screening, parking, and driveway geometrics are also part of this request. No other changes are proposed to the existing site.

Landscaping

There is existing landscaping throughout the parcel, though no new landscaping is proposed. The applicant is requesting waivers of development standards for the required landscape buffers along the north, east, and south property lines.

Elevations

The photos provided depict a 2 story, attached single-family residence with a flat, variable roofline. The residence features stucco that is painted in light desert tones.

Floor Plan

The plan and photographs depict the primary area of the first floor reserved for the daycare, consisting of 1,130 square feet. The daycare area inside the home shows a sleeping area, tables with chairs, play area, diaper changing area, and a restroom designated for children.

Applicant's Justification

The applicant is proposing to operate a daycare on the first floor of an existing residence for up to 12 children (ranging from 1 month to 13 years of age). Hours of operation are Monday through Friday, 6:00 a.m. to 8:00 p.m., with Saturday and Sunday by appointments only. The program offers structured daily routines, play-based learning, academic support, creative

enrichment activities, nutritious meals and snacks, indoor and outdoor supervised play, and age-appropriate educational experiences designed to encourage confidence, independence, and positive social development.

STANDARDS FOR APPROVAL:

The applicant shall demonstrate that the proposed request is consistent with the Master Plan and is in compliance with Title 30.

Analysis

Comprehensive Planning

Use Permit

A special use permit is considered on a case by case basis in consideration of the standards for approval. Additionally, the use shall not result in a substantial or undue adverse effect on adjacent properties, character of the neighborhood, traffic conditions, parking, public improvements, public sites or right-of-way, or other matters affecting the public health, safety, and general welfare; and will be adequately served by public improvements, facilities, and services, and will not impose an undue burden.

Waivers of Development Standards

The applicant shall have the burden of proof to establish that the proposed request is appropriate for its proposed location by showing the following: 1) the use(s) of the area adjacent to the subject property will not be affected in a substantially adverse manner; 2) the proposal will not materially affect the health and safety of persons residing in, working in, or visiting the immediate vicinity, and will not be materially detrimental to the public welfare; and 3) the proposal will be adequately served by, and will not create an undue burden on, any public improvements, facilities, or services.

Use Permit & Waivers of Development Standards #1 through #5

Staff finds that a family daycare with up to 6 children is an appropriate use when in conjunction with a residence, which Title 30 allows. The proposed daycare for up to 12 children may not be compatible with the surrounding residential area. Staff finds that the site is located internal to the subdivision and the additional traffic could impact the neighborhood. Therefore, staff cannot support the use permit or the waivers of development standards #1 through #5.

Public Works - Development Review

Waiver of Development Standards #6

With the proposed use, customers visiting the site will increase the amount of traffic throughout the neighborhood, causing vehicles to queue in the public right-of-way due to no on-site space for pick-up or drop-off. Additionally, the 48 foot residential street is not wide enough to accommodate the increased customer traffic when vehicles are parked along the street. Commercial curb return driveways help mitigate traffic by allowing a smooth transition from the road into the commercial site and a parking lot would prevent parking along the adjacent streets. Therefore, staff cannot support this request.

Staff Recommendation

Denial.

If this request is approved, the Board and/or Commission finds that the application is consistent with the standards and purpose enumerated in the Master Plan, Title 30, and/or the Nevada Revised Statutes.

PRELIMINARY STAFF CONDITIONS:

Comprehensive Planning

If approved:

- Applicant is advised within 2 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- No comment.

Fire Prevention Bureau

- No comment.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that the property is already connected to the CCWRD sewer system; and if any existing plumbing fixtures are modified in the future, then additional capacity and connection fees will need to be addressed.

TAB/CAC: Spring Valley - denial.
