**BACKGROUND:**

**Project Description**

General Summary

- Site Address: 3085 & 3200 W. Pebble Road
- Site Acreage: 4.84
- Existing Land Use: Undeveloped

Applicant's Justification

The applicant states that the request for Mid-Intensity Suburban Neighborhood (MN) is appropriate for the site since it is located between Dean Martin Drive and I-15, two extremely heavily trafficked corridors. A slight increase in allowable density to MN is appropriate as the area is changing. By way of example, the applicant cites a nonconforming zone change (equivalent to RS3.3) that was approved in 2022, just to the south of the subject site. The request also addresses the need for in-fill development in Clark County and reduces urban sprawl.

**Prior Land Use Requests**

Application Number	Request	Action	Date
VAC-40-87	Vacated and abandoned the southern 20 feet of Pebble Road - recorded	Approved by BCC	August 1987

### Surrounding Land Use

### STANDARDS FOR ADOPTION:

The applicant shall demonstrate the proposed request is consistent with the Master Plan and is in compliance with Title 30.

### Analysis

#### Comprehensive Planning

The applicant shall establish the request is consistent with the overall intent of the Master Plan by demonstrating the proposed amendment 1) is based on changed conditions or further studies; 2) is compatible with the surrounding area; 3) will not have a negative effect on adjacent properties or on transportation services and facilities; 4) will have a minimal effect on service provision or is compatible with existing and planned service provision and future development of the area; 5) will not cause a detriment to the public health, safety, and general welfare of the people of Clark County; and 6) adherence to the current goals and policies of the Master Plan would result in a situation neither intended by nor in keeping with other core values, goals, and policies.

The applicant requests a change from Low-Intensity Suburban Neighborhood (LN) to Mid-Intensity Suburban Neighborhood (MN). Intended primary land uses in the proposed Mid-

Intensity Suburban Neighborhood land use category include single family attached and detached, and duplexes. Supporting land uses include accessory dwelling units and neighborhood serving public facilities, such as parks, trails, open space, places of assembly, schools, libraries, and other complementary uses.

Staff finds the request for the Mid-Intensity Suburban Neighborhood land use category appropriate for this location. Properties along the interstate have seen a transition from lower density residential uses to higher density residential and low intensity industrial developments. Former R-E (now RS20) zoned parcels to the south have recently been approved through nonconforming zone changes to RS3.3 (formerly R-2), and farther to the north there are two site that have been rezoned to IP (formerly M-D). Furthermore, staff finds that the proposed project will provide a buffer between the high traffic volume of I-15 and the rural density housing on the west side of Dean Martin Drive. The request complies with Policy 6.1.4 of the Master Plan which encourages compact and efficient development patterns within the disposal boundary to maximize the use of available infrastructure, land, and other resources while considering community compatibility. For these reasons, staff finds the request for the Mid-Intensity Suburban Neighborhood category appropriate.

#### **Staff Recommendation**

Adopt and direct the Chair to sign a resolution adopting the amendment. This item will be forwarded to the Board of County Commissioners' meeting for final action on December 18, 2024 at 9:00 a.m., unless otherwise announced.

If this request is adopted, the Board and/or Commission finds that the application is consistent with the standards and purpose enumerated in the Master Plan, Title 30, and/or the Nevada Revised Statutes.
