

## APPLICANT AND DEPARTMENT INFORMATION

First Name Kevin		Last Name Lunkwitz		Department Tax ID# <b>88-600028</b>	
Organization/Department Clark County Fire Department		Email Address Lunkwitz@clarkcountynv.gov			
Alternate Name Gemma Fraser			Alternate Email Gemma.Fraser@clarkcountynv.gov		
Address Line 1 575 E Flamingo RD			City Las Vegas		
Address Line 2			State Nevada		Zip 89119
Organization Phone Number 702-455-2655	Alternate Contact Number 702-533-8347	Communities Served Sandy Valley, Indian Springs, Creech AFB	Population 6270	Number of Runs Per Year 510	

Local Approval Pre-qualifications will be detailed in the digital grant application.

## APPLICATION REQUEST INFORMATION

The type of grant you are requesting: (Equipment Donation/Prevention Education Items or Scholarships/Continuing Education) Equipment Donation		What is the EXACT cost of the equipment? <b>\$32,943.06</b>	
Variances in the amounts requested will be the responsibility of the grant recipient to pay directly.			
What Equipment are you requesting for your department? <b>LUCAS - Chest Compression System and Accessories</b>		Briefly explain how the equipment will benefit your community and your department.  Equipment will improve our capacity to provide life saving cardiac care to members of the public and the department.	
This would have a direct impact on more than <u>7,000+</u> children in our community.		This would have a direct impact on more than <u>12,000+</u> senior citizens in our community.	
How do you plan to use the funds requested? (for scholarships/continued education requests only)  <b>N/A</b>			
What is the amount of funding you are requesting? (for scholarships/continued education requests only)  <b>N/A</b>		Please provide a detailed description of how the funding will assist your department. (for scholarships/continued education requests only)  <b>N/A</b>	

## COMMUNITY IMPACT

Have you successfully reached out to the city for funds to purchase the equipment?  <b>Yes</b>		Was there a particular instance where a life would have been positively impacted if you would have had the equipment available?  Cardiac events are the leading cause of death in the US per the CDC, 356,000 people experienced out-of-hospital cardiac arrest in 2023. These Chest Compression System would assist in better service in the Indian Springs, and Creech AFB, and Sandy Valley communities. Proximity to a hospital is a minimum of 30 minutes from these communities. Prolonged duration effective chest compressions are incredibly difficult for one person to sustain and ultimately provide a key component to providing adequate perfusion for a chance at survival. These devices provide the ultimate ability to provide perfusion and allow emergency personnel abilities to perform other life saving measures.	
What positive effects will the equipment specifically have? Please use statistics when possible.  These two Chest Compression System in service in the Rural Division in Indian Springs and Sandy Valley.			

## FIREHOUSE SUBS RELATIONSHIP

Name of franchisee of the Firehouse Subs nearest you. <b>Rainbow Pavilion #651</b>		Address of Firehouse Subs location nearest you. 6070 S Rainbow Blvd., Ste 1, Las Vegas, NV 89118		How far is this location from your department? <u>3</u> Miles	
How did you hear about our organization?  <b>Fire House Subs Area Manager</b>			Has your department received funding from Firehouse Subs Public Safety Foundation in the past? <b>Yes</b>		

If approved for funding, we may host a press event at the Firehouse Subs restaurant nearest you. We ask that all PR be coordinated by our Foundation. We will work in conjunction with your PR team as well as the PIO of your department.

PIO Email: jwyatt@ClarkCountyNV.gov AND ofoster@clarkcountynv.gov	
PIO (Public Information Officer) Name: Jennifer Wyatt, Deputy Fire Chief / Kelly Foster, Executive Assistant	PIO Phone Number: 702-455-7370

Please note, there are different categories of funding within the grant application, therefore the printed PDF document may contain some open blank fields.

Please do not contact the Foundation if fields appear blank.

The Clark County Fire Department (CCFD) is the largest and busiest fire department in the State of Nevada. CCFD is a combination fire department having both paid career and volunteer personnel. In 2023, CCFD responded to 146,626 calls for service with EMS calls accounting for 114,011 of those calls.

The CCFD is managed by a Command Staff comprised of a Fire Chief, Deputy Fire Chiefs who supervise divisions within the department, including Operations/Training, Emergency Medical Services, Emergency Management, Administration and Finance, Logistics, and Homeland Security, as well as Assistant Fire Chiefs who work under a Deputy Fire Chief to manage the larger divisions, including the Rural, Arson, and the Emergency Medical Services Divisions. The department's day to day operations are managed by 16 Battalion Chiefs working a three platoon schedule in five battalions and one Battalion Chief assigned to the Training Division.

Clark County is comprised of approximately 8,012 square miles, but only about 500 square miles make up the heavily populated Las Vegas Valley and this area of the county is protected by 30 Clark County Fire Department career fire stations. The remaining 7,500 square miles of the county are serviced by the Rural Division and the 10 rural/volunteer stations. The ten volunteer stations include Bunkerville, Searchlight, Goodsprings, Mountain Springs, Blue Diamond, Cold Creek, Trout Canyon, Indian Springs, Sandy Valley and Cal-Nev-Ari. These stations serve permanent residents ranging from 100 to almost 3,000 in population. The geographic make up of these rural areas range from mountainous topography, where forest and wildfires are a constant danger, to wide spanning desert areas that are desolate and challenging to traverse. The volunteer members provide EMS and Fire Rescue Services to most parts of the unincorporated areas of Clark County.

The requested equipment will benefit the towns of Indian Springs, Cold Creek, Creech Air Force Base, Sandy Valley, and Goodsprings. It will assist in the response along the I-95 Corridor by improving our capacity to provide lifesaving cardiac care to members of the public and the members of the fire department. The funds would be used to purchase two Lucas Chest Compression Systems with necessary accessories to maintain the usability 24 hours a day 7 days a week. All volunteer firefighters are required to maintain a CPR certification although many of our members hold advanced certifications beyond that scope to include paramedic certifications.

Statistically, nearly 80% of CCFD calls are of the EMS variety in which life saving care is provided to stabilize and/or treat patients. Volunteer firefighters generally arrive on scene of EMS calls with an anticipated down time of more than 20-30 minutes until a private ambulance arrives with transport capabilities. Furthermore, the areas identified for the grant (Indian Springs, Sandy Valley, etc.) have a minimum 30-minute transport time to the closest hospital. Minimal staffing along with expanded durational service times create difficulty managing life saving skills with traditional manual methods.

Cardiopulmonary Resuscitation (CPR) is inherently vital to increasing survival rates among those suffering a catastrophic cardiac event. Manual chest compressions isolate one member of the EMS responders to one specific skill. Maintaining adequate chest compressions along with allowing an EMS provider the ability to continue other life saving measures is the goal for obtaining the Lucas Chest Compression System. The Clark County Fire Department Volunteer/Rural division would greatly benefit by acquiring the devices.
