**Project Description**

General Summary

- Site Address: 2674 & 2754 N. Pecos Road
- Site Acreage: 1.75
- Existing Land Use: Undeveloped

Applicant’s Justification

The applicant states that due to the small size of the property and its location along a highly trafficked arterial street (Pecos Road), the current land use category of Mid-Intensity Suburban Neighborhood (MN) is no longer appropriate for the site. The site is more suitable for a higher density residential use, such as what the proposed Compact Neighborhood (CN) land use category allows. The request will stimulate reinvestment and revitalization in the area by allowing compatible, newer housing to the area at an attainable price. The proposed plan amendment will not result in any additional impacts on surrounding infrastructure not already contemplated in the area.

### Analysis

#### Comprehensive Planning

The applicant shall establish the request is consistent with the overall intent of the Master Plan by demonstrating the proposed amendment 1) is based on changed conditions or further studies; 2) is compatible with the surrounding area; 3) will not have a negative effect on adjacent properties or on transportation services and facilities; 4) will have a minimal effect on service provision or is compatible with existing and planned service provision and future development of the area; 5) will not cause a detriment to the public health, safety, and general welfare of the people of Clark County; and 6) adherence to the current goals and policies of the Master Plan would result in a situation neither intended by nor in keeping with other core values, goals, and policies.

The applicant requests a change from Mid-Intensity Suburban Neighborhood (MN) to Compact Neighborhood (CN). Intended primary land uses in the proposed Compact Neighborhood (CN) land use category include single-family attached and detached homes, duplexes, triplexes, fourplexes, and townhomes. Supporting land uses include accessory dwelling units, multi-family dwellings, and neighborhood-serving public facilities, such as parks, trails, open space, places of assembly, schools, libraries, and other complementary uses.

The request for the Compact Neighborhood (CN) land use category on the site is compatible with the surrounding area. Properties in the area with direct access to Pecos Road (an arterial street) have been transitioning to higher density residential and/or commercial uses. Although an RS20 zoned property is located on the adjacent property to the north, the home has been demolished and the property is currently being used for non-permitted outdoor storage. Given

the limited size of the subject property and its location on an arterial street, a higher density residential land use category is more appropriate for the site. The site has been undeveloped for over 15 years and has a history of Clark County Public Response Office reports of graffiti and vagrant camps on the property. The change to the Compact Neighborhood (CN) land use category may spur development with the increased density allowed, and therefore, eliminate some of the issues and nuisances plaguing the site and impacting the surrounding neighborhood. The request complies with Policy SM-1.1 of the Master Plan which encourages reinvestment and revitalization of older neighborhoods in Sunrise Manor that is compatible with existing development. For these reasons, staff finds the request for the Compact Neighborhood (CN) land use category is appropriate for this location.

### **Staff Recommendation**
