**STANDARDS FOR APPROVAL:**

The applicant shall demonstrate the proposed request is consistent with the Master Plan and is in compliance with Title 30.

**Analysis****Comprehensive Planning**

In addition to the standards for approval, the applicant must demonstrate the zoning district is compatible with the surrounding area. Staff finds that there has been a trend for parcels in the area to be reclassified to an RS3.3 zone for single family residential development, especially in the area to the south of Blue Diamond Road, west of Fort Apache Road, north of Gomer Road and to the east of Hualapai Way. This location represents the first reclassification of lands south of Gomer Road for RS3.3 development. The underlying planned land use is Mid-Intensity Suburban Neighborhood with up to 8 du/ac on the property surrounding this parcel. There has been no indication from public service providers that the project would have a substantial adverse effect on public facilities and services in the area. The project complies with Policy 6.1.4, which encourages compact development within the disposal boundary along with other applicable goals and policies. For these reasons, staff finds the request for the RS3.3 zone is appropriate for this location.

**Staff Recommendation**

Approval.

If this request is approved, the Board and/or Commission finds that the application is consistent with the standards and purpose enumerated in the Master Plan, Title 30, and/or the Nevada Revised Statutes.
