General Summary

- Site Acreage: 142.7
- Number of Lots: 575
- Minimum/Maximum Lot Size: 4,888 square feet/21,376 square feet
- Density: 4 du/ac
- Project Type: Single family residential

This application is for a gated single family residential development within a portion of Village A in the Coyote Springs Master Planned Community. The scope of this map will include 575 single family lots and 16 common area lots on 142.7 acres. A previous map (TM-22-500102) subdivided this area and surrounding areas into 8 larger builder lots. The density of the residential subdivision is 4 dwelling units per acre which includes the common areas. The lots range in size from 4,888 square feet to 21,376 square feet. The larger lots (generally 10,000 square feet) are shown on the southerly portion of the subdivision, while the smaller lots

(generally 5,000 square feet) are shown on the northerly portion of the subdivision. The internal streets are private and 47 feet in width, including a 4 foot wide sidewalk on both sides of the street. There are 2 points of access from Denali Summit Avenue to the north and Hometown Village Parkway to the east. There are a total of 16 common lots proposed throughout this subdivision with the largest being linear paseos which are centrally located in the development. The total open space that is provided for this development is approximately 9.6 acres. All other common areas are dispersed throughout the site and street frontages.
