BACKGROUND:

Project Description

General Summary

- Site Address: 4255 Paradise Road
- Site Acreage: 3.8
- Number of Units: 480
- Project Type: Long term/short term lodging
- Number of Stories: 6
- Building Height (feet): 75
- Square Feet: 434,422
- Parking Required/Provided: 480/337

Site Plan

The approved plans show a site currently being constructed as a hotel, which will be demolished to allow for the construction of the proposed facility. The plans depict a long term/short term lodging facility consisting of 480 units. The facility is in the central portion of the site with access from Paradise Road via 2 driveways, 1 on the northeast corner of the site and the other on the southeast corner. Parking for the facility is located along the north, south, and west sides of the building adjacent to the property lines and in a parking garage, which consists of the first floor of the building. The parking garage first floor is part of a podium for the base of the building. The remaining floors consisting of the units are in 2 towers, which are separated by an approximately 10 foot wide gap in an east/west orientation between the towers. Amenities for the residents include laundry facilities, pool, and a park area that is located along Paradise Road in front of the building.

Landscaping

The approved plans depict landscape areas along the north, south, and west property lines that are a minimum of 3 feet 8 inches in width, with landscape diamonds every 6 parking spaces. These landscape areas consist of combinations of trees, shrubs, and groundcover. The plan depicts a landscape area along Paradise Road that varies 10 feet to 15 feet in width. Portions of the sidewalk along Paradise Road are attached and portions are detached. A portion of this landscape area is within the right-of-way. Additional landscaping is in front (east side) of the building and within planters on the second level between the towers in landscape planters.

Elevations

The approved plans depict a building that is 6 stories with a maximum height of approximately 75 feet. The roofs are flat behind parapet walls with variations in height to break-up the roofline. The exterior of the building has a stucco finish painted in earth tone colors. The exterior consists of pop-outs and recesses to break-up the vertical and horizontal surfaces of the building. The units are accessed by public balconies that act as open hallways.

Floor Plans

The approved plans depict a facility that has a total area of 434,422 square feet divided between 6 stories. The first level of the building consists of a parking garage, leasing office, laundry facilities, electrical/mechanical areas, and storage areas. Levels 2 through 6 consist of the lodging units. The facility has 480 units with each unit having a kitchen.

Previous Conditions of Approval

Listed below are the approved conditions for UC-19-0824

Current Planning

- Certificate of Occupancy and/or business license shall not be issued without final zoning inspection.
- Applicant is advised that a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; and that this application must commence within 2 years of approval date, or it will expire.

Public Works - Development Review

- Drainage study and compliance;
- Traffic study and compliance;
- Southernmost driveway to be right in and right out only;
- Extend the median island on Paradise Road to the south portion of the commercial driveway of APN 162-22-104-004 to allow for full turn movements in and out of the site or coordinate with Public Works – Design Division for a cost participation for the median;
- If the applicant/owner elects a cost participation for the median, the applicant/owner shall install delineator posts and raised ceramic traffic markers with a minimum size of 8 inches to act as a temporary median, with the alternating spacing of the delineator posts and raised ceramic traffic markers to be no greater than 2.5 feet;
- Only 1 parking space shall be permitted to the south of the leasing office at the southern driveway, which shall be an ADA accessible parking space with double the standard length to allow vehicles to pull through the space without backing up;
- Execute a License and Maintenance Agreement for any non-standard improvements within the right-of-way.

Department of Aviation

- Applicant is required to file a valid FAA Form 7460-1, "Notice of Proposed Construction or Alteration" with the FAA, in accordance with 14 CFR Part 77, or submit to the Director of Aviation a "Property Owner's Shielding Determination Statement" and request written concurrence from the Department of Aviation;
- If applicant does not obtain written concurrence to a "Property Owner's Shielding Determination Statement," then applicant must also receive either a Permit from the Director of Aviation or a Variance from the Airport Hazard Areas Board of Adjustment (AHABA) prior to construction as required by Section 30.48 Part B of the Clark County Unified Development Code;

- No building permits should be issued until applicant provides evidence that a "Determination of No Hazard to Air Navigation" has been issued by the FAA or a "Property Owner's Shielding Determination Statement" has been issued by the Department of Aviation;
- Applicant must record a stand-alone noise disclosure form against the land, and provide a copy of the recorded document to the Department of Aviation;
- Applicant must provide a copy of the recorded noise disclosure form to future buyers/renters, separate from other escrow documents, and provide a copy of the document to the Department of Aviation;
- Applicant must provide a map to future buyers/renters, as part of the noise disclosure notice, that highlights the project location and associated flight tracks, provided by the Department of Aviation when property sales/leases commence;
- Incorporate an exterior to interior noise level reduction of 30 decibels into the building construction for the habitable space that exceeds 35 feet in height or 25 decibels into the building construction for the habitable space that is less than 35 feet in height.
- Applicant is advised that the FAA's determination is advisory in nature and does not guarantee that a Director's Permit or an AHABA Variance will be approved; that FAA's airspace determinations (the outcome of filing the FAA Form 7460-1) are dependent on petitions by any interested party and the height that will not present a hazard as determined by the FAA may change based on these comments; that the FAA's airspace determinations include expiration dates; that separate airspace determinations will be needed for construction cranes or other temporary equipment; that the Federal Aviation Administration will no longer approve remedial noise mitigation measures for incompatible development impacted by aircraft operations which was constructed after October 1, 1998; and that funds will not be available in the future should the residents wish to have their buildings purchased or soundproofed.

Building Department - Fire Prevention

- Applicant to show fire hydrant locations on-site and within 750 feet.
- Applicant is advised that fire/emergency access must comply with the Fire Code as amended.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that the property is already connected to the CCWRD sewer system; and that if any existing plumbing fixtures are modified in the future, then additional capacity and connection fees will need to be addressed.

Signage

Signage is not a part of this request.

Applicant's Justification

Actual development of the project was delayed due to coordinating design issues with the Public Works improvement project for Paradise Road, and permits have now been submitted, which the applicant believes are compatible with the Paradise Road plans. The applicant believes that the general circumstances of the area have not significantly changed since the original approval and that all elements of the original approval remain appropriate and compatible with surrounding development. Although the applicant has every intention of proceeding promptly with the

project, since permits have not been issued and theoretically something could delay approval again, the applicant requests two additional years to commence.

STANDARDS FOR APPROVAL:

The applicant shall demonstrate that the proposed request meets the goals and purposes of Title 30.

Analysis

Current Planning

Title 30 standards of approval on an extension of time application state that such an application may be denied or have additional conditions imposed if it is found that circumstances have substantially changed. A substantial change may include, without limitation, a change to the subject property, a change in the areas surrounding the subject property, or a change in the laws or policies affecting the subject property. Using the criteria set forth in Title 30, no substantial changes have occurred at the subject site since the original approval.

Staff can support this extension of time request as the applicant has submitted permits related to the construction of the property.

Public Works - Development Review

There have been no significant changes in this area. Staff has no objection to this extension of time.

Staff Recommendation

Approval.

If this request is approved, the Board and/or Commission finds that the application is consistent with the standards and purpose enumerated in the Master Plan, Title 30, and/or the Nevada Revised Statutes.
