Description:	N/A		
Additional Comments:	N/A		

**BACKGROUND:**

As a requirement of 40 CFR Part 58.10, Clark County must adopt and submit an annual monitoring network plan to EPA by July 1 of each year. The attached 2024 Annual Monitoring Network Plan reports the status of the Clark County air monitoring network in 2023. It also describes changes planned for 2024–2025, and the ways in which network data continues to be disseminated to the public in a timely manner.

The Department of Environment and Sustainability provided a 30-day period for public comment on the plan (May 9 to June 8, 2024). The comment period was advertised on the department website and in the "Las Vegas Review-Journal." No public comments were received.

Staff requests that the Board of County Commissioners approve and adopt the 2024 Annual Monitoring Network Plan and authorize its submission to EPA.
