WAIVERS OF DEVELOPMENT STANDARDS:

1. Reduce the back of curb radius to 15 feet where 20 feet is required per Section 30.04.08 and Uniform Standard Drawing 201 (a 25% reduction).
2. Allow an inverted crown on private streets where an “R” curb or “Roll” curb is required per Uniform Standard Drawing 210.S1.

LAND USE PLAN:

SUNRISE MANOR - COMPACT NEIGHBORHOOD (UP TO 18 DU/AC)

BACKGROUND:

Project Description

General Summary

- Site Address: N/A
- Site Acreage: 32.36
- Project Type: Single-family detached development
- Number of Lots: 337 (single-family lots)/55 (common element)
- Density (du/ac): 10.34

History & Site Plan

PA-25-700017 and ZC-25-0220 were approved on the site on June 2025. The approved zone change reclassified the site to RM18 zoning but there was not a companion application associated with a proposed design for future development.

Currently with this application, there is a companion project for a proposed planned unit development for 337 single-family detached residential lots. Access is provided along the south property line adjacent to Vegas Valley Drive. All of the proposed lots face internally toward the proposed subdivision. The applicant is requesting to reduce the back of curb radii to 15 feet where 20 is required for the internal private street configuration. Lastly, the applicant is

requesting to allow an inverted crown on the proposed private street configuration within the subdivision.

Applicant's Justification

The applicant states these modifications are requested due to site constraints and the requested waivers for reduced radius return will still accommodate both passenger and emergency vehicles while the request for an inverted crown will allow the applicant to meet grading without adding steps or deepened footings to the buildings, and the modified sidewalk ramps

STANDARDS FOR APPROVAL:

The applicant shall demonstrate that the proposed request is consistent with the Master Plan and is in compliance with Title 30.

Analysis**Comprehensive Planning**Waivers of Development Standards

The applicant shall have the burden of proof to establish that the proposed request is appropriate for its proposed location by showing the following: 1) the use(s) of the area adjacent to the subject property will not be affected in a substantially adverse manner; 2) the proposal will not materially affect the health and safety of persons residing in, working in, or visiting the immediate vicinity, and will not be materially detrimental to the public welfare; and 3) the proposal will be adequately served by, and will not create an undue burden on, any public improvements, facilities, or services.

Public Works - Development ReviewWaiver of Development Standards #1

Staff has no objection to the request to reduce the back of curb radius. The reduction applies only to internal streets of the development that are expected to experience lower traffic volumes, which helps minimize any potential impacts.

Waiver of Development Standards #2

Staff cannot support the request to allow an inverted crown and cross slope street section, as these self imposed hardships can be addressed through a site redesign. The subject parcel is an undeveloped, raw piece of land, and there is no demonstrated reason the applicant cannot meet the minimum standards.

Staff Recommendation

Approval of waiver of development standards #1; denial of waiver of development standards #2.

If this request is approved, the Board and/or Commission finds that the application is consistent with the standards and purpose enumerated in the Master Plan, Title 30, and/or the Nevada Revised Statutes.

PRELIMINARY STAFF CONDITIONS:

Comprehensive Planning

If approved:

- Applicant is advised within 4 years from the approval date the application must commence or the application will expire unless extended with approval of an extension of time; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; changes to the approved project will require a new land use application; and the applicant is solely responsible for ensuring compliance with all conditions and deadlines.

Public Works - Development Review

- Drainage study and compliance;
- Traffic study and compliance;
- Full off-site improvements;
- If required by the Regional Transportation Commission (RTC), dedicate and construct right-of-way for bus turnout on Vegas Valley Drive with a 5 foot by 25 foot bus shelter pad behind the sidewalk in accordance with RTC standards;
- The installation of detached sidewalks will require the vacation of excess right-of-way and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control devices;
- 30 days to coordinate with Public Works - Design Division and submit separate document if required, for dedication of any necessary right-of-way and easements for the Sloan Lane and Vegas Valley Drive improvement project;
- 90 days to record said separate document for the Sloan Lane and Vegas Valley Drive improvement project.
